In this commemorative volume, India's top business leaders and economic luminaries come together to provide a balanced picture of the consequences of the country's economic reforms, which were initiated in 1991. What were the reforms? What were they intended for? How have they affected the overall functioning of the economy? With contributions from Mukesh Ambani, Narayana Murthy, Sunil Mittal, Kiran Mazumdar-Shaw, Shivshankar Menon, Montek Singh Ahluwalia, T.N. Ninan, Sanjaya Baru, Naushad Forbes, Omkar Goswami and R. Gopalakrishnan, India Transformed delves deep into the life of an economically liberalized India through the eyes of the people who helped transform it.

For millions of poor people in the developing world, economic growth offers prospects for improved well-being. But what are the political and social conditions conducive to growth-oriented policies in poor democracies? This book addresses this highly consequential question by focusing on a specific empirical puzzle - policy variation across Indian states in the competition for private industrial investment, a phenomenon that came to the fore after the country adopted market reforms in 1991. Through the analysis of investment policies, this book offers a novel explanation, which links social identity, class, and economic policy outcomes. Its main findings highlight a link between pro-business policies and exclusionary political trends in India's high growth phase, and offer a sobering perspective on the current model of growth in the country. It adds to our understanding of Indian political economy as well as to the dynamics of economic development in poor democracies.

The Corpreneur is an interesting work that combines the best of both worlds. It follows the narrative style of fiction, by telling the story of Samar's professional life, and adds to it the benefits of a self-help book by ensuring that each experience is a nugget of wisdom on its own. Based on true incidents, the story is narrated through a fictitious character Samar, a fearless man from a small town. A man who, with skills and shortcomings, paves his way to success through his unconventional ways and risk-taking abilities within the corporate cage like an entrepreneur. The book is a compilation of 9 stories of his encounters, problematic situations and how he brings unique and unprecedented solutions that surprise everyone. It is all about 'disruptive execution for differentiation.' He is not afraid of trying, learning and being called an idiot or laughed at. He has lived out of numerous cities across the globe and worked through various business streams and hierarchies. It will be an interesting read for everyone, but a must-read for college students, young managers and budding startups. Literature should ideally entertain and educate; written as a novel, The Corpreneur truly does both!

This unique book brings together high-quality research contributions on ecological aspects of urbanization, water quality concerns in an urban environment, and climate change issues with a strong Indian focus under one umbrella. It includes several case studies that discuss urban water management, particularly highlighting the quality aspects. Urbanization is an ecological disturbance that the modern world accepts as essential in the absence of a better alternative that could provide an equal level of comfort. The prohibitive costs of eco-friendly production technologies are forcing the developing world to generate industrial waste that is detrimental to the environment. At the same time, the availability of adequate fresh water is another challenge for our climate-change impacted world. The scientific community is, therefore, searching for ways towards ecologically sustainable urban development. Discussing all these issues, this book offers a useful guide for academicians, researchers, practicing engineers, and managers dealing with diverse water-related problems in urban areas.

This book comprises speeches delivered by the Honourable Vice President of India Shri M. Venkaiah Naidu since his assumption of office as the 13th Vice President of India on the 11th of August 2017. The Vice President has, during the last one year, addressed more than 400 meetings covering a wide range of audiences on a variety of topics ranging from Education to National Security and from Agriculture and Culture to Science and Technology. He has addressed a number of convocations and has delivered keynote addresses and memorial lectures in all the States and Union Territories of our country. The book contains 92 speeches and is categorized into six broad sections - 'Functioning of Legislatures', 'Nation and Nationalism', 'Polity and Governance', 'Economic Development', 'Media' and 'India and the World'. The speeches included in this volume provide an insight into the Vice President's perspective and vision on a wide range of issues confronting the nation. They have been edited and compiled in a way that ensures stylistic continuity, flow, and ease of reading. Hence they deviate slightly from the version that was delivered. We hope that this collection of speeches delivered between September 2017 and August 2018 will make an interesting read and will act as an important source of reference and record.

What would you do: – If you are thrown out of your house with three young daughters in the middle of the night? – If the light of your life is extinguished in a freak moment? Does one give up? What helps you cope? 14 Women, 14 Lives. They are all ordinary women who walk amongst us. These heroines are from different states, income classes, age and social status levels. What struck us in our face-to-face interviews with these protagonists is their fortitude when faced with extreme challenges. We, as authors, were drawn to this conviction. We had to chronicle their battles. 14 ordinary women, 14 unique footprints. What would you do?

The book studies the pharmaceutical industry of India. It is one of the most successful stories of economic expansion and improvements in public health. Indian firms have made access to quality medicines possible and affordable in many developing countries. Indian pharmaceuticals are also exported on a large scale to the United States and other highly regulated markets. A wave of mergers, acquisitions and tie-ups point to growing integration between Indian firms and global pharma multinationals.

Asia and Oceania are close geographically, have complementary trade and investment opportunities, and have developed strong business relationships during recent decades. The rapid growth of Asia has provided huge two-way opportunities in trade and investment for businesses in these areas. In the coming decades, continued strong growth in East Asia is likely to be accompanied by even stronger growth in South Asia. Businesses in Oceania are generally better placed than those of Western Europe and North America to take early advantage of the burgeoning opportunities in Asia. Emerging Business and Trade Opportunities Between Oceania and Asia is a comprehensive

reference that comprises research on the latest business ventures and developments that are being forged between countries that include Australia, China, and India. This book provides insight into general knowledge about the trade and investment policies and patterns of the two areas and specific knowledge about more targeted trade and investment opportunities. Covering a plethora of topics such as economic development, knowledge management, and start-ups across a wide range of industries that include tourism and hospitality, elderly care services, and information technology sectors, it is ideal for existing and new business entrepreneurs in Oceania and Asia; economic and political commentators; and researchers, academics, and students working in the fields of economics and business-oriented disciplines. Additionally, business professionals and financial investors can use the book to gain a deeper understanding of investment opportunities in areas such as health and tourism, and business consultants can utilize it to develop road maps for their clients of future business opportunities in what will continue to be the largest and most rapidly growing part of the world economy.
