

The Case For Impeachment

The former US Congresswoman “offers the Watergate investigation as a model for the kind of open, wide-ranging inquiry that she argues is necessary.” —The New York Review of Books Elizabeth Holtzman has been a principled leader and a persistent voice for equality and accountability since she became the youngest woman ever elected to Congress in 1973, which she remained for forty-two years. But she saw American democratic ideals, and the rule of law in the United States, eroding under President Trump. And as a member of the House Judiciary Committee that voted to impeach Nixon, and one of the members of the Homeland Security advisory council who resigned in protest of President Donald Trump’s policy of separating families at the border, former Congresswoman Holtzman knows of which she speaks. The Case for Impeaching Trump establishes the requirements for impeachment as set out by the Constitution and proves that President Trump’s actions met those requirements. Holtzman makes the definitive, constitutional case that impeachment was justified. “Elizabeth Holtzman has always been the first and the bravest, the smartest and most trusted. She is the expert we need to deal with an accidental President who got there as a serial sexual harasser, a candidate who lost the popular vote, and an unsuccessful businessman who was born on third base and thinks he hit a home run. Now what? Ask Liz!” —Gloria Steinem Praise for Elizabeth Holtzman “A forceful advocate.” —USA Today “Considered one of the brightest stars in New York City politics, earning a reputation for intelligence and honesty.” —The Washington Post “A Watergate hero.” —The New Republic “A woman of integrity who lives by her principles.” —Publishers Weekly

"The official report from the House Intelligence Committee on Donald Trump's secret pressure campaign against Ukraine, featuring an exclusive introduction by Pulitzer Prize-winning author and biographer Jon Meacham. For only the fourth time in American history, the House of Representatives has conducted an impeachment inquiry into a sitting United States president. This landmark document details the findings of the House Intelligence Committee's historic investigation of whether President Donald J. Trump committed impeachable offenses when he sought to have Ukraine investigate former vice president Joe Biden and his son Hunter ... these pages offer ... [an] account of the president's attempts "to use the powers of his office to solicit foreign interference on his behalf in the 2020 election' and his subsequent attempts to obstruct the House investigation into his actions"--

When Lincoln was assassinated and Andrew Johnson became President, a fraught time in America became perilous. Congress was divided over how Reconstruction should be accomplished, and the question of black suffrage. The South roiled with violence, lawlessness, and efforts to preserve the pre-Civil War society. Johnson had no interest in following Lincoln's agenda. With the unchecked power of executive orders, Johnson pardoned the rebel states and their leaders, opposed black suffrage, and called Reconstruction unnecessary. Wineapple examines Johnson's impeachment-- the first in American history-- and shows that it was a last-ditch, patriotic effort make the goals of the Civil War a reality, and to make the Union one again. -- adapted from jacket

This brilliantly argued and wonderfully written collection by twenty-two of the best political analysts in the US analyzes the extraordinary and unprecedented threat the White House and its allies present to civil liberties, civil rights, the Constitution, international law, and the future of the planet. Impeach the President unearths the stories behind election fraud in 2000 and 2004, the overt lies used to justify pre-emptive war on Iraq, the extensive, ongoing commission of war crimes and torture, the tragic failures in the lead-up to and aftermath of Hurricane Katrina, and lesser-known but equally alarming offences of propagandism and disinformation, illegal spying, environmental destruction, and the violation of the separation of church and state. Loo and Phillips chillingly reveal the full threat behind the radical right-wing force that has taken over the world's most powerful office.

An incisive legal argument that the attempt to impeach then-President Bill Clinton was not only ethically troubling, but actually against the basic legal procedures of the House and Senate and thus unconstitutional. A wake-up call, relevant even today, of the lengths to which the American right will go in order to bring down their rivals, even under the scrutinizing eyes of the world.

The Case for Impeachment HarperCollins

"Read this book and learn how best to protect our democracy." --Tom Steyer, founder of Need To Impeach The reasons Donald Trump must be impeached — as per the Founding Fathers — and what you can do to help make that happen Three veteran constitutional attorneys say there's no way around it: The Constitution demands that Donald Trump must be impeached. And in clear language using compelling logic rooted firmly in the Constitution, they detail why the time to start is now—not in the indefinite future after criminal investigations have ended. In fact, much of Trump's impeachable conduct lies outside the scope of ongoing federal criminal investigations. Citing charges such as accepting illegal payments from foreign governments, using government agencies to persecute political enemies, obstructing justice, abusing the pardon power, and the undermining freedom of the press, they provide the factual and legal basis for eight articles of impeachment. In short, they argue, abuses threatening our constitutional democracy should be dealt with by the remedy that the Constitution provides for a lawless, authoritarian president: impeachment. And an informed citizenry should be part of the process. After all, they say, impeachment is not a constitutional crisis — impeachment is the cure for a constitutional crisis.

