WEEKLY PLANNER | GET THE MOST OUT OF YOUR LIFE "Think of a ship with the complete voyage mapped out and planned. The captain and crew know exactly where the ship is going and how long it will take - it has a definite goal. And 9,999 times out of 10,000, it will get there. Now let's take another ship and just like the first and only let's not put a crew on it, or a captain at the helm. Let's give it no aiming point, no goal, and no destination. We just start the engines and let it go. I think you'll agree that if it gets out of the harbor at all, it will either sink or wind up on some deserted beach and a derelict. It can't go anyplace because it has no destination and no guidance. It's the same with a human being." ~ Earl Nightingale If you seek better organization you're sailing in the right direction. You may remember visiting a grandparent or elder friend who lived in a nursing home memory unit. When you were a child you may recall sights, sounds, and smells that caused you to feel uneasy. Step into any one of today's 16,000 long-term care facilities across the US, and suddenly those memories reemerge. Nurse Supervisor K. Allen tells of the emotional investments found while working with seniors inside the Van Gogh, a large upscale urban assisted living complex. Located at its core is found a locked memory care unit, the Rembrandt, where he and his heroic support team struggle to comfort those suffering from Alzheimer's and other types of Dementia. Emotionally rich and deeply moving, Remembering What I Forgot tells of a day in the life of a memory unit nurse and the unimaginable obstacles faced by today's health care workers. A first of its kind, the story provides its reader with a rare glimpse into "life on a memory unit" including the emotional torment experienced by visitors who witness their loved one slip into ever increasing apathy and confusion. In its truest sense a love story of the need to cope and how to find hope when someone we love suddenly cannot remember well and is handed a diagnosis of Dementia. Insightful, humorous and heartfelt, Remembering What I Forgot conveys a message of inspiration and helps us connect with those in the final chapter of their life. Let us not forget them.

Cancer sucks, death sucks even more. But we humans don't have the power to stop either of them from messing with our lives. They enter our lives whenever and wherever they choose to. Cancer is so common that each one of us have known someone who has dealt with the disease; some of us have lost a loved one to cancer. Common does not always mean simple, and it also does not mean we know everything about it. The diagnosis of cancer, regardless of the disease's curability, is almost always nerve-racking, even for healthcare providers like the main character of this book who is a veteran nurse. This book is written in first person; the subject is a middle aged woman who had been separated from her boyfriend some thirty years ago and then after three decades when she searches for an oncologist for treatment of an aggressive cancer that she was recently diagnosed, she finds her ex-boyfriend's name and decides to see him. That brings back the memory of their past together, and she starts going through her old diary she had written some thirty years in the past. Part of the story is set in Nepal (from the diary) and the other part is set in the USA ( this takes place after her cancer diagnosis). The main character of the story was born with 'Manglik' cosmic influencer, meaning that the planet Mars "mangal Graha" was in such position in the solar system at the time of her birth that it would have strong negative effect on her husband if she married a man who was non-Manlik (a person born at the time when the planet Mars was not in such position.) What happens next changes the lives of the main characters.

First aired in 2001, "Alias" is a spy drama with a central action heroine, a complex narrative of moral twists, turns, lies and double-crosses, and an imaginative array of gadgets, gizmos and glamorous costumes. It has become a leading cult television series with a loyal fan following. In the wake of 9/11, "Alias" themes of doubles and duplicity have been perfectly placed to comment on global relations and the personal paranoid of post 9/11 citizens. But as much as "Alias" reflects contemporary global politics, at its core are themes of family and relationships. The series is ending with a bang in 2006 and "Investigating "Alias"" is the first book to give a full and fascinating examination of the series in its entirety, with a complete episode guide. Placing the series within the wider context of American Quality Television and the spy genre, contributors consider the central role of family, race, gender and moral ambiguity in "Alias". They also focus on the creator of "Alias", JJ Abrams, and discuss the development and influence of the fan world beyond the series with in-depth studies of DVD releases, tie-in, fan and slash fiction. is the first book to give a full and fascinating examination of the series in its entirety, with a complete episode guide.

