As seen on Oprah's SuperSoul Sunday In a time of social and ecological crisis, what can we as individuals do to make the world a better place? This inspirational and thought-provoking book serves as an empowering antidote to the cynicism, frustration, paralysis, and overwhelm so many of us are feeling, replacing it with a grounding reminder of what's true: we are all connected, and our small, personal choices bear unsuspected transformational power. By fully embracing and practicing this principle of interconnectedness—called interbeing—we become more effective agents of change and have a stronger positive influence on the world. Throughout the book, Eisenstein relates real-life stories showing how small, individual acts of courage, kindness, and self-trust can change our culture's guiding narrative of separation, which, he shows, has generated the present planetary crisis. He brings to conscious awareness a deep wisdom we all innately know: until we get our selves in order, any action we take—no matter how good our intentions—will ultimately be wrongheaded and wronghearted. Above all, Eisenstein invites us to embrace a radically different understanding of cause and effect, sounding a clarion call to surrender our old worldview of separation, so that we can finally create the more beautiful world our hearts know is possible. With chapters covering separation, interbeing, despair, hope, pain, pleasure, consciousness, and many more, the book invites us to let the old Story of Separation fall away so that we can stand firmly in a Story of Interbeing.

Through a series of case studies, this third volume in the Earth series deals with the technological constraints and innovations that enabled societies to survive and thrive across a range of environmental conditions. The contributions are structured into three sections to draw out particular commonalities and contrasts in the choices made by pre-industrial communities in the construction of varied landscapes and cultural heritage: Landnam, from the Old Norse for 'taking of land', deals with colonisation, including the drivers and processes through which colonisers developed an understanding of the productive potential and limitations of their new lands. Fields and field systems: Field-walls are a distinctive and apparently timeless characteristic of many pre-industrial farming landscapes but they present many the challenges to their study, such as the effects of ploughing, abandonment and land-use change and of urban development in fertile lowland zones which may eradicate, reduce or conceal past systems of land-use and division. The importance of indirect and proxy evidence is illustrated and the value of interdisciplinary and modelling approaches emphasised. Agro-pastoralism: focuses on the complex 'time-space adaptations' devised for managing cultivation and livestock production, particularly the need to prevent stock incursions into arable fields during the growing season whilst making effective use of seasonal grazing resources. The contributions focus on mountainous areas, where temporary migrations, in the form of transhumance, provided access to a diversity of resources based around seasonal constraints on their availability and productivity.

Hester's Book of Bread is an honest and delicious, down to earth book that tells of Hester van der Walt's passion for baking bread. Set in McGregor in the Klein Karoo where she bakes bread in a wood-fired oven, this book reflects Hester's intuitive feeling for the connections between the soul and food, particularly food that is prepared with care, according to traditional principles and methods. Hester's Book of Bread is infused with a fine sense of humour, helpful hints and mouth-watering recipes. It's a book as irresistible as the smell of bread fresh from the oven.

How our collective intelligence has helped us to evolve and prosper Humans are a puzzling species. On the one hand, we struggle to survive on our own in the wild, often failing to overcome even basic challenges, like obtaining food, building shelters, or avoiding predators. On the other hand, human groups have produced ingenious technologies, sophisticated languages, and complex institutions that have permitted us to successfully expand into a vast range of diverse environments. What has enabled us to dominate the globe, more than any other species, while remaining virtually helpless as lone individuals? This book shows that the secret of our success lies not in our innate intelligence, but in our collective brains—on the ability of human groups to socially interconnect and learn from one another over generations. Drawing insights from lost European explorers, clever chimpanzees,

mobile hunter-gatherers, neuroscientific findings, ancient bones, and the human genome, Joseph Henrich demonstrates how our collective brains have propelled our species' genetic evolution and shaped our biology. Our early capacities for learning from others produced many cultural innovations, such as fire, cooking, water containers, plant knowledge, and projectile weapons, which in turn drove the expansion of our brains and altered our physiology, anatomy, and psychology in crucial ways. Later on, some collective brains generated and recombined powerful concepts, such as the lever, wheel, screw, and writing, while also creating the institutions that continue to alter our motivations and perceptions. Henrich shows how our genetics and biology are inextricably interwoven with cultural evolution, and how culture-gene interactions launched our species on an extraordinary evolutionary trajectory. Tracking clues from our ancient past to the present, *The Secret of Our Success* explores how the evolution of both our cultural and social natures produce a collective intelligence that explains both our species' immense success and the origins of human uniqueness.

