In *Talking Art*, acclaimed ethnographer Gary Alan Fine gives us an eye-opening look at the contemporary university-based master's-level art program. Through an in-depth analysis of the practice of the critique and other aspects of the curriculum, Fine reveals how MFA programs have shifted the goal of creating art away from beauty and toward theory. Contemporary visual art, Fine argues, is no longer a calling or a passion—it's a discipline, with an academic culture that

requires its practitioners to be verbally skilled in the presentation of their intentions. Talking Art offers a remarkable and disconcerting view into the crucial role that universities play in creating that culture.

We spend much of our days talking. Yet we know little about the conversational engine that drives our everyday lives. We are pushed and pulled around by language far more than we realize, yet are seduced by stereotypes and myths about communication. This book will change the way you think about talk. It will explain the big pay-offs to understanding conversation scientifically. Elizabeth Stokoe, a social psychologist, has spent over twenty years collecting and analysing real conversations across settings as varied as first dates, crisis negotiation, sales encounters and medical communication. This book describes some of the findings of her own research, and that of other conversation analysts around the world. Through numerous examples from real interactions between friends, partners, colleagues, police officers, mediators, doctors and many others, you will learn that some of what you think you know about talk is wrong. But you

will also uncover fresh insights about how to have better conversations - using the evidence from fifty years of research about the science of talk.

Known as someone who worried about every little thing, always anticipated the worst possible outcome, and generally allowed her thoughts to get far ahead of life's actual circumstance, author Jane Anne Staw was one day inspired to think small. Her inspiration led her to learn to pay attention to the unfolding moments of life without the burden of worrying about what might

come next. Over time, thinking small developed into a central practice in Staw's life, and what followed was life-changing. In all facets of her life, she experienced a shift away from anger, depression, overwhelm, and loneliness to affection, calm, and connection. These short and insightful essays about some of life's most common occurrences are meditations and exercises in thinking small and discovering a life of profound contentment and wellbeing.

Think of *The Art of Captivating Conversation* as a more detailed and nuanced *How to Win Friends & Influence People* for the modern age, now that most people see Carnegie's book as "common sense." It is a handy book that will empower readers to speak confidently.

Men to Avoid in Art and Life pairs classical fine art with modern captions that epitomize the spirit of mansplaining. This hilarious book perfectly captures those relatable moments when a man explains to a woman a subject about which he knows considerably less than she does. Situations include men sharing keen insight on the female anatomy, an eloquent defense of catcalling, or offering sage advice about horseback riding to the woman who owns the horse. • These less qualified men of antiquity dish out mediocrity as if it's pure genius • For the women who have endured overbearing men over the centuries • Written with hilariously painful accuracy "Now, when you're riding a horse, you need to make sure to keep a good grip on the reins." "These are my horses." Through cringe-induced empathy, this timeless gift book of shared experiences unites women across history in one of the most powerful forms of resistance: laughter. • Started as a Twitter thread and quickly gained widespread popularity. • Makes a perfect book for women and feminists with a wry sense of humor, millennials, anyone who loves memes and Internet humor, as well as history and art buffs. • You'll love this book if you love books like Men Explain Things to Me by Rebecca Solnit, Milk and Vine: Inspirational Quotes from Classic Vines by Emily Beck, and Awards For Good Boys: Tales Of Dating, Double Standards, And Doom by Shelby Lorman.

life of American Revolutionary War hero John Paul Jones, "Captain Paul" is a rollicking melodrama, packed with action and romance. A fine precursor to Dumas' later classics, it's especially recommended for fans of naval adventures, like C.S. Forester's "Hornblower" series. Alexandre Dumas (1802 - 1870) was a hugely popular 19th Century French writer. Born of mixed French and Haitian heritage, Dumas first rose to prominence in Paris as a playwright, but later gained international fame with his historical fiction. Often co-authored with other writers, these stories wove together swashbuckling adventure, romance, and real events from France's past. Among the best known are "The Three Musketeers", and its sequels "Twenty Years After", and "Le Vicomte de Bragelonne: Ten Years Later". Set across four decades, this trilogy follows the rise of the dashing D'Artagnan—from hot-headed soldier to trusted captain under Louis XIV. Dumas' other novels include "The Count of Monte Cristo" and "The Black Tulip". His works have been adapted into more than 200 movies, including The Man in the Iron Mask starring Leonardo DiCaprio.
