

The Essentials Of Greek Grammar A Reference For Intermediate Readers Of Attic Greek Oklahoma Series In Classical Culture Series

This book invites you to see not only how Hellenistic Koine ought to be pronounced but also why. Rigorously investigating the history of Greek orthography and sounds from classical times to the present, the author places linguistic findings on one side of the scale and related events on the other. The result is a balance between the evidence of the historical Greek sounds in Koine and pre-Koine times, and the political events that derailed those sounds as they were being transported through Europe's Renaissance academia and replaced them with Erasmian. This book argues for a return to the historical Greek sounds now preserved in Neohellenic (Modern Greek) as a step toward mending the Erasmian dichotomy that rendered post-Koine Greek irrelevant to New Testament Greek studies. The goal is a holistic and diachronic application of the Hellenic language and literature to illumine exegetically the Greek text, as the New Testament contains numerous features that have close affinity with Neohellenic and should not be left unexplored.

This logical, developmental presentation of the major aspects of modern Greek grammar includes all the necessary tools for speech and comprehension.

Designed for adults with limited learning time who wish to acquire the basics of everyday modern Greek, this grammar features numerous shortcuts and timesavers. Ideal as an introduction, supplement, or refresher.

Designed for intermediate-level students, this textbook presents an outline of the essential forms and syntax of ancient Attic Greek. A perfect supplement to Louise Pratt's *Eros at the Banquet*, it also stands alone as a useful resource for any student seeking to move beyond the basics of Greek into the exciting experience of reading classical literature in its original language. The *Essentials of Greek Grammar* is based on the author's many years of classroom experience and on the handouts she developed and fine-tuned to supplement a variety of textbooks and approaches. In part 1 of the volume, Pratt covers the following: morphology and parts of speech in increasing order of complexity, from articles and pronouns through adjectives; active and passive participles; nouns, with a summary of endings and examples of the three declensions; verbs, with summaries and examples of regular and irregular forms. Part 2 presents syntax, moving from the relatively straightforward case uses of nouns and pronouns, to the uses and positions of adjectives and the complexities of verb types and moods. Pratt also

includes miscellaneous figures of speech and a handy appendix listing two hundred common Attic verbs and their principal parts.

This Greek grammar utilizes modern linguistic principles for equipping students to understand the Greek New Testament. This new edition also includes: a clear distinction between essentials and nonessentials; concentration on mastering specific "sub-skills"; memorization aids, such as vocabulary grouping; creative exercises drawn directly from the New Testament; focus on forms that occur often in the New Testament. --from publisher description

A recognized expert in Greek grammar examines two features of the Greek verb: voice and mood. Drawing on his years of teaching experience at a leading seminary, David Mathewson examines these two important topics in Greek grammar in light of modern linguistics and offers fresh insights. The book is illustrated with examples from the Greek New Testament, making it an ideal textbook for the intermediate Greek classroom. This is the first volume in a new series on Greek grammar edited by Stanley E. Porter.

An Outline of Greek Accidence gives in brief compass a complete tabulation of the basic elements of Greek grammar. All the essentials are included, from the declensions of nouns and adjectives to numerals, adverbs, the conjugation of verbs and the uses of prepositions. It is a perfect handbook for beginners. Usable Greek helps for all New Testament students, from novice to veteran. This is a print on demand book and is therefore non- returnable. This volume will prove very useful to those who already have, or are in the process of gaining, a basic knowledge of the principles of New Testament Greek grammar. The charts and text included here will assist students in seeing the logical relationships between the various forms of the most important parts of speech included in the study of New Testament Greek. When students see the logical relationships that exist, their workload will be lightened; rather than memorizing hundreds of different forms, students need commit to memory only certain basic forms and only those principles that are necessary to construct other related forms -- plus the exceptions to those principles and forms where they exist. A further purpose of this work is to provide a refresher course for students who have already taken elementary Greek but find themselves in need of a simplified reference work.

