Every great team, culture, society, religion or business that has endured time, adversity and challenge has always had one thing in common: a set of simple but powerful rules that govern the internal behaviors and expectations of that group. It is called The Code of Honor. We hear of these Codes when we think of things like The Ten Commandments, the Marine Corps or the Constitution. Yet if sales is the number one skill in business, number two has to be the ability to bring ordinary people together to build a championship team. This does not happen by chance or by the

simple accumulation of talent. The Code is the core ingredient to creating winning organizations. The book is a step-by-step guide for any individual, group or company to actually create a Code of Honor specific to their team. The Rich Dad Poor Dad Advisor series was designed as a “how-to” series to empower individuals to succeed in the world of business and finance. “Team Code of Honor” is critical to this series because its processes bridge all facets of business, investment, entrepreneurship and even personal life. The book explains through graphic examples, stories and numerous case studies how a Code or set of rules is created, maintained, enforced and used for rapid and controlled growth of any entity. The book is designed as an operating manual for putting any business team together. It steps you all the way from properly choosing players, to creating the Code, to increasing performance and to winning. Each chapter gives the team specific assignments and examples so that by the time you have completed the book, your Code is in place and your team is operating at a true championship level.

Confessions of a Real Estate Entrepreneur is for the individual who is ready to get serious about investing. Not a rah-rah or get-rich-quick book, this book is for someone who is prepared to think about what he or she wants to accomplish. James Randel provides the how and why. James Randel has been a successful investor and educator for 25 years. He teaches investing through stories and anecdotes – bringing to the limelight not just his successes (and there are some amazing stories of these) but also his mistakes. His candor is instructive and entertaining. It is said that “those who can, do, and those who can’t, teach.” James Randel is a rare exception as he is both a highly successful investor as well as an excellent teacher. As said by Jeff Dunne, Vice Chairman of the largest real estate company in the world, CB Richard Ellis: “I’ve tracked Jimmy’s incredible run of successful real estate investments for 20 years and more recently invested very profitably with him. His new book is a must read for anyone interested in real estate investing.” If you are tired of the “same old, same old” and prepared to play in the big leagues, this book is calling your name.

Why cutting up your credit cards won't make you rich
A popular TV personality often says, "Take out your credit cards and cut them into pieces." While that is sound advice for people who are not financially responsible, it is inadequate advice for anyone who wants to become rich or financially free. In other words, just cutting up your credit cards will not make you rich. What does make you rich is financial education...unfortunately a type of education we do not receive in school. If a person has a solid financial education, they would know that there are two kinds of debt...good debt and bad debt. A person with a sound financial education would know how to use good debt to make them richer faster...much faster than a person who only saves money and has no debt. Rich Dad's Guide to Becoming Rich * Are you

in credit card debt? * Is job security dead? * Is your financial security threatened? * Is a high-paying job the answer? * Is your money working for you? * Do you have good debt or bad debt? We all need more financial education. We need to know how to have our money work hard for us so we don't have to spend our lives working for money. That is why we need more sophisticated financial education...not oversimplified and childish financial tips such as cut up your credit cards or save more money. If you are ready to increase your financial education and enjoy your credit cards, then this book is for you.

Tax-Free Wealth is about tax planning concepts. It's about how to use your country's tax laws to your benefit. In this book, Tom Wheelwright will tell you how the tax laws work. And how they are designed to reduce your taxes, not to increase your taxes. Once you understand this basic principle, you no longer need to be afraid of the tax laws. They are there to help you and your business—not to hinder you. Once you understand the basic principles of tax reduction, you can begin, immediately, reducing your taxes. Eventually, you may even be able to legally eliminate your income taxes and drastically reduce your other taxes. Once you do that, you can live a life of Tax-Free Wealth.

Many Americans dream of financial freedom, but they're stuck in dead-end jobs and don't know how to get there. You don't need to be one of them. If you invested \$35,000 in the stock market today, it could take 52 years for that investment to grow to \$1 million. But if you invested that same amount into one single-family \$140,000 rental property, it would only take 19 years. With just two rental properties, you could generate \$417,000 in profit in just 10 years. Skeptical? Good, because that's the first sign of a smart investor. This book will tackle that skepticism head on... and give you confidence and a path to financial freedom. **THIS BOOK WILL TEACH YOU HOW TO:** - Secure your investment money - Find your ideal market--and a positive-cash-flow property - Efficiently manage your property - Handle your record keeping - Boost revenues and cut costs - File your taxes using a step-by-step process - Build your real estate portfolio