“That the Left tried to undo the results of the 2016 by whatever means necessary is not in doubt. Fred Lucas reminds us of the dangers this approach poses to constitutional government as he dissects what President Trump has rightly called one of the greatest hoaxes in our history.” —Cal Thomas, syndicated columnist and bestselling author “A devastating and comprehensive takedown of Trump's impeachment, and a thoughtful look at the historical context of past impeachments, with strong reporting and research to combat the Left's inevitable rewrite of history.” —Sara Carter, Fox News Contributor, award-winning correspondent, host of The Sara Carter Show podcast “Fred Lucas goes beyond the tribalism to the truth. There doesn't need to be any partisan spin here, because the facts of the coup the Democrats attempted speak for themselves.” —Steve Deace, host of the Steve Deace Show on TheBlaze TV Abuse of Power exposes: • How Elizabeth Warren tried to set an impeachment trap for Trump even before the inauguration. • Why the depths of the Biden family's international conflict of interests are worthy of a federal investigation. • Why Nancy Pelosi caved to The Squad to remain leadership. • How Adam Schiff pushed Jerry Nadler out of the key spot to lead the impeachment. • How Democrats abandoned what would have been a crowning leftwing achievement in gun control legislation in order to pursue an impeachment that was destined to fail in the Senate. • How Mitt Romney's vote to convict likely prevent three moderate Democrats from rebelling against party leaders.

This book of 13 poems by Victor Edgar Rivera, a New Jersey writer born in Mayaguez, Puerto Rico, condemns Donald Trump and his administration for their treatment of immigrants and the people of Puerto Rico after Hurricane Maria, their trampling on the rights of African-Americans, women and the LGBT community, and their erosion of civil liberties and social justice.

The Democrats' special impeachment counsel on the House Judiciary Committee lays out President Trump's shocking pattern of betrayals, lies, and high crimes, arguing articles of impeachment to the ultimate judges: the American people. In his behind-the-scenes account of the attempts to bring the president to justice—from filing the very first legal actions against him, through the Mueller report, to the turbulent impeachment and trial, to the president's ongoing wrongdoing today—Norman Eisen, at the forefront of the battle since the day of Trump's inauguration, pulls back the curtain on the process. He reveals ten proposed articles of impeachment, not just the two that were publicly tried, all of which he had a hand in drafting. He then guides us through Trump's lifelong instincts that have dictated his presidency: a cycle of abuse, corruption, and relentless obstruction of the truth. Since taking the oath of office, Donald Trump has been on a spree of high crimes and misdemeanors, using the awesome

power of the presidency for his own personal gain, at the expense of the American people. He has inflamed our divisions for his electoral benefit, with flagrant disregard for the Constitution that makes us America. Each step of the way, he has lied incessantly, including to cover up his crimes. And yet he remains in the country's highest office. Congress, federal and state prosecutors, and courts have worked to hold the president accountable for his myriad offenses—with some surprising successes and devastating failures. Eisen, who served as special counsel to the House Judiciary Committee for Trump's impeachment and trial, presents the case against Trump anew. Eisen's gripping narrative and rousing closing argument—at turns revelatory, insightful, and enraging—will inspire our nation of judges. History has proven that this president's nefarious behavior will continue, no matter the crisis. But, as Eisen's candid retelling affirms, there is an ultimate constitutional power that transcends the president's, a power that can and must defeat him if our nation is to survive. The verdict of the American people remains in the balance. It is time for us to act.

On January 12, 2021 the 435 members of the United States House of Representatives presented a case for the impeachment of President Donald J. Trump. This book serves as a primary source document of the case presented, only the fourth in American history and the first President to face impeachment twice.

On February 13, 2003, the author and a coalition of U.S. citizens including soldiers, their parents, and six members of Congress sued the president and Defense Secretary Donald H. Rumsfeld for initiating an illegal and unconstitutional war. The federal courts refused to rule on Bonifaz's case, stating that the question must be resolved by the political branches of government. John Bonifaz passionately argues that George W. Bush committed an impeachable offense when he launched a first-strike invasion of Iraq without a congressional declaration of war.

