

The Geek Baby Book A Memory Journal For Every Geeky First In Your Babys Life

This book makes a wonderful geek baby gift for your favorite new parents! Grammar for Babies is a delightful series for babies, kids, and adults alike. Explore the possibilities of better grammar with fun characters like Carlos the Comma and Wendy the Word. Refresh your memory while you spend time with your child. Even when the kids aren't around, you may find yourself reading from this series to strengthen your own writing habits. In this book, hang out with Carlos for a fun day on the job. Learn ways to properly use commas and how to avoid common comma mistakes. This book is also great for English as a Second Language (ESL) learners of all ages. Please note: for your favorite big kid, you may also get a version of this book without the Grammar for Babies logo. Don't miss the reviews on that edition! It's the same book with a different title to appeal to older children and encourage literacy for them, too. <http://www.tinyurl.com/CarlosTheComma>

The actor covers his life after leaving the television series "Star Trek: the Next Generation," describing the pitfalls associated with being a former child star and his decision to launch his weblog in 2001.

What if Darth Vader took an active role in raising his son? What if "Luke, I am your father" was just a stern admonishment from an annoyed dad? In this hilarious and sweet comic reimagining, Darth Vader is a dad like any other—except with all the baggage of being the Dark Lord of the Sith. Celebrated artist Jeffrey Brown's delightful illustrations give classic Star Wars® moments a fresh twist, presenting the trials and joys of parenting through the lens of a galaxy far, far away. Life lessons include lightsaber batting practice, using the Force to raid the cookie jar, Take Your Child to Work Day on the Death Star ("Er, he looks just like you, Lord Vader!"), and the special bond shared between any father and son. Plus, this is the fixed-format version, which looks almost identical to the print edition.

"A cool girl with an X-rated internal life and a socially-inept guy prove that opposites attract in this ... look at love, sexuality, and becoming your true self"--

Explore the colorful world of pop culture with this perfect introduction to all things geek! There are tons of colors -- and playful references -- to be found inside this geeky board book. With nods to science fiction classics and fantasy basics, this book is complete with bright, full-color illustrations and a helpful reference page at the end. Geeky Baby's Guide to Colors is sure to delight any young fan and be the perfect gift for geeky families and parents of all kinds.

Discover what makes every Aries baby special! This perfect book for your little star is part of a gorgeous and 100% giftable 12-book astrology board book series that shares gentle thoughts about the characteristics of a child born under each star sign. Dear Little Aries, Did you know that you are adventurous, determined, and confident? . . . Every Aries baby and toddler (born Mar. 21-Apr. 19) is going to need this charming, gentle board book that allows grown-ups and children to share the many lovely qualities that make each Aries kid special. Little ones--just like adults--will love knowing what the traits of their star sign are, all the while learning that they are unique, wonderful, and--above all--so loved. The absolute perfect gift for baby showers, first birthdays, and any time a baby is celebrated, the Baby Astrology series lets little ones know that they are ALL stars.

Witness epic and adorable moments in the life of Grogu in this pocket-sized book of quotes! Hold the thrilling adventures of Grogu and Din Djarin in the palm of your hand, with this tiny book celebrating fan-favorite scenes from Star Wars: The Mandalorian. Loaded with imagery of the most mysterious and lovable alien in the galaxy, and quotes from all of his unlikely allies, Star Wars: The Tiny Book of Grogu will be the perfect gift for any Star Wars fan. • BELOVED MOMENTS IN THE PALM OF YOUR HAND: With its 1.34" x 1.73" size, this tiny book packs a galaxy's worth of adventure into a pocket-sized format. • CELEBRATE GROGU: Featuring imagery and quotes from Star Wars: The Mandalorian (Seasons 1 and 2), this tiny book features Grogu's most incredible escapades. "My name is Harriet Manners, and I have always been a geek." The fourth book in the award-winning GEEK GIRL series.

