

The Brass Check A Study Of American Journalism

Turning his muckraking talents to journalism itself, Upton Sinclair exposes a variety of the news media's ingrained biases and its agenda-serving corruption. Upton Sinclair became famous for exposing filthy and inhumane conditions in the American meat packing industry at the turn of the 20th century. Following these revelations, new laws were made protecting factory workers and their conditions. Sinclair afterwards became a figure for condemnation ? his personal life was scrutinized and subjected to spurious gossip and rumor, the cause being that the vast majority of newspaper corporations opposed his pro-worker, pro-regulation views. The title of this book alludes to a common practice in brothels: those frequenting these establishments would buy ?brass checks? to hand to the woman of their choice. Sinclair draws a parallel between such customers and the proprietors of the media, who delegate the promotion of their political, financial and social agendas to journalists willing to propagate such ideas.

This book provides an in-depth account of the fascinating but far from simple actions and processes that take place when a brass instrument is played. Written by three leading researchers in brass instrument acoustics who are also experienced brass players, it draws together the many recent advances in our understanding of the subtly interrelated factors shaping the musician's control of the instrument's sound. The reader is introduced to models of sound generation, propagation and radiation. In particular, the current understanding of the behaviour of the player's lips, the modes of vibration of the air column inside the instrument, and the radiation of sound from a brass instrument bell are explained. The functions of the mouthpiece and of mutes are discussed. Spectral enrichment arising from nonlinear propagation of the internal sound wave in loud playing is shown to be an important influence on the timbre of many types of brass instrument. The characteristics of brass instruments in contemporary use (including cornets, trumpets, french horns, trombones and tubas) are identified, and related to those of the great variety of instruments at earlier stages in the evolution of the brass family. This copiously illustrated book concludes with case studies of the recreation of ancient instruments and some of the current applications of electronics and information technology to brass instrument performance. While most of the material presented is accessible by a general readership, the topic of musical instrument modelling is developed at a mathematical level which makes it a useful academic resource for advanced teaching and research. Written by three internationally acknowledged experts in the acoustics and organology of brass instruments who are also experienced brass instrument players. Provides both an accessible introduction to brass instrument science and a review of recent research results and mathematical modeling techniques Represents the first monograph on the science underlying the design and performance of musical instruments of the brass family

Here, reprinted for the first time since its original publication, is muckraking journalist Upton Sinclair's lively, caustic account of the 1934 election campaign that turned California upside down and almost won him the governor's mansion. Using his "End Poverty in California" movement (more commonly called EPIC) as a springboard, Sinclair ran for governor as a Democrat, equipped with a bold plan to end the

Depression in California by taking over idle land and factories and turning them into cooperative ventures for the unemployed. To his surprise, thousands rallied to the idea, converting what he had assumed would be another of his utopian schemes into a mass political movement of extraordinary dimensions. With a loosely knit organization of hundreds of local EPIC clubs, Sinclair overwhelmed the moderate Democratic opposition to capture the primary election. When it came to the general election, however, his opposition employed highly effective campaign tactics: overwhelming media hostility, vicious red-baiting and voter intimidation, high-priced dirty tricks. The result was a resounding defeat in November. I, Candidate tells the story of Sinclair's campaign while also capturing the turbulent political mood of the 1930s. Employing his trademark muckraking style, Sinclair exposes the conspiracies of power that ensured big-money control over the media and other powerful institutions.

The Jungle is a 1906 novel written by the American journalist and novelist Upton Sinclair (1878–1968). Sinclair wrote the novel to portray the lives of immigrants in the United States in Chicago and similar industrialized cities. Many readers were most concerned with his exposure of health violations and unsanitary practices in the American meatpacking industry during the early 20th century, based on an investigation he did for a socialist newspaper. The book depicts working class poverty, the lack of social supports, harsh and unpleasant living and working conditions, and a hopelessness among many workers. These elements are contrasted with the deeply rooted corruption of people in power. A review by the writer Jack London called it, "the Uncle Tom's Cabin of wage slavery." Sinclair was considered a muckraker, or journalist who exposed corruption in government and business. He first published the novel in serial form in 1905 in the Socialist newspaper, Appeal to Reason, between February 25, 1905, and November 4, 1905. In 1904, Sinclair had spent seven weeks gathering information while working incognito in the meatpacking plants of the Chicago stockyards for the newspaper. It was published as a book on February 26, 1906 by Doubleday and in a subscribers' edition.

