With a New Afterword: THE INSIDE STORY OF WHAT WENT WRONG AFTER 2016! David Kaplan of CSN Chicago and ESPN Radio goes behind the scenes with the Cubs and their front office, walking the steps of their captivating rise to becoming 2016 World Series champions On October 12, 2011, Theo Epstein became the new Chicago Cubs president of baseball operations, flipping a switch on the lovable-loser franchise and initiating a plan to accomplish in Chicago what he'd succeeded in as general manager of the Boston Red Sox: ending a World Series drought. It would require a complete team tear-down and turnover, a new farm system foundation of young talent which Epstein and Cubs GM Jed Hoyer gradually added to with gutsy trades and timely signings. After years of rebuilding, Epstein's vision was realized in the form of one of the most exciting and talented teams in baseball, led by heavyweights like Anthony Rizzo and Kris Bryant, as well as visionaries like manager Joe Maddon. Then the challenge became making the success last. Featuring exclusive interviews with Epstein, owner Tom Ricketts, and other team insiders, this is the definitive account of modern baseball on the North Side.

Discover the (surprising) secret to lifelong financial freedom with real estate investing. Real estate has always been a powerful tool for investing, and many people believe that a single-family home investment strategy will help them achieve their goals. However, the true path to financial freedom using real estate is found in apartment buildings. Real estate investing expert and author Michael Blank learned that once investors did their first deal, the curious "Law of the First Deal" led to the second and third deals in rapid succession. Most were able to quit their jobs within 3-5 years of getting started. Of course, when most people hear "apartment buildings" they immediately assume they need years of investing experience and money saved up to be able get into the game. This simply isn't true. Michael has compiled the results of his research into his new book, Financial Freedom with Real Estate Investing: The Blueprint to Quitting Your Job with Real Estate - Even without Experience or Cash. He's outlined the "Financial Freedom Blueprint" that guides you through your first multifamily deal, even if you have no prior experience or your own cash.

Let's face it—fixing and flipping houses is sexy. Who doesn't love the idea of buying a rundown, mold-infested shack and transforming it into someone's dream home for massive profits? Reality TV shows make it look so easy. A little paint here, some new kitchen cabinets there, and presto! The house is sold for big bucks and everyone lives happily ever after. If only it were that simple. Fixing and flipping houses is a business. In order for a business to survive, prosper, and grow, systems must be put in place. Fixing and Flipping Real Estate: Strategies for the Post-Boom Era is a book that breaks down the four essential components of a fix-and-flip business, giving you the building blocks to efficiently buy and sell 1 to 20 properties a month in today's post-boom era housing market. You'll learn about each of the boxes:

Acquisition—How to find and buy a profitable real estate deal. Rehabbing—How to systematically remodel a house and how not to underimprove, or overimprove, your property. Sales—How to sell your flip for the highest possible price in the shortest possible time. Raising Capital—How to get the capital you need to grow your business, including using other people's money, for your real estate deals without getting sued or going to jail. In the post-real estate boom era, fixing and flipping is again a solid business--especially in the "sand" states—Arizona, California, Nevada, Texas, and Florida, among others. It's also a good bet in states as diverse as North Carolina and Washington State. And with the real estate market projected to bottom out nationally in 2012 (this time for real), there are plenty of houses to be renovated and plenty of money to be made by the enterprising in all fifty states. This book shows real estate investors everything they need to know to get started fixing and reselling houses either as a substantial sideline or a full-on business.

This guide provides an overview of the many components of the popular practice of flipping properties. Coverage spans the flipping process from start to finish—finding, buying, fixing up, and selling—and the variables needed to make all of those steps successful and profitable. Also included is coverage on negotiating, property inspections, mortgages, taxes, and working with contractors, brokers, and real estate agents. The book is perfect for responsible investors who want to flip houses the right way and steer clear of legal gray areas that get some investors into trouble.