Professor Allan J. Lichtman, who has correctly forecasted thirty years of presidential elections, makes the case for impeaching the 45th president of the United States, Donald J. Trump. Impeachment will "proceed from the misconduct of public men, or, in other words, from the abuse or violation of some public trust," and "they relate chiefly to injuries done immediately to the society itself." (Alexander Hamilton, *The Federalist*, 1788) Professor Allan J. Lichtman, who has correctly forecasted thirty years of presidential elections, makes the case for impeaching the 45th president of the United States, Donald J. Trump. In the fall of 2016, Distinguished Professor of History at American University Allan Lichtman made headlines when he predicted that Donald J. Trump would defeat Democrat, Hillary Clinton, to win the presidential election. Now, in clear, nonpartisan terms, Lichtman lays out the reasons Congress could remove Trump from the Oval Office: his ties to Russia before and after the election, the complicated financial conflicts of interest at home and abroad, and his abuse of executive authority. *The Case for Impeachment* also offers a fascinating look at presidential impeachments throughout American history, including the often-overlooked story of Andrew Johnson's impeachment, details about Richard Nixon's resignation, and Bill Clinton's hearings. Lichtman shows how Trump exhibits many of the flaws (and more) that have doomed past presidents. As the Nixon Administration dismissed the reporting of Bob Woodward and Carl Bernstein as 'character assassination' and 'a vicious abuse of the journalistic process,' Trump has attacked the 'dishonest media,' claiming, 'the press should be ashamed of themselves.' Historians, legal scholars, and politicians alike agree: we are in politically uncharted waters. The durability of institutions is being undermined and the public's confidence in them is eroding, threatening American democracy itself. The world wants to know where the United States is headed. Lichtman argues, with clarity and power, that for Donald Trump's presidency, smoke has become fire.

Washington Post national investigative reporter Carol Leonnig and White House bureau chief Philip Rucker, both Pulitzer Prize winners, provide the definitive insider narrative of Donald Trump's unique presidency with shocking new reporting and insight into its implications. "I alone can fix it." So went Donald J. Trump's march to the presidency on July 21, 2016, when he accepted the Republican presidential nomination in Cleveland, promising to restore what he described as a fallen nation. Yet over the subsequent years, as he has undertaken the actual work of the commander in chief, it has been hard to see beyond the daily chaos of scandal, investigation, and constant bluster. It would be all too easy to mistake Trump's first term for one of pure and uninhibited chaos, but there were patterns to his behavior and that of his associates. The universal value of the Trump administration is loyalty - not to the country, but to the president himself - and Trump's North Star has been the perpetuation of his own power, even when it meant imperiling our shaky and mistrustful democracy. Leonnig and Rucker, with deep and unmatched sources throughout Washington, D.C., tell of rages and frenzies but also moments of courage and perseverance. Relying on scores of exclusive new interviews with some of the most senior members of the Trump administration and other firsthand witnesses, the authors reveal the forty-fifth president up close, taking readers inside Robert Mueller's Russia investigation as well as the president's own hap-hazard but ultimately successful legal defense. Here for the first time certain officials who have felt honor-bound not to publicly criticize a sitting president or to divulge what they witnessed in a position of trust tell the truth for the benefit of history. This peerless and gripping narrative reveals President Trump at his most unvarnished and exposes how decision making in his administration has been driven by a reflexive logic of self-preservation and self-aggrandizement - but a logic nonetheless. This is the story of how an unparalleled president has scrambled to survive and tested the strength of America's democracy and its common heart as a nation.

Four experts on the American presidency examine the three times impeachment has been invoked—against Andrew Johnson, Richard Nixon, and Bill Clinton—and explain what it means today. Impeachment is a double-edged sword. Though it was designed to check tyrants, Thomas Jefferson also called impeachment “the most formidable weapon for the purpose of a dominant faction that was ever contrived.” On the one hand, it nullifies the will of voters, the basic foundation of all representative democracies. On the other, its absence from the Constitution would leave the country vulnerable to despotic leadership. It is rarely used, and with good reason. Only three times has a president's conduct led to such political disarray as to warrant his potential removal from office, transforming a political crisis into a constitutional one. None has yet succeeded. Andrew Johnson was impeached in 1868 for failing to kowtow to congressional leaders—and, in a large sense, for failing to be Abraham Lincoln—yet survived his Senate trial. Richard Nixon resigned in August 1974 after the House Judiciary Committee approved three articles of impeachment against him for lying, obstructing justice, and employing his executive power for personal and political gain. Bill Clinton had an affair with a White House intern, but in 1999 he faced trial in the Senate less for that prurient act than for lying under oath about it. In the first book to consider these three presidents alone—and the one thing they have in common—Jeffrey A. Engel, Jon Meacham, Timothy Naftali, and Peter Baker explain that the basis and process of impeachment is more political than legal. The Constitution states that the president “shall be removed from Office on Impeachment for, and Conviction of, Treason, Bribery, or other high Crimes and Misdemeanors,” leaving room for historical precedent and the temperament of the time to weigh heavily on each case. This book reveals the complicated motives behind each impeachment—never entirely limited to the question of a president's guilt—and the risks to all sides. Each case depended on factors beyond the president's behavior: his relationship with Congress, the polarization of the moment, and the power and resilience of the office itself. This is a realist view of impeachment that looks to history for clues about its potential use in the future.