It takes a starship to raise a child. Or a time machine. Or a tribe of elves. Fortunately, Geek Parenting offers all that and more, with thoughtful mini-essays that reveal profound child-rearing advice (and mistakes) from the most beloved tales of geek culture. Nerds and norms alike can take counsel from some of the most iconic parent-child pairings found in pop culture: Aunt May and Peter Parker, Benjamin and Jake Sisko, Elrond and Arwen, even Cersei and Joffrey. Whether you're raising an Amazon princess, a Jedi Padawan, a brooding vampire, or a standard-issue human child, Geek Parenting helps you navigate the ion storms, alternate realities, and endless fetch quests that come with being a parent. Includes parenting experts from across time and space, such as: Luke and Vader Korra and Tenzin Wednesday and Morticia Addams Frodo and Bilbo Rose and Jackie Tyler Carl and Michonne Thor, Loki, and Odin Starbuck, Apollo and Adama Stewie and Lois Sarah Manning and Mrs. S. T'Challa and T'Chaka Spock, Sarek, and Amanda Claudia and Lestat San and Moro Perseus and Zeus Dorothy and Auntie Em Bruce Wayne and Alfred Buffy and Giles Meg Murry and Aunt Beast Orpheus and Morpheus Paul Atreides and Lady Jessica Kal-El and Jor-El Chakotay and Kolopak Scott and Dr. Evil Diana and Hippolyta Alexander and Worf

Nerdy Babies is a new series that will ignite curiosity in even the youngest readers and encourage them to ask questions and explore the world around them. In Nerdy Babies: Ocean, follow our intrepid infants into the watery depths. Check out animals, plants, and fish that live in the ocean. Plus, learn about the unique ecosystem in this simple text written in question and answer

format. With bright artwork by Emmy Kastner, this will be a book that the very littlest nerds will want to return to again and again. Stay curious. There's more to learn about everything! Feminist Baby is back in the follow-up to the New York Times bestseller by two-time Emmy Award-winning author Loryn Brantz. Feminist Baby is learning to talk. She says what she thinks and it totally rocks! Feminist Babies stand up tall! "Equal rights and toys for all!" Feminist Baby is ready for more adventures--and this time she has friends! Still strong and independent, readers will love Feminist Baby as she continues to teach about feminism in a fresh, accessible way.

The ultimate DIY project guide for techie dads raising kids in their own geeky image, in the spirit of *The Dangerous Book for Boys*. Today's generation of dads grew up more tech-savvy than ever. Rather than joining the Little League team, many grew up playing computer games, *Dungeons and Dragons*, and watching *Star Wars*. Now with kids of their own, these digital-age dads are looking for fresh ways to share their love of science and technology, and help their kids develop a passion for learning and discovery. Enter supergeek, and father of two, Ken Denmead. An engineer and editor of the incredibly popular GeekDad blog on wired.com, Ken has created the ultimate, idea-packed guide guaranteed to help dads and kids alike enjoy the magic of playtime together and tap into the infinite possibility of their imagination. With illustrations throughout, this book offers projects for all ages to suit any timeframe or budget. With Denmead's expert guidance, you and your child can:

- Fly a night-time kite ablaze with lights or launch a video camera with balloons
- Construct the "Best Slip n' Slide Ever," a guaranteed thrill ride
- Build a working lamp with LEGO bricks and CDs
- Create a customized comic strip or your own board game
- Transform any room into a spaceship
- Make geeky crafts like cyborg jack-o'-lanterns or Ethernet cuff links

Brimming with endlessly fun and futuristic tidbits on everything from gaming to gadgets, GeekDad helps every tech-savvy father unleash his inner kid--and bond with the next generation of brainiacs. Watch a Video