The world was duped into believing that change or "real change" was coming to the White House in 2008. Instead, what America inherited in addition to the corruption of W. and his crew is the neo-liberal deceiver. The money trail to this man connects America to axis of oppression Although he may be a nice family guy, with a bright smile and warm personality. Americans cannot

keep their eyes closed to what is hiding before them in plain view.

"Flicker is a memoir in verse of a life well lived. Lynn Hansen rightly names the collection for her favorite bird, and for the flickers, or moments, of happenings caught in words, illustrating phases and interests of a lifetime. She carries us through childhood's joys of "forest humus, thick moss / and a bouquet of wild orchids" and woes, "the word move was profane because it frees the rat of anxiety that gnaws on the tight knot in my gut." She rejoices when she declares, "When I retire I'm going to write poetry." Then for a decade or more, that's precisely what she has done. Lynn was determined to be a scientist in a time it was regarded as impossible for women; her thirty-three-year career of teaching biological sciences at the college level has proven her right. Her keen naturalist's eye, her awareness and love of all life on this planet, and beyond, show in her poems. She even celebrates the lowly zucchini and rutabaga, though she does sigh toward the end of summer, "Zucchini manna again?" These observations are woven into the sum of time, the treasure of relationships, "just as our lives gathered out of jumble, then cemented with a matrix of mutual respect." Lynn's lone robin "lifts his bugle beak to call up morning," and so lifts us all." -Patricia Wellingham-Jones, Los Molinos, California "This collection by Lynn M. Hansen is an excellent read. While each poem is intensely personal, moving from childhood experiences to motherhood to traveling the world to growing older, Hansen generously takes us along on all her journeys, creating poems that welcome all comers. Her close observations of the natural world, of lands both distant and close to home, create a landscape at once scientifically clear and poetically imagined, and her poems about growing up and getting older and the joys and losses that come with those parts of our lives, will make readers laugh and cry, sometimes all at once. In reading this book, I grew to even more deeply appreciate our world, our Great Central Valley, and Lynn Hansen's poetry, and I suspect the same will be true for all who read this celebratory work." -Gillian Wegener, Poet Laureate of Modesto, California. "Lynn Hansen's gorgeous book of poems is a testament to a writer who loves life and fully embraces living every day. It's rare that a trained scientist will turn to poetry to reflect on the natural world and even rarer that those written poems would be this wonderfully lucid, evocative, and heartfelt. Filled with keen-eyed wonder and amusement, these poems will teach readers about life and how to live." -Sam Pierstorff, Editor, Quercus Review Press

The collective belief in Armageddon has become more powerful and widespread in the wake of recent terrorist attacks. Edward Edinger looks at the chaos predicted by the Book of Revelation and relates it to current trends including global violence, AIDS, and apocalyptic cults.

"A farmer and entrepreneur, Chase is a man of many abilities. Now he is being asked to use those abilities, and his own particular skills with a sword and bow, to assist an alien planet. This means trading a valuable resource that the planet harbours to convince the Inter-galactic Federation to repair its failing sun" -- Back cover.

Have we lost our spiritual connection? More precisely, what does it really mean to have a spiritual connection? In this book, the author, Clarence Brown, takes us on a rewarding trip that explains to us how to heal our confusion through the process of self-love. He tells us that love is a series of actions that needs our participation for it to exist. He also discusses feelings of being lost and alone, and talks about the journey back to reconnect to our spiritual selves and a way to hear our inner voice. With many other topics that will ultimately enable us to find our spiritual connection, his thought-provoking book not only helps us discover our personal clarity and understanding but also how to find the willingness to acknowledge the well-being of all humanity.