Several books have argued a hypothetical case for impeaching George W. Bush, but Congressman Dennis Kucinich grabbed the bull by the horns and put forward 35 Articles of Impeachment before Congress in June 2008. This book presents all of Kucinich's Articles along with supplementary material that cannot be found in the Congressional Record. Vincent Bugliosi's best-selling *The Prosecution of George W. Bush for Murder* addresses only one of Bush's crimes, while Dennis Kucinich's 35 Articles of Impeachment fully opens the can of worms, proving a case against dozens of executive crimes.

As President Trump's National Security Advisor, John Bolton spent many of his 453 days in the room where it happened, and the facts speak for themselves. The result is a White House memoir that is the most comprehensive and substantial account of the Trump Administration, and one of the few to date by a top-level official. With almost daily

access to the President, John Bolton has produced a precise rendering of his days in and around the Oval Office. What Bolton saw astonished him: a President for whom getting reelected was the only thing that mattered, even if it meant endangering or weakening the nation. "I am hard-pressed to identify any significant Trump decision during my tenure that wasn't driven by reelection calculations," he writes. In fact, he argues that the House committed impeachment malpractice by keeping their prosecution focused narrowly on Ukraine when Trump's Ukraine-like transgressions existed across the full range of his foreign policy—and Bolton documents exactly what those were, and attempts by him and others in the Administration to raise alarms about them. He shows a President addicted to chaos, who embraced our enemies and spurned our friends, and was deeply suspicious of his own government. In Bolton's telling, all this helped put Trump on the bizarre road to impeachment. "The differences between this presidency and previous ones I had served were stunning," writes Bolton, who worked for Reagan, Bush 41, and Bush 43. He discovered a President who thought foreign policy is like closing a real estate deal—about personal relationships, made-for-TV showmanship, and advancing his own interests. As a result, the US lost an opportunity to confront its deepening threats, and in cases like China, Russia, Iran, and North Korea ended up in a more vulnerable place. Bolton's account starts with his long march to the West Wing as Trump and others woo him for the National Security job. The minute he lands, he has to deal with Syria's chemical attack on the city of Douma, and the crises after that never stop. As he writes in the opening pages, "If you don't like turmoil, uncertainty, and risk—all the while being constantly overwhelmed with information, decisions to be made, and sheer amount of work—and enlivened by international and domestic personality and ego conflicts beyond description, try something else." The turmoil, conflicts, and egos are all there—from the upheaval in Venezuela, to the erratic and manipulative moves of North Korea's Kim Jong Un, to the showdowns at the G7 summits, the calculated warmongering by Iran, the crazy plan to bring the Taliban to Camp David, and the placating of an authoritarian China that ultimately exposed the world to its lethal lies. But this seasoned public servant also has a great eye for the Washington inside game, and his story is full of wit and wry humor about how he saw it played.

In the updated 2020 edition of this classic text, Allan J. Lichtman applies his trademark 13 keys to predicting the outcome of presidential elections to every election since 1860 and shows readers the current state of the 2020 race, dispelling much of the mystery behind electoral politics. An indispensable resource for political junkies!

A more-timely-than-ever argument that impeachment is an essential American institution from the author of *Horsemen of the Trumppocalypse*. This surprising and irreverent book by one of America's leading political reporters makes the case that impeachment is much more than a legal and congressional process—it is an essential instrument of America's democratic system. Articles of impeachment have been brought sixty-two times in American history. Thomas Jefferson himself forwarded the evidence for impeachment of the first federal official to be removed under the process—John Pickering in 1803. Impeachment is as American as apple pie. The founders designed impeachment as one of the checks against executive power. As John Nichols reveals in this fascinating look at impeachment's hidden history, impeachment movements—in addition to congressional proceedings themselves—have played an important role in countering an out-of-control executive branch. The threat of impeachment has worked to temper presidential excesses and to reassert democratic values in times of national drift. *The Genius of Impeachment* makes clear that we sorely need such a movement today, and that both the president and vice president deserve impeachment. In the spirit of maverick congressman Henry B. González, who introduced articles of impeachment against both George H. W. Bush and Ronald Reagan for making war without a declaration, this book is a fearless call to Americans to hold our leaders accountable to democracy. "Arguing that regular elections are an insufficient democratic guardian against corrupt officeholders . . . this work relies on its power-to-the-people persona for its appeal." —Booklist

From Wednesday, January 22 to Friday, January 24, 2020, the 100 members of the United States Senate became jurors and listened to members of the United States House of Representatives present a case for the impeachment of President Donald J. Trump. This book serves as a primary source document of the case presented, only the third in American history.

