

The First European Description Of Japan 1585 A Critical English Language Edition Of Striking Contrasts In The Customs Of Europe And Japan By Luis Frois Sj

Angela Vanhaelen, Bronwen Wilson

The First European Description of Japan, 1585 Luís Fróis, 2014 In 1585, at the height of Jesuit missionary activity in Japan, long-time missionary Luis Frois drafted the earliest systematic comparison of Western and Japanese cultures. This book constitutes the first critical English-language edition of the work. The book provides a translation of the text, which covers subjects as diverse as gender, religion, medicine, music, drama and seafaring. In addition, the book includes a substantive introduction, background information and comparisons with present-day Japanese life. Overall, the book is an important primary source for understanding a particularly challenging period of history and its connection to contemporary Europe and Japan.

The First European Description of Japan, 1585 Luis Frois SJ, 2014-03-14 In 1585, at the height of Jesuit missionary activity in Japan, which was begun by Francis Xavier in 1549, Luis Frois, a long-time missionary in Japan, drafted the earliest systematic comparison of Western and Japanese cultures. This book constitutes the first critical English-language edition of the 1585 work, the original of which was discovered in the Royal Academy of History in Madrid after the Second World War. The book provides a translation of the text, which is not a continuous narrative, but rather more than 600 distichs or brief couplets on subjects such as gender, child rearing, religion, medicine, eating, horses, writing, ships and seafaring, architecture, and music and drama. In addition, the book includes a substantive introduction and other editorial material to explain the background and also to make comparisons with present-day Japanese life. Overall, the book represents an important primary source for understanding a particularly challenging period of history and its connection to contemporary Europe and Japan.

Luis Frois: First Western Accounts of Japan's Gardens, Cities and Landscapes Cristina Castel-Branco, Guida Carvalho, 2019-09-28 This book focuses on Luis Frois, a 16th-century Portuguese Jesuit and chronicler, who recorded his impressions of Japanese gardens, cities and building practices, tea-drinking rituals, Japan's unification efforts, cultural

traditions, and the many differences between Europe and Japan in remarkable manuscripts almost lost to time. This research also draws on other Portuguese descriptions from contemporary sources spanning the years 1543 - 1597, later validated by Japanese history and iconography. Importantly, explorer Jorge Alvares recorded his experiences of discovery, prompting St. Francis Xavier to visit Japan in 1549, thus ushering in the “Christian Century” in Japan. During this long period of accord and reciprocal curiosity, the Portuguese wrote in excess of 1500 pages of letters to European Jesuits that detail their impressions of the island nation—not to mention their observations of powerful public figures such as Oda Nobunaga, Toyotomi Hideyoshi, and Sen no Rikyu. In addition to examining these letters, the authors translated and researched early descriptions of 23 gardens in Kyoto and Nara and 9 important cities—later visited by the authors, sketched, photographed and compared with the imagery painted on 16th-century Japanese screens. However, the data gathered for this project was found mainly within five large volumes of Frois’ *História do Japão* (2500 pages) and his *Treaty on Contradictions*—two incomparable anthropological works that were unpublished until the mid-20th century for reasons detailed herein. His volumes continue to be explored for their insightful observations of places, cultural practices, and the formidable historical figures with whom he interacted. Thus, this book examines the world’s first globalization efforts that resulted in profitable commerce, the introduction of Portuguese firearms that changed Japan’s history, scientific advances, religious expansion, and many artistic exchanges that have endured the centuries.