Having grown up in a small town of five to six thousand residents, I totally appreciate life's simplicities. This work was created to simplify what most people would complicate: a house renovation with the goal of flipping. To be honest, real estate is a very complicated field with multiple sub-industries that do not necessarily correlate. Yet the home renovation and house flipping industry has, in recent times, gotten the general population excited about real estate investing. I like to call it the rebranding of an industry. House flipping has a silver lining so rarely mentioned that many active flippers do not fully understand the advantages until putting in several years of work. This is because the benefits of flipping are almost always seen as huge profit margins. Big profits are absolutely obtainable, but they are actually not the best benefit nor reason to start a house flipping business. The key to expanding any business is leverage. Flipping homes consistently helps you gain experience. That experience can then be used as a bargaining tool with lending institutions to allow you to leverage, or get financing, for larger and larger sums of money. Going into house flipping to make vast profits is not a strategy that fits the business model of 2020 and beyond. While liquidity (cash on hand) expedites one's ability to acquire properties, the access to leverage allows one to buy larger, more valuable and usually more profitable assets. For example, if you could put up \$100,000 of your cash and gain control of \$1 million worth of properties to renovate, you could end up with a much bigger check to deposit. The goal of any business is to first understand its industry and then use that knowledge to create a system of processes. If the blood of a business is money, the heart of a business is its systems. One cannot function properly without the other. In the following pages, I will teach you a method for flipping houses that will simplify the way you think about this industry. I will also teach you system design techniques that will place you years ahead of most of your competition. This short book is designed to obliterate your fears and misconceptions of the house-flipping process. It is also a blueprint for checks and balances that you can even use to flip remotely. Thank you for allowing me to share this information with you. This guide is the first of many to come.

Secrets of the Millionaire Mind reveals the missing link between wanting success and achieving it! Have you ever wondered why some people seem to get rich easily, while others are destined for a life of financial struggle? Is the difference found in their education, intelligence, skills, timing, work habits, contacts, luck, or their choice of jobs, businesses, or investments? The shocking answer is: None of the above! In his groundbreaking Secrets of the Millionaire Mind, T. Harv Eker states: "Give me five minutes, and I can predict your financial future for the rest of your life!" Eker does this by identifying your "money and success blueprint." We all have a personal money blueprint ingrained in our subconscious minds, and it is this blueprint, more than anything, that will determine our financial lives. You can know everything about marketing, sales, negotiations, stocks, real estate, and the world of finance, but if your money blueprint is not set for a high level of success, you will never have a lot of money—and if somehow you do, you will most likely lose it! The good news is that now you can actually reset your money blueprint to create natural and automatic success.

Secrets of the Millionaire Mind is two books in one. Part I explains how your money blueprint works. Through Eker's rare combination of street smarts, humor, and heart, you will learn how your childhood influences have shaped your financial destiny. You will also learn how to identify your own money blueprint and "revise" it to not only create success but, more

important, to keep and continually grow it. In Part II you will be introduced to seventeen "Wealth Files," which describe exactly how rich people think and act differently than most poor and middle-class people. Each Wealth File includes action steps for you to practice in the real world in order to dramatically increase your income and accumulate wealth. If you are not doing as well financially as you would like, you will have to change your money blueprint. Unfortunately your current money blueprint will tend to stay with you for the rest of your life, unless you identify and revise it, and that's exactly what you will do with the help of this extraordinary book. According to T. Harv Eker, it's simple. If you think like rich people think and do what rich people do, chances are you'll get rich too!

In todays economy, being a smart consumer and investor is very important. Having a system you can use to help generate extra income can make a huge difference in so many peoples lives, so Im excited to put it out there. Everything in this book comes from what I have learned through trial and error and actually being in the business. Cleveland Williams The Secrets of Car Flipping is a very unique step by step guide that instructs on everything anyone would need to know for buying and selling used cars. This book teaches the reader where to find good used cars and alerts the reader of the dangers of buying from certain places, such as a car auction. Step by step, the reader will learn where to find cars, how to evaluate the condition of a car, how to determine how much the car is worth, and how to decide what one should pay for a car. This book is the ultimate guide for buying and selling used cars because it actually teaches the reader how to negotiate prices, gives the user sales strategies on how to get information from the seller about the car, and gives the reader tips on closing the deal. The second part of the book reverses this scenario and gives the reader step by step instructions on reselling the car and dressing the car for a buyer. The second part of the book also discusses how to advertise the car, deal with potential buyers, negotiate a price, and close the sale. This book has it all, and as a bonus, there are several secrets and tricks of the trade included. Along with giving the readers warning signs, I have also included things the reader should look for, dos and donts when buying and selling a car, and sample forms like a bill of sale. This is the only book that I know of that supplies the reader with all this information.
