The Business of Excellence offers a unique and compelling perspective on the drivers of excellence in teams and organizations. The author, Justin Hughes, brings an unusual mix of experience and insight, having worked as a management consultant to some of the world's most successful organizations, in addition to having served for 12 years as a military fighter pilot, where he became Executive Officer on the RAF Red Arrows. The challenges of high performance and leadership are explored in depth, and are illustrated with insights, interviews and case studies from the military, sporting and corporate worlds. The material includes a proprietary performance model that can be applied to a wide spectrum of organizations, focusing on:

- People: the primacy of attitude over skills
- Capability: building alignment before setting people free
- Delivery: a process to close the gap between desired and actual outcomes
- Learning: how to accelerate performance in real time
- Leadership: exhibiting a set of behaviours such that others choose to follow
- Risk: avoiding the victory of compliance over outcomes.

In The Business of Excellence, Justin deconstructs the drivers of high performance with a rare clarity, insight and accessibility, to illustrate and explain tangible tools and methods, all of which can be applied by readers in their own teams and organizations.

Winner of The Shingo Research and Professional Publication Award! After two decades in the trenches of helping companies design and build better, more efficient operations, Karen Martin has pinpointed why performance improvement programs usually fail: Chaos, the sneaky but powerful force that frustrates customers, keeps business leaders awake at night, and saps company morale. In *The Outstanding Organization*, Karen offers a toolbox for combating chaos by creating the organizational conditions that will allow your improvement efforts to return greater gains. Proven, practical, and surprisingly simple, Karen's system focuses on four key behaviors for organizational excellence--Clarity, Focus,

Discipline, Engagement--that, once instilled into a company's DNA, open the door to sustainable growth and profit. This well-organized, inviting-to-read guide reveals everything you need to know about: How the lack of clarity and focus adds millions of dollars of unnecessary labor expense and slows progress on all fronts How you can gain a competitive edge by adopting the type of disciplined behaviors typically found in the military, science, law enforcement, sports, and the arts Why you should stop worrying about employee satisfaction--and start concerning yourself with employee engagement Why adopting various improvement approaches without building a foundation for success won't solve your problems--and will likely create more chaos Although you don't like the chaos that you're currently coping with, you've probably come to accept it. You don't have to if you follow the path Karen lays out. This no-nonsense book helps you get to the crux of the problem, so you can inject the sensible, disciplined calm that enables the levels of performance and innovation mandated by today's business environment--and help your organization become truly outstanding. Praise for The Outstanding Organization "Too often, outstanding performance seems out of reach. Karen Martin explains, with elegant simplicity, why so many organizations 'can't get there from here.' you want to bring to the light, then this is the book for you. In "Hack E-mail," I share my best strategies for turning e-mail into a marketing weapon. From e-mail outreach campaigns I've been able to: 1) Book between 40-50 podcast and radio interviews across the world, promoting my first book ("Buy Your Own Island) to a best-seller 2) Build an extensive network of mentors and affiliate partners 3) Increase my blog traffic by 400% in a one month period (from 4,262 to 16,688) 4) Connect with influential people 5) Pick up new coaching and freelance clients Before I began to use these techniques for my own brand, I honed them in campaigns for clients. From fashion companies in Toronto to skin care lines in Malta, business owners have paid me thousands to generate leads for their business through cold e-mail. This stuff works. The best part is, the things I've done with e-mail, anyone can do! In this book, I lay out everything I've learned, and share my best strategies and most valuable techniques to get a response from someone and finally get the results you seek. Among other things, you will learn: \* - How to create positive NLP "anchors" in your e-mails - so that people welcome correspondence from you (pages 26 - 27) - 7 mistakes of horrible e-mail outreach and how to fix them (page 18) - How to name drop your way to the top (page 31) - How to occupy the moral high ground, and enchant people with your story (pages 28 - 30) - What to do if someone doesn't respond - and get a

This children's book #1 is part of a series of twelve children's books that have been produced to communicate messages of direction, hope, safety and character building. These books feature a variety of candid photographs of wildlife animals, birds, and insects in different natural settings. The hope is that these animal, bird, and insect subject short stories will effectively communicate messages that will help to turn matters around. The vision is that our young children will grow to become productive, respectful, responsible, patient, accountable, thoughtful and safe. Each story will feature at least one key word to be noted and remembered. Also, each story will highlight a moral or life lesson. Finally, each story encourages a discussion with follow-up questions.