The best-selling and most widely accepted New Testament Greek textbook has just gotten better. The author has made the book more user-friendly and offers options to professors, particularly enabling them to introduce Greek verbs earlier as well as offering some made-up sentences to challenge the students.

This workbook is made for foreigners who learn Greek. The most significant verbs and their declination can be found here, along with their explanation in English. With this workbook every student who speaks English can practice every tense of the active voice verbs in modern Greek. The translation from Greek to English is actually an explanation of Greek grammar and in general of the Greek way of thinking, rather than a translation with the literal meaning. That's the reason for which the reader can find several grammar and syntactical inaccuracies in our English "translations". Also contains: - verb exercises at all tenses- revision exercises at the end of each chapter- explanation of each sentence in English - overall revision exercises- answer keys to all exercises

Today for the New Testament there are more than thirty different versions in English translation alone. Churches and seminaries voice if knowing Greek is still necessary. They believe most versions are quite accurate, but we must also concern for the full understanding of the text besides accurate understanding of it. Knowing Greek and reading the Bible in the original language is much more than reading words in a book, because it allows a meeting and conversation with the original author of the Book. Thus, the main objective of translation is not only putting words into your own language but to revive the full spectrum of dynamics and meanings from the past to the present context. From the beginning I wanted to write a grammar book that was actually useful to pastors and missionaries in their fields. They tell me what they need is a working

grammar book, which can actually be used to prepare sermons from the Greek New Testament and to answer people's spiritual questions through the Greek New Testament. They needed something more than a book that teaches how to parse verbs and to know declension of nouns. Thus what I believed what PGG ought to be was already in their heart for a long time. Thus, Progressive Greek Grammar was born. In Addition for the "Essential" Edition I am so glad that PGG has received warm welcome from students and pastors. Some of them were kind enough to leave excellent and helpful reviews as well that I appreciate immensely. However, I also noticed there were general readers who were neither seminarians nor pastors, yet willed to learn Greek. For them 438 pages of thick grammar book with technical annex and detailed paradigms at the back were felt heavy and negligible. Today Lisa and I feel fortunate being able to keep most of the main parts except vocabularies from PGG and to publish this "Essential" edition only in 330 pages. We hope this will help my readers to find the true truth.

If you'd love to learn Greek so you can study your Bible better, then this newly revised second edition of Greek for the Rest of Us is for you. Developed by renowned Greek teacher William Mounce, this revolutionary crash-course on "Greek for the rest of us" will acquaint you with the essentials of the language and deepen your understanding of God's Word. You'll gain a sound knowledge of Greek, and you'll learn how to use tools that will add muscle to your Bible studies. This book is divided into three major

Download File PDF The Essentials Of Greek Grammar A Reference For Intermediate Readers Of Attic Greek Oklahoma Series In Classical Culture Series

sections (Foundational Greek, Church Greek, and Functional Greek), each of which builds on the previous section and takes you to the next level. Depending on which levels you take, the book will teach you how to: Read and pronounce Greek words Learn the fundamentals of the Greek noun and verb system Conduct effective Greek word studies Learn the basics of Greek exegesis for biblical interpretation Decipher why translations are different Read better commentaries Be comfortable using reverse and traditional interlinears Understand the information displayed by biblical software

For almost seventy years, Essentials of New Testament Greek has been a classic textbook and key tool for students of New Testament Greek. This classic work by Ray Summers, with updates by Thomas Sawyer, will continue to be an effective resource for generations to come. Major features include:

- A step-by-step approach which guides students through the learning process.
- Clear explanations of the Greek language and how it works.
- Extensive appendices with paradigms, indexes, and verb list.
- High-frequency Greek vocabulary which presents every word used 50 times or more in the New Testament.
- Numerous examples from the Greek New Testament to illustrate grammatical points.
- Translation exercises which use nearly 300 New Testament verses, including: most of 1 John, a significant percentage of Matthew, John, Romans, and 1 Corinthians.
- An easy-to-read verb chart.

