L.B. Johnson knew how to get things done. She had been immersed in a world of complex puzzles, and tangled story lines of physical and governmental laws. She was quite sure she was up to the task of raising a black Labrador retriever puppy. His name was Barkley, and in being himself, he led his owner down a path of joyful discovery, loving frustration, and self-sacrifice. Their journey together will speak volumes to anyone who has ever had a beloved animal as a heart's companion...from the gentle nuzzles that healed in moments of crisis, to the saintly patience needed to deal with a small pink ball with feet, named "Mr. Squeaky," who interrupted many hours of sleep. It is the story of rambunctious trespasses such as "the bacon incident," and the loving trust that bound a woman and her dog together in unspoken understanding. The Book of Barkley is a tribute and memoir that will resonate with everyone who has reached out unthinking to pet a beloved animal...only to remember that a beloved friend is no longer present. Honest, transcendent, and beautifully written, The Book of Barkley is a love story that will enrich every animal lover's library.

Training the Best Dog Ever, originally published in hardcover as The Love That Dog Training Program, is a book based on love and kindness. It features a program of positive reinforcement and no-fail techniques that author Dawn Sylvia-Stasiewicz used to train the White House dog, Bo Obama, and each of Senator Ted Kennedy's dogs, among countless others. Training the Best Dog Ever relies on trust and treats, not choke collars; on bonding, not leash-yanking or reprimanding. The five-week training program takes only 10 to 20 minutes of practice a day and works both for puppies and for adult dogs that need to be trained out of bad habits. Illustrated with step-by-step photographs, the book covers hand-feeding; crate and potty training; and basic cues—sit, stay, come here—as well as more complex

goals, such as bite inhibition and water safety. It shows how to avoid or correct typical behavior problems, including jumping, barking, and leash-pulling. Plus: how to make your dog comfortable in the world—a dog that knows how to behave in a vet's office, is at ease around strangers, and more. In other words, the best dog ever.

Faith. Trust. Triumph. "I'm sorry," the doctor said. "He is permanently and totally blind. There is nothing we can do for him." George and Sarah Hingson looked at each other, devastated. Their six-month-old son, Michael was a happy, strawberry blond baby boy, healthy and normal in every way except one. When the Hingsons switched on a light or made silly faces, Michael did not react. Ever. "My best suggestion is that you send him to a home for the blind," the doctor continued. "He will never be able to do anything for himself." Forty-seven years later, a yellow Labrador retriever puppy was born in the whelping unit of Guide Dogs for the Blind in San Rafael, California. The puppy's name was Roselle. On September 11, 2001, she saved Michael's life. This is Roselle's story too. —From the Introduction Every moment in Michael Hingson's and Roselle's lives seemed to lead up to this day. When one of four hijacked planes flew into the World Trade Center's north tower on September 11, 2001, Michael Hingson, a district sales manager for a data protection and network security systems company, was sitting down for a meeting. His guide dog, Roselle, was at his feet. Paired for twenty-one months, man and dog spent that time forging a bond of trust, much like police partners who trust their lives to each other. Michael couldn't see a thing, but he could hear the

sounds of shattering glass, falling debris, and terrified people flooding around him and Roselle. However, Roselle sat calmly beside him. In that moment, Michael chose to trust Roselle's judgment and not to panic. They were a team. Thunder Dog is a story that will forever change your spirit and your perspective. It illuminates Hingson's lifelong determination to achieve parity in a sighted world and how the rare trust between a man and his guide dog can inspire an unshakable faith in each one of us.

An instructive and marvelously entertaining chronicle of a puppy's first year, by the executive editor of The New York Times One sparkling summer day, Jill Abramson brought home a nine-week-old golden retriever named Scout. Over the following year, as she and her husband raised their adorable new puppy, Abramson wrote a hugely popular column for The New York Times's website about the joys and challenges of training this rambunctious addition to their family. Dog-lovers from across the country inundated her with e-mails and letters, and the photos they sent in of their own dogs became the most visited photo album on the Times's site in 2009. Now Abramson has gone far beyond the material in her column and written a detailed and deeply personal account of Scout's first year. Part memoir, part manual, part investigative report, The Puppy Diaries continues Abramson's intrepid reporting on all things canine. Along the way, she weighs in on such issues as breeders or shelters, adoption or rescue, raw diet or vegan, pack-leader gurus like Cesar Millan or positive-reinforcement advocates like Karen Pryor. What should you expect when a new puppy enters your life? With utterly winning stories and a wealth of practical information, The Puppy Diaries provides an essential road map for navigating the first year of your dog's life.