The war in Iraq . . . No bid contracts awarded to Halliburton . . . Hurricane Katrina . . . The CIA leak investigation . . . The story gets worse and worse. The evidence is glaring. George W. Bush's record as a president is abysmal. And it's time to impeach him. *The Case for Impeachment* lays out the reasons why in a straightforward, letter-of-the-law manner. Mixing the cold, hard facts with the lies and deceptions of this administration, *The Case for Impeachment* is a serious consideration of Bush's high crimes and misdemeanors while in office. This important and timely book will serve as a rallying cry for all those fed up with George W. Bush's abuses of power. It's time for the American people and Congress to act. With so much at stake, we have a president whose administration stands out in its criminality and disdain for the rule of law. *The Case for Impeachment* explains the legal history and grounds for impeaching George W. Bush and brings forth more than a half dozen articles of impeachment the likes of: *Lying and inducing Congress and the American people into an unjust war. *Allowing his friends and business cronies to profiteer off the war in Iraq. *Authorizing torture and rendition of prisoners of war and suspected terrorists--a complete violation of the Geneva Conventions, a treaty the U.S. has signed and is therefore part of our law. *Stripping American citizens of their Constitutional rights--holding people with no charge, wiretapping them illegally, offering them no trial, and never allowing them to face their accusers. *Failing in almost every way possible to defend the homeland and our borders. Hard hitting and persuasive in its argument, *The Case for Impeachment* will be one of the most talked-about political books for the pathetic remainder of the Bush Presidency.

Impeachment proceedings continued until early 1799, when the Senate dismissed the impeachment, finding that senators are not subject to the process.

"Impeaching the President is lucid, balanced, and deeply informed. Anyone in search of a reasoned guide to the unreason of our current situation should read it."—Elizabeth

Kolbert, Pulitzer Prize-winning author of *The Sixth Extinction* "Ousting a president is a complicated and uncertain endeavor, according to this perceptive study of impeachments. ... [This book] shrewdly assesses the impeachability of President Trump based on his alleged offenses. ... Hirsch's lucid prose and careful analysis make the book a fine corrective to cavalier popular rhetoric surrounding discussions of impeachment."—Publishers Weekly "A masterpiece for the masses."—Ralph Nader "Amid the partisan passion, an illuminating primer of analysis and context lowers the temperature on this hot-button issue. ... A cogent analysis that builds a common-sense case for proceeding with caution and against using impeachment as a partisan weapon."—Kirkus Reviews "The reader gets a hearty mix of American history, political intrigue, and constitutional law, all adhered with Hirsch's amazing writing. He captures the political chaos surrounding each prior case, yanking the reader out of our present exceptionalism to see the evolution of impeachment with the proper context and clarity. Can't recommend it enough."—Travis Cohen, Brookline Booksmith, MA "In an era when the notion of impeachment is tossed around as the ultimate political indictment, Alan Hirsch guides us with a steady hand through our own history to consider the three presidents who faced that ultimate punishment. This is a sober, precise, and carefully argued analysis that should be read by every member of Congress—and every president."—David K. Shipler, former reporter for the New York Times and Pulitzer Prize recipient "Alan Hirsch brings clarity, wisdom, and wit to a contentious and critical subject. Impeaching the President is must reading for all concerned citizens."—Howard Shapiro, former FBI General Counsel "Incredibly readable, well-researched, analytically sound and important."—Alan B. Morrison, Associate Dean for Public Interest & Public Service at the George Washington Law School Donald J. Trump is only the third president in U.S. history to be impeached. Constitutional scholar Alan Hirsch offers clear and to-the-point guidance for all matters relating to removing a sitting president, including: the Founders' vision for checking presidential power; the impeachment stories of presidents Andrew Johnson, Richard Nixon, and Bill Clinton; wrongdoing in the Trump administration; and the availability of the 25th Amendment and presidential self-pardon. Illustrated throughout with historical engravings, photographs, and other impeachment documentation, this concise, timely, and accessible analysis offers an invaluable perspective on how the Constitution provides stability during times of political upheaval.