Essentials of New Testament Greek, Revised Edition is an exceptional textbook for college and seminary students, an effective resource for ministers, and an efficient guide for self-study of New Testament

Greek.

If you think that . . . • Aorist is a major artery of the heart • Clause is the surname of the fat guy in the red suit • Syntax is Uncle Sam's slice of alcohol and tobacco sales . . . then you need English Grammar to Ace New Testament Greek. It's designed to help you get a quick brush-up on the English grammar you've either forgotten or never quite learned, in a way that ties directly to your first-year Greek studies. With chapters such as "You Ain't Nothing but a Noun Dog" and "Inflection: Trouble Understanding Yoda You Have, Yes?" this colorful, entertaining book compares elements of English grammar with similar elements in Greek grammar. It can either be used as a one-week intensive study to prepare for Greek grammar, or be readily incorporated into actual Greek studies. English Grammar to Ace New Testament Greek features: • A brief summary of the scope of English grammar • Short, easy-to-read chapters • An introductory devotion in every chapter • Lessons coordinated with Mounce's Basics of Biblical Greek • Tips for vocabulary memorization and sentence diagramming •

Glossary

A complete introductory grammar that builds on a classic approach to learning Greek. In An Introduction to Biblical Greek, John D. Schwandt integrates the rigor of a classic Greek grammar with the fruit of contemporary language learning. The result is a one-stop introduction to New Testament Greek that is both scholarly sound and academically friendly. This textbook teaches students the basics of the Greek language

Download File PDF The Essentials Of Greek Grammar A Reference For Intermediate Readers Of Attic Greek Oklahoma Series In Classical Culture Series

through 37 lessons that are supported by translation and writing exercises from the New Testament. These practical lessons and exercises will help readers grasp Greek grammar and vocabulary as they start to translate the text of the New Testament itself. Appendixes on additional grammatical topics offer students the opportunity to dive deeper into their study of the Greek language.

Greek: An Essential Grammar of the Modern Language is a concise and user-friendly reference guide to the most important aspects of modern Greek. It presents a fresh and accessible description of the language in short, readable sections. Explanations are clear and supported by examples throughout. The Grammar is ideal for learners of all levels and is suitable for those involved in independent study and for students in schools, colleges, universities and adult classes of all types. Features include: * lots of clear and up-to-date examples * clear explanations of grammatical terms * discussion of points which often cause problems * Greek/English comparisons and contrasts highlighted. Greek: An Essential Grammar of the Modern Language will help you read, speak and write with greater confidence.

Diligent study of God's Word involves engaging with it in the language it was written. Learning Greek can be a challenging experience for seminary students, but it is a critical piece of their education. Engaging with the Bible in its original language will lead to deeper understanding, new insights, and provide tools to enter into the conversation surrounding God's Word. Biblical Greek Made Simple is a one-semester textbook that

Download File PDF The Essentials Of Greek Grammar A Reference For Intermediate Readers Of Attic Greek Oklahoma Series In Classical Culture Series

teaches the basics of biblical Greek. Designed with the modern student and curriculum in mind, this grammar introduces all the essential elements of biblical Greek while also utilizing the tools and features of Logos Bible Software to help retain and enhance knowledge of Greek. Each chapter includes exercises tailored to its contents as well as additional teaching material for further advancement. Daniel Zacharias provides a solid overview of the entire biblical Greek system, while challenging students to understand how this ancient language is relevant to meaning and translation.

