The Celestine Vision Living the New Spiritual Awareness Grand Central Publishing

THE #1 BESTSELLING INTERNATIONAL PHENOMENON - NOW WITH A NEW PREFACE You have never read a book like this before--a book that comes along once in a lifetime to change lives forever. In the rain forests of Peru, an ancient manuscript has been discovered. Within its pages are 9 key insights into life itself -- insights each human being is predicted to grasp sequentially; one insight, then another, as we move toward a completely spiritual culture on Earth. Drawing on ancient wisdom, it tells you how to make connections among the events happening in your life right now and lets you see what is going to happen to you in the years to come. The story it tells is a gripping one of adventure and discovery, but it is also a guidebook that has the power to crystallize your perceptions of why you are where you are in life and to direct your steps with a new energy and optimism as you head into tomorrow. Praise for The Celestine Prophecy "A gripping adventure story filled with intrigue, suspense, and spiritual revelations." - Commonwealth Journal "A spiritual classic...a book to read and reread, to cherish, and to give to friends." - Joan Borysenko, PhD, author of Fire in the Soul "In his inimitable style of great storytelling, Redfield opens us up to a world of insight, inspiration, synchronicity, and power." - Deepak Chopra

Griffiths narrative moves like a searchlight over each phase of church history, illuminating the visions, options, and choices behind events. He traces the rise of a dominator version of Christianity, in which the primary concern was a chain of command to be followed, with rewards or punishments according to the degree of obedience. And beside this he illuminates another face of Christianity, concerned with healing all divisions between loved and unloved people. The story Griffith presents is often deeply disturbing, as in his unflinching accounts concerning the gospel for women, or the age of holy wars and witch hunts. But ultimately his story offers solid grounds for optimism. He shows that all contention between different religious visions can be a process of building partnership. As Griffith points out, Jesus himself wished to debate his opponents openly, not to silence or eliminate them. He was not afraid of real encounter, or the potential of creative conflict. I want to congratulate Brian Griffith on this masterful, controversial, and highly readable account. His book offers hope in a divided world, where reaction against globalized godless corporate secularism meets with a war on religious fundamentalism. I hope to see other writers do comparable work in highlighting the partnership and dominator visions within their religious traditions around the world. Riane Eisler, author of The Chalice & the Blade, Sacred Pleasure, Tomorrows Children, The Power of Partnership, The Real Wealth of Nations "I find it gives me an incredibly clarifying perspective on Christianity way beyond my previous understanding. It should be read by everyone with an interest in Western Civilization. It is a marvelous companion to The Great Turning." David Korten, author of The Great Turning: From Empire to Earth Community

Transformative learning involves experiencing a deep, structural shift in the basic premises of thought, feelings, and actions. It is a shift of consciousness that dramatically and permanently alters our way of being in the world. Such a shift involves our understanding of ourselves and our self-locations; our relationships with other humans and with the natural world; our understanding of relations of power in interlocking structures of class, race and gender; our body awarenesses; our visions of alternative approaches to living; and our sense of possibilities for social justice and peace and personal joy. The editors of this collection make several challenges to the existing field of transformative learning - the first is to theoreticians, who have attempted to describe the nature of transformative learning without regard to the content of transformative learning. The editors argue that transformative learning theory cannot be constructed in a content-neutral or context-free way. Their second challenge, which assumes the importance content for transformative learning, is to educators as practitioners. The editors argue that transformative learning requires new educational practices consistent with the content. Arts-based research and arts-based teaching/learning practices are one example of such new educational practices. Education for the soul, or spiritual practices such as meditation or modified martial arts or indigenous peoples' forms of teaching/learning, is another example. Each article in the collection presents a possible model of these new practices.

Based on a reading of more than three hundred self-help books, Sandra K. Dolby examines this remarkably popular genre to define "self-help" in a way that's compelling to academics and lay readers alike. Self-Help Books also offers an interpretation of why these books are so popular, arguing that they continue the well-established American penchant for self-education, articulate problems of daily life and supposed solutions for them, and present their content in an accessible rather than arcane form and style. Using methods associated with folklore studies, Dolby then examines how the genre makes use of stories, aphorisms, and a worldview that is at once traditional and contemporary. The overarching premise of the study is that self-help books, much like fairy tales, take traditional materials, especially stories and ideas, and recast them into extended essays that people happily read, think about, try to apply, and then set aside when a new embodiment of the genre comes along.

Based on his personal experiences, the author of "The Celestine Prophecy" and "The Tenth Insight" shares his vision for--and explains how to achieve--a new era of global peace and understanding.

