

The Gorilla Game An Investors Guide To Picking Winners In

"This is not a book about charismatic visionary leaders. It is not about visionary product concepts or visionary products or visionary market insights. Nor is it about just having a corporate vision. This is a book about something far more important, enduring, and substantial. This is a book about visionary companies." So write Jim Collins and Jerry Porras in this groundbreaking book that shatters myths, provides new insights, and gives practical guidance to those who would like to build landmark companies that stand the test of time. Drawing upon a six-year research project at the Stanford University Graduate School of Business, Collins and Porras took eighteen truly exceptional and long-lasting companies -- they have an average age of nearly one hundred years and have outperformed the general stock market by a factor of fifteen since 1926 -- and studied each company in direct comparison to one of its top competitors. They examined the companies from their very beginnings to the present day -- as start-ups, as midsize companies, and as large corporations. Throughout, the authors asked: "What makes the truly exceptional companies different from other companies?" What separates General Electric, 3M, Merck, Wal-Mart, Hewlett-Packard, Walt Disney, and Philip Morris from their rivals? How, for example, did Procter & Gamble, which began life substantially behind rival Colgate, eventually prevail as the premier institution in its

Download Ebook The Gorilla Game An Investors Guide To Picking Winners In

industry? How was Motorola able to move from a humble battery repair business into integrated circuits and cellular communications, while Zenith never became dominant in anything other than TVs? How did Boeing unseat McDonnell Douglas as the world's best commercial aircraft company -- what did Boeing have that McDonnell Douglas lacked? By answering such questions, Collins and Porras go beyond the incessant barrage of management buzzwords and fads of the day to discover timeless qualities that have consistently distinguished out-standing companies. They also provide inspiration to all executives and entrepreneurs by destroying the false but widely accepted idea that only charismatic visionary leaders can build visionary companies. Filled with hundreds of specific examples and organized into a coherent framework of practical concepts that can be applied by managers and entrepreneurs at all levels, *Built to Last* provides a master blueprint for building organizations that will prosper long into the twenty-first century and beyond. Behavioural investing seeks to bridge the gap between psychology and investing. All too many investors are unaware of the mental pitfalls that await them. Even once we are aware of our biases, we must recognise that knowledge does not equal behaviour. The solution lies in designing and adopting an investment process that is at least partially robust to behavioural decision-making errors. *Behavioural Investing: A Practitioner's Guide to Applying Behavioural Finance* explores the biases we face, the way in which they show up in the investment process, and urges readers to adopt an empirically

Download Ebook The Gorilla Game An Investors Guide To Picking Winners In

based sceptical approach to investing. This book is unique in combining insights from the field of applied psychology with a through understanding of the investment problem. The content is practitioner focused throughout and will be essential reading for any investment professional looking to improve their investing behaviour to maximise returns. Key features include: The only book to cover the applications of behavioural finance An executive summary for every chapter with key points highlighted at the chapter start Information on the key behavioural biases of professional investors, including The seven sins of fund management, Investment myth busting, and The Tao of investing Practical examples showing how using a psychologically inspired model can improve on standard, common practice valuation tools Written by an internationally renowned expert in the field of behavioural finance Since its first publication, Michael J. Mauboussin's popular guide to wise investing has been translated into eight languages and has been named best business book by BusinessWeek and best economics book by Strategy+Business. Now updated to reflect current research and expanded to include new chapters on investment philosophy, psychology, and strategy and science as they pertain to money management, this volume is more than ever the best chance to know more than the average investor. Offering invaluable tools to better understand the concepts of choice and risk, More Than You Know is a unique blend of practical advice and sound theory, sampling from a wide variety of sources and disciplines. Mauboussin builds on the ideas of

Download Ebook The Gorilla Game An Investors Guide To Picking Winners In

visionaries, including Warren Buffett and E. O. Wilson, but also finds wisdom in a broad and deep range of fields, such as casino gambling, horse racing, psychology, and evolutionary biology. He analyzes the strategies of poker experts David Sklansky and Puggy Pearson and pinpoints parallels between mate selection in guppies and stock market booms. For this edition, Mauboussin includes fresh thoughts on human cognition, management assessment, game theory, the role of intuition, and the mechanisms driving the market's mood swings, and explains what these topics tell us about smart investing. More Than You Know is written with the professional investor in mind but extends far beyond the world of economics and finance. Mauboussin groups his essays into four parts-Investment Philosophy, Psychology of Investing, Innovation and Competitive Strategy, and Science and Complexity Theory-and he includes substantial references for further reading. A true eye-opener, More Than You Know shows how a multidisciplinary approach that pays close attention to process and the psychology of decision making offers the best chance for long-term financial results.