In 'Shadows in the Hero's Path: the Enemy, the Cripple, and the Beggar,' Erel Shalit provides new thoughts and views on the concepts of Hero and Shadow. From a Jungian perspective, this forthcoming Fisher King Press publication will elaborate on mythological and psychological images. Myths and fairy tales explored include Perseus and Andersen's 'The Cripple.' You'll also enjoy the psychological deciphering of Biblical stories such as Amalek—The Wicked Warrior, Samson—The Impoverished Sun, and Jacob & the Divine Adversary. With the recent discovery of The Gospel of Judas, Dr. Shalit also delves into the symbolic relation-ship between Jesus and Judas Iscariot to illustrate the hero-function's inevitable need of a shadow. Clinical material concerning a case of a powerful erotic counter-transference is also an integral part of this deeply insightful body of work.

Zeus, Aphrodite, Apollo, Artemis, Athena—do the gods and goddesses of Greece have anything to say to us that we haven't already heard? In this book, based on a series of his lectures, the eminent Jungian analyst and writer Edward F. Edinger revisits all the major figures, myths, oracles, and legends of the ancient Greek religion to discover what they can still reveal—representing, as they do, one of the religious and mythic foundations of Western culture. Building on C. G. Jung's assertion that mythology is an expression of the deepest layers of mind and soul, Dr. Edinger follows the mythic images into their persistent manifestations in literature and on into our modern lives. He finds that the gods indeed continue to speak as we grow in our capacity to listen and that the myths express the inner energies within all of us as much as ever. Heracles is eternally performing his labors, Perseus is still confronting Medusa, Theseus is forever stalking the Minotaur, and Persephone is still being carried off to life in a new realm.

When Tynan Llywelyn awoke after a century of Sleep he found himself tethered to a war between a global technological dictatorship and the rebel uprising it sought to crush. Tynan realized

quickly that his path in this new world was to be nothing less than extraordinary, embroiled in a web of tragedy, betrayal, and blood. In the wake of the death of Lord Cardone III and the system failure of the Chronous matrix, both humanity and vampire alike now struggle to redefine themselves in societal darkness and twisted co-dependency of one another to survive their common enemy, the Tyst Empire. Tynan himself is caught in a new political war of his own. Emerging victorious from his final battle, the Immortals have appointed him to a place of power amongst their ranks. However, Tynan's desire to return to his previous path as the philosophical leader of the vampire race creates a moral and ethical divide within him, as well as a deep concern for the women he loves. Amidst a seething, unstable world where conspiracy and violence thrives in every shadow, Tynan must walk a perilous new path lest he watch the world he just saved burn to ashes around him.

Techniques for self-exploration, improving self-awareness, living simply, managing relationships, managing ourselves and enhancing our physical health are also discussed in regards to conventional self-help techniques and psychic energies. The potential of psychic energies to enhance our health and performance has been known since the beginning of recorded time, but only recently has it been met with academic research, resulting in incredible advancements on how we can use them. Brett A. Rogers has been diligently studying and practicing psychic energy arts since 1995. He has written several books on these subjects, which have contributed greatly to the information presented in this one.

A planet plagued with tumult from outsiders and divided by its own religious dichotomy could face extinction if their faiths are not united and an unholy artifact is destroyed. Safiro, the God of Death, and Sanguina, the Goddess of Life, created two heroes (Vytametas) -- mirror twins separated at birth yet destined to meet in a place where the future of their world will be decided by their powers. The only people who know not the ultimate purpose of the legendary Vytametas are the young heroes themselves. While the teenage Vytametas learn of their world and of their mission, they will be turned against each other by the two faiths they are meant to save: the demented Safiric Brotherhood and the shady Sanguinic Sisterhood.

A time to reflect on my seventy years of life. Maybe some folks will be interested in my life and the folks I have met, or maybe not. This is a non-traditional memoir, filled with alphabetical vignettes nit chronological ones. I have made a foray into fiction with an asterisk: in those cases where I have marked the vignette as fictional, it might be 100 percent not true, but in many cases I knew of, was part of, or heard from others about the story itself. At any rate, the entire book is my recollection of things past, and as in all recollections, the more distant the memory the clearer the details.

