An instant New York Times bestsellerAn instant IndieBound bestsellerThe #1 Kids' Indie Next PickA Walter Award winner Only the living can make the world better. Live and make it better. Twelve-year-old Jerome is shot by a police officer who mistakes his toy gun for a real threat. As a ghost, he observes the devastation that's been unleashed on his family and community in the wake of what they see as an unjust and brutal killing. Soon Jerome meets another ghost: Emmett Till, a boy from a very different time but similar circumstances. Emmett helps Jerome process what has happened, on a journey towards recognizing how historical racism may have led to the events that ended his life. Jerome also meets Sarah, the daughter of the police officer, who grapples with her father's actions. Once again Jewell Parker Rhodes deftly weaves historical and socio-political layers into a gripping and poignant story about how children and families face the complexities of today's world, and how one boy grows to understand American blackness in the aftermath of his own death.

Krakauer's page-turning bestseller explores a famed missing person mystery while unraveling the larger riddles it holds: the profound pull of the American wilderness on our imagination; the allure of high-risk activities to young men of a certain cast of mind; the complex, charged bond between fathers and sons. "Terrifying... Eloquent... A heart-rending drama of human yearning." —New York Times In April 1992 a young man from a well-to-do family hitchhiked to Alaska and walked alone into the wilderness north of Mt. McKinley. He had given \$25,000 in savings to charity, abandoned his car and most of his possessions, burned all the cash in his wallet, and invented a new life for himself. Four months later, his decomposed body was found by a moose hunter. How Christopher Johnson McCandless came to die is the unforgettable story of Into the Wild. Immediately after graduating from college in 1991, McCandless had roamed through the West and Southwest on a vision quest like those made by his heroes Jack London and John Muir. In the Mojave Desert he abandoned his car, stripped it of its license plates, and burned all of his cash. He would give himself a new name, Alexander Supertramp, and, unencumbered by money and belongings, he would be free to wallow in the raw, unfiltered experiences that nature presented. Craving a blank spot on the map, McCandless simply threw the maps away. Leaving behind his desperate parents and sister, he vanished into the wild. Jon Krakauer constructs a clarifying prism through which he reassembles the disquieting facts of McCandless's short life. Admitting an interest that borders on obsession, he searches for the clues to the drives and desires that propelled McCandless. When McCandless's innocent mistakes turn out to be irreversible and fatal, he becomes the stuff of tabloid headlines and is dismissed for his naiveté, pretensions, and hubris. He is said to have had a death wish but wanting to die is a very different thing from being compelled to look over the edge. Krakauer brings McCandless's uncompromising pilgrimage out of the shadows, and the peril, adversity, and renunciation sought by this enigmatic young man are illuminated with a rare understanding--and not an ounce of sentimentality. Mesmerizing, heartbreaking, Into the Wild is a tour de force. The power and luminosity of Jon Krakauer's stoytelling blaze through every page.

A single photograph—an exceptionally rare “action shot” documenting the horrific final moment of the murder of a family—drives a riveting process of discovery for a gifted Holocaust scholar In 2009, the acclaimed author of Hitler's Furies was shown a photograph just brought to the United States Holocaust Memorial Museum. The documentation of the Holocaust is vast, but there are virtually no images of a Jewish family at the actual moment of murder, in this case by German officials and Ukrainian collaborators. A Ukrainian shooter's rifle is inches from a woman's head, obscured in a cloud of smoke. She is bending forward, holding the hand of a barefooted little boy. And—only one of the shocking revelations of Wendy Lower's brilliant ten-year investigation of this image—the shins of another child, slipping from the woman's lap. Wendy Lower's forensic and archival detective work—in Ukraine, Germany, Slovakia, Israel, and the United States—recovers astonishing layers of detail concerning the open-air massacres in Ukraine. The identities of mother and children, of the killers—and, remarkably, of the Slovakian photographer who openly took the image, as a secret act of resistance—are dramatically uncovered. Finally, in the hands of this brilliant exceptional scholar, a single image unlocks a new understanding of the place of the family unit in the ideology of Nazi genocide.

A complete, illustrated guide to the ancient tradition of reading the face to gain insight into health, personality, relationships, and career • Details how to read the profile, front face, features, and musculature of the face to reveal temperament, personality traits, health predispositions, and mental state • Explores the history and development of face morphology from its origins in Israel and Egypt more than 4,500 years ago to its modern use in French medical schools • Examines the Foursquare diagram, developed by French occultist Papus, for highly accurate and detailed facial readings The face is a unique reflection of our genetic, inherited inclinations as well as the effects that life, nature, and relationships have had upon us. By looking at a person's face, you can gain valuable insight into their personality, health, and how they navigate in the world. In this illustrated guide, Jennifer Lamonica reveals the sacred tradition of face morphology, an esoteric system that has been passed quietly from rabbi to student as an unbroken oral tradition for more than 4,500 years. She explores the history and development of this ancient art from its origins in Israel and Egypt to its use as the major diagnostic system in Europe until the Enlightenment and its current applications in French medical schools. Sharing the techniques of master face readers, the author details how to read the angles of the profile, as well as palm color and nose shape, to determine a person's temperament, providing health and career insight into each of the four temperaments, including nutritional needs, digestive issues, sleep patterns, health predispositions, and ideal occupational paths. Exploring the Foursquare diagram, developed by French occultist Papus, for highly accurate and detailed facial readings, she explains how to read the front face in combination with planetary shapes, which reveal a person's character; the major facial features, such as eyebrows, which reveal personal inclinations; and the musculature of the face, including expressions, which reveals a person's current mental state. Providing case studies, she examines how to apply face morphology in relationships and in parenting. Exploring the meaning of each facial variation, while also honoring the intuitive impression received at first glance, Lamonica reveals how the ancient science of face reading allows you to compassionately help your loved ones, students, or clients, as well as overcome personal obstacles and better know yourself.