In these vivid and approachable essays Eamon Duffy engages with some of the central aspects of Western religion in the thousand years between the decline of pagan Rome and the rise of the Protestant Reformation. In the process he opens windows on the vibrant and multifaceted beliefs and practices by which medieval people made sense of their world: the fear of death and the impact of devastating pandemic, holy war against Islam and the invention of the blood libel against the Jews, provision for the afterlife and the continuing power of the dead over the living, the meaning of pilgrimage and the evolution of Christian music. Duffy unpicks the stories of the Golden Legend and Yale University's mysterious Voynich manuscript, discusses the cult of 'St' Henry VI and explores childhood in the Middle Ages. Accompanying the book are a collection of full colour plates which further demonstrate the richness of late medieval religion. In this highly readable collection Eamon Duffy once more challenges existing scholarly narratives and sheds new light on the religion of Britain and Europe before and during the Reformation.

An instant New York Times bestseller! "Internment sets itself apart...terrifying, thrilling and urgent."--Entertainment Weekly  
Rebellions are built on hope. Set in a horrifying near-future United States, seventeen-year-old Layla Amin and her parents are forced into an internment camp for Muslim American citizens. With the help of newly made friends also trapped within the internment camp, her boyfriend on the outside, and an unexpected alliance, Layla begins a journey to fight for freedom, leading a revolution against the camp's Director and his guards. Heart-racing and emotional, *Internment* challenges readers to fight complicit silence that exists in our society today.

Using coconut, sesame, and other oils to heal chronic conditions, strengthen the immune system, and prevent illness • Details the process of oil pulling, including when to do it, how long to swish the oil in your mouth, and other oral care techniques that complement it • Explains the health benefits of 10 different cold-pressed oils, including sesame, coconut, and pumpkin seed, allowing you to choose the best oil for your needs • Includes a step-by-step 7-day detox plan and information on additional detox techniques that enhance the benefits of oil pulling  
Oil pulling is much more than an oral cleansing method. Originating in the ancient healing systems of Ayurveda and traditional Chinese medicine, where it is well known that "disease begins in the mouth," this simple health practice triggers detoxification and healing throughout the entire body. The mouth and tongue are home to bacteria, fungus, and many toxins from the rest of the body. Oil pulling not only cleanses the mouth and tongue, preventing harmful bacteria and toxins from entering the bloodstream, it also triggers enzyme production in the digestive tract, which in turn activates cleansing processes throughout the entire body. Practiced daily, oil pulling leads to better dental and gum health, a stronger immune system, detoxification of major organs including the intestines, lungs, and liver, and healing from many conditions caused by internal toxins and chronic inflammation. In this practical guide, Birgit Frohn details the simple process of oil pulling, including when to do it, how long to swish the oil in your mouth, and other oral care techniques that complement it, such as tongue scraping. She explains the specific health benefits of 10 different cold-pressed oils that can be used in oil pulling, from traditional sesame oil to vitamin-packed pumpkin seed oil to highly popular coconut oil, allowing you to choose the best oil for your needs. She also reveals the vast number of ailments that can be healed and prevented by regular oil pulling practice, including: • Acne • Allergies • Canker sores • Arthritis • Eczema • Flu and Colds • Sinus infections and Bronchitis • Cavities and Gingivitis • Headaches and Migraines • Constipation • And many more . . . Frohn also explores additional detox techniques that enhance the benefits of oil pulling and concludes with a step-by-step 7-day detox plan for those who want to maximize the effects of oil pulling and accelerate their return to better health.

Outlines the author's method for creating no-knead, slow-rising artisanal breads in heavy preheated pots, sharing a variety of step-by-step recipes for such classics as a rustic Italian baguettes, the stirato and pizza Bianca.

Bill Clegg had a thriving business as a literary agent, a supportive partner, trusting colleagues, and loving friends when he walked away from his world and embarked on a two-month crack binge. He had been released from rehab nine months earlier, and his relapse would cost him his home, his money, his career, and very nearly his life. What is it that leads an exceptional young mind want to disappear? Clegg makes stunningly clear the attraction of the drug that had him in its thrall, capturing in scene after scene the drama, tension, and paranoiac nightmare of a secret life--and the exhilarating bliss that came again and again until it was eclipsed almost entirely by doom. He also explores the shape of addiction, how its pattern--not its cause--can be traced to the past. *Portrait of an Addict as a Young Man* is an utterly compelling narrative--lyrical, irresistible, harsh, honest, and beautifully written--from which you simply cannot look away.