Rules for successful trading, direct from the traders who practice them every day Even with today's high-speed computers, online accounts, and information access, traders still live or die based on their abilities to control fear, greed, and emotion. The Market Is Always Right gives traders battle-proven advice for avoiding common trading setbacks by understanding human natureboth their own and others'and directing it toward profitable outcomes. Distilling the wisdom of hundreds of traders,

Download Ebook The Gorilla Game An Investors Guide To Picking Winners In

this proactive book starts with 10 overriding rules for example, "Evaluate your performance" and then lists the subrules within each, such as "Qualify and quantify your trading pattern." Other examples include: Never chase trades Watch the open don't trade it When in doubt, get out

The Possibilities Are Staggering: Had you invested \$10,000 in Cisco Systems back in early 1990, your investment would now be worth \$3,650,000 Similarly, a \$10,000 investment made in Microsoft in 1986 would be valued at more than \$4,721,000 today \$10,000 invested in Yahoo! in 1996 would today be worth \$317,000 How do you get in on those deals—especially if you're not a Silicon Valley insider? How do you buy the high-tech winners and avoid the losers? How do you find the Yahoo!s, Microsofts, and Ciscos of tomorrow? The answers are here, in this newly revised edition of the national bestseller *The Gorilla Game*. The book reveals the dynamics driving the market for high-tech stocks and outlines the forces that catapult a select number of companies to "gorilla" status—dominating the markets they serve in the way that Yahoo! dominates internet portals, Microsoft dominates software operating systems, and Cisco dominates hardware for data networks. Follow the rules of *The Gorilla Game* and you will learn how to identify and invest in the "gorilla candidates" early on—while they are still fighting for dominance, and while their stocks are still cheap. When the dust clears and one company clearly attains leadership in its market, you'll reap the enormous returns that foresighted investors in high-tech companies deserve. This new

Download Ebook The Gorilla Game An Investors Guide To Picking Winners In

edition of *The Gorilla Game* has been updated and revised throughout, with new focus and new insights into choosing the internet gorillas—the companies that are destined to dominate internet commerce. Bestselling author Geoffrey A. Moore is one of the world's leading consultants in high-tech marketing strategy. Here you'll find his groundbreaking ideas about technology markets that made his previous books bestsellers, combined with the work of Paul Johnson, a top Wall Street technology analyst, and Tom Kippola, a high-tech consultant and highly successful private investor. Together they have discovered and played the gorilla game and now give readers the real rules for winning in the world of high-tech investing. Step by step you'll learn how to spot a high-tech market that is about to undergo rapid growth and development, how to identify and spread investments across the potential gorillas within the market, and how to narrow your investments to the single, emerging leader—the gorilla—as the market matures. High-tech investing can be extremely risky, but investors who learn to play the gorilla game can avoid many of the traps and pitfalls and instead start capitalizing on untold profits. Personal wealth is only a gorilla game away.

In this bold new book, high-tech's best-known strategist makes a seminal contribution to the search for meaning in a secular era. Two questions fundamental to human existence have always been the metaphysical “where do I fit in the grand scheme of things?” and the ethical “how should I behave?” Religion is no longer a source of answers for many people, and nothing has replaced it.

Download Ebook The Gorilla Game An Investors Guide To Picking Winners In

Moore uses his signature framework-based approach to answer these questions, taking us on an intellectual roller coaster ride through physics, chemistry, biology, the social sciences and the humanities. Along the way, he builds a metaphorical ladder that leads from the big bang to the need for ethical action in our daily lives. Combining an extraordinary range of scholarship with an accessible and entertaining writing style, *The Infinite Staircase: What the Universe Tells Us About Life, Ethics, and Mortality* provides a coherent and unified platform for a full human life.

The fault line -- that dangerous, unstable seam in the economy where powerful innovations and savage competition meet and create market-shattering tremors. Every company lives on it; no manager can control it. In the original edition of *Living on the Fault Line*, Geoffrey Moore presented a compelling argument for using shareholder value (or share price) as the key driver in management decisions. Moore now revisits his argument in the post-Internet bubble world, proving that the methods he espouses are more germane than ever and showing companies how to use them to survive and thrive in today's demanding economy. Extending the themes of *Crossing the Chasm* and *Inside the Tornado*, his first two books on the dynamics of the high-tech markets, Moore shows why sensitivity to stock price is the single most important lever for managing in the future, both as a leading indicator of shifts in competitive advantage and as an employee motivator for making necessary changes in organizations heretofore impervious to change. This revised and updated edition