**WINNER OF: Frantz Fanon Outstanding Book from the Caribbean Philosophical Association Canadian Political Science Association's C.B. MacPherson Prize Studies in Political Economy Book Prize** Over the past forty years, recognition has become the dominant mode of negotiation and decolonization between the nation-state and Indigenous nations in North America. The term “recognition” shapes debates over Indigenous cultural distinctiveness, Indigenous rights to land and self-government, and Indigenous peoples' right to benefit from the development of their lands and resources. In a work of critically engaged political theory, Glen Sean Coulthard challenges recognition as a method of organizing difference and identity in liberal politics, questioning the assumption that contemporary difference and past histories of destructive colonialism between the state and Indigenous peoples can be reconciled through a process of acknowledgment. Beyond this, Coulthard examines an alternative politics—one that seeks to revalue, reconstruct, and redeploy Indigenous cultural practices based on self-recognition rather than on seeking appreciation from the very agents of colonialism. Coulthard demonstrates how a “place-based” modification of Karl Marx's theory of “primitive accumulation” throws light on Indigenous–state relations in settler-colonial contexts and how Frantz Fanon's critique of colonial recognition shows that this relationship reproduces itself over time. This framework strengthens his exploration of the ways that the politics of recognition has come to serve the interests of settler-colonial power. In addressing the core tenets of Indigenous resistance movements, like Red Power and Idle No More, Coulthard offers fresh insights into the politics of active decolonization.

**NEW YORK TIMES BESTSELLER • From the Booker Prize–winning author of *Lincoln in the Bardo* and *Tenth of December* comes a literary master class on what makes great stories work and what they can tell us about ourselves—and our world today. **NAMED ONE OF THE BEST BOOKS OF THE YEAR BY ESQUIRE • “[A] worship song to writers and readers.”—Oprah Daily**** For the last twenty years, George Saunders has been teaching a class on the Russian short story to his MFA students at Syracuse University. In *A Swim in a Pond in the Rain*, he shares a version of that class with us, offering some of what he and his students have discovered together over the years. Paired with iconic short stories by Chekhov, Turgenev, Tolstoy, and Gogol, the seven essays in this book are intended for anyone interested in how fiction works and why it's more relevant than ever in these turbulent times. In his introduction, Saunders writes, “We're going to enter seven fastidiously constructed scale models of the world, made for a specific purpose that our time maybe doesn't fully endorse but that these writers accepted implicitly as the aim of art—namely, to ask the big questions, questions like, How are we supposed to be living down here? What were we put here to accomplish? What should we value? What is truth, anyway, and how might we recognize it?” He approaches the stories technically yet accessibly, and through them explains how narrative functions; why we stay immersed in a story and why we resist it; and the bedrock virtues a writer must foster. The process of writing, Saunders reminds us, is a technical craft, but also a way of training oneself to see the world with new openness and curiosity. *A Swim in a Pond in the Rain* is a deep exploration not just of how great writing works but of how the mind itself works while reading, and of how the reading and writing of stories make genuine connection possible.

First published in 1938, *'Anthem'* is a dystopian fiction novel by British writer Ayn Rand. It takes place at some unspecified future date when mankind has entered another dark age. Technological advancement is now carefully planned and the concept of individuality has been eliminated.

Relearn the intuitive language of face reading From birth, face is our first language. We are born face readers—knowing to seek out human features and faces from the moment our eyes open. We all have the intuitive ability to read and interpret the feelings and expressions of those around us. In *Read the Face*, master face reader Eric Standop unlocks the power of this innate human ability, sharing his own journey to become a face reading master, along with stories that illustrate the power of this unique language. Using a combination of three different schools of face reading, along with a scientific accuracy to detect the most fleeting microexpressions, Standop is able to read personality, character, emotions, and even the state of a person's health—all from simply glancing at their face. The book is divided into sections focusing on specific ways that face reading can offer insight, such as Health, Love, Communication, Work and Success. The stories are accompanied by detailed black and white illustrations of faces, allowing readers to observe the same features that Standop interpreted. The final section of the book outlines the meanings of dozens of facial features and face shapes, so that readers can recognize their own innate intuitive powers and develop them. *Read the Face* is a guide to using the ancient art and science of face reading to go beyond the surface and create the boldest life possible.

What if you could learn powerful insights into a person just by seeing his or her face? For 2,500 years, the science of Mien Shiang (pronounced myen-shung), or Chinese face reading, has given anyone who studies its form this incredible ability. Whether working with executives from Fortune 500 firms or readying the nation's top attorneys to choose the ideal juries for their clients, Patrician McCarthy has built a reputation for her ability to help others determine a person's personality, potential, and inherent talents by analyzing his or her facial structure and features. Now McCarthy shares her understanding of this ancient knowledge with readers everywhere. Literally meaning face (mien) reading (shiang), mien shiang is a powerful means of both self-discovery and a way to understand others. Taoist ancients said, "the face is a mirror that records your past, reflects your present, and forecasts your future." McCarthy introduces five essential influences in our lives revealed by the face and enables you to interpret and understand these influences. With the practice of Mien Shiang, you will live in a harmony of mind, body, and spirit.