A teenaged boy on the run propels Detective Carl Mørck into Department Q's most sinister case yet in the fifth novel in Jussi Adler-Olsen's New York Times bestselling series. Fifteen-year-old Marco Jameson longs to become a Danish citizen and go to school like a normal teenager. Unfortunately, his Uncle Zola forces the children of their former gypsy clan to beg and steal for his personal gain. When Marco discovers a dead body that proves the true extent of Zola's criminal activities, he goes on the run. But it turns out his family members aren't the only ones who want to keep Marco silent...forever. Detective Carl Mørck wants to save the boy, but Marco's trail leads him to a case that extends from Denmark to Africa, from embezzlers to child soldiers, from seemingly petty crime rings to the very darkest of cover-ups.

An untamed region teeming with snakes, alligators, and snapping turtles, with sausage and cracklins sold at every gas station, Cajun Country is a world unto itself. The heart of this area—the Acadiana region of Louisiana—is a tough land that funnels its spirit into the local cuisine. You can't find more delicious, rustic, and satisfying country cooking than the dirty rice, spicy sausage, and fresh crawfish that this area is known for. It takes a homegrown guide to show us around the back roads of this particularly unique region, and in *Real Cajun*, James Beard Award-winning chef Donald Link shares his own rough-and-tumble stories of living, cooking, and eating in Cajun Country. Link takes us on an expedition to the swamps and smokehouses and the music festivals, funerals, and holiday celebrations, but, more important, reveals the fish fries, étouffées, and pots of Granny's seafood gumbo that always accompany them. The food now famous at Link's New Orleans-based restaurants, Cochon and Herbsaint, has roots in the family dishes and traditions that he shares in this book. You'll find recipes for Seafood Gumbo, Smothered Pork Roast over Rice, Baked Oysters with Herbsaint Hollandaise, Louisiana Crawfish Boudin, quick and easy Flaky Buttermilk Biscuits with Fig-Ginger Preserves, Bourbon-Soaked Bread Pudding with White and Dark Chocolate, and Blueberry Ice Cream made with fresh summer berries. Link throws in a few lagniappes to give you an idea of life in the bayou, such as strategies for a great trip to Jazz Fest, a what-not-to-do instructional on catching turtles, and all you ever (or never) wanted to know about boudin sausage. Colorful personal essays enrich every recipe and introduce his grandfather and friends as they fish, shrimp, hunt, and dance. From the backyards where crawfish boils reign as the greatest of outdoor events to the white tablecloths of Link's famed restaurants, *Real Cajun* takes you on a rollicking and inspiring tour of this wild part of America and shares the soulful recipes that capture its irrepressible spirit.

Sam and Chloe never thought they would spend the summer holidays fighting a battle against the dark past that haunts Kingsholt, a mansion inherited by Chloe's parents. A long time ago the Vikings burnt down the monastery that was built near Kingsholt. A few monks who escaped hid the monastery's treasure and dug a pit in which to bury the slaughtered monks. They swore that if anyone opened up the pit and used it for other purposes a darkness would fall over the area. Nimbus, an obsessive one-time circus hypnotist and acrobat, lives with his wife and two children in a cottage in the woods of Kingsholt. He opens up the pit and uses it for all his rubbish. With death, kidnap and madness ensuing, can Sam and Chloe and their guardian Aidan, bring back the light to Kingsholt?

A memoir about a brokenhearted, middle-aged man who stumbles upon solace, meaning, and Larry David while hitchhiking around Martha's Vineyard One summer day on Martha's Vineyard Paul Samuel Dolman was hitchhiking, and none other than Larry David pulled over and asked, "You're not a serial killer or something, are you?" The comedic writer and actor not only gave Dolman a ride but helped him find his way. Dolman found himself on Martha's Vineyard that summer in the wake of a painful breakup. Desperately seeking companionship, he began hitchhiking around the island and met a wide array of characters: the rich and the homeless, movie stars and common folk, and, of course, Mr. David. Written with disarming honest humor, *Hitchhiking with Larry David* will leave readers simultaneously laughing and crying as they ponder the mystery and spirituality of life.