Download Ebook The Gorilla Game An Investors Guide To Picking Winners In

includes: A deeper emphasis on core versus context, which has emerged as the key distinction in allocating resources to improve shareholder value A new Competitive Advantage Grid that will aid managers in achieving and sustaining competitive advantage, the most important component in managing for shareholder value An expanded Value Discipline Model as it relates to the Competitive Advantage Grid Analysis of the powerful new trend toward core/context analysis and outsourcing production duties Updated models of organizational change for each stage of market development As disruptive forces continue to buffet the marketplace and rattle the staid practices of the past, Moore offers a brilliant set of navigational tools to help meet today's most compelling management challenges. Geoffrey Moore reveals the dynamics behind the market for high-tech stocks and outlines the forces that catapult a select number of companies to huge success. The Gorilla Game is a must-read for the thousands of high-tech managers and marketeers who made his first two books best-sellers, as well as for all investors looking for a reliable guide to the rapidly changing world of high technology.

Controversial and iconoclastic, a veteran corporate manager and business school professor exposes the dangerous myths, fantasies, and delusions that pervade much of the business world today.

It's not good enough to want it. You've got to know how to get it. Real estate titan, bestselling author, and TV star Donald J. Trump is the man to teach you

Download Ebook The Gorilla Game An Investors Guide To Picking Winners In

the billionaire mind-set—how to think about money, career skills, and life. Here is crucial advice on investing in real estate from the expert, everything from dealing with brokers to renovating to assessing the value of property, buying and selling, and securing a mortgage. Trump will show you how to cut costs, decide how much risk to assume in your investments, and divide up your portfolio. He'll also teach you how to impress anyone, how to correct or criticize someone effectively, and how to know if your friends are loyal—everything you need to know to get ahead. And once you've earned your money, you've got to learn to spend it well. Trump presents his consumer guide to the best things in life, from wine to golf clubs to engagement rings. Check out the billionaire lifestyle—how they shop and what they buy. Even if you're not superwealthy, you can afford many of these luxuries. And what look inside the Trump world would be complete without *The Apprentice*? Trump will take you behind the scenes, from the end of season one and into season two, with insights into the making and the meaning of TV's hottest show. As Donald Trump proves, getting rich is easy. Staying rich is harder. Your chances are better, and you'll have more fun, if you think like a billionaire. This is the book that will help you make a real difference in your life.

Is it possible to be a conscientious citizen of the world and grow wealth? The author, a Buddhist and

Download Ebook The Gorilla Game An Investors Guide To Picking Winners In

a financial planner, says yes and explains exactly how. Money drives many of our decisions. We all worry about earning it, spending it, and saving it — regardless of our income level or spiritual perspective. Yet few of us understand money's true nature. Jonathan K. DeYoe helps you create a unique financial plan that is guided by your deepest beliefs, and shows you how to save, invest, pay off debt, and fund your retirement and dreams by building a lifetime income stream. With a foreword by Pulitzer Prize–winner Alice Walker, *Mindful Money* does all this while emphasizing that money is a tool you can use to support your lifestyle, reach your goals, and earn the “happiness dividend” everyone deserves.

“More than anything else technology creates our world. It creates our wealth, our economy, our very way of being,” says W. Brian Arthur. Yet despite technology's irrefutable importance in our daily lives, until now its major questions have gone unanswered. Where do new technologies come from? What constitutes innovation, and how is it achieved? Does technology, like biological life, evolve? In this groundbreaking work, pioneering technology thinker and economist W. Brian Arthur answers these questions and more, setting forth a boldly original way of thinking about technology. *The Nature of Technology* is an elegant and powerful theory of technology's origins and evolution.

Download Ebook The Gorilla Game An Investors Guide To Picking Winners In

Achieving for the development of technology what Thomas Kuhn's *The Structure of Scientific Revolutions* did for scientific progress, Arthur explains how transformative new technologies arise and how innovation really works. Drawing on a wealth of examples, from historical inventions to the high-tech wonders of today, Arthur takes us on a mind-opening journey that will change the way we think about technology and how it structures our lives. *The Nature of Technology* is a classic for our times.

Pinocchio, The Tale of a Puppet follows the adventures of a talking wooden puppet whose nose grew longer whenever he told a lie and who wanted more than anything else to become a real boy. As carpenter Master Antonio begins to carve a block of pinewood into a leg for his table the log shouts out, "Don't strike me too hard!" Frightened by the talking log, Master Cherry does not know what to do until his neighbor Geppetto drops by looking for a piece of wood to build a marionette. Antonio gives the block to Geppetto. And thus begins the life of Pinocchio, the puppet that turns into a boy. *Pinocchio, The Tale of a Puppet* is a novel for children by Carlo Collodi is about the mischievous adventures of Pinocchio, an animated marionette, and his poor father and woodcarver Geppetto. It is considered a classic of children's literature and has spawned many derivative works of art. But this is not the story we've

seen in film but the original version full of harrowing adventures faced by Pinnocchio. It includes 40 illustrations.