In a world racked by violence and conflict, James Redfield and Michael Murphy—leading cocreators of today's spiritual boom—present a message of hope and a vision for the future. It is no accident, they argue, that the twentieth and early twenty-first centuries have witnessed a revolution in new human capacities. Daily we hear and read about supernormal athletic feats; clairvoyant perception; lives transformed by meditative practices; healing through prayer—and we ourselves experience these things. The authors contend that thousands of years of human striving have delivered us to this very moment, in which each act of self-development is creating a new stage in planetary evolution—and the emergence of a human species possessed of vastly expanded potential.

Running with the Fairies: Towards a Transpersonal Anthropology of Religion is a unique account of the living spirituality and mysticism of fairyfolk in Ireland. Fairyfolk are fairyminded people who have had direct experiences with the divine energy and appearance of fairies, and fairypeople, who additionally know that they have been reincarnated from the Fairy Realm. While fairies have been folklore, superstition, or fantasy for most children and adults, now for the first time in a scholarly work, highly educated persons speak frankly about their religious/spiritual experiences, journeys, and transformations in connection with these angel-like spirit beings. Set in academic and popular historical perspectives, this first scholarly account of the Fairy Faith for over a hundred years, since believer Evans-Wentz's 1911 published doctoral dissertation The Fairy-Faith in Celtic Countries, integrates a participatory, "going native" anthropology with transpersonal psychology. Providing extensive verbatim interviews and discussions, this path-breaking work recognizes the reality of nature spirit beings in a Western context. Through intensive on-site fieldwork, the PhD cultural anthropologist author discovers, describes and interviews authentic mystics aligned with these intermediary deific beings. With an extensive introduction placing fairies in the context of the anthropology of religion, animism, mysticism, and consciousness, this daring ethnography considers notions of "belief", "perception", and spiritual "experience", and with intricate detail extends the focus of anthropological research on spirit beings which previously have been considered as locally real only in indigenous and Eastern cultures.

The purpose of this book is to share a revelation. The information on which this revelation is based came from the Universal Mind (God). It came in whispers. It came through dreams. It came when experiencing the heightened awareness of meditation or hypnotic trance or mental imagery. It was often received in the form of startling intuition. The vehicle for presenting this revelation is the story of one person's developmental journey from simple consciousness to cosmic awareness. The main character (Gregg) arrives at a potent juncture in his life where all the negatives and positives seem to feed into a central purpose. The more he learns, the more he is able to see. Events in his life that are "no coincidence" become ever more frequent and lead him to significant discoveries. These discoveries accumulate and one day they result in a powerful flash of insight that he instantly knows is something vitally important for peace in the world and the ultimate survival of human life.

U.S. foreign policy has undergone seven cycles of fluctuating political commitment to the moral principles at the heart of U.S. national identity. Under President Clinton, Salla asserts, the U.S. achieved a "grand synthesis" of power and morality, thereby making possible a more interventionist foreign policy in response to current global challenges.

The JOURNEY OF RAINSNOW, centuries in the making, yet destined for our own times, is an extraordinary book, at the same time personal and universal, private and planetary. THE JOURNEY OF RAINSNOW is the story of one man's mystical odyssey of self-discovery, as he leaves behind the fetters of his "rational" past, to map out a new territory of life within his heart. It is a story which moves from the hard, practical streets of New York City, to a New Age awakening,

driven by paranormal experiences, powerful synchronicities, and a vivid stream of past-life memories, which give us glimpses of times and places as diverse as ancient Egypt and Greece, feudal Japan and imperial China, Maya and Aztec Mexico, Native North America, and Nazi Germany. As the adventure unfolds, so, too, do history's most critical lessons, and the deepest mysteries of life. THE JOURNEY OF RAINSNOW, destined to be a New Age classic, is truly a must read for anyone immersed in the search for life's meaning; for anyone committed to the struggle of our world to heal and survive.

You begin your quest with "The Celestine Prophecy," a parable that reads like a gripping adventure tale. Here you discover that an ancient Peruvian manuscript has disappeared. Although few Westerners know of its existence and a government wants to suppress it, this precious document contains an important secret: the nine Insights the human race is predicted to grasp as we enter an era of true spiritual awareness. To find the manuscript, you will journey high into the Andes mountains and into the deepest places of the self. When the last of the nine Insights is revealed to you, you will have an exciting new image of human life, and a positive vision of how we will save this planet, its creatures and its beauty. But one Insight will still be missing...

