A collection of three novellas celebrating the beauty of Christmas at Grace Chapel Inn. It's Christmas morning, and as the Howard sisters celebrate some of their family's treasured traditions, they reminisce about Christmases past. Jane reads from the Bible, as their father always did, and remembers when she took part in a living Nativity. Cast as an angel, she decided to make her part more exciting, resulting in a dangerous fall from a hayloft. She should have been seriously injured, but a Christmas miracle changed the course of her life. Louise studies the badly constructed stocking she made for her newborn daughter Cynthia and recalls her first Christmas as a mother. And Alice examines the special ornament she received the year she organized a program to give all the animals from a nearby shelter a home for Christmas. The novellas capture a sense of nostalgia and the ideal of a good old-fashioned Christmas.

Bound By Law reaches beyond documentary film to provide a commentary on the most pressing issues facing law, art, property and an increasingly digital world of remixed culture.

Eyes on the Prize traces the movement from the landmark Brown v. the Board of Education case in 1954 to the march on Selma and the passage of the Voting Rights Act in 1965. This is a companion volume to the first part of the acclaimed PBS series. Southern bus boycotts and lunch counter sit-ins were famous acts of civil disobedience but were also demands for jobs in the very services being denied blacks. Gavin Wright shows that the civil rights struggle was of economic benefit to all parties: the wages of southern blacks increased dramatically but not at the expense of southern whites. A NEW YORK TIMES NOTABLE BOOK • The definitive biography of the great lawyer and Supreme Court justice, from the bestselling author of Eyes on the Prize “Magisterial . . . in Williams’ richly detailed portrait, Marshall emerges as a born rebel.”—Jack E. White, Time Thurgood Marshall was the twentieth century’s great architect of American race relations. His victory in the Brown v. Board of Education decision, the landmark Supreme Court case outlawing school segregation in the United States, would have made him a historic figure even if he had never been appointed as the first African-American to serve on the Supreme Court. He had a fierce will to change America, which led to clashes with Martin Luther King, Jr., Malcom X, and Robert F. Kennedy. Most surprising was Marshall’s secret and controversial relationship with the FBI chief J. Edgar Hoover. Based on eight years of research and

interviews with over 150 sources, Thurgood Marshall is the sweeping and inspirational story of an enduring figure in American life who rose from the descendants of slaves to become an American hero.

"Sarah Kaufman offers an old-fashioned cure for a modern-day ailment. The remedy for our culture of coarseness is grace...This is an elegant, compelling, and, yes, graceful book." —Daniel H. Pink, author of *Drive* In this joyful exploration of grace's many forms, Pulitzer Prize-winning critic Sarah L. Kaufman celebrates a too-often-forgotten philosophy of living that promotes human connection and fulfillment. Drawing on the arts, sports, the humanities, and everyday life—as well as the latest findings in neuroscience and health research—Kaufman illuminates how our bodies and our brains are designed for grace. She promotes a holistic appreciation and practice of grace, as the joining of body, mind, and spirit, and as a way to nurture ourselves and others. This stunning picture book looks into the life of Georgia Gilmore, a hidden figure of history who played a critical role in the civil rights movement and used her passion for baking to help the Montgomery Bus Boycott achieve its goal. Georgia decided to help the best way she knew how. She worked together with a group of women and together they purchased the supplies they needed—bread, lettuce, and chickens. And off they went to cook. The women brought food to the mass meetings that followed at the church. They sold sandwiches. They sold dinners in

their neighborhoods. As the boycotters walked and walked, Georgia cooked and cooked. Georgia Gilmore was a cook at the National Lunch Company in Montgomery, Alabama. When the bus boycotts broke out in Montgomery after Rosa Parks was arrested, Georgia knew just what to do. She organized a group of women who cooked and baked to fund-raise for gas and cars to help sustain the boycott. Called the Club from Nowhere, Georgia was the only person who knew who baked and bought the food, and she said the money came from "nowhere" to anyone who asked. When Martin Luther King Jr. was arrested for his role in the boycott, Georgia testified on his behalf, and her home became a meeting place for civil rights leaders. This picture book highlights a hidden figure of the civil rights movement who fueled the bus boycotts and demonstrated that one person can make a real change in her community and beyond. It also includes one of her delicious recipes for kids to try with the help of their parents!

