Are you starting Army ROTC, and want to know all about the process? This book will explain everything you need to know about ROTC, the path to becoming an officer, and what an Army Officer should know. This is content that I compiled in ROTC through my four years. This is the seminal novel of a young man's education as a member of an elite, paternalistic non-military organization of leaders dedicated to preserving human civilization, the Solar Patrol, a provocative parallel to Heinlein's famous later novel, *Starship Troopers* (which is about the military). Only the best and brightest--the strongest and the most courageous--ever manage to become Space Cadets, at the Space Academy. They are in training to be come part of the elite guard of the solar system, accepting missions others fear, taking risks no others dare, and upholding the peace of the solar system for the benefit of all. But before Matt Dodson can earn his rightful place in the ranks, his mettle is to be tested in the most severe and extraordinary ways--ways that change him forever, from the midwestern American boy into a man of the Solar Patrol. intention in writing this book of poetry is for you to reflect on your own life and for you to follow your dreams without fear. I have loved poetry ever since high school. My English teacher Mr. Ferguson would have weekly readings and I'd always be there. It was the first way for me to really express myself as a human of the planet Earth, and I think poetry influenced me to become an actor. I hope this book motivates you to create your own art, gives you encouragement, and brings you some joy. You can also spread the lessons you have learned about the universe from this book to others. I'm happy you're here on planet Earth.

It wraps up with four Annexes: Useful gear for the field and office; officer branch and Basic Officer Leader Course information; common acronyms and phrases, and a list of each Punitive Article of the UCMJ.