The Globe on Paper Giuseppe Marcocci, 2020-07-02 The age of exploration exposed the limits of available universal histories. Everyday interactions with cultures and societies across the globe brought to light a multiplicity of pasts which proved difficult to reconcile with an emerging sense of unity in the world. Among the first to address the questions posed by this challenge were a handful of Renaissance historians. On what basis could they narrate the history of hitherto unknown peoples? Why did the Bible and classical works say nothing about so many visible traces of ancient cultures? And how far was it possible to write histories of the world at a time of growing religious division in Europe and imperial rivalry around the world? A study of the cross-fertilization of historical writing in the sixteenth and early seventeenth centuries, *The Globe on Paper* reconstructs a set of imaginative accounts worked out from Mexico to the Moluccas and Peru, and from the shops of Venetian printers to the rival courts of Spain and England. The pages of this book teem with humanists, librarians, missionaries, imperial officials, as well as forgers and indigenous chroniclers. Drawing on information gathered—or said to have been gathered—from eyewitness reports, interviews with local inhabitants, ancient codices, and material evidence, their global narratives testify to an unprecedented broadening of horizons which briefly flourished before succumbing to the forces of imperial and religious reaction.

Christian-Muslim Relations. A Bibliographical History. Volume 7 Central and Eastern Europe, Asia, Africa and South America (1500-1600) David Thomas, John A. Chesworth, 2015-08-17 *Christian-Muslim Relations. A Bibliographical History,*

volume 7 (CMR 7), covering Central and Eastern Europe, Asia, Africa and South America in the period 1500-1600, is a continuing volume in a general history of relations between the two faiths from the seventh century to the early 20th century. It comprises introductory essays and the main body of detailed entries which treat all the works, surviving or lost, that have been recorded. These entries provide biographical details of the authors, descriptions and assessments of the works themselves, and complete accounts of manuscripts, editions, translations and studies. The result of collaboration between numerous leading scholars, CMR 7, along with the other volumes in this series, is intended as a basic tool for research in Christian-Muslim relations. Section editors: Clinton Bennett, Luis F. Bernabe Pons, Lejla Demiri, Martha Frederiks, John-Paul Ghobrial, David Grafton, Alan Guenther, Abdulkadir Hashim, Şevket Küçük Hüseyin, Emma Loghin, Gordon Nickel, Claire Norton, Peter Riddell, Umar Ryad, Davide Tacchini, Moussa Serge Hyacinthe Traore, Carsten Walbiner

The Routledge Handbook of Asian American Studies Cindy I-Fen Cheng, 2016-12-08 The Routledge Handbook of Asian American Studies brings together leading scholars and scholarship to capture the state of the field of Asian American Studies, as a generation of researchers have expanded the field with new paradigms and methodological tools. Inviting readers to consider new understandings of the historical work done in the past decades and the place of Asian Americans in a larger global context, this ground-breaking volume illuminates how research in the field of Asian American Studies has progressed. Previous work in the field has focused on establishing a place for Asian Americans within American history. This volume engages more contemporary research, which draws on new archives, art, literature, film, and music, to examine how Asian Americans are redefining their national identities, and to show how race interacts with gender, sexuality, class, and the built environment, to reveal the diversity of the United States. Organized into five parts, and addressing a multitude of interdisciplinary areas of interest to Asian American scholars, it covers: • a reframing of key themes such as transnationality, postcolonialism, and critical race theory • U.S. imperialism and its impact on Asian Americans • war and displacement • the garment industry • Asian Americans and sports • race and the built environment • social change and political participation • and many more themes. Exploring people, practice, politics, and places, this cutting-edge volume brings together the best themes current in Asian American Studies today, and is a vital reference for all researchers in the field.

A Companion to the Global Renaissance Jyotsna G. Singh, 2021-04-26 A COMPANION TO THE GLOBAL RENAISSANCE An innovative collection of original essays providing an expansive picture of globalization across the early modern world, now in its second edition *A Companion to the Global Renaissance: Literature and Culture in the Era of Expansion, 1500-1700, Second Edition* provides readers with a deeper and more nuanced understanding of both macro and micro perspectives on the commercial and cross-cultural interactions of the sixteenth and seventeenth centuries. Covering a uniquely broad range of literary and cultural materials, historical contexts, and geographical regions, the Companion's varied chapters offer interdisciplinary perspectives on the implications of early modern concepts of commerce, material and artistic culture, sexual