This thorough presentation of Attic Greek assumes that college students learning the language deserve, from the beginning, full exposure to all the grammar and morphology that they will encounter in actual texts. Each of the forty-two chapters is a self-contained instructional unit, with challenging exercises carefully tailored to reflect the vocabulary and grammar learned to date. The units gradually build up the student's knowledge of declensions, tenses, and constructions by alternating emphasis on morphology and syntax. Readings become progressively more complex and, in the second half of the book, are largely based on actual texts and include unadapted passages from Xenophon, Lysias, Plato, Aristophanes, and Thucydides. Logically organized and remarkably lucid, Introduction to Attic Greek provides students with a strong grounding in the essentials of Greek grammar as well as a substantial body of vocabulary, enabling students to read, on completion of the course, a continuous text with commentary and dictionary. Included are a concise introduction to the history of the

Download File PDF The Essentials Of Greek Grammar A Reference For Intermediate Readers Of Attic Greek Oklahoma Series In Classical Culture Series

Greek language, a composite list of verbs with principal parts, an appendix of all paradigms, Greek-English and English-Greek glossaries, and a detailed index. The book is also a useful reference work for more advanced students who discover that gaps in their knowledge of basic Greek grammar prevent accurate reading of texts. Readers learn how to intelligently use commentaries and reference works that will produce more beneficial Bible study with minimal knowledge of New Testament Greek. "A recognized expert in Greek grammar examines two features of the Greek verb, voice and mood, in light of modern linguistics and offers fresh insights"--

First published in 1978, Reading Greek has become a best-selling one-year introductory course in ancient Greek for students and adults. It combines the best of modern and traditional language-learning techniques and is used widely in schools, summer schools and universities across the world. It has also been translated into several foreign languages. This volume provides full grammatical support together with numerous exercises at different levels. For the second edition the presentations of grammar have been substantially revised to meet the needs of today's students and the volume has been completely redesigned, with the use of colour. Greek-English and English-Greek vocabularies are provided, as well as a substantial reference grammar and language surveys. The accompanying Text and Vocabulary volume contains a narrative adapted entirely from ancient authors in order to encourage students rapidly to develop their reading skills, simultaneously receiving a good introduction to Greek culture.

A college level text written to complement the author's widely used Readers Greek/English

Lexicon of the New Testament. Readings are graduated and are provided every few chapters to confirm vocabulary and grammar development. Vocabulary is arranged according to frequency, while emphasis is placed on recognition of individual forms rather than on entire paradigms.

Thoroughly revised and expanded, Introduction to Attic Greek, 2nd Edition gives student and instructors the most comprehensive and accessible presentation of ancient Greek available. The text features:

- Full exposure to the grammar and morphology that students will encounter in actual texts
- Self-contained instructional chapters, with challenging, carefully tailored exercises
- Progressively more complex chapters to build the student's knowledge of declensions, tenses, and constructions by alternating emphasis on morphology and syntax
- Readings based on actual texts and include unadapted passages from Xenophon, Lysias, Plato, Aristophanes, and Thucydides.
- Concise introduction to the history of the Greek language
- Composite list of verbs with principal parts, and an appendix of all paradigms
- Greek-English and English-Greek glossaries

Additional Resources:

- Robust online supplements for teaching and learning available at atticgreek.org
- Answer Key to exercises also available from UC Press (978-0-520-27574-4)

This text gives clear, concise and easily understood explanations of all the key points of Ancient Greek grammar. Features such as study tips and a glossary ensure students have all the support they need to help their language learning.

Thirty-one lessons keyed to chapters of the textbook providing benefits for both beginning and advanced students. Includes study of textbook materials, building translation skills, focusing on Greek grammar and syntax, and providing supplemental vocabulary lists.

No body speaks in strictly formal address anymore. Especially the Greeks, where the common expressions tossed around in their party-friendly cities are far from text book Ancient Greek. This all-new, totally-up-to-date book fills the gap between how people really talk in Greece and what language students are taught.

