Animals make many different noises, but when they make too much noise their mommies quiet them down.

Spells and prophecies sew havoc in the fight for humankind in the 4th novel of the #1 New York Times bestselling author's epic fantasy series. Having taken his rightful place as Lord Rahl, ruler of D'Hara, Richard must once again postpone his wedding to Kahlan Amnell in order to face the fearsome Imperial Order in a fight for the New World and the freedom of humankind. But while Richard has the brave people of D'Hara at his command, Emperor Jagang of the Imperial Order has a significant advantage: he doesn't fight fair. Jagang invokes a prophecy that binds Richard and Kahlan to a fate of pain, betrayal, and a path to the Underworld. At Jagang's behest, a Sister of the Dark gains access into the fabled Temple of the Winds and unleashes a plague that sweeps across the lands like a firestorm. To stop the plague, Richard and Kahlan must risk everything they have—and everything they've hoped for.

With rights sold around the world, this irreverent comic adventure spanning three continents is poised to be one of the most talked about fiction debuts of the year. A Fraction of the Whole marks the arrival of an ambitious new writer who deftly mixes humour, surprise, and astute observations of the human condition to create a novel that entertains, scandalizes, and enlightens. Martin Dean spent his entire life analyzing absolutely everything – from the benefits of suicide to the virtues of strip clubs versus brothels. Now that he's dead, his son Jasper can fully reflect on the man who raised him in intellectual captivity. As he recollects the extraordinary events that led to his father's demise, Jasper recounts a boyhood of outrageous schemes and shocking discoveries – about his infamous and long dead criminal uncle, his tortured and mysteriously absent European mother, and Martin's constant losing battle to make a lasting impression on the world. It's a story that takes them from the Australian bush to the cafés of bohemian Paris, from the Thai jungle to labyrinths, mental hospitals, and criminal lairs, from the highs of first love to the lows of rejection and failed ambition. The result is an uproarious indictment of the ridiculousness of the modern world and its mores, and the moving, memorable story of a father and son whose spiritual symmetry transcends all their many shortcomings. I spent the next day staring into empty space. I get a lot of joy out of air, and if sunlight hits the floating specs of dust so you see the whirling dance of atoms, so much the better. During the day, Dad breezed in and out of my room and clicked his tongue, which in our family meant: 'You're an idiot.' In the afternoon, he came back in with a loaded grin. He had a brilliant idea, and couldn't wait to tell me about it. It had suddenly occurred to him to throw me out of the house, and what did I think of his brainwave? I told him I was concerned about him eating all his meals alone because the clinking of cutlery on a plate echoing through an empty house is one of the top five depressing noises of all time. --from A Fraction of the Whole

The birth of Jesus has been well chronicled, as have his glorious teachings, acts, and divine sacrifice after his thirtieth birthday. But no one knows about the early life of the Son of God, the missing years -- except Biff, the Messiah's best bud, who has been resurrected to tell the story in the divinely hilarious yet heartfelt work "reminiscent of Vonnegut and Douglas Adams" (Philadelphia Inquirer). Verily, the story Biff has to tell is a miraculous one, filled with remarkable journeys, magic, healings, kung fu, corpse reanimations, demons, and hot babes. Even the considerable wiles and devotion of the Savior's pal may not be enough to divert Joshua from his tragic destiny. But there's no one who loves Josh more -- except maybe "Maggie," Mary of Magdala -- and Biff isn't about to let his extraordinary pal suffer and ascend without a fight.

Modern humans have come a long way in the seventy thousand years they've walked the earth. Art, science, culture, trade—on the evolutionary food chain, we're true winners. But it hasn't always been smooth sailing, and sometimes—just occasionally—we've managed to truly f*ck things up. Weaving together history, science, politics and pop culture, Humans offers a panoramic exploration of humankind in all its glory, or lack thereof. From Lucy, our first ancestor, who fell out of a tree and died, to General Zhou Shou of China, who stored gunpowder in his palace before a lantern festival, to the Austrian army attacking itself one drunken night, to the most spectacular fails of the present day, Humans reveals how even the most mundane mistakes can shift the course of civilization as we know it. Lively, wry and brimming with brilliant insight, this unique compendium offers a fresh take on world history and is one of the most entertaining reads of the year.