and cross-racial encounters, conquest and enslavement, social, artistic, and religious cross-pollinations, geographical “discoveries,” and more. Building upon the success of its predecessor, this second edition of *A Companion to the Global Renaissance* radically extends its scope by moving beyond England and English culture. Newly-commissioned essays investigate intercultural and intra-cultural exchanges, transactions, and encounters involving England, European powers, Eastern kingdoms, Africa, Islamic empires, and the Americas, within cross-disciplinary frameworks. Offering a complex and multifaceted view of early modern globalization, this new edition: Demonstrates the continuing global “turn” in Early Modern Studies through original essays exploring interconnected exchanges, transactions, and encounters Provides significantly expanded coverage of global interactions involving England, European powers such as Portugal, Spain, and The Netherlands, Eastern empires such as Japan, and the Ottoman, Safavid, and Mughal empires Includes a Preface and Afterword, as well as a revised and expanded Introduction summarizing the evolving field of Global Early Modern Studies and describing the motifs and methodologies informing the essays within the volume Explores an array of new subjects, including an exceptional woman traveler in Eurasia, the Jesuit presence in Mughal India and sixteenth-century Japan, the influence of Mughal art on an Amsterdam painter-cum-poet, the cultural impact of Eastern trade on plays and entertainments in early modern London, Safavid cultural disseminations, English and Portuguese slaving practices, the global contexts of English pattern poetry, and global lyric transmissions across cultures A wide-ranging account of the global expansions and interactions of the period, *A Companion to the Global Renaissance: Literature and Culture in the Era of Expansion, 1500-1700, Second Edition* remains essential reading for early modern scholars and students ranging from undergraduate and graduate students to more advanced scholars and specialists in the field.

Caste in Early Modern Japan Timothy Amos, 2019-12-06 Caste, a word normally used in relation to the Indian subcontinent, is rarely associated with Japan in contemporary scholarship. This has not always been the case, and the term was often used among earlier generations of scholars, who introduced the Buraku problem to Western audiences. Amos argues that time for reappraisal is well overdue and that a combination of ideas, beliefs, and practices rooted in Confucian, Buddhist, Shinto, and military traditions were brought together from the late 16th century in ways that influenced the development of institutions and social structures on the Japanese archipelago. These influences brought the social structures closer in form and substance to certain caste formations found in the Indian subcontinent during the same period. Specifically, Amos analyses the evolution of the so-called Danzaemon outcaste order. This order was a 17th century caste configuration produced as a consequence of early modern Tokugawa rulers’ decisions to engage in a state-building project rooted in military logic and built on the back of existing manorial and tribal-class arrangements. He further examines the history behind the primary duties expected of outcastes within the Danzaemon order: notably execution and policing, as well as leather procurement. Reinterpreting Japan as a caste society, this book propels us to engage in fuller comparisons of how

outcaste communities' histories and challenges have diverged and converged over time and space, and to consider how better to eradicate discrimination based on caste logic. This book will appeal to anyone interested in Japanese History, Culture and Society.

Changing Hearts Raphaële Garrod, Yasmin Haskell, 2019-01-21 This volume of essays contributes to our understanding of the ways in which the Jesuits employed emotions to “change hearts”—that is, convert or reform—both in Europe and in the overseas missions. The early modern Society of Jesus excited and channeled emotion through sacred oratory, Latin poetry, plays, operas, art, and architecture; it inflamed young men with holy desire to die for their faith in foreign lands; its missionaries initiated dialogue with and ‘accommodated’ to non-European cultural and emotional regimes. The early modern Jesuits conducted, in all senses of the word, much of the emotional energy of their times. As such, they provide a compelling focus for research into the links between rhetoric and emotion, performance and devotion, from the sixteenth through eighteenth centuries.

