choice Questions with Explanations • On-Tips Notes & Revision Notes for Quick Revision • Mind Maps & Mnemonics for better learning

Digital Communications is a classic book in the area that is designed to be used as a senior or graduate level text. The text is flexible and can easily be used in a one semester course or there is enough depth to cover two semesters. Its comprehensive nature makes it a great book for students to keep for reference in their professional careers. This all-inclusive guide delivers an outstanding introduction to the analysis and design of digital communication systems. Includes expert coverage of new topics: Turbocodes, Turboequalization, Antenna Arrays, Digital Cellular Systems, and Iterative Detection. Convenient, sequential organization begins with a look at the history and classification of channel models and builds from there.

The book is divided into six sections covering all the aspects of the subject, including basics of communication, English language, listening, speaking, reading, and writing skills. Furthermore, topics such as role of creative and critical thinking for effective communication, inter-cultural communication, developing extempore and story-telling skills, and writing and giving instructions have been included in this revised edition. Due to its exhaustive coverage and practical approach, this textbook is suitable for both students and professionals.

Language, unlike other engineering subjects, is more a skill that has to be practiced constantly. With this in mind, English for Engineering Students has been written to help building engineers use technical English appropriately in all situations. The objective of this book is to facilitate the practice of the four major study skills (Listening, Speaking, Reading and Writing) along with their sub-skills. The book is divided into 4 units of 3 chapters each. Each unit is accompanied by a revision exercise. At the end of the book are the supplementary tasks along with keys, an appendix of phonetic symbols and their use, and a model question paper.

Publishing your research in an international journal is key to your success in academia. This guide is based on a study of over 1000 manuscripts and reviewers' reports revealing why papers written by non-native researchers are often rejected due to problems with English usage and poor structure and content. With easy-to-follow rules and tips, and examples taken from published and unpublished papers, you will learn how to: prepare and structure a manuscript increase readability and reduce the number of mistakes you make in English by writing concisely, with no redundancy and no ambiguity write a title and an abstract

that will attract attention and be read decide what to include in the various parts of the paper (Introduction, Methodology, Discussion etc) highlight your claims and contribution avoid plagiarism discuss the limitations of your research choose the correct tenses and style satisfy the requirements of editors and reviewers This new edition contains over 40% new material, including two new chapters, stimulating factoids, and discussion points both for self-study and in-class use. EAP teachers will find this book to be a great source of tips for training students, and for preparing both instructive and entertaining lessons. Other books in the series cover: presentations at international conferences; academic correspondence; English grammar, usage and style; interacting on campus, plus exercise books and a teacher's guide to the whole series. Please visit <http://www.springer.com/series/13913> for a full list of titles in the series. Adrian Wallwork is the author of more than 30 ELT and EAP textbooks. He has trained several thousand PhD students and academics from 35 countries to write research papers, prepare presentations, and communicate with editors, referees and fellow researchers.