"A story of triumph, friendship, love, and above all, about being human and reaching for dreams in a hard-wired world."—Seattle Times "Too often, writing about the online world lacks emotional punch, but Katz's obvious love for his 'lost boys' gives his narrative a rich taste."—The New York Times Book Review Jesse and Eric were geeks: suspicious of authority figures, proud of their status as outsiders, fervent in their belief in the positive power of technology. High school had been an unbearable experience and their small-town Idaho families had been torn apart by hard times. On the fringe of society, they had almost no social lives and little to look forward to. They spent every spare cent on their computers and every spare moment online. Nobody ever spoke of them, much less for them. But then they met Jon Katz, a roving journalist who suggested that, in the age of geek impresario Bill Gates, Jesse and Eric had marketable skills that could get them out of Idaho and pave the way to a better life. So they bravely set out to conquer Chicago—geek style. Told with Katz's trademark charm and sparkle, *Geeks* is a humorous, moving tale of triumph over adversity and self-acceptance that delivers two irresistible heroes for the digital age and reveals the very human face of technology. Praise for *Geeks* "Ultimately, *Geeks* is not a story about the Internet or computers or techies. It is a story about personal bonds, optimism, access to opportunity, and the courage to dream."—Salon "An uplifting and hugely compassionate book."—Philadelphia Inquirer "A story of friendship, optimism, social despair, and an updated version of that American icon, the tinkerer."—USA Today Provides a collection of ideas for science fair projects and family activities, including making topsoil, understanding calories, and building a MacGyver radio.

I, Noralee Reynolds, lead the ultimate nerd life. I own a comic shop, have a great group of geeky friends to work with and wear a different cosplay every day. Since inheriting the family business I've had no time for a personal life of my own. Even if hosting a speed dating event makes me wish otherwise. I, Wyatt Collins, lead a hectic life. As a single dad, I've only got time for two things - raising my son and being a cop. I wasn't looking to cuff myself to anyone. Then I crossed paths with a nerdy comic shop owner who made me think twice. Things are great until a little self-doubt has Noralee wanting to run away. Can Wyatt convince her that he can be her real-life superhero?

"Riot Baby bursts at the seams of story with so much fire, passion and power that in the end it turns what we call a narrative into something different altogether."—Marlon James Ella has a Thing. She sees a classmate grow up to become a caring nurse. A neighbor's son murdered in a drive-by shooting. Things that haven't happened yet. Kev, born while Los Angeles burned around them, wants to protect his sister from a power that could destroy her. But when Kev is incarcerated, Ella must decide what it means to watch her brother suffer while holding the ability to wreck cities in her hands. Rooted in the hope that can live in anger, *Riot Baby* is as much an intimate family story as a global dystopian narrative. It burns fearlessly toward revolution and has quietly devastating things to say about love, fury, and the black American experience. Ella and Kev are both shockingly human and immeasurably powerful. Their childhoods are defined and destroyed by racism. Their futures might alter the world. "[Tochi] Onyebuchi has woven a story as uplifting as it is heartbreaking, an epic ode to the future and past, tiny acts of resistance, love, and the wild unstoppable sweep of revolution."—Daniel José Older At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

There's a TARDIS cookie jar in our kitchen. A Picard air freshener in our car. And we won't even mention Harry Potter in the bathroom. We're geeks and proud of it! But is there nothing for baby? Inconceivable! Introducing *100 First Words for Little Geeks*, a deliciously nerdy primer for kids learning their first words! Forget apple and dog. Little geeks are ready for holy grail, warp core, and intergalactic catastrophe (okay, forget that last one, but they'll learn tribble and that's about the same thing). Packed with hilarious illustrations and 100 words every geek baby should know (before any others, of course), *100 First Words for Little Geeks* is the perfect board book for geek families everywhere. Great Scott!

An alphabet book all about geekdom. On board pages. Suggested level: junior.