After studying ancient Greek for a year, students often become discouraged when presented with unabridged classical texts that offer only minimal supportive apparatus. In welcome contrast, this intermediate-level textbook reinforces the first-year lessons and enables students to read Plato's Symposium, one of the most engaging works in Attic Greek, the dialect taught in most first-year courses. To meet the needs of students who are reading extended passages of challenging Greek for the first time, Louise Pratt, a classical scholar with more than twenty years' teaching experience, has lightly condensed the early readings, supplementing them with review exercises and new vocabulary. She includes the remaining portion of the dialogue in its entirety to give students the experience of reading Plato's imaginative dialogue in all its richness. All readings are glossed, with explanatory notes appearing on the same page as the relevant texts. Enlivened by twenty-five illustrations, Eros at the Banquet also features an introduction explaining the Symposium's historical and philosophical significance, a comprehensive glossary, and an up-to-date bibliography. Instructors may also supplement this volume with Pratt's *The Essentials of Greek Grammar: A Reference for Intermediate Readers of Attic Greek*, which includes many examples from the Symposium.

Includes selections from Xenophon, Antiphon and Euripides.

Revised to include typographical corrections, this linguistically and educationally sound third edition is a first-year textbook that gives a solid overview of New Testament grammar and

Download File PDF The Essentials Of Greek Grammar A Reference For Intermediate Readers Of Attic Greek Oklahoma Series In Classical Culture Series

vocabulary. This book takes a fundamental approach, moving from the known to the unknown, from the easy to the difficult.

Learning Greek is a difficult task, and the payoff may not be readily apparent. To demonstrate the insight that knowing Greek grammar can bring, Benjamin Merkle summarizes 35 key Greek grammatical issues and their significance for interpreting the New Testament. This book is perfect for students looking to apply the Greek they have worked so hard to learn as well as for past students who wish to review their Greek.

The digital copies of this book is available for free at First Fruits website.

place.asburyseminary.edu/firstfruits Under Revision: This grammar has already undergone numbers of revisions over the last 4 years, for which I must thank Mr. Brad Johnson (model language instructor) and his students for their fine-toothed combing of the text. This present publication, the first effort to combine the two semesters of elementary Greek instruction into one volume with full appendices, represents the first half of a full revision. Chapters 1-12 have been brought up to the standards of the most recent suggestions. Chapters 13-24 await this latest wave of modification, with all chapters together scheduled to be in their fully revised form by February of 2015. My special thanks goes to Mr. Klay Harrison, whose expertise and enthusiasm for this labor is stamped on every page. Preface: The world does not have another Elementary Greek Grammar There are many fine products on the market that have proven themselves to be useful both in the classroom and for private instruction. The need for this particular grammar arises from the peculiar shape of the MDiv curriculum at Asbury Theological Seminary. Several years ago the faculty adopted a curriculum that required one semester of Greek and one semester of Hebrew, each as preparatory for a basic exegesis

Download File PDF The Essentials Of Greek Grammar A Reference For Intermediate Readers Of Attic Greek Oklahoma Series In Classical Culture Series

course in each discipline. It became clear after several years of trial and error that a "lexical" or "tools" approach to learning Greek and Hebrew was inadequate, no matter how skilled the instructors or how motivated the students. In today's general vacuum of grammatical training in public education across the United States, students typically enter seminary training with no knowledge of how languages work. Any training we might give them in accessing grammatical information through the use of Bible software programs will, we learned, come to naught in the absence of an understanding of just what such information actually means. We agreed that we actually needed to "teach the language itself," at least in some rudimentary fashion, if we hoped students would make sense of grammatical and linguistic issues involved biblical interpretation. The first 12 chapters of this grammar are designed to correspond to the first semester's instructional agenda. In these chapters we introduce all the parts of speech, explain and drill the basic elements of grammar, set forth the larger verb system (excluding the perfect system), teach the tenses of the Indicative Mood only (again, excluding the perfect system), and help students build a vocabulary of all NT words occurring 100 times or more. We also lead students into the NT itself with carefully chosen examples, while at the same time guiding them in each lesson to learn the use of the standard NT lexicon [BDAG] and an exegetical grammar [Wallace's Greek Grammar Beyond the Basics]. We are well aware of the limitations of this approach, but genuinely believe that some instruction along these lines is better than none, and that such an approach provide a foundation for students interested in moving beyond the first semester (into chapters 13-24) into a firmer grasp of the language of the NT