Casinos are often used by political economists, and popular commentators, to think critically about capitalism. Bingo - an equal chance numbers game played in many parts of the world - is overlooked in these conversations about gambling and political economy. Bingo Capitalism challenges that omission by asking what bingo in England and Wales can teach us about capitalism and the regulation of everyday gambling economies. The book draws on official records of parliamentary debate, case law, regulations and in-depth interviews with both bingo players and workers to offer the first socio-legal account of this globally significant and immensely popular pastime. It explores the legal and political history of bingo and how gender shapes, and is shaped by, diverse state rules on gambling. It also sheds light on the regulation of workers, players, products, places, and technologies. In so doing it adds a vital new dimension to accounts of UK gambling law and regulation. Through Bingo Capitalism, Bedford makes a key theoretical contribution to our understanding of the relationship between gambling and political economy, showing the role of the state in supporting and then eclipsing environments where gambling played a key role as mutual aid. In centring the regulatory entanglement between vernacular play forms, self-organised membership activity, and corporate leisure experiences, she offers a fresh vision of gambling law from the everyday perspective of bingo.

Bryant, who worked behind the counter of a country store, while visiting family in Mississippi. Three days later, his mangled body was recovered in the Tallahatchie River, weighed down by a cotton-gin fan. Till's killers, Bryant's husband and his half-brother, were eventually acquitted on technicalities by an all-white jury despite overwhelming evidence. It seemed another case of Southern justice. Then details of what had happened to Till became public, which they did in part because Emmett's mother, Mamie Till-Mobley, insisted that his casket remain open during his funeral. The world saw the horror, and Till's story gripped the country and sparked outrage. Black journalists drove down to Mississippi and risked their lives interviewing townsfolk, encouraging witnesses, spirited those in danger out of the region, and above all keeping the news cycle turning. It continues to turn. In 2005, fifty years after the murder, the FBI reopened the case. New papers and testimony have come to light, and several participants, including Till's mother, have published autobiographies. Using this new evidence and a broadened historical context, Elliott J. Gorn delves more fully than anyone has into how and why the story of Emmett Till still resonates, and always will. Till's murder marked a turning point, Gorn shows, and yet also reveals how old patterns of thought and behavior endure, and why we must look hard at them.

When archivist Nadia Fontaine is found dead of an apparent drowning, Emily Snow is hired by Regents University to finish the job she started—to organize and process the papers of Raymond West, a famous Pulitzer Prize-winning author who has been short-listed for the Nobel. Emily's job comes with its inherent pressures. West's wife, Elizabeth, is an heiress who's about to donate \$25 million to the Memorial Library—an eight-story architectural marvel that is the crown jewel of the university. The inaugural event in just a few months will be a gala for the who's who of San Diego to celebrate the unveiling of the Raymond West Collection and the financial gift that made it all possible. As Emily sets to work on the West papers, it begins to dawn on her that several items have gone missing from the collection. To trace their whereabouts, she gains unsupervised access to the highly restricted "dark archives," in which she opens a Pandora's box of erotically and intellectually charged correspondence between Raymond West and the late Nadia Fontaine. Through their archived emails, Emily goes back a year in time and relives the tragic trajectory of their passionate love affair. Did Nadia really drown accidentally, as the police report concluded, or could it have been suicide, or, even worse, murder? Compelled to complete the collection and find the truth, Emily unwittingly morphs into an adult Nancy Drew and a one-woman archivist

broadcast, which reached 100 million viewers. Henry Hampton's 1987 landmark multipart television series, *Eyes on the Prize*, an eloquent, plainspoken chronicle of the civil rights movement, is now the classic narrative of that history. Before Hampton, the movement's history had been written or filmed by whites and weighted heavily toward Dr. King's telegenic leadership. *Eyes on the Prize* told the story from the point of view of ordinary people inside the civil rights movement. Hampton shifted the focus from victimization to strength, from white saviors to black courage. He recovered and permanently fixed the images we now all remember (but had been lost at the time)—Selma and Montgomery, pickets and fire hoses, ballot boxes and mass meetings. Jon Else was Hampton's series producer and his moving book focuses on the tumultuous eighteen months in 1985 and 1986 when *Eyes on the Prize* was finally created. It's a point where many wires cross: the new telling of African American history, the complex mechanics of documentary making, the rise of social justice film, and the politics of television. And because Else, like Hampton and many of the key staffers, was himself a veteran of the movement, his book braids together battle tales from their own experiences as civil rights workers in the south in the 1960s. Hampton was not afraid to show the movement's raw realities: conflicts between secular and religious leaders, the shift toward black power and armed black resistance in the face of savage white violence. It is all on the screen, and the fight to get it all into the films was at times as ferocious as the history being depicted. Henry Hampton utterly changed the

way social history is told, taught, and remembered today.