The Routledge Research Companion to Travel Writing Alasdair Pettinger, Tim Youngs, 2019-07-30 Showcasing established and new patterns of research, *The Routledge Research Companion to Travel Writing* takes an interdisciplinary approach to scholarship and to travel texts themselves. The volume adopts a thematic approach, with each contributor considering a specific aspect of travel writing – a recurrent motif, an organising principle or a literary form. All of the essays include a discussion of representative travel texts, to ensure that the volume as a whole represents a broad historical and geographical range of travel writing. Together, the 25 essays and the editors’ introduction offer a comprehensive and authoritative reflection of the state of travel writing criticism and lay the ground for future developments.

Osiris, Volume 37 Tara Alberts, Sietske Fransen, Elaine Leong, 2021-06-21 Highlights the importance of translation for the global exchange of medical theories, practices, and materials in the premodern period. This volume of *Osiris* turns the analytical lens of translation onto medical knowledge and practices across the premodern world. Understandings of the human body, and of diseases and their cures, were influenced by a range of religious, cultural, environmental, and intellectual factors. As a result, complex systems of translation emerged as people crossed linguistic and territorial boundaries to share not only theories and concepts, but also materials, such as drugs, amulets, and surgical tools. The studies here reveal how instances of translation helped to shape and, in some cases, reimagine these ideas and objects to fit within local frameworks of medical belief. *Translating Medicine across Premodern Worlds* features case studies located in geographically and temporally diverse contexts, including ninth-century Baghdad, sixteenth-century Seville, seventeenth-century Cartagena, and nineteenth-century Bengal. Throughout, the contributors explore common themes and divergent experiences associated with a variety of historical endeavors to “translate” knowledge about health and the body across languages, practices, and media. By deconstructing traditional narratives and de-emphasizing well-worn dichotomies, this

volume ultimately offers a fresh and innovative approach to histories of knowledge.

Education beyond Europe Cristiano Casalini,Edward Choi,Ayenachew A. Woldegiyorgis,2021-02-15 This volume inquires into the history of local educational traditions both before and after their encounter with European powers, and their own modernities.

Making Worlds Angela Vanhaelen,Bronwen Wilson,2022-11-01 Taking into account the destructive powers of globalization, Making Worlds considers the interconnectedness of the world in the early modern period. This collection examines the interdisciplinary phenomenon of making worlds, with essays from scholars of history, literary studies, theatre and performance, art history, and anthropology. The volume advances questions about the history of globalization by focusing on how the expansion of global transit offered possibilities for interactions that included the testing of local identities through inventive experimentation with new and various forms of culture. Case studies show how the imposition of European economic, religious, political, and military models on other parts of the world unleashed unprecedented forces of invention as institutionalized powers came up against the creativity of peoples, cultural practices, materials, and techniques of making. In doing so, Making Worlds offers an important rethinking of how early globalization inconsistently generated ongoing dynamics of making, unmaking, and remaking worlds.

An Anthropological lifetime in Japan Joy Hendry,2016-12-05 Joy Hendry's collection demonstrates the value of an anthropological approach to understanding a particular society by taking the reader through her own discovery of the field, explaining her practice of it in Oxford and Japan, and then offering a selection of the results and findings she obtained. Her work starts with a study of marriage made in a small rural community, continues with education and the rearing of children, and later turns to consider polite language, especially amongst women. This lead into a study of wrapping and cultural display, for example of gardens and theme parks, which became a comparative venture, putting Japan in a global context. Finally the book sums up change through the period of Hendry's research.

