In *From Grain to Pixel*, Giovanna Fossati analyzes the transition from analog to digital film and its profound effects on filmmaking and film archiving. Reflecting on the theoretical conceptualization of the medium itself, Fossati poses significant questions about the status of physical film and the practice of its archival preservation, restoration, and presentation. *From Grain to Pixel* attempts to bridge the fields of film archiving and academic research by addressing the discourse on film's ontology and analyzing how different interpretations of what film is affect the role and practices of film archives. By proposing a novel theorization of film archival practice, Fossati aims to stimulate a renewed dialogue between film scholars and film archivists. Almost a decade after its first publication, this revised edition covers the latest developments in the field. Besides a new general introduction, a new conclusion, and extensive updates to each chapter, a novel theoretical framework and an additional case study have been included.

When one of the players in a murder game is killed, seventeen-year-old Anna and her twin brother realize that their circle of friends may conceal a real murderer.

In reconstructing the birth and development of the notion of 'unconscious', historians of ideas have heavily relied on the Freudian concept of *Unbewussten*, retroactively projecting the psychoanalytic unconscious over a constellation of diverse cultural experiences taking place in the eighteenth and nineteenth centuries between France and Germany.

Archaeology of the Unconscious aims to challenge this

perspective by adopting an unusual and thought-provoking viewpoint as the one offered by the Italian case from the 1770s to the immediate aftermath of WWI, when Italo Svevo's *La coscienza di Zeno* provides Italy with the first example of a 'psychoanalytic novel'. Italy's vibrant culture of the long nineteenth century, characterised by the sedimentation, circulation, intersection, and synergy of different cultural, philosophical, and literary traditions, proves itself to be a privileged object of inquiry for an archaeological study of the unconscious; a study whose object is not the alleged 'origin' of a pre-made theoretical construct, but rather the stratifications by which that specific construct was assembled. In line with Michel Foucault's *Archéologie du savoir* (1969), this volume will analyze the formation and the circulation, across different authors and texts, of a network of ideas and discourses on interconnected themes, including dreams, memory, recollection, desire, imagination, fantasy, madness, creativity, inspiration, magnetism, and somnambulism. Alongside questioning pre-given narratives of the 'history of the unconscious', this book will employ the Italian 'difference' as a powerful perspective from whence to address the undeveloped potentialities of the pre-Freudian unconscious, beyond uniquely psychoanalytical viewpoints.

From the New York Times bestselling author of *In Five Years* comes an intensely romantic modern recounting of the greatest love story ever told—narrated by the girl Romeo was supposed to love. Rosaline knows that she and Rob are destined to be together. Rose has been waiting for years for Rob to kiss her—and when he finally does, it's perfect. But then Juliet moves back to town. Juliet, who used to be Rose's best friend. Juliet, who now inexplicably hates her. Juliet, who is gorgeous, vindictive, and a little bit crazy...and who has set her sights on Rob. He doesn't stand a chance. Rose is devastated over losing Rob to Juliet. And when

rumors start swirling about Juliet's instability, her neediness, and her threats of suicide, Rose starts to fear not only for Rob's heart, but also for his life. Because Shakespeare may have gotten the story wrong, but we all still know how it ends. Will Tom ever have a story of his own? Tom Trueheart's six older brothers are famous. They go on exciting quests in the Land of Stories to complete tales the Story Bureau assigns them. Tom stays at home with his mother. But when his brothers fail to return from their latest adventures in time for Tom's twelfth birthday, a letter from the Story Bureau arrives . . . addressed to Tom. Only he can venture into the Land of Stories to find out why his brothers haven't completed their missions. Tom packs his bags and kisses his mother good-bye. He's about to discover a tale of his own. . . . How will it end?

'It has taken me a long time, my dearest Aza, to fathom the cause of that contempt in which women are held in this country ...' Zilia, an Inca Virgin of the Sun, is captured by the Spanish conquistadores and brutally separated from her lover, Aza. She is rescued and taken to France by Détéville, a nobleman, who is soon captivated by her. One of the most popular novels of the eighteenth century, the Letters of a Peruvian Woman recounts Zilia's feelings on her separation from both her lover and her culture, and her experience of a new and alien society. Françoise de Graffigny's bold and innovative novel clearly appealed to the contemporary taste