As a closeted teen, Ian wondered if he would ever fall in love or be able to live openly with a male partner. Years later, he had not one but two partners in a polyamorous throuple, and the support of family, friends, and coworkers. But something was still missing. Spurred by a friend's donation of two embryos, Ian, Alan, and Jeremy embarked on a sometimes hilarious, sometimes tearful quest to become parents. Along the way, they faced IVF failures, the threat of Zika virus, a battle at their clinic that forced them into an urgent hunt for a new doctor, pregnancy-threatening bleeds, costly legal battles, and a reluctant superior court judge. Ultimately the grace of women—embryo donors, their egg donor, their surrogate, even a surprise milk donor—allowed them to complete their family with one perfect girl. And in fighting for their family, they became the first polyamorous family ever named as the legal parents of a child. National Book Award finalist Here is the unforgettable story of the Binewskis, a circus-geek family whose matriarch and patriarch have bred their own exhibit of human oddities (with the help of amphetamine, arsenic, and radioisotopes). Their offspring include Arturo the Aquaboy, who has flippers for limbs and a megalomaniac ambition worthy of Genghis Khan . . . Iphy and Elly, the

lissome Siamese twins . . . albino hunchback Oly, and the outwardly normal Chick, whose mysterious gifts make him the family's most precious—and dangerous—asset. As the Binewskis take their act across the backwaters of the U.S., inspiring fanatical devotion and murderous revulsion; as its members conduct their own Machiavellian version of sibling rivalry, Geek Love throws its sulfurous light on our notions of the freakish and the normal, the beautiful and the ugly, the holy and the obscene. Family values will never be the same.

Let's face it, reading sucks . . . but movies are fun! In this children's picture book parody for grown-ups, Pixar writer and artist Josh Cooley presents the most hilariously inappropriate—that is, the best-scenes from contemporary classic films in an illustrated, for-early-readers style. Terrifying, sexy, and awesome scenes from such favorite films as Alien, Rosemary's Baby, Fargo, Basic Instinct, Seven, The Silence of the Lambs, Apocalypse Now, The Shining, and many more are playfully illustrated and captioned to make reading fun and exciting for kids who never grew up. A sly celebration of the things fans love most about these legendary films (and movies in general), this is one book that probably should not be read at bedtime.

Fans of Chris Ferrie's ABCs of Science, Organic Chemistry for Babies, and Quantum Physics for Babies will love this introduction to Einstein's most famous theory! Help your future genius become the smartest baby in the room! It only takes a small spark to ignite a child's mind. Written by an expert, General Relativity for Babies is a colorfully simple introduction to Einstein's most famous theory. Babies (and grownups!) will learn all about black holes, gravitational waves, and more. With a tongue-in-cheek approach that adults will love, this installment of the Baby University board book series is the perfect way to introduce basic concepts to even the youngest scientists. After all, it's never too early to become a quantum physicist! If you're looking for books similar to Baby Loves Science by Ruth Spiro, quantum information for babies, or infant science books, look no further! General Relativity for Babies offers fun early learning for your little quantum physicist!

Amber How do you politely refuse when the only guy to star in any of your dirty fantasies has just offered to put you up for the foreseeable future and your brother's just accepted like you were in fact still thirteen and couldn't make decisions for yourself? You don't. And, you end up with a roommate who wears a very good elegant mask over the rough and tumble, bad boy core I remember far too well. Only, it's ten years later and I'm even nerdier than I used to be. It's ten years later and I couldn't look worse. It's ten years later and I can't keep one guy. It's ten years later and my brother still teases me mercilessly in front of him. It's ten years later and Kit somehow looks even better than the guy I spent my formative years crushing on. So, there's not only the issue that he's my older brother's best friend, but also a sex-god this virgin can barely talk to. But that certainly never stopped me from drooling over him and it wouldn't stop me now. He's so far out of my league, I wouldn't even clean in his league. Except, there might just be a smouldering heat in Kit's eyes that suggests he's not quite as out of my league as I thought. Just maybe, this geek is about to get a whole lot of chaos. Kit When I find out about my best mate's little sister's situation, the offer is out of my mouth before I can stop it; Hawk's like a brother to me even if Amber's never looked twice at me. I could never tell if she was scared of me or hated me. But the deal is done. She's going to bring her bedraggled self upstairs to my penthouse and live with me for as long as she needs. I see the pain she hides away, I see the lack of confidence despite how smart she is, how good. If there's something I've learned, it's that confidence makes all the difference. So, it becomes my mission to help Amber find her confidence. But I find more than confidence in her and suddenly I'm seeing my best mate's little sister completely differently. I've never known what to say to her. She's always been good and studious and sweet. She's always been so far out of my league I wouldn't even carry bags in that league. Her face is a mask that tells me nothing in between the sparse words that come out of her mouth. Except, there might be something in the way she smiles at me that gives me hope I'm not as far out of her league as I thought. It might just be time that this chaos gets a little geek. Please be aware that this story is set in Australia and therefore uses Australian English spelling and syntax.

