This guide to vocabulary acquisition is essential reading for teachers of English as a second or foreign language. It presents the major ideas and principles that relate to the teaching and learning of vocabulary and evaluates a wide range of practical activities designed to help boost students' vocabulary acquisition. Key questions which are answered include: • How many words should students learn at a time, and how often? • How much classroom time should be spent teaching vocabulary? • What is the best way to group vocabulary for learning? • Is it useful to provide students with the L1 translations of unknown words? • Why do some students make greater progress than others? stuart webb is Professor in Applied Linguistics at the University of Western Ontario, Canada. paul nation is Emeritus Professor in Applied Linguistics at Victoria University of Wellington, New Zealand. Teachers will find answers to many of their perennial questions about vocabulary learning—as well as some they had not yet thought to ask! There is research evidence to support established practices, but also new evidence that challenges old ideas. patsy lightbown (co-author of How Languages are Learned, with Nina Spada)

Trading in cryptocurrency can provide substantial returns for small investors. But in order to invest successfully and realise short term 'high-frequency' profits, or medium to long term gains, you'll need to use a winning strategy. 'Cryptocurrency – Trade Your Way to \$1000s' is not a book about the history of cryptocurrency, block chain technology or coin mining. The aim of the book is simple; induce a winning mindset and a successful strategy into the mind of a novice or recent cryptocurrency investor. Subjects such as stake return & profit taking, risk mitigation and fund protection are covered, all of which are centered on the author's 'Coin Stream, Trading & Profit Pot' strategy. Also covered is the notion of trading onwards even when the price of Bitcoin has crashed, by using an 'Opportunity Pot'. If you're looking to join the cryptocurrency revolution, even with a small initial investment, this book is the gateway to a trading strategy that can provide significant personal gain.

Happiness is such a simple, unifying concept. We all want to be happy. We all want to die happy. But do we really know what happiness is? Do we really understand its complexity? Does 'pure joy' lie on the same continuum as a 'quiet satisfaction'? And does happiness in itself lead us to live a fulfilling life? This book helps us to discriminate clearly between two fundamental types of happiness. It helps us to know ourselves better, and to make active choices towards a more fulfilling life. The central theme here is that the simple concept of plain 'Happiness' is not enough. Instead, complete happiness is to be found by blending feelings of sensory pleasure with feelings of satisfaction through achievement. We learn to balance the excitable pleasure of the moment with the deeper satisfaction of achieving our established goals in life. If we can establish a healthy balance between Pleasure and Achievement for ourselves, then we learn to live a fulfilling life. And by applying the Pleasure/Achievement Principle to the lifestyle decisions that we make, we will learn to experience a far deeper sense of personal fulfillment in our lives.

'The Creative Seed' is the perfect guidebook for anyone who has an interest in exploring some form of creative expression. Even if you think you don't have an ounce of creative flair, you can discover and nurture a new, exciting dimension in your life. Whether you are already involved in some form of creative expression, a raw beginner or well established, this book provides a host of strategies to keep you inspired and on track in living your creative dream. The book is written in two parts. The first is designed for newcomers to identify the creative interest they would like to explore. The common myths of creativity are challenged and stimulating exercises are provided to help the reader discover their creative strengths. This section concludes with an original concept explaining the creative process called the SEED approach – an acronym that stands for skills, experimentation, evaluation and discovery. The concept is aimed at guiding beginners and established creators to clearly understand the nature of the creative process. Part Two addresses the common difficulties people experience, such as anxiety, low self-confidence and procrastination. Chapters provide case histories, questions and exercises to assist the reader in gaining self-awareness and practical skills to be active and successful in their creative expression.