The African dictator - a tyrant and an embezzler, or was he a visionary, a martyr? Eyes on the Prize - The Pursuit of Power in Africa is the story of 20 African leaders. Their political careers are, in many ways, the story of modern Africa. For many, tyranny and misrule are about as African as endemic poverty and wildlife . It is a persistent question: just why is Africa so poor? There is, of course, no clear answer; but the question itself is rather telling: it shows how global public opinion is both frustrated with Africa's performance and obsessed with its own progress. This is exactly how African politicians throughout the 20th century felt: frustrated that their continent was being held back and obsessed with the call to forge a brighter future for it. Along the way came the perils of Cold War politics and disaster economics. We may scoff at some of these fabulously corrupt rulers and cringe at their unchecked cruelty - but they got only as far as they were allowed and encouraged to. So who were the enablers? And who, ultimately, paid the price?

The author describes the threats and emotional abuse she endured from white student and adults along with her fears of endangering her family as she committed to being one of the first African American students to integrate Central High School in Little Rock, Arkansas in 1957.

personal memoir yet, about the 2016 presidential election. In this “candid and blackly funny” (The New York Times) memoir, Hillary Rodham Clinton reveals what she was thinking and feeling during one of the most controversial and unpredictable presidential elections in history. She takes us inside the intense personal experience of becoming the first woman nominated for president by a major party in an election marked by rage, sexism, exhilarating highs and infuriating lows, stranger-than-fiction twists, Russian interference, and an opponent who broke all the rules. “At her most emotionally raw” (People), Hillary describes what it was like to run against Donald Trump, the mistakes she made, how she has coped with a shocking and devastating loss, and how she found the strength to pick herself back up afterward. She tells readers what it took to get back on her feet—the rituals, relationships, and reading that got her through, and what the experience has taught her about life. In this “feminist manifesto” (The New York Times), she speaks to the challenges of being a strong woman in the public eye, the criticism over her voice, age, and appearance, and the double standard confronting women in politics. Offering a “bracing... guide to our political arena” (The Washington Post), What Happened lays out how the 2016 election was marked by an unprecedented assault on our democracy by a foreign adversary. By analyzing the evidence and connecting the dots, Hillary shows just how dangerous the forces are that shaped the outcome, and why Americans need to understand them to protect our values and our democracy in the future. The election of 2016 was unprecedented and

The Prize recounts the panoramic history of oil -- and the struggle for wealth power that has always surrounded oil. This struggle has shaken the world economy, dictated the outcome of wars, and transformed the destiny of men and nations. The Prize is as much a history of the twentieth century as of the oil industry itself. The canvas of this history is enormous -- from the drilling of the first well in Pennsylvania through two great world wars to the Iraqi invasion of Kuwait and Operation Desert Storm. The cast extends from wildcatters and rogues to oil tycoons, and from Winston Churchill and Ibn Saud to George Bush and Saddam Hussein. The definitive work on the subject of oil and a major contribution to understanding our century, The Prize is a book of extraordinary breadth, riveting excitement -- and great importance.

Speak Now Against the Day is the astonishing, little-known story of the Southerners who, in the generation before the Supreme Court outlawed school segregation and before Rosa Parks refused to surrender her seat on a Montgomery bus, challenged the validity of a white ruling class and a "separate but equal" division of the races. The voices of the dissenters, although present throughout the South's troubled history, grew louder with Roosevelt's election in 1932. An increasing number of men and women who grappled daily with the economic and social woes of the South began forcefully and courageously to speak and to work toward the

In *Hands on the Freedom Plow*, fifty-two women--northern and southern, young and old, urban and rural, black, white, and Latina--share their courageous personal stories of working for the Student Nonviolent Coordinating Committee (SNCC) on the front lines of the Civil Rights Movement. The testimonies gathered here present a sweeping personal history of SNCC: early sit-ins, voter registration campaigns, and freedom rides; the 1963 March on Washington, the Mississippi Freedom Summer, and the movements in Alabama and Maryland; and Black Power and antiwar activism. Since the women spent time in the Deep South, many also describe risking their lives through beatings and arrests and witnessing unspeakable violence. These intense stories depict women, many very young, dealing with extreme fear and finding the remarkable strength to survive. The women in SNCC acquired new skills, experienced personal growth, sustained one another, and even had fun in the midst of serious struggle. Readers are privy to their analyses of the Movement, its tactics, strategies, and underlying philosophies. The contributors revisit central debates of the struggle including the role of nonviolence and self-defense, the role of white people in a black-led movement, and the role of women within the Movement and the society at large. Each story reveals how the struggle for social change was formed, supported, and maintained by the women who kept their "hands on the freedom plow." As the editors write in the introduction, "Though the voices are different, they all tell the same story--of women bursting out of constraints, leaving school, leaving their