for the exotic and the timeless appetite for love stories. But by fusing sentimental fiction and social commentary, she also created a new kind of heroine, defined by her intellect as much as her feelings. The novel's controversial ending calls into question traditional assumptions about the role of women both in fiction and society, and about what constitutes 'civilization'. Is it perhaps possible for us to relate more creatively to them? Originally published in 1981, these are some of the questions raised by this title. To answer them the author gathered together a vast amount of material drawn from Eastern and Western traditions, from science, literature, art and poetry. The answers he puts forward are often highly original and will surely challenge many of our most cherished patterns of thought. There emerges from this book what can only be described as a global metaphysical system, yet the author's language is not that of an ordinary metaphysical

treatise, and what he writes offered new challenge and hope to those suffering from the despair and cynicism engendered by a great deal in modern society at the time. Zolla does not, however, advocate a return to earlier historical patterns, nor is he proposing a new Utopia, but rather offers us a brilliant series of lessons in the art of centring. In the words of Bernard Wall, writing in the Times Literary Supplement, Zolla's 'deep, polymathic probing of the terms of human existence makes it sensible to compare him with Simone Weil, while some of his conclusions about ultimate mysteries – expressed in signs, symbols and sacraments, the sense of which we have lost – will make us think of the later T. S. Eliot'.

Nestled in the mountains of Jordan, Petra is the most spectacular ancient city remaining in the modern world. This fascinating volume takes readers on a memorable journey through this wonderland of hundreds of temples, tombs, and elaborate buildings carved out of solid stone. Tracing the origins of Petra to prehistoric times, the text describes its evolution, demise, and eventual rediscovery in 1812.

Throughout the book, archival photographs showcase the remarkable architecture and readers are given the opportunity to explore al-Khazueh, "The Treasury," one of the most impressive of Petra's monuments. Other remarkable sights include the 8,000-seat amphitheater, Petra Church with its beautifully preserved mosaics, and al-Deir or "The Monastery" perched high on a cliff, all vividly depicted in the photography of this handsome volume. With text contributed in part by the distinguished American Center of Oriental Research in Amman, this authoritative resource is essential reading for archaeologically-minded travelers and anyone interested in ancient history.

Art and its Shadow is an extraordinary analysis of the state and meaning of contemporary art and film. Ranging across the work of Andy Warhol, cyberpunk, Wim Wenders, Derek Jarman, thinking on difference and the possibility of a philosophical cinema, Mario Perniola examines the latest and most disturbing tendencies in art. Perniola explores how art - notably in posthumanism, psychotic realism and extreme art - continues to survive despite the hype of the art market and the world of mass communication and reproduction. He argues that the meaning of art in the modern world no longer lies in aesthetic value (above the art work), nor in popular taste (below the art work), but beside the artwork, in the shadow created by both the art establishment and the world of mass communications. In this shadow is what is left out of account by both market and mass media: the difficulty of art, a knowledge that can never be fully revealed, and a new aesthetic future.

Virtually unknown today, Alfred Russel Wallace was the co-discoverer of natural selection with Charles Darwin and an eminent scientist who stood out among his Victorian peers as a man of formidable mind and equally outsized personality. Now Michael Shermer rescues Wallace from the shadow of Darwin in this landmark biography. Here we see Wallace as perhaps the greatest naturalist of his age--spending years in remote jungles, collecting astounding quantities of specimens, writing thoughtfully and with bemused detachment at his reception in places where no white man had ever gone. Here, too, is his supple and forceful intelligence at work, grappling with such arcane problems as the bright coloration of caterpillars, or shaping his 1858 paper on natural selection that prompted Darwin to publish (with Wallace) the first paper outlining the theory of evolution. Shermer also shows that Wallace's self-trained intellect, while powerful, also embraced surprisingly naive ideas, such as his deep interest in the study of spiritual manifestations and seances. Shermer shows that the same iconoclastic outlook that led him to overturn scientific orthodoxy as he worked in relative isolation also led him to embrace irrational beliefs, and thus tarnish his reputation. As author of *Why People Believe Weird Things* and founding publisher of *Skeptic* magazine, Shermer is an authority on why people embrace the irrational. Now he turns his keen judgment and incisive analysis to Wallace's life and his contradictory beliefs, restoring a leading figure in the rise of modern science to his rightful place.

