Murder strikes thrice in these three baffling mysteries of crime and detection. First, Rex Stout's great detective, Nero Wolfe, develops an appetite for the sweet taste of revenge when someone slips something most foul into his lunch—in a case motivated by the most “alimentary” of passions. Then, a couturier's beautiful sister uses Archie Goodwin, Wolfe's man about town, as her ready-made alibi—and maybe her fall guy—unless Wolfe can spot the loose ends in a nearly seamless crime. Finally, Wolfe has a run-in with the law after a mysterious old woman leaves a package at the detective's West Thirty-fifth Street brownstone that pits him against a cunning criminal—and the U.S. federal government.

Tecumseh Fox has a sharp eye for solving murders—but this time he's seeing double. Fox has been hired by the headstrong niece of a man charged in the shooting of wealthy financier Ridley Thorpe. The problem is that there are two

gorgeous suspects, two powerful motives, two hotheaded suitors, and two murder weapons. And to top it off, Ridley Thorpe, or someone claiming to be him, is not only alive and well but has an airtight alibi for the night of the shooting. Only one thing is certain: Fox doesn't have long to put two and two together before the real killer strikes again.

Val Carew had come a long way—from Oklahoma to Wall Street—only to be clubbed to death at his wife's tomb. The wealthy financier had built the magnificent crypt in memory of his beautiful Cherokee bride, whose premature death left behind a lot of unanswered questions.

Now Carew himself is dead, struck down by a reminder from his past: an Indian war club. The case lands in the capable hands of Inspector Cramer of the New York Homicide squad. The

Someone has been doctoring the gourmet appetizers at family-run Tingley's Titbits. And when old man Tingley meets a sudden end, suspicion falls on a gorgeous young detective whose fingerprints are on the knife. Moved by feminine beauty and professional courtesy, Tecumseh Fox takes the case, only to find he's got more on his plate than he bargained for. Suddenly he has enough suspects to fill a fair-sized cocktail party. On the menu are corporate pirates, crackpot economics, a license plate that doesn't exist, and a phone conversation with a dead man. Now it's up to Fox to provide the missing ingredient in this smorgasbord of absurdity: a cold-blooded killer.

Popular Science gives our readers the information and tools to improve their technology and their world. The core belief that Popular Science and our readers share: The future is going to be better, and science and technology are the driving forces that will help make it better.

"This first thorough survey of Utah's mining history provides overviews of the geology, economic history, and folklore of mining in the state; recounts the development of a selection of historically significant minerals, such as coal, salines, and uranium; and includes region-by-region histories of Utah's mining booms and busts. The essays are written by notable experts in the field, among them historians Thomas G. Alexander, Martha Sonntag Bradley-Evans,
