The Financially Confident Woman The Least Every Woman Needs To Know To Manage Her Finances And Prepare For The Future

The best-selling author of *The Superwoman Syndrome* presents an inspirational and practical handbook for women that presents a supportive program designed to help them become more assertive and confident in the personal and professional lives. Reprint. 12,500 first printing. A thoroughly entertaining and darkly humorous roundup of history's notorious but often forgotten female con artists and their bold, outrageous scams—by the acclaimed author of *Lady Killers*. From Elizabeth Holmes and Anna Delvey to Frank Abagnale and Charles Ponzi, audacious scams and charismatic scammers continue to intrigue us as a culture. As Tori Telfer reveals in *Confident Women*, the art of the con has a long and venerable tradition, and its female practitioners are some of the best—or worst. In the 1700s in Paris, Jeanne de Saint-Rémy scammed the royal jewelers out of a necklace made from six hundred and forty-seven diamonds by pretending she was best friends with Queen Marie Antoinette. In the mid-1800s, sisters Kate and Maggie Fox began pretending they could speak to

spirits and accidentally started a religious movement that was soon crawling with female con artists. A gal calling herself Loreta Janeta Velasquez claimed to be a soldier and convinced people she worked for the Confederacy—or the Union, depending on who she was talking to. Meanwhile, Cassie Chadwick was forging paperwork and getting banks to loan her upwards of \$40,000 by telling people she was Andrew Carnegie's illegitimate daughter. In the 1900s, a 40something woman named Margaret Lydia Burton embezzled money all over the country and stole upwards of forty prized show dogs, while a few decades later, a teenager named Roxie Ann Rice scammed the entire NFL. And since the death of the Romanovs, women claiming to be Anastasia have been selling their stories to magazines. What about today? Spoiler alert: these “artists” are still conning. *Confident Women* asks the provocative question: Where does chutzpah intersect with a uniquely female pathology—and how were these notorious women able to so spectacularly dupe and swindle their victims?

confidence. This empowering, entertaining guide from the bestselling authors of *The Confidence Code* gives girls the essential yet elusive code to becoming bold, brave, and fearless. It's a paradox familiar to parents everywhere: girls are achieving like never before, yet they're consumed with doubt on the inside. Girls worry constantly about how they look, what people think, whether to try out for a sports team or school play, why they aren't getting "perfect" grades, and how many likes and followers they have online. Katty Kay and Claire Shipman use cutting-edge science and research, as well as proven methods of behavioral change, to reach girls just when they need it the most—the tween and teen years. Packed with graphic novel strips; appealing illustrations; fun lists, quizzes, and challenges; and true stories from tons of real girls, *The Confidence Code for Girls* teaches girls to embrace risk, deal with failure, and be their most authentic selves. The hidden history of Wall Street and the White House comes down to a single, powerful, quintessentially American concept: confidence. Both centers of power, tapping brazen innovations over the past three decades, learned how to manufacture it. Until August 2007, when that confidence finally began to crumble. In this gripping and brilliantly reported book, Ron Suskind tells the story of what happened next, as Wall Street struggled to save itself while a man with little experience and soaring rhetoric emerged from obscurity to usher in "a new era of responsibility." It is a story that follows the journey of

Barack Obama, who rose as the country fell, and offers the first full portrait of his tumultuous presidency. Wall Street found that straying from long-standing principles of transparency, accountability, and fair dealing opened a path to stunning profits. Obama's determination to reverse that trend was essential to his ascendance, especially when Wall Street collapsed during the fall of an election year and the two candidates could audition for the presidency by responding to a national crisis. But as he stood on the stage in Grant Park, a shudder went through Barack Obama. He would now have to command Washington, tame New York, and rescue the economy in the first real management job of his life. The new president surrounded himself with a team of seasoned players—like Rahm Emanuel, Larry Summers, and Tim Geithner—who had served a different president in a different time. As the nation's crises deepened, Obama's deputies often ignored the president's decisions—"to protect him from himself"—while they fought to seize control of a rudderless White House. Bitter disputes—between men and women, policy and politics—ruled the day. The result was an administration that found itself overtaken by events as, year to year, Obama struggled to grow into the world's toughest job and, in desperation, take control of his own administration. Pulitzer Prize-winning journalist Ron Suskind introduces readers to an ensemble cast, from the titans of high finance to a new generation of reformers, from petulant congressmen and acerbic lobbyists to a tight circle of White House advisers—and, ultimately, to the president himself, as you've never

before seen him. Based on hundreds of interviews and filled with piercing insights and startling disclosures, Confidence Men brings into focus the collusion and conflict between the nation's two capitals—New York and Washington, one of private gain, the other of public purpose—in defining confidence and, thereby, charting America's future.