On December 21, 2012, the Mayan calendar will end. Many see it as an apocalyptic sign. But is it? In The Twelfth Insight, the long-awaited fourth book in the beloved Celestine Series, we again follow our Hero and his close friend Wil. They have just received a portion of another ancient and mysterious manuscript that describes a secret approach to spirituality that is silently arriving in the second decade of the 21st Century. But the manuscript is only available in fragments. To understand its full meaning for mankind, our Hero and Wil begin an urgent search to find the message in its entirety. As they embrace the power of Synchronicity and begin their search, they are confronted by powerful political forces and religious extremists that stand in the way of these spiritual revelations. Utilizing what he calls the "parable effect," and based on his own sources, James Redfield explores the similarities and differences that exist among the world religions, revealing the essential messages contained within them that can energize our experience of spirituality-- and produce a new wave of integrity and reform that can transform our lives and our world.

This book contains several different levels of meaning, each with its own episodes of adventure, intrigue, and message. The levels of discourse also can be seen as various stages in the sojourn of the main character, Gregg, from simple consciousness to cosmic awareness. Several vehicles help Gregg reach his epiphanies, including dreams, meditation, coincidences, and two near-death experiences. A visit to Greece that included stops at the Delphic Oracles historic site and Agamemnon's tomb greatly expanded his perceptive abilities. While standing inside the beehive-shaped tomb, he felt he had been "slammed through a time warp to a new level of awareness," which he would later describe as "holographic awareness." The group dynamics revelation that he divined or rediscovered through intuition, dreams and meditation is certainly important enough in itself as it sheds light on many of the social ills of our day. But the real power and value of this book is that it demonstrates how one person can and does reach higher levels of awareness and being. Riding with the Phoenix provides fresh insights on and linkages to new research and understanding about human awareness. It serves as a metaphor for the increasing consciousness of the entire human species so necessary in these times of the augmenting and unresolved transboundary and transcultural dilemmas that we face.

Continuing the exciting adventures of The Celestine Prophecy and The Tenth Insight, this new book takes you to the snow-covered Himalayas, in search of the legendary Tibetan utopia of Shambhala. As you follow a child's instructions, are pursued by hostile Chinese agents, and look for a lost friend, you will experience a new awareness of synchronicity...and discover, hidden among the world's highest mountains, the secrets that affect all humanity. For Shambhala not only actually exists, but is destined to be found in our time--and will reveal powerful truths that can transform the world.

The Encyclopedia of Religion and Nature, originally published in 2005, is a landmark work in the burgeoning field of religion and nature. It covers a vast and interdisciplinary range of material, from thinkers to religious traditions and beyond, with clarity and style. Widely praised by reviewers and the recipient of two reference work awards since its publication (see [www.religionandnature.com/ern](http://www.religionandnature.com/ern)), this new, more affordable version is a must-have book for anyone interested in the manifold and fascinating links between religion and nature, in all their many senses.

THE MESSAGE OF RAINSNOW, a book which stands by itself, is the inspirational and practical sequel to THE JOURNEY OF RAINSNOW. While the first book presented an esoteric chronicle filled with insights for our times, THE MESSAGE OF RAINSNOW crystallizes the unfolding consciousness of THE JOURNEY into a pragmatic blueprint for achieving global transformation. As many other books, it upholds the values of community, spirituality, and respect for nature, seeing, in these elements, the pillars of our collective salvation. Unlike other books, however, this one seeks not only to promote these invaluable ideals, but to build a concrete bridge from where we are now, to where we must go: to the new world of the future in which these cherished, but distant, ideals will finally become reality. Most importantly of all, THE MESSAGE OF RAINSNOW seeks to awaken, and to create the living people who will become the embodiment of these indispensable ideals: the advanced guard of our world's march to life. It is a journey, and a privilege, which begins by reading this book.

In his bestselling book, THE SEAT OF THE SOUL, Gary Zukav's driving concept was 'multi-sensory perception', an innate sense that allows people to experience the world beyond the five senses, to listen harder to who they are and ultimately to save one's life. Now in SOUL STORIES, Gary Zukav brings this concept and many others vividly alive, with marvellous true stories of how they manifest themselves in individual lives. This book is enormously practical in the way the author builds on each specific story to a discussion of its application to the reader's needs, leading to a deeper understanding of authentic power and inner peace. And best of all, it is wonderfully readable and even more accessible than THE SEAT OF THE SOUL.

