Omnia Sunt Communia Doctor Massimo De Angelis,2017-04-15 In this weaving of radical political economy, Omnia Sunt Communia sets out the steps to postcapitalism. By conceptualising the commons not just as common goods but as a set of social systems, Massimo De Angelis shows their pervasive presence in everyday life, mapping out a strategy for total social transformation. From the micro to the macro, De Angelis unveils the commons as fields of power relations – shared space, objects, subjects – that explode the limits of daily life under capitalism. He exposes attempts to co-opt the commons, through the use of code words such as 'participation' and 'governance', and reveals the potential for radical transformation rooted in the reproduction of our communities, of life, of work and of society as a whole.

Spanish Books in the Europe of the Enlightenment (Paris and London) Nicolás Bas Martín,2018-02-12 In Spanish Books in the Europe of the Enlightenment (Paris and London) Nicolás Bas examines the image of Spain in eighteenth-century Europe, and in Paris and London in particular. His material has been scoured from an exhaustive interrogation of the records of the book trade. He refers to booksellers' catalogues, private collections, auctions, and other sources of information in order to reconstruct the country's cultural image. Rarely have these sources been searched for Spanish books, and never have they been as exhaustively exploited as they are in Bas' book. Both England and France were conversant with some very negative ideas about Spain. The Black Legend, dating back to the sixteenth century, condemned Spain as repressive and priest-ridden. Bas shows however, that an alternative, more sympathetic, vision ran parallel with these negative views. His bibliographical approach brings to light the Spanish books that were bought, sold and ultimately read. The impression thus obtained is likely to help us understand not only Spain's past, but also something of its present.

International Human Rights Law in a Global Context Felipe Gómez Isa,Koen de Feyter,2009-01-01 The international human rights system remains as dynamic as ever. If at the end of the last century there was a sense that the normative and institutional development of the system had been completed and that the emphasis should shift to issues of implementation, nothing of the sort occurred. Even over the last few years significant changes happened, as this book amply demonstrates. We hope that this Manual makes a contribution to the development of International Human Rights Law and is of interest for those working in the field of promotion and protection of human rights. The book is the result of a joint project under the auspices of HumanitarianNet, a Thematic Network led by the University of Deusto, and the European Inter-University Centre for Human Rights and Democratisation (EIUC, Venice).

The Darkest Secret Alex Marwood, 2016-08-30 “If there has been a better mystery-suspense story written in this decade, I can’t think of it . . . transcend[s] the genre.” —Stephen King “A cruel and cunning mystery . . . Plot-twisting, mind-altering and monstrously funny.” —The New York Times Book Review The latest gripping psychological thriller from Edgar Award winner Alex Marwood When a child goes missing at an opulent house party, it makes international news. But what really happened behind those closed doors? Twelve years ago, Mila Jackson’s three-year-old half-sister Coco disappeared during their father’s fiftieth birthday celebration, leaving behind her identical twin Ruby as the only witness. The girls’ father, Sean, was wealthy and influential, as were the friends gathered at their seaside vacation home for the weekend’s debauchery. The case ignited a media frenzy and forever changed the lives of everyone involved. Now, Sean Jackson is dead, and the people who were present that terrible night must gather once more for a funeral that will reveal that the secrets of the past can never stay hidden. Perfectly paced all the way through its devastating conclusion, *The Darkest Secret* is one that fans of Gillian Flynn and Liane Moriarty won’t be able to put down.

Bad Beliefs Neil Levy, 2022-01-30 Why do people come to reject climate science or the safety and efficacy of vaccines, in defiance of the scientific consensus? A popular view explains bad beliefs like these as resulting from a range of biases that together ensure that human beings fall short of being genuinely rational animals. This book presents an alternative account. It argues that bad beliefs arise from genuinely rational processes. We’ve missed the rationality of bad beliefs because we’ve failed to recognize the ubiquity of the higher-order evidence that shapes beliefs, and the rationality of being guided by this

evidence. The book argues that attention to higher-order evidence should lead us to rethink both how minds are best changed and the ethics of changing them: we should come to see that nudging - at least usually - changes belief (and behavior) by presenting rational agents with genuine evidence, and is therefore fully respectful of intellectual agency. We needn't rethink Enlightenment ideals of intellectual autonomy and rationality, but we should reshape them to take account of our deeply social epistemic agency--

Subjective Lives and Economic Transformations in Mongolia Rebecca M. Empson,2020-06-01 Almost 10 years ago

the mineral-rich country of Mongolia experienced very rapid economic growth, fuelled by China's need for coal and copper. New subjects, buildings, and businesses flourished, and future dreams were imagined and hoped for. This period of growth is, however, now over. Mongolia is instead facing high levels of public and private debt, conflicts over land and sovereignty, and a changed political climate that threatens its fragile democratic institutions. *Subjective Lives and Economic Transformations in Mongolia* details this complex story through the intimate lives of five women. Building on long-term friendships, which span over 20 years, Rebecca documents their personal journeys in an ever-shifting landscape. She reveals how these women use experiences of living a 'life in the gap' to survive the hard reality between desired outcomes and their actual daily lives. In doing so, she offers a completely different picture from that presented by economists and statisticians of what it is like to live in this fluctuating extractive economy.