This book is all about how to harness your hidden potentials and a few simple steps that you have to follow to be successful in life. I'm definitely not going to say that if you follow everything in this book you will be the next Bill Gates, but just that this book will definitely help you to a great extent and will definitely help you to achieve whatever you want to in your life. This book consists of chapters based on harnessing the hidden potentials of your brain and how to be successful in life. The first two chapters are about the ways to harness your hidden potential, improving the productivity of your brain and mind mapping. The next three chapters are about personal development, easy steps to create lasting changes and how to achieve your goals. Simple and easy steps to do what the title suggests follow in the respective chapters. Everything that is suggested by me is very simple and not at all complicated. You will definitely come to know about it when you read the book. So I guess it's time to jump into this book and have a great swim and come out of it with an awesome experience. Thank You.

While there are many psychological monographs on Hinduism, no work has surveyed the history of that tradition in a sustained way. Thus, *The Snake and the Rope: A Jungian View of Hinduism* breaks new ground both for religious studies and for psychology. Trained on both sides of the argument, the author of this work is uniquely qualified to elucidate what, for example, the Vedic hymns meant to the people who composed them and what they might mean for us today. He shows us what karma means for Hindus and what Jung says it can mean for us. We learn how Jungians use the term "Self" that Jung borrowed from the Upanishads and how it is the same and different in its new, modern context. The reader will witness a red thread of "goddess worship" from earliest India to Classical Hinduism. Jung says the modern equivalent is devotion to the collective unconscious deep within ourselves. Having served as a Peace Corps Volunteer in a Thai village in the late 1960's, George R. Elder returned to the States to earn a Ph.D. in Buddhist Studies from Columbia University. He subsequently taught Comparative Religions at Hunter College (City University of New York) and would co-chair the Religion Program for several years. In 1989, Dr. Elder and his family relocated to Florida. He trained to become a Jungian analyst and maintains a professional relationship with the C. G. Jung Study Center of Southern California. His works include *The Body: An Encyclopedia of Archetypal Symbolism* in collaboration with ARAS (Shambhala, 1996). He recently co-edited *An American Jungian: In Honor of Edward F. Edinger* (Inner City, 2009).

'Walter's Inner Child Coaching: A Guide For Your Inner Journey (Series Training and Consulting, Vol, 3), 2015' is a systematic road map for the whole of the procedure of Inner Child Recovery, Healing and Artwork. It is a selfhelp guide and provides many examples and sample dialogues. The content has been structured so as to provide some meat for all tastes. Each of the main chapters is different in style and addresses issues that speak to a different inner self. Exclusiveness in fostering only the Inner Child is unwise and not recommended since the other main actors of our inner stage, your Inner Parent and your Inner Adult which compose your inner team, are always present and active; thus, they have to be involved if an effective outcome of voice dialogue is to be achieved. Only once a flexible and dynamic equilibrium within this inner team is achieved, the person can be

said to play out her full potential of personal power, creativeness and inner strength. That means this inner process is a truly religious quest; this, however, does not imply that it is for that reason a strictly serious affair. In the contrary, working with the Inner Child is highly amusing at times, and that punch of humor and wit is one of the most rewarding aspects of Inner Child work, for it is one of the most typical character traits of the recovered and healed Inner Child. The guide comes with an Inner Child Glossary and a complete contextual Bibliography.

THE AMERICAN EDITION Satan is being outsourced. According to the Powers That Be, Hell isn't hellish enough, and Satan is given seven days to figure out how to bring back the fire and brimstone days of Hell's fury. The Devil takes on human form-a ramshackle, disease ridden body-and sets out on a road trip exploring new and novel miseries of the human condition to save his job. From L.A. to Miami, Satan, accompanied by Eustice Seeney, the only man who managed to escape Hell twice (and live to never shut up about it), some bent doctors, an average medium femme fatale with a Tarot tattoo, and an angelic escort service hit the road. Satan manages to finagle his way into one mess of life's affairs after another culminating in an explosive finale revealing who or what puts the lighting in our dreams, and begs the question of who would rid the world of the Devil they know?