"With insight, wisdom, affection, and concern, Sunstein has written the story of impeachment every citizen needs to know. This is a remarkable, essential book." —Doris Kearns Goodwin No one is above the law, not even the president. Impeachment is the most potent tool the founders gave us to ensure it, and yet few of us even know how it works. As Benjamin Franklin famously put it, Americans have a republic, if we can keep it. Preserving the Constitution and the democratic system it supports is the public's responsibility. One route the Constitution provides for discharging that duty—a route rarely traveled—is impeachment. Expanding beyond violations of the law, impeachment was meant to defend against any action that would undermine the foundations of our republic. Harvard Law professor Cass R. Sunstein provides a succinct citizen's guide to this essential tool of self-government. Taking us deeper than mere partisan politics, he illuminates the constitutional design behind impeachment and emphasizes the people's role in holding presidents accountable. In spite of the loud national debate over whether or not the House is right to impeach Trump, impeachment itself remains widely misunderstood. Sunstein identifies and corrects a number of common misconceptions, and describes how impeachment helps is an essential piece of our constitutional order, and a crucial part of the framers' decision to install an empowered executive in a nation deeply fearful of kings. With an eye toward the past and the future, *Impeachment: A Citizen's Guide* considers a host of actual and imaginable arguments for a president's removal, explaining why some cases are easy and others hard, why some arguments for impeachment have been judicious and others not. And with an afterword and appendix on the current impeachment, it puts the national debate in its proper historical context. In direct and approachable terms, it is a guide through the treacherous waters of the impeachment process so that Americans of all political convictions may use their ultimate civic authority wisely.

For the third time in forty-five years, America is talking about impeaching a president, but the impeachment provisions of the American constitution are widely misunderstood. In *High Crimes and Misdemeanors*, constitutional scholar Frank O. Bowman, III offers unprecedented clarity to the question of impeachment, tracing its roots to medieval England through its adoption in the Constitution and 250 years of American experience. By examining the human and political history of those who have faced impeachment, Bowman demonstrates that the Framers intended impeachment to be a flexible tool, adaptable to the needs of any age. Written in a lively, engaging style, the book combines a deep historical and constitutional analysis of the impeachment clauses, a coherent theory of when impeachment should be used to protect constitutional order against presidential misconduct, and a comprehensive presentation of the case for and against impeachment of President Trump. It is an indispensable work for the present moment.

The little understood yet great power of impeachment lodged in the Congress is dissected in this text through history by Raoul Berger, a leading scholar on the subject. He sheds new light on whether impeachment is limited to indictable crimes, on whether there is jurisdiction to impeach for misconduct outside office, and on whether impeachment must precede indictment. Berger also finds firm footing in contesting the views of one-time Judge Robert Bork and President Nixon's lawyer, James St Clair.

"Maybe the question isn't what happened to Alan Dershowitz. Maybe it's what happened to everyone else."—Politico In *Defending the Constitution*, Alan Dershowitz—New York Times bestselling author and one of America's most respected legal scholars—makes an impassioned constitutional argument against the impeachment of President Donald Trump, just as he delivered it to the United States Senate. Alan Dershowitz has been called "one of the most prominent and consistent defenders of civil liberties in America" by Politico and "the nation's most peripatetic civil liberties lawyer and one of its most distinguished defenders of individual rights" by Newsweek. Yet he has come under intense criticism fire for applying those same principles, and his famed "shoe?on?the?other?foot test," to Donald Trump, especially after arguing on the president's behalf before the U.S. Senate as it deliberated impeachment. *Defending the Constitution* seeks to refocus the debate over impeachment to the same standard that Dershowitz has upheld for decades: the law of the United States of America, as established by the Constitution. Citing legal examples from a long lineage of distinguished judges and attorneys, and examining the impeachment language in the Constitution itself, Dershowitz proves—first to the U.S. Senate, and now to readers everywhere—that President Trump should not have been impeached, and certainly should not be removed, for causes that do not meet the standards laid out by the founding fathers. This book is Alan Dershowitz's argument for a return to nonpartisan judgment based on the

Where To Download The Case For Impeachment

Constitution, for a preservation of the separation of powers and the checks and balances that make American government great. It is essential reading for anyone interested in or concerned about the impeachment of President Trump, and for everyone who cares about the future of U.S. government and society.