Rudolf Nureyev had it all: beauty, genius, charm, passion, and sex appeal. No other dancer of our time has generated the same excitement, for both men and women, on or off the stage. With Nureyev: The Life, Julie Kavanagh shows how his intense drive and passion for dance propelled him from a poor, Tatar-peasant background to the most sophisticated circles of London, Paris, and New York. His dramatic defection to the West in 1961 created a Cold War crisis and made him an instant celebrity, but this was just the beginning. Nureyev spent the rest of his life breaking barriers: reinventing male technique, "crashing the gates" of modern dance, iconoclastically updating the most hallowed classics, and making dance history by partnering England's prima ballerina assoluta, Margot Fonteyn--a woman twice his age. He danced for almost all the major choreographers--Frederick Ashton, George Balanchine, Kenneth MacMillan, Jerome Robbins, Maurice Béjart, Roland Petit--his main motive, he claimed, for having left the Kirov. But Nureyev also made it his mission to stage Russia's full-length masterpieces in the West. His highly personal productions of Swan Lake, The Nutcracker, Raymonda, Romeo and Juliet, and La Bayadère are the mainstays of the Paris Opéra Ballet repertory to this day. An inspirational director and teacher, Nureyev was a Diaghilev-like mentor

to young protégés across the globe--from Karen Kain and Monica Mason (now directors themselves), to Sylvie Guillem, Elisabeth Platel, Laurent Hilaire and Kenneth Greve. Sex, as much as dance, was a driving force for Nureyev. From his first secret liaison in Russia to his tempestuous relationship with the great Danish dancer Erik Bruhn, we see not only Nureyev's notorious homosexual history unfold, but also learn of his profound effect on women--whether a Sixties wild child or Jackie Kennedy and Lee Radziwill or the aging Marlene Dietrich. Among the first victims of AIDS, Nureyev was diagnosed HIV positive in 1984 but defied the disease for nearly a decade, dancing, directing the Paris Opéra Ballet, choreographing, and even beginning a new career as a conductor. Still making plans for the future, Nureyev finally succumbed and died in January 1993. Drawing on previously undisclosed letters, diaries, home-movie footage, interviews with Nureyev's inner circle, and her own dance background, Julie Kavanagh gives the most intimate, revealing, and dramatic picture we have ever had of this dazzling, complex figure. NOTE: This edition does not include photos.

We all face adversity, both man-made and natural. How do we survive the loss of a loved one, a betrayal, illness, even impending death, and still find meaning in our lives? Even a "normal" life can seem empty, in spite of material possessions, success, power, and pleasure. In our search for fulfillment and meaning, we work through our past and present conflicts, cuddle our inner child, and redesign our outer adult. We attend workshops on life and secular spirituality and explore the comforts of traditional religion. We get married and divorced, experiment with drugs and alcohol, change jobs. And while our restlessness and unease may abate temporarily, the hollow feeling that there is something missing always returns. In his profound and accessible work, *The Art of Serenity: The Path to a Joyful Life in the Best and Worst of Times*, Dr. T. Byram Karasu offers us the key to an extraordinary state of mind -- authentic, soulful happiness -- in the face of everything our life has to offer and take away. The door to this state of mind is opened by a combination of soul and spirit. It involves the soul through the love of others, love of work, and the love of community. It involves the spirit through belief in the sacred and belief in transformation. It culminates in the love of and belief in God. Brilliantly synthesizing psychology and spirituality, Dr. Karasu will guide you to explore the deepest yearnings of your heart. There is no end to the journey to real happiness; there is no best place to start or best time to begin. So where and when to start? Start here, where you are, and start now.

In this perceptive guidebook, Dr. Marilyn Barrick discusses the Indigo, Crystal and Spirited children, their mission to help Earth fulfill her divine destiny and the special challenges to the parents raising these extraordinary children.

In this step-by-step guide James Redfield begins his exploration of the emerging interest in spirituality around the globe. Beginning with a survey of the most common synchronistic experiences, he shows how those interested in broadening their spiritual perception can actually experience for themselves the shifts in consciousness that are changing the human world. Described as the most direct explanation of the new world vision presented in the phenomenally successful Celestine fiction series, this fascinating and illuminating book reveals the author's inside view of how we are discovering the transcendent in our everyday existence and interpreting our individual synchronicity to find our destined purpose in life. Based on James Redfield's own experiences and those reported to him from every corner of the world since the writing of *The Celestine Prophecy* and *The Tenth Insight*, this book describes the first-hand growth techniques Celestine fans everywhere are looking for - perfectly setting the stage for the next remarkable book in the Celestine series, *The Eleventh Insight*.

"Tapestry" is a collection of short stories, poetry and prose that illustrates one man's struggle to maintain his individuality and reconnect with his spirituality. It transcends gender, race, etc. Its barebones honesty and sensitivity make it inspiring and entertaining.