Teachers, especially those in nursery and pre-primary schools, know that it takes specialized learning aids to help children learn how to identify objects, develop eye-hand and fine motor coordination, improve attention span, and learn to focus on the activity in which they are participating. The aim of BEE CLEVER Activity Books Keeping these important learning factors in mind, a pre-school educator and counsellor has created a series of simple and stimulating activity books. These help develop the skills a child needs, plus contribute to the further development of the child's 'writing readiness'. Pallavi Dalal - the creator of BEE CLEVER Activity Books - has spent over 25 years working with pre-school children. She says, "There has been much thought, care, understanding, laughter and joy that has gone into creating these books. I can only hope that they will bring children many 'magical moments' of learning, and spending time with each other in a happy and relaxed frame of mind." Two Important Factors While planning any activity for children, two important principles of learning are always uppermost in her mind: 1. "I see and I remember." 2. "I do and I understand." She has designed these books to develop differentiating and logical thinking skills in children and evaluate their interests in certain areas, without making them feel like they are being 'tested'! How BEE CLEVER books are DIFFERENT - Objects illustrated are those a child is generally familiar with. - Instructions can be read to a child without having to simplify them. - Illustrations are bold and clear for the child to see and work comfortably. - Accurate use of grammar, punctuation and spelling. - Each book in the series explains the value of doing that specific activity. - Simple 'Do's and Don'ts' create a 'win-win' situation for the child. BEE CLEVER SERIES: - Colouring 1 - Colouring 2 - Join the Dots 1 - Join the Dots 2 Matching - Mazes 1 - Mazes 2 - Numbers 1 - Numbers 2 - Odd One Out - Opposites 1 - Opposites 2 - Pattern & Letter Writing 1 - Pattern & Letter Writing 2 - Phonics 1 - Phonics 2 - Shapes 1 - Shapes 2 - Story Sequence - What's Different? - What's Next? - What's Wrong? How does it feel to be here and there - at the same time? Maxwell Greyson refers to himself as a project manager but really only makes use of that title in an attempt to mask his ridiculousness, which is something that has plagued him all of his life. He unwittingly embarks on a quest to find what he's always sought. He finds it, or rather he finds something, but doesn't know exactly how to process it or what to do with it. What ensues is a journey that starts at zero and ends up near the edge of the multiverse. Or is it the other way around?

Eleven-year-old Alex Peterson may be the least-athletic boy at his school, yet he dreams of accomplishing something "not a whole lot of other people in the world have ever done": a 200-mile, single-day bicycle ride from Seattle to Portland. Alex discovers that if he's to reach even the starting line, he must overcome more than his physical disability. He must also find a way to revive his father's own long-dormant dreams, and convince his dad to join forces with him, before they can achieve together what neither would on his own.

Jesus came to bind up the brokenhearted and set the captives free, as He proclaimed the coming of the Kingdom of God (Isaiah 61; Luke 4). As the Father sent the Son, so the Son sends us (John 20). We're called to "prepare the way of the Lord." We can't prepare others unless we're prepared ourselves. We can't minister healing and deliverance to others, unless we've it ourselves. God has given us biblical, spiritual principles to be whole and free, so we can minister His blessings of wholeness and freedom to others through the power of prayer.

When read superficially, the opening chapter of this text tells of a great war between opposing factions. When interpreted as an allegory the esoteric meaning portrays a drama far more significant than any transitory historical event. What is revealed: (1) the progress of the soul's awakening from self-conscious involvements with physical and psychological circumstances to realisation of its true nature as pure consciousness; (2) the challenges commonly confronted during the process; (3) liberating knowledge that removes awareness from all that is suppressive and restrictive. Roy Eugene Davis is a widely-travelled teacher of meditation and spiritual growth processes, the author of several books, and director of Centre for Spiritual awareness with offices and a retreat centre in the northeast Georgia mountains. He is a direct disciple of Paramahansa Yogananda.