NATIONAL BESTSELLER "Lichtman has written what may be the most important book of the year." —The Hill "It is still striking to see the full argument unfold and realize that you don't have to be a zealot to imagine some version of it happening... Lies. Abuse of power. Treason. Crimes against humanity. Martial law. Lichtman throws everything Trump's way.." —Washington Post Professor Allan J. Lichtman, who has correctly forecasted thirty years of presidential outcomes, makes the case for impeaching the 45th president of the United States, Donald J. Trump In the fall of 2016, Distinguished Professor of History at American University Allan J. Lichtman made headlines when he predicted that Donald J. Trump would defeat the heavily favored Democrat, Hillary Clinton, to win the presidential election. Now, in clear, nonpartisan terms, Lichtman lays out the reasons Congress could remove Trump from the Oval Office: his ties to Russia before and after the election, the complicated financial conflicts of interest at home and abroad, and his abuse of executive authority. The Case for Impeachment also offers a fascinating look at presidential impeachments throughout American history, including the often-overlooked story of Andrew Johnson's impeachment, details about Richard Nixon's resignation, and Bill Clinton's hearings. Lichtman shows how Trump exhibits many of the flaws (and more) that have doomed past presidents. As the Nixon Administration dismissed the reporting of Bob Woodward and Carl Bernstein as "character assassination" and "a vicious abuse of the journalistic process," Trump has attacked the "dishonest media," claiming, "the press should be ashamed of themselves." Historians, legal scholars, and politicians alike agree: we are in politically uncharted waters—the durability of our institutions is being undermined and the public's confidence in them is eroding, threatening American democracy itself. Most citizens—politics aside—want to know where the country is headed. Lichtman argues, with clarity and power, that for Donald Trump's presidency, smoke has become fire.

Originally published at the height of the Watergate crisis, Charles Black's classic Impeachment: A Handbook has long been the premier guide to the subject of presidential impeachment. Now thoroughly updated with new chapters by Philip Bobbitt, it remains essential reading for every concerned citizen. Praise for Impeachment: "To understand impeachment, read this book. It shows how the rule of law limits power, even of the most powerful, and reminds us that the impact of the law on our lives ultimately depends on the conscience of the individual American."--Bill Bradley, former United States senator "The most important book ever written on presidential impeachment."--Lawfare "A model of how so serious an act of state should be approached."--Wall Street Journal "A citizen's guide to impeachment. . . . Elegantly written, lucid, intelligent, and comprehensive."--New York Times Book Review "The finest text on the subject I have ever read."--Ben Wittes

"A brilliant lawyer...A new and very important book. I would encourage all people...to read!"—President Donald J. Trump "Absolutely amazing.... If you care about justice...read this book."—Sean Hannity "Maybe the question isn't what happened to Alan Dershowitz. Maybe it's what happened to everyone else."—Politico Alan Dershowitz has been called "one of the most prominent and consistent defenders of civil liberties in America" by Politico and "the nation's most peripatetic civil liberties lawyer and one of its most distinguished defenders of individual rights" by Newsweek. Yet he has come under partisan fire for applying those same principles to Donald Trump during the course of his many appearances in national media outlets as an expert resource on civil liberties and constitutional law. The Case Against Removing Trump seeks to reorient the debate over impeachment to the same standard that Dershowitz has continued to uphold for decades: the law of the United States of America, as established by the Constitution. In the author's own words: "In the fervor to impeach President Trump, his political enemies have ignored the text of the Constitution. As a civil libertarian who voted against Trump, I remind those who would impeach him not to run roughshod over a document that has protected us all for two and a quarter centuries. In this case against impeachment, I make arguments similar to those I made against the impeachment of President Bill Clinton (and that I would be making had Hillary Clinton been elected and Republicans were seeking to impeach her). Impeachment and removal of a president are not entirely political decisions by Congress. Every member takes an oath to uphold the Constitution of the United States, and the Constitution sets out specific substantive criteria that MUST be met. I am thrilled to contribute to this important debate and especially that my book will be so quickly available to readers so they can make up their own minds."

INSTANT NEW YORK TIMES BESTSELLER Why President Trump has left us with no choice but to remove him from office, as explained by celebrated Supreme Court lawyer and former Acting Solicitor General Neal Katyal. No one is above the law. This belief is as American as freedom of speech and turkey on Thanksgiving—held sacred by Democrats and Republicans alike. But as celebrated Supreme Court lawyer and former Acting Solicitor General Neal Katyal argues in Impeach, if President Trump is not held accountable for repeatedly asking foreign powers to interfere in the 2020 presidential election, this could very well mark the end of our democracy. To quote President George Washington's Farewell Address: "Foreign influence is one of the most baneful foes of republican government." Impeachment should always be our last resort, explains Katyal, but our founders, our principles, and our Constitution leave us with no choice but to impeach President Trump—before it's too late.