Rachael Bennett is a book nerd.A serious, hardcore book nerd. She has spent most of her life hiding in the stacks, making her way from adventure to adventure. Never leaving the pages to take any of her own. Until she discovers a new genre that opens her eyes to a whole new world of possibilities: Reverse Harem.When an old crush, cute skater, and broody art teacher come into her life will she be able to put down her books long enough to write her own love story or will she stay safe behind the pages she knows so well?Their Book Nerd is a contemporary reverse harem/poly novel. It is the first in the Midland Springs Series. Each book will take place in the fictitious small-ish town of Midland Springs, Florida. And each book follows a new love story. This series is interconnected, but each book can be read as a standalone.***Contains adult language and sexual content including m/m

A fun, quirky A to Z introduction to all things geeky runs the gamut from Dungeons and Dragons to super heroes; from wizards to warp drive; from Middle Earth to galaxies far, far away. Cool, colorful illustrations and snappy, rhyming text introduce geeks-in-training to their future favorite things. Insider Star Trek references, superpower basics, nods to science fiction classics and more will entertain little ones and the grownups who can't wait to take them to their first Comic Con. A-Z themed spreads are simple, funny and sweet—providing the perfect beginner course in geek iconography.

Meet Christy a determined young girl, who is passionate about saving the planet. Along with her boyfriend geeky Sam and best friend Amira and other school mates, they win a science competition and an opportunity to travel to Ecuador to write travel blogs. Excitement and anticipation for the trip is overshadowed by a HUGE dilemma for conscientious Christy. Can they get there in an eco-friendly way? Will she have to miss out on a trip of a lifetime to see the wildlife and experience the culture of Ecuador because of her principles? How best can she do her part to care for God's creation? After finding a brilliant solution, once in Ecuador, Christy and her fellow adventurers discover the trip is not all that it seems! A gripping adventure for any child passionate about wildlife of the rainforest, endangered ecosystems and being a responsible eco-warrior. See also Science Geek Sam and his secret logbook for a further fact-filled and thought-provoking story featuring Christy and Sam and their classmates.

The unique life story of one of the most talented and inventive comedians, star of Shaun of the Dead, Hot Fuzz, Paul, Spaced, and Star Trek. Zombies in North London, death cults in the West Country, the engineering deck of the Enterprise -- actor, comedian, writer, and supergeek Simon Pegg has been ploughing some bizarre furrows. Having landed on the U.S. movie scene in the surprise cult hit Shaun of the Dead, his enduring appeal and rise to movie stardom has been mercurial, meteoric, megatronic, but mostly just plain great. From his childhood (and subsequently adult) obsession with science fiction, his enduring friendship with Nick Frost, and his forays into stand-up comedy, which began with his regular Monday-morning slot in front of his twelve-year-old classmates, Simon has always had a severe and dangerous case of the funnies. Whether recounting his experience working as a lifeguard at the city pool, going to Comic-Con for the first time and confessing to Carrie Fisher that he used to kiss her picture every night before he went to sleep, or meeting and working with heroes that include Peter Jackson, Kevin Smith, and Quentin Tarantino, Pegg offers a hilarious look at the journey to becoming an international superstar.