subjects from their safe caves in the mountains of Sicily to the valley where they triumph over many enemies. One of the world's great folk story-cycles adapted for the stage by leading theatre maker Tim Supple, from the stories written by the seminal Lebanese novelist Hanan al-Shaykh. This unique edition will unlock the ancient tales for a new generation of readers and performers. Written by Arabic writers from tales gathered in India, Persia and across the great Arab Empire, the One Thousand and One Nights are the never-ending stories told by Shahrazad night after night, under sentence of death, to the king Shahrayar who has vowed to marry a virgin every night and kill her in the morning. Shahrazad prolongs her life by keeping the King engrossed in a web of stories that never ends - a fascinating kaleidoscope of life, love and destiny. The tales that unfold are erotic, violent, supernatural and endlessly surprising. The web of tales woven by Shahrazad were exoticised and bowdlerised in the West under the title of the Arabian Nights. This adaptation unearths the true character of One Thousand and One Nights as it is in the oldest Arabic manuscripts. In turns erotic, brutal, witty, poetic and complex, the tales tell of love and marriage, power and punishment, rich and poor, and the endless trials and uncertainties of fate. The great cities and thriving trade routes of the Islamic world provide the setting for these stories that employ supernatural mystery and intense realism to portray the deep and endless drama of human experience.

food. Those muscles you flex to walk, lift, and talk? They're patties of meat topped with chewy tendon. That skin you've paid so much attention to in mirrors? It's delicious to the right tongues, a casserole of succulent tissue. And those bones that give you the strength to make your way in the world? They rattle between teeth as the marrow is sucked down slobbering throats. These facts are unpleasant but useful. There are things out there, you see, that don't cower in holes to be captured by us and cooked over our fires. These things have their own ways of trapping their kills, their own fires, their own appetites." Jim Sturges is your typical teen in suburban San Bernardino— one with an embarrassingly overprotective dad, a best friend named "Tubby" who shares his hatred of all things torturous (like gym class), and a crush on a girl who doesn't know he exists. But everything changes for Jim when a 45-year old mystery resurfaces, threatening the lives of everyone in his seemingly sleepy town. Soon Jim has to team up with a band of unlikely (and some un- human) heroes to battle the monsters he never knew existed. From the minds of horror geniuses Guillermo del Toro and Daniel Kraus comes a new illustrated novel about the fears that move in unseen places.

The Spy Museum, the Vacuum Cleaner Museum, the National Mustard Museum—not to mention the Art Institute, the Museum of Modern Art, and the Getty Center: museums have never been more robust, curating just about everything there is and assuming a new prominence in public life. *The Return of Curiosity* explores museums in the modern age, offering a fresh perspective on some of our most important cultural institutions and the vital function they serve as stewards of human and natural history. Reflecting on art galleries, science and history institutions, and collections all around the world, Nicholas Thomas argues that, in times marked by incredible insecurity and turbulence, museums help us sustain and enrich society. Moreover, they stimulate us to think in new ways about our world, compelling our curiosity and showing us the importance of understanding one another. Thomas looks at museums not simply as storehouses of old things but as the products of meaningful relationships between curators, the public, history, and culture. These relationships, he shows, don't always go smoothly, but they do always offer new insights into the many ways we value—and try to preserve—the world we live in. The result is a

refreshing and hopeful look at museums as a cultural force, one that, by gathering together paintings, tropical birds, antiques, or even our own bodies, offers an illuminating reflection of who we are.

Andrea Alciati's *Emblematum Liber* was an essential work for every writer, artist and scholar in post-medieval Europe. First published in 1531, this illustrated book was a collection of emblems, each consisting of a motto or proverb, a typically enigmatic illustration, and a short explanation. Most of the emblems had symbolic and moral applications. Scholars depended on Alciati's book to interpret contemporary art and literature, while writers and artists turned to it to invest their work with an understood didactic sense. This new edition of the *Emblematum Liber* includes the original Latin texts, highly readable English translations, and the

illustrations belonging to each of the 212 emblems. The editor's introduction explains both the importance and the cultural contexts of Alciati's book, as well as its innumerable artistic applications. For instance, close study of the emblems reveals--to cite only two examples--why statues of lions are traditionally placed before government buildings, and what underlying political message was conveyed by innumerable equestrian portraits during the Baroque era. The collection includes as an appendix the formerly suppressed emblem, "Adversus Naturam Peccantes," accompanied by a translation of the learned commentary applied to it by Johann Thuilius in 1612. An extensive bibliography points the student to scholarly research specifically dealing with artistic applications of Alciati's emblems. Altogether, this new edition of Alciati's seminal work is an essential tool for modern students of the liberal arts.