Catholic Missionaries in Early Modern Asia Nadine Amsler,Andreea Badea,Bernard Heyberger,Christian Windler,2019-10-24 Over recent decades, historians have become increasingly interested in early modern Catholic missions in Asia as laboratories of cultural contact. This book builds on recent ground-breaking research on early modern Catholic missions, which has shown that missionaries in Asia cooperated with and accommodated the needs of local agents rather than being uncompromising promoters of post-Tridentine doctrine and devotion. Bringing together some of the most renowned and innovative researchers from Anglophone countries and continental Europe, this volume investigates how missionaries' entanglements with local societies across Asia contributed to processes of localization within the early modern Catholic church. The focus of the volume is on missionaries' adaptation to four ideal-typical social settings that played an eminent role in early modern Asian missions: (1) the symbolically loaded princely court; (2) the city as a space of especially

dense communication; (3) the countryside, where missionary presence was only rarely permanent; (4) and the household - a central arena of conversion in early modern Asian societies. Shining a fresh light onto the history of early modern Catholic missions and the early modern Eurasian cultural exchange, this will be an important book for any scholar of religious history, history of cultural contact/global history and early modern history in Asia. Chapter 8 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution-Non Commercial-No Derivatives (CC-BY-NC-ND) 4.0 license.

Japan's Ainu Minority in Tokyo Mark K. Watson, 2014-03-14 This book is about the Ainu, the indigenous people of Japan, living in and around Tokyo; it is, therefore, about what has been pushed to the margins of history. Customarily, anthropologists and public officials have represented Ainu issues and political affairs as limited to rural pockets of Hokkaido. Today, however, a significant proportion of the Ainu people live in and around major cities on the main island of Honshu, particularly Tokyo. Based on extensive original ethnographic research, this book explores this largely unknown diasporic aspect of Ainu life and society. Drawing from debates on place-based rights and urban indigeneity in the twenty-first century, the book engages with the experiences and collective struggles of Tokyo Ainu in seeking to promote a better understanding of their cultural and political identity and sense of community in the city. Looking in-depth for the first time at the urban context of ritual performance, cultural transmission and the construction of places or 'hubs' of Ainu social activity, this book argues that recent government initiatives aimed at fostering a national Ainu policy will ultimately founder unless its architects are able to fully recognize the historical and social complexities of the urban Ainu experience.

Food and Communication Mark McWilliams, 2016 The papers explored the use of food and cookery to explore the past and the exotic, and food in corporations.

Escaping Japan Blai Guarné, Paul Hansen, 2017-10-12 The idea that Japan is a socially homogenous, uniform society has been increasingly challenged in recent years. This book takes the resulting view further by highlighting how Japan, far from singular or monolithic, is socially and culturally complex. It engages with particular life situations, exploring the extent to which personal experiences and lifestyle choices influence this contemporary multifaceted nation-state. Adopting a theoretically engaged ethnographic approach, and considering a range of escapes both physical and metaphorical, this book provides a rich picture of the fusions and fissures that comprise Japan and Japaneseness today.

A Gentleman from Japan Thomas Lockley, 2024-05-21 An incredible sea story that turns the Age of Exploration on its head, following the first Japanese man to set foot on North America and England. On November 12, 1588, five young Asian men—led by a twenty-one-year-old called Christopher—traveled up the River Thames to meet Queen Elizabeth I. Christopher's epic sea voyage had spanned from Japan, via the Philippines, New Spain (Mexico), Java and Southern Africa. On the way, he had already become the first recorded Japanese person in North America. Now Christopher was the first ever

Japanese visitor to England, and no other would leave such a legacy for centuries to come. The story of Christopher is almost utterly forgotten and has never been fully told before. *A Gentleman from Japan* is a fast-paced, historical narrative of adventure, cross-cultural endeavor, intellectual exchange, perseverance, espionage and conflict in the Age of Exploration.

The Japanese Family Diana Adis Tahhan, 2014-06-27 This book explores how the relationship between child and parent develops in Japan, from the earliest point in a child's life, through the transition from family to the wider world, first to playschools and then schools. It shows how touch and physical contact are important for engendering intimacy and feeling, and how intimacy and feeling continue even when physical contact lessens. It relates the position in Japan to theoretical writing, in both Japan and the West, on body, mind, intimacy and feeling, and compares the position in Japan to practices elsewhere. Overall, the book makes a significant contribution to the study of and theories on body practices, and to debates on the processes of socialisation in Japan.