For over a hundred years the town lay forgotten at the bottom of a vast lake, but it has been a particularly harsh summer in Arizona, and the town is starting to emerge. Experts will come and survey the land, hoping to prospect for a bright and lucrative new project, but they will get more than they bargained for. Bit by bit they will uncover the truth behind the disaster which wiped a small farming community off the map, and as they do they will learn with devastating consequences that some secrets should stay buried forever.

In Stop Sabotaging Your Life: 3 Steps To Your Full Potential, acclaimed life coach Bruno LoGreco shares his simple path to achieving healthy mental and emotional independence. How many times have you

caught yourself thinking something like this?: I'm not enough—good enough...smart enough...good looking enough...successful enough... LoGreco says we sabotage our lives by focusing too much on being what others want us to be and do, and not spending enough time listening to our own hearts and minds. Some people try to find self-acceptance and contentment through counseling, but end up trapped on the therapy treadmill. Others try to go it alone, but still end up in a tiresome process of navel-gazing that never leads to personal fulfillment. LoGreco offers a three-step plan to help you reach your own potential: self-awareness (recognize what you have been doing, and why); rebuilding values (learn a different way to do things); and reach your full potential (identify opportunities and set meaningful goals). You will learn to leverage your strengths to stop chasing illusions and work toward achieving your dreams. LoGreco doesn't claim his book will cure everything that ails you. As he says, "There is no secret formula, no magic pill that will make you happy, productive, and successful. You must challenge your beliefs and take back control of your choices. Don't just think outside the box—break out of it altogether." What clients and readers are saying about life coach, mentor, and motivational speaker Bruno LoGreco: "As a divorced mother of three, I've encountered many obstacles, mostly personal ones within myself. I wondered why I kept repeating the same patterns with the men I was dating and why it always ended badly, usually with me being hurt, and questioned what 'I' was doing wrong. Bruno taught me how to love myself again, how to respect myself and above all else, BELIEVE in myself.... Bruno saved me from my self-destructive patterns. Without his help, I wouldn't be the confident woman I am today. I am a better mother for that." —Cristina "The world is filled with very successful executives who for decades focus every waking minute on professional accolades and professional development [only to] realize they haven't take the time out to focus on personal development in terms of a better balance in life, being in touch with their spiritual side and inner self, and even the fun side of life. That would describe me in the past.... I came across Bruno, and I knew he was the man. His personality exudes authenticity and geniality. The man simply knows his stuff, has this uncanny ability to read between the lines, and zero in instantly on underlying triggers. His structured approach steers you to address issues head on; challenges you to challenge yourself; opens your mind; helps you understand behaviors, experiences and patterns; gets you in touch with yourself; fuels a sense of purpose and passion; and escorts you to chart a new course to life. He never judges, but relentlessly encourages and empowers you. He's truly a brilliant, genuine and a humane person with an infectious enthusiasm to make you seize your inborn potential." —Adrian "If I had to sum up my experience with Bruno in one word, it would be 'awakened.' Bruno helped me see life from a different perspective, which is what I needed, but most importantly, he showed me how to do that myself without being dependent on him.... Bruno got me to step outside of my comfort zone and do things I normally wouldn't have done otherwise, which is undoubtedly the key to growth." —Blaine

Successfully navigating apocalyptic periods in our lives is the theme of the present work. The metaphor of a black storm captures the essence of such times well. Drawing on Jungian-based psychology and quantum physics, augmented by the music of the British speed/power metal band DragonForce, the author demonstrates the insights and conscious attitude needed for development and transformation in these trying episodes. The book can appeal to professionals and laypeople alike.