Excerpt from The Brass Check: A Study of American Journalism He had rich relatives who were fond of him, so that he was free to escape from poverty into luxury; he had the opportunity to rise quickly in the world, if he would go into business, and devote his attention thereto. But would he find in business the ideals which he craved? He talked with business men, also he got the ?avor of business from the advertisements in the newspapers - and he knew that this was not what he was seeking. He cultivated the friendship of Jesus, Hamlet and Shelley, and fell in love with the young Milton and the young Goethe; in them he found his own craving for truth and beauty. Here, through the medium of art, life might be ennobled, and lifted from the muck of graft and greed. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. A muckraking exposé of corruption in American journalism from the Pulitzer Prize–winning author of The Jungle Upton Sinclair dedicated his life to documenting the destructive force of unbridled capitalism. In this influential study, he takes on the effect of money and power on mass media, arguing that the newspapers, magazines, and wire services of the Progressive era formed “a class institution serving the rich and

spurning the poor.” In the early twentieth century, a “brass check” was a token purchased by brothel patrons. By drawing a comparison between journalists and prostitutes, Sinclair highlights the total control publishers such as William Randolph Hearst exerted over their empires. Reporters and editors were paid to service the financial and political interests of their bosses, even if that meant misrepresenting the facts or outright lying. Sinclair documents specific cases, including the Ludlow Massacre of 1914 and the Red Scare whipped up by Hearst’s New York Journal and other newspapers, in which major news outlets ignored the truth in favor of tabloid sensationalism. Sinclair considered *The Brass Check* to be his most important and most dangerous book. Nearly a century later, his impassioned call for reform is timelier than ever. This ebook has been authorized by the estate of Upton Sinclair.

Yellow journalism, or the yellow press, is a type of journalism that presents little or no legitimate well-researched news and instead uses eye-catching headlines to sell more newspapers. Techniques may include exaggerations of news events, scandal-mongering or sensationalism. By extension, the term yellow journalism is used today as a pejorative to decry any journalism that treats news in an unprofessional or unethical fashion. In 1919, Upton Sinclair published "*The Brass Check*", a muckraking exposé of American journalism that publicized the issue of yellow journalism and the limitations of the "free press" in the United States. Four years after publication of *The Brass Check*, the first code of ethics for journalists was created. Upton Sinclair (1878–1968) was an American author who wrote books in many genres, but in all of them advocating for the moral ethics, better life style for the working people and social justice. Writing during the Progressive Era, Sinclair describes the world of industrialized America from both the working man's point of view and the industrialist. He has also won the Pulitzer Prize for Fiction in 1943.

The classic novel that inspired the Academy award-winning film, *There Will Be Blood*. Penguin Books is proud to now be the sole publisher of *Oil!*, the classic 1927 novel by Upton Sinclair. After writing *The Jungle*, his scathing indictment of the meatpacking industry, Sinclair turned his sights on the early days of the California oil industry in a highly entertaining story featuring a cavalcade of characters including senators, oil magnets, Hollywood film starlets, and a crusading evangelist. This lively and panoramic book, which was recently cited by David Denby in the *New Yorker* as being Sinclair's "most readable" novel, is now the inspiration for the Paramount Vantage major motion picture, *There Will Be Blood*. It is the long-awaited film from Paul Thomas Anderson, one of the most admired filmmakers working today whose previous movies, *Boogie Nights* and *Magnolia* were both multiple Academy Award nominees. The movie stars Oscar-winner Daniel Day-Lewis (*Gangs of New York*, *My Left Foot*) and Paul Dano (*Little Miss Sunshine*). Paramount Vantage will be releasing the film in New York and Los Angeles on December 26, 2007 and go nationwide in January. This is the same company responsible for *Babel* and *A Mighty Heart* and the current releases, *Into the Wild*, *Margot at the Wedding*, and *The Kite Runner*. As wars rage on in the oil region and as anxiety over natural resources rise, the subject of this book, which celebrates its 80th anniversary in 2007, is more timely than ever.

The Reverend Clarence Larkin was one of the most widely influential thinkers on end-times prophecies of the early twentieth century, and his writings remain vital to appreciating the apocalyptic Christian thought that today enjoys widespread popularity. This 1919 book serves as a study guide for the Book of Revelation, the Bible's prophetic final chapter. Larkin explains the concepts of the Beast and the False Prophet, the Seven Seals and the Seven Trumpets, and the importance of the Book of Daniel in understanding the Rapture. Charts and illustrations depict the "Pale Horse Rider," "Daniel's Four Wild Beasts," "Egyptian Plagues Compared," and more. Also available from Cosimo Classics: Larkin's *The Spirit World*, *Rightly Dividing the Word*, and *The Second Coming of Christ*. American Baptist pastor and author CLARENCE LARKIN (1850-1924) was born in Pennsylvania, and later set up his ministry there. The Flivver King stands among the finest of modern American historical novels. It is history as it ought to be written - from the bottom up and the top down, with monumental sensitivity to the compromise and conflict between the two extremes. Its two stories - those of Henry Ford and Ford-worker Abner Shutt, unfold side by side, indeed dialectically. They are, in the end, one story: the saga of class and culture in 'Ford-America'. Workers and bosses, flappers and Klansmen, war and depression, Prohibition outlaws and high-society parties, unions and anti-union gun thugs - few aspects of American life in the first four decades of the last century are missing from this small masterpiece. The Flivver King sustains the same sure grasp of working class life which characterized Sinclair's earlier classic, The Jungle, but much less sentimentally and with a steadier focus on how alienated work breeds not only degradation but also resistance and revolt. Originally written in 1937 to aid the United Automobile Workers' organizing drive, The Flivver King answers the question "Why do we need a union?" with quiet eloquence. The Charles H. Kerr Company has reissued it as a great American novel and an important historical document, because that question has never gone away and is now more vital than ever. With an introduction from Steve Meyer.