We still imagine ourselves a nation of laws, not of men. This is not merely an article of faith but a bedrock principle of the United States Constitution. Our founding compact provides a remedy against rulers supplanting the rule of law, and Andrew C. McCarthy makes a compelling case for using it. The authors of the Constitution saw practical reasons to place awesome powers in a single chief executive, who could act quickly and decisively in times of peril. Yet they well understood that unchecked power in one person's hands posed a serious threat to liberty, the defining American imperative. Much of the debate at the Philadelphia convention therefore centered on how to stop a rogue executive who became a law unto himself. The Framers vested Congress with two checks on presidential excess: the power of the purse and the power of impeachment. They are potent remedies, and there are no others. It is a straightforward matter to establish that President Obama has committed "high crimes and misdemeanors," a term signifying maladministration and abuses of power by holders of high public trust. But making the legal case is insufficient for successful impeachment, leading to removal from office. Impeachment is a political matter and hinges on public opinion. In Faithless Execution, McCarthy weighs the political dynamics as he builds a case, assembling a litany of abuses that add up to one overarching offense: the president's willful violation of his solemn oath to execute the laws faithfully. The "fundamental transformation" he promised involves concentrating power into his own hands by flouting law—statutes, judicial rulings, the Constitution itself—and essentially daring the other branches of government to stop him. McCarthy contends that our elected representative are duty-bound to take up the dare.

As Congress prepares articles of impeachment of President Trump, read the definitive book on presidential impeachment and how it should be used today. Impeachment is our ultimate constitutional check against an out-of-control executive. But it is also a perilous and traumatic undertaking for the nation. In this authoritative examination, Laurence Tribe and Joshua Matz rise above the daily clamor to illuminate impeachment's proper role in our age of broken politics. Now revised with a new epilogue, To End a Presidency is an essential book for anyone seeking to understand how this fearsome power should be deployed.

One of America's most celebrated lawyers and a Democrat explains why impeachment proceedings would be a bad idea for America?and only intensify the larger problem with our democracy. In the 2018 New York Times bestseller The Case Against Impeaching Trump, Alan Dershowitz lamented how American political discourse has devolved into hypocrisy and the criminalization of political differences in the rush to impeach President Donald Trump. Arguments to impeach Trump failed Dershowitz's "shoe on the other

foot test,” or his political golden rule: Democrats must do unto Republicans what they would have Republicans do unto them, and vice versa. Since then, we’ve only become more divided—and the impeachment power wielded by the new Democratic majority in the House of Representative threatens to further polarize the country. The Case Against the Democratic House Impeaching Trump includes and expands upon Dershowitz’s 2018 book. It puts recent political events—including the hyper-partisan Kavanaugh hearings, the unrestrained power of the Mueller investigation, and the generally intolerant current political discourse—into context. American democracy, Dershowitz argues, is suffering from political hypocrisy. And two years of impeachment proceedings brought by the House—and the media circus that would undoubtedly surround them—is clearly not the answer. This book is Alan Dershowitz’s plea for honest dialogue—for arguments that would be made even if the shoe was on the other foot.

The complete riveting transcript of the historic case against the president for igniting the January 6 siege of the Capitol “Stop the steal.” “The inciter in chief.” “The January exception.” “Fight like hell.” “The Framers’ worst nightmare.” “Our President wants us here.” “Is this America?” “President Trump may not know a lot about the framers, but they certainly knew a lot about him.” The second impeachment trial of President Donald J. Trump, following the norm-shattering attempt by his followers to disrupt the peaceful transfer of power, seared a new lexicon into our collective consciousness and marked a watershed moment in American history. The case, presented to the Senate by impeachment managers from the House, marked a bravura performance by members of Congress who were themselves the targets of the rioters incited by the president only days earlier. Including the full text of the arguments made over four days by the nine House representatives led by Representative Jamie Raskin, and also the full text of Trump’s defense—as well as charts and graphs entered as evidence, and stills from the videos presented— Prosecution of an Insurrection preserves for posterity an episode that ranks with the McCarthy Hearings, Watergate, and the Iran/Contra Investigation for its importance in American political history.

"In his behind-the-scenes account of the attempts to bring the president to justice--from filing the very first legal actions against him, through the Mueller report, to the turbulent impeachment and trial, to the president's ongoing wrongdoing today--Norman Eisen, at the forefront of the battle since the day of Trump's inauguration, pulls back the curtain on the process. He reveals ten proposed articles of impeachment, not just the two that were publicly tried, all of which he had a hand in drafting. He then guides us through Trump's lifelong instincts that have dictated his presidency: a cycle of abuse, corruption, and relentless obstruction of the truth"--Dust jacket flap.

A Vintage Short Original On Wednesday January 21st, Chairman of the House Intelligence Committee Rep. Adam Schiff opened the impeachment trial of Donald Trump by delivering a powerful address. Schiff laid out the case against Trump and the facts of the inquiry. Vigorous and galvanizing, this ebook short prints the entirety of Schiff's opening argument: Trump's actions constituted an abuse of power and an obstruction of Congress.

An account of the attempt to remove Andrew Johnson from the presidency. It demolishes the myth that Johnson's impeachment was unjustified.