It was a quiet summer night, and the streets appeared to be calm, but violence pierced the sky. High above ground, combing the rooftops for potential threats, stood a defending champion! My name is Frankie Patrice Marie Williams. Fifteen years ago, I was adopted and showered with love by the Ping family. It was a family that treasured values and tradition that trickled down from generation to generation. I was given a gift, something far more treacherous and priceless than diamonds and pearl: the art of Tai Chi! I was trained into a fierce warrior. Some say its a blessing; others say its a curse. But I say differently. Im a bad bitch, without a choice! I dont rehearse or prepare. They have taken my soul mate and threatened my unborn child. For that, there will be a third coming! But it will not be Christ or Frankie Patrice Marie Williams! It will be

PRIZE FOR NONFICTION NAMED ONE OF THE BEST BOOKS OF THE YEAR BY The New York Times Book Review • Entertainment Weekly • O: The Oprah Magazine • NPR • Financial Times • New York • Independent (U.K.) • Times (U.K.) • Publishers Weekly • Library Journal • Kirkus Reviews • Booklist • Globe and Mail Her name was Henrietta Lacks, but scientists know her as HeLa. She was a poor Southern tobacco farmer who worked the same land as her slave ancestors, yet her cells—taken without her knowledge—became one of the most important tools in medicine: The first “immortal” human cells grown in culture, which are still alive today, though she has been dead for more than sixty years. HeLa cells were vital for developing the polio vaccine; uncovered secrets of cancer, viruses, and the atom bomb’s effects; helped lead to important advances like in vitro fertilization, cloning, and gene mapping; and have been bought and sold by the billions. Yet Henrietta Lacks remains virtually unknown, buried in an unmarked grave. Henrietta’s family did not learn of her “immortality” until more than twenty years after her death, when scientists investigating HeLa began using her husband and children in research without informed consent. And though the cells had launched a multimillion-dollar industry that sells human biological materials, her family never saw any of the profits. As Rebecca Skloot so brilliantly shows, the story of the Lacks family—past and present—is inextricably connected to the dark history of experimentation on African Americans, the birth of bioethics, and the legal battles over whether we control the stuff we are made of. Over the decade it took to uncover this story, Rebecca became enmeshed in the lives of the Lacks family—especially Henrietta’s daughter Deborah. Deborah was consumed with questions: Had scientists cloned her mother? Had they killed her to harvest her cells? And if her mother was so important to medicine, why couldn’t her children afford health insurance? Intimate in feeling, astonishing in scope, and impossible to put down, *The Immortal Life of Henrietta Lacks* captures the beauty and drama of scientific discovery, as well as its human consequences. It was an enormous gamble. Building a mountain retreat for wealthy aristocrats was, by no means, a sure thing. But the family of nine siblings formed a solemn pact unto themselves to do just that. The retreat had all the amenities, including horseback riding, guided hunting, a country club, and its own lake. The centerpiece was to be a world class resort. But the most valuable asset of all was already there. The Family had acquired a large piece of pristine wilderness in California's remote north coastal mountains. They called their Family Mission the "Grand Project." But it would become formally known as HOTEL BENBOW. This is the story of its creation.

But when Katherine and Zach are recruited to help rehab a home for foster children, sparks fly. And as their lives begin to intersect, might they find more common ground than they expected . . . and discover that, with love, all things are possible? Bestselling and award-winning author Irene Hannon invites you to come home to Hope Harbor--where hearts heal . . . and love blooms.

An OG/GYN and fertility specialist details her personal struggles with getting pregnant, sharing a doctor’s perspective on a journey faced by many. After years of dedicating her career to bringing new lives into the world, ob/gyn and fertility specialist Dr. Dorete Noorhasan wanted to have a child of her own. But her journey to motherhood was not an easy one. This is her story. The story of a girl who grew up amid hardship, natural disaster, and the harsh reality of life and death. The story of a young woman who dedicated herself to her education and pursued a career in medicine so she could help patients become parents. The story of a mother who was determined, despite all the struggles, setbacks, and heartbreak, to bring her child into this world. Today, one woman in eight is battling infertility. As a physician, Dr. Noorhasan understands the medical aspects of this condition. But as a patient, she has also experienced the emotional turmoil firsthand. Through this unique perspective, *Miracle Baby* sheds much-needed light on infertility while also offering hope and comfort to those struggling on the road to parenthood, showing how even the most difficult journeys can end in a miracle. Praise for *Miracle Baby* “Poignant, transparent, inspiring, Dr. Noorhasan’s perspective will resonate with anyone facing a challenging journey to parenthood. Having found her own path to motherhood through surrogacy, she brings a physician’s insight to a deeply personal struggle, and her books are much-need tools to de-mystify infertility and help families find the hope and understanding to persevere.” —Kavitha Blewitt, MD, Obstetrics and Gynecology, Women’s Health Specialists of Dallas
