They will be found very valuable to the amateur funeral director and undertaker. The questions on Sanitary Science, Disinfection and Dis infectants, have been arranged in order, and cover every ques tion that can in fairness be asked by any examining board, and the answers have been so worded as to convey to the stu dent all the information necessary in the pursuit of that part of his calling relating to sanitation and disinfection, and to enable him to convince the board that he is possessed of a sufficient knowledge of sanitary science, so