"A twisted modern love story" (Parade), Tell Me Lies is a sexy, thrilling novel about that one person who still haunts you—the other one. The wrong one. The one you couldn't let go of. The one you'll never forget. Lucy Albright is far from her Long Island upbringing when she arrives on the campus of her small California college and happy to be hundreds of

miles from her mother—whom she’s never forgiven for an act of betrayal in her early teen years. Quickly grasping at her fresh start, Lucy embraces college life and all it has to offer. And then she meets Stephen DeMarco. Charming. Attractive. Complicated. Devastating. Confident and cocksure, Stephen sees something in Lucy that no one else has, and she’s quickly seduced by this vision of herself, and the sense of possibility that his attention brings her. Meanwhile, Stephen is determined to forget an incident buried in his past that, if exposed, could ruin him, and his single-minded drive for success extends to winning, and keeping, Lucy’s heart. Lucy knows there’s something about Stephen that isn’t to be trusted. Stephen knows Lucy can’t tear herself away. And their addicting entanglement will have consequences they never could have imagined. Alternating between Lucy’s and Stephen’s voices, *Tell Me Lies* follows their connection through college and post-college life in New York City. “Readers will be enraptured” (Booklist) by the “unforgettable beauties in this very sexy story” (Kirkus Review). With the psychological insight and biting wit of *Luckiest Girl Alive*, and the yearning ambitions and desires of *Sweetbitter*, this keenly intelligent and supremely resonant novel chronicles the exhilaration and dilemmas of young adulthood and the difficulty of letting go—even when you know you should. Grandma finds a way to dispel her grandchild's fear of thunderstorms.

The Editors of *Reader’s Digest* present a hilarious collection of dumb people doing dumb things. In this collection of dumb stories we poke a little fun at the unbelievably dumb things that happen in our lives and have a good chuckle along the way. You’re a dumb criminal if...you’re not picky about your office locations. Christopher Exley of Everett, Washington, was arrested for conducting a drug deal over the phone—in the bathroom of the Everett Police Department. During my brother-in-law’s first performance review, his boss said, “I’m not quite sure what it is you do here. But whatever it is, could you do it faster?” --Jeanie Waara, Philip, SD In an attempt to balance work and motherhood, I delegated the grocery shopping to my young babysitter. But the job proved a tad daunting. One day while I was at work, she texted me from the supermarket. “Can’t find Brillo pads,” she wrote. “All they have are Tampax and Kotex.” --Kimberly Clark, Alpharetta, GA I overheard an elderly gentleman tell his friend that he couldn’t meet him the next day because he had to go to the hospital for an autopsy. His friend was sympathetic: “I had one of those last year. Luckily it wasn’t serious.” --Tracy Moralee, Hitchin, Great Britain

Investigative journalism holds democracies and individuals accountable to the public. But important stories are going untold as news outlets shy away from the expense of watchdog reporting. Computational journalism, using digital records and data-mining algorithms, promises to lower the cost and increase demand among readers, James Hamilton shows. The Unadulterated Cat is becoming an endangered species as more and more of us settle for those boring mass-produced cats the ad-men sell us - the pussies that purr into their gold-plated food bowls on the telly. But the Campaign for Real Cats sets out to change all that by helping us to recognise a true, unadulterated cat when we see one. For example: real cats have ears that look like they've been trimmed with pinking shears; real cats never wear flea collars . . . or appear on Christmas cards . . . or chase anything with a bell in it; real cats do eat quiche. And giblets. And butter. And anything else left on the table, if they think they can get away with it. Real cats can hear a fridge door opening two rooms away . . .

'Deftly weaves themes of forgiveness, belief and spiritual regeneration' The Times The Discworld is very much like our own - if our own were to consist of a flat planet balanced on the back of four elephants which stand on the back of a giant turtle, that is . . . 'Just because you can't explain it, doesn't mean it's a miracle.' In the beginning was the Word. And the Word was: 'Hey, you!' This is the Discworld, after all, and religion is a controversial business. Everyone has their own opinion, and indeed their own gods, of every shape and size, and all elbowing for space at the top. In such a competitive environment, shape and size can be pretty crucial to make one's presence felt. So it's certainly not helpful to be reduced to appearing in the form of a tortoise, a manifestation far below god-like status in anyone's book. In such instances, you need an acolyte, and fast: for the Great God Om, Brutha the novice is the Chosen One – or at least the only One available. He wants peace and justice and brotherly love. He also wants the Inquisition to stop torturing him now, please . . . _____ The Discworld novels can be read in any order but Small Gods is a standalone novel.

Nate is 11 years old, four-and-a-half feet tall, and the all-time record holder for detentions in school history. He's a self-described genius and sixth grade Renaissance Man. Nate, who lives with his dad and older sister, enjoys pestering his family and teachers with his sarcasm.