Professor Steven Kipper is used to the stares, the muttered insults. Monster. Disgusting. Gross. It's all he's ever known. Relationships suck when his date won't even go out in public with him, which is why he hasn't bothered. That is until her. The woman on the internet who gets his every quirk. He's hooked on a person he's never met. The way she gets his jokes, the uninhibited sexuality and...just talking to her. She's everything he's ever wanted, only she's a stranger. Unless he can convince her they should unplug and take their virtual relationship off-line. Tamara Roh has heard all the insults from slut to whore and they bore her. She refuses to let other people define her. Life's tough in the gaming industry, and if she can't handle a few insults the haters will chew her up and spit her out. Her only haven is with her friends and in one very explicit chat room. On-line she can be anyone she wants to, even the normal girl-next-door who just happens to get off on dirty talk, erotic gifs and video chats from the neck down. She might not be able to trust guys in real life to see past the Hot Asian Girlfriend stereotype, but with her internet beau anonymity is her safety net. The only problem is...she's falling for a man who thinks she's someone else.

How do you connect the artsy, science-nerd mom to the art and science of parenting? Lynn Brunelle shares her field trip through pregnancy and parenting, sprinkled with a sparkle of science, in this hilarious and awe-inspiring memoir. With great enthusiasm, Lynn shows how she shares her inner geek--the part of her that is gleefully curious and wide-eyed with wonderment--with her children. For Lynn, science is the stardust that makes common things glow. Why not pass that magic along to the kids? When Lynn brought her passion for science into her parenting, it began to make all the difference to her and her kids. Her heart lifts when her boys are elbow-deep in mud searching for crystals and when she catches them debating whether a chicken is related to a dinosaur. Science isn't just for geeks. It's the future. If you're a parent or planning to become one, it's your future.

Goblin, a cheerful little homebody, lives in a cosy, rat-infested dungeon, with his only friend, Skeleton. Every day, Goblin and Skeleton play with the treasure in their dungeon. But one day, a gang of "heroic" adventurers bursts in. These marauders trash the place, steal all the treasure, and make off with Skeleton—leaving Goblin all alone! It's up to Goblin to save the day. But first he's going to have to leave the dungeon and find out how the rest of the world feels about goblins.

Baby GeekDowntown Bookworks

In this irresistibly funny follow-up to the breakout bestseller Darth Vader and Son, Vader—Sith Lord and leader of the Galactic Empire—now faces the trials, joys, and mood swings of raising his daughter Leia as she grows from a sweet little girl into a rebellious teenager. Smart and funny illustrations by artist Jeffrey Brown give classic Star Wars moments a twist by bringing these iconic family relations together under one roof. From tea parties to teaching Leia how to fly a TIE fighter, regulating the time she spends talking with friends via R2-D2's hologram, and making sure Leia doesn't leave the house wearing only the a skirted metal bikini, Vader's parenting skills are put hilariously to the test. Plus, this is the fixed-format version, which looks almost identical to the print edition.

I am a dog. Are you a dog? Welcoming a new baby to the family isn't always easy. When his humans bring home someone new, Dog is determined to sniff out the truth. Is this arrival another dog, or something else? As Dog investigates, he might just find a new friend in this loud, silly creature. With Dog's First Baby, Natalie Nelson captures the wonder and humor of a new baby through a dog's eyes. Sure to delight kids and dog parents alike, this playful and heartwarming board book promises to be a repeat read-aloud.

This collection examines the nerd and/or geek stereotype in popular culture today. Utilizing the media—film, TV, YouTube, Twitter, fiction—that often defines daily lives, the contributors interrogate what it means to be labeled a “nerd” or “geek.” While the nerd/geek that is so easily recognized now is assuredly a twenty-first century construct, an examination of the terms' history brings a greater understanding of their evolution. From sports to slasher films, Age of the Geek establishes a dialogue with texts as varied as the depictions of “nerd” or “geek” stereotypes.

This prenatal guide offers nutrition and environmental advice to reduce toxins in the body and in the home to have a healthier, more intelligent and happier baby that will be less susceptible to allergies, asthma and other issues. Original.

Having trouble finding the perfect name for your new baby? One that celebrates your favorite fandom, whether you want it to be immediately recognizable or something cool that won't sound out of place on the playground? Naming Your Little Geek is here to save the day! This ultimate guidebook is complete with every name a geek could ever want to give their baby, their meanings, and a list of all the legends who have borne them.