When it comes to money, hope is not a strategy.

Toughen up, take action, and keep what's yours! Have you, like many women, put off organizing your financial life? You know you want independence, you know you want to save, and you know you want a solid retirement. But if you're overwhelmed at the thought of where and how to begin, you're not alone. You may have been raised to defer to others in matters of money, or you may feel you simply lack the understanding of how to take on financial matters. Without the confidence they need, it's easy for women to find themselves in a situation where the only action they feel they can take is hoping that everything will turn out all right in the end. But planning for the future doesn't have to be this way. Money Confidence is Crystal Oculée's authoritative and engaging reality check and call to action for women of all ages to take—or regain—control of their financial lives. The author shows why hope is not a financial strategy, and how, with the tools and information she provides, women can attain the independence, savings, and secure retirement they want. The author cleverly employs metaphors from familiar fairy tales to illuminate and accentuate the book's serious message: Women need to toughen up; and they can and need to identify and

overcome myths and mind-sets that place them at a disadvantage when it comes to dealing with their money and finding and working with financial advisors. Oculee shows women how to communicate, be strong, ask questions, and reject advisors who don't take them seriously. Real-life scenarios of various women's experiences with money and advisors prove how women can get the confidence they need once they know what is holding them back. The author presents informative, down-to-earth explanations of common financial situations and specific financial products along with useful worksheets in a conversational and friendly tone with a good dose of sass. Women will find her valuable and easy-to-follow advice rings true. Crystal is a personal finance expert, a national financial motivational speaker, a Personal Money Trainer™, and author. YOU ARE A SMART WOMAN, BUT DO YOU STILL:
—Feel you're too busy to invest your money? —Rely on someone else to deal? —Get bored by financial talk?

—Think that investing is something only men do? —Worry you're not smart enough? THINK AGAIN. Women have made strides in so many areas and yet we still have a blind spot when it comes to managing our money. Why? A myriad of factors cause women to earn less than men over a lifetime, making it all the more imperative that we make the money we do have work for us as much as possible. And here's a reality check: as many as nine out of ten of us will have to manage our finances and those of our family at some point in our lives. And a lot of us think that means keeping our money "safe" in savings accounts, and not investing it. But not doing so has an opportunity cost that will lead to opportunities lost—the ability to pay for a college education, own a home, change careers to pursue a dream, or retire. Alice Finn wants to change how you think about your money, no matter how much or little you have. In *Smart Women Love Money*, Finn paves the way forward by showing you that the power of investing is the last frontier of feminism. Drawing on more than twenty years of experience as a successful wealth management adviser, Finn shares five simple and proven strategies for a woman at any stage of her life, whether starting a career, home raising children, or heading up a major corporation. Finn's Five Life-changing Rules of Investing will secure your financial future: 1. Invest in Stocks for the Long Run: Get the magic of compounding working for you, starting now. 2. Allocate your Assets: Strategize your investing to get the most of your returns. 3. Implement with Index Funds: Take advantage of "passive" investing with simple, low-cost, and diverse

funds. 4. Rebalance Regularly: Sell high and buy low without much effort, to keep you on track toward your goals. 5. Keep Your Fees Low: Uncover hidden fees so you don't lose half of your wealth to Wall Street. Finn will also provide the tools you need to achieve long-term success no matter what the markets are doing or what the headlines say. So even in the face of uncertainty—such as the possible dumping of the fiduciary rule (requiring financial advisers to act in their client's best interests) by the Trump administration—Smart Women Love Money will help you protect yourself and all of your assets for your future. Whether you have \$10, \$10,000, or more, it's time to get smart about your money.