The Brass Check: A Study of American Journalism by Upton Sinclair The first part of the novel focuses on Mrs. Morel and her unhappy marriage to a drinking miner. She has many fights with her husband, some of which have painful results: on several

occasions, she is locked out of the house and hit in the head with a drawer. Separated from her husband, Mrs. Morel finds comfort in her four children, especially her children. Her eldest son, William, is her favorite of hers, and she is very upset when he takes a job in London and moves away from his family. When William falls ill and dies a few years later, she is crushed, without even noticing the rest of her children until she almost loses Paul, her second child, too. From that point on, Paul becomes the focus of her life, and the two seem to live for each other. Paul falls in love with Miriam Leivers, who lives on a farm not too far from the Morel family. They carry on a very intimate but purely platonic relationship for many years. Ms. Morel doesn't approve of Miriam, and this may be the main reason Paul doesn't marry her. He constantly fluctuates in her feelings towards her. Paul meets Clara Dawes, a suffragette separated from her husband, through Miriam. As he approaches Clara and they begin to discuss her relationship with Miriam, she tells him that she should consider consuming their love and he goes back to Miriam to see how he feels. Paul and Miriam sleep together and are briefly happy, but shortly after Paul decides he doesn't want to marry Miriam, and so he breaks up with her. He still feels that his soul belongs to her and, in part, reluctantly accepts. However, he realizes that he loves mother more than she does. After breaking off his relationship with Miriam, Paul begins spending more time with Clara and they begin an extremely passionate relationship. However, he does not want to divorce her husband Baxter and therefore they can never be married. Paolo's mother falls ill and he spends most of her time taking care of her. When she finally dies, he is heartbroken and, after one last plea from Miriam, he goes away alone at the end of the novel.

A New York Times Bestseller A Washington Post Notable Nonfiction Book of 2020 Named a Best Book of 2020 by NPR “A fascinating scientific, cultural, spiritual and evolutionary history of the way humans breathe—and how we’ve all been doing it wrong for a long, long time.” —Elizabeth Gilbert, author of Big Magic and Eat Pray Love No matter what you eat, how much you exercise, how skinny or young or wise you are, none of it matters if you’re not breathing properly. There is nothing more essential to our health and well-being than breathing: take air in, let it out, repeat twenty-five thousand times a day. Yet, as a species, humans have lost the ability to breathe correctly, with grave consequences. Journalist James Nestor travels the world to figure out what went wrong and how to fix it. The answers aren’t found in pulmonology labs, as we might expect, but in the muddy digs of ancient burial sites, secret Soviet facilities, New Jersey choir schools, and the smoggy streets of São Paulo. Nestor tracks down men and women exploring the hidden science behind ancient breathing practices like Pranayama, Sudarshan Kriya, and Tummo and teams up with pulmonary tinkerers to scientifically test long-held beliefs about how we breathe. Modern research is showing us that making even slight adjustments to the way we inhale and exhale can jump-start athletic performance; rejuvenate internal organs; halt snoring, asthma, and autoimmune disease; and even straighten scoliotic spines. None of this should be possible, and yet it is. Drawing on thousands of years of medical texts and recent cutting-edge studies in pulmonology, psychology, biochemistry, and human physiology, *Breath* turns the conventional wisdom of what we thought we knew about our most basic biological function on

its head. You will never breathe the same again.

Much like *The Jungle*, *King Coal* is a novel about the abismal working conditions of coal miners. It is loosely based on the 1914 Colorado coal strikes. It is typical of his critical novels by being told from the perspective of the little guy and a struggling union.

King Coal offers plenty for historians of early labor unions or those who just enjoy a story about the underdog.

A searing novel of social realism, Upton Sinclair's *The Jungle* follows the fortunes of Jurgis Rudkus, an immigrant who finds in the stockyards of turn-of-the-century Chicago a ruthless system that degrades and impoverishes him, and an industry whose filthy practices contaminate the meat it processes. From the stench of the killing-beds to the horrors of the fertilizer-works, the appalling conditions in which Jurgis works are described in intense detail by an author bent on social reform. So powerful was the book's message that it caught the eye of President Theodore Roosevelt and led to changes to the food hygiene laws. In his Introduction to this new edition, Russ Castronovo highlights the aesthetic concerns that were central to Sinclair's aspirations, examining the relationship between history and historical fiction, and between the documentary impulse and literary narrative. As he examines the book's disputed status as novel (it is propaganda or literature?), he reveals why Sinclair's message-driven fiction has relevance to literary and historical matters today, now more than a hundred years after the novel first appeared in print.

In this book I have written about some aspects of the war which, I believe, the world must know and remember, not only as a memorial of men's courage in tragic years, but as a warning of what will happen again--surely--if a heritage of evil and of folly is not cut out of the hearts of peoples. Here it is the reality of modern warfare not only as it appears to British soldiers, of whom I can tell, but to soldiers on all the fronts where conditions were the same.