Mixes humor, common sense, psychology, and Taoist philosophy in practical suggestions for applying bicameral thinking and Taoist principles to stock-market and investment considerations

Investment guru Tobin Smith reveals his secrets for scoring monster returns in today's volatile stock market by focusing on the emerging sectors that have the best potential for explosive growth — what Smith refers to as ChangeWaves. ChangeWave Investing 2.0 presents a radically improved method for picking the next monster stocks while protecting current profits. Using the ChangeWave principles, the book explains:

- how to identify the stocks with the fastest growth potential before Wall Street does
- how to screen out the pretenders
- how to balance a portfolio between aggressive growth stocks and stocks with lower volatility
- how to use stop orders to limit losses from economic downturns
- how to invest limited resources for maximum returns

You'll discover how to buy and sell in the midst of a seesaw, as well as receive savvy advice on the ways you can benefit from market meltdowns by systematically taking out positions at bargain basement prices. From the rocketlike success of his first book, ChangeWave Investing, which hit the top of the business bestseller lists, to his role as

Download Ebook The Gorilla Game An Investors Guide To Picking Winners In

contributing editor on Fox's "Bulls and Bears," to the rapid growth of the electronic network, Tobin Smith has broken onto the investment community with the momentum of a tsunami. Now, with ChangeWave Investing 2.0, readers can learn the strategies and techniques that will allow them to profit from the transformational change the economy is undergoing even in today's bear market.

Reading this book will make you less sure of yourself—and that's a good thing. In *The Invisible Gorilla*, Christopher Chabris and Daniel Simons, creators of one of psychology's most famous experiments, use remarkable stories and counterintuitive scientific findings to demonstrate an important truth: Our minds don't work the way we think they do. We think we see ourselves and the world as they really are, but we're actually missing a whole lot. Chabris and Simons combine the work of other researchers with their own findings on attention, perception, memory, and reasoning to reveal how faulty intuitions often get us into trouble. In the process, they explain:

- Why a company would spend billions to launch a product that its own analysts know will fail
- How a police officer could run right past a brutal assault without seeing it
- Why award-winning movies are full of editing mistakes
- What criminals have in common with chess masters
- Why measles and other childhood diseases are making a comeback
- Why money managers could

Download Ebook The Gorilla Game An Investors Guide To Picking Winners In

learn a lot from weather forecasters Again and again, we think we experience and understand the world as it is, but our thoughts are beset by everyday illusions. We write traffic laws and build criminal cases on the assumption that people will notice when something unusual happens right in front of them. We're sure we know where we were on 9/11, falsely believing that vivid memories are seared into our minds with perfect fidelity. And as a society, we spend billions on devices to train our brains because we're continually tempted by the lure of quick fixes and effortless self-improvement. The Invisible Gorilla reveals the myriad ways that our intuitions can deceive us, but it's much more than a catalog of human failings. Chabris and Simons explain why we succumb to these everyday illusions and what we can do to inoculate ourselves against their effects. Ultimately, the book provides a kind of x-ray vision into our own minds, making it possible to pierce the veil of illusions that clouds our thoughts and to think clearly for perhaps the first time.

Presents an investment strategy and stock-picking model to achieve financial success.

"This is that rarity, a useful book."--Warren Buffett Howard Marks, the chairman and cofounder of Oaktree Capital Management, is renowned for his insightful assessments of market opportunity and risk. After four decades spent ascending to the top of the investment management profession, he is today sought out by the world's leading value investors, and his client memos brim with insightful

Download Ebook The Gorilla Game An Investors Guide To Picking Winners In

commentary and a time-tested, fundamental philosophy. Now for the first time, all readers can benefit from Marks's wisdom, concentrated into a single volume that speaks to both the amateur and seasoned investor. Informed by a lifetime of experience and study, *The Most Important Thing* explains the keys to successful investment and the pitfalls that can destroy capital or ruin a career. Utilizing passages from his memos to illustrate his ideas, Marks teaches by example, detailing the development of an investment philosophy that fully acknowledges the complexities of investing and the perils of the financial world. Brilliantly applying insight to today's volatile markets, Marks offers a volume that is part memoir, part creed, with a number of broad takeaways. Marks expounds on such concepts as "second-level thinking," the price/value relationship, patient opportunism, and defensive investing. Frankly and honestly assessing his own decisions--and occasional missteps--he provides valuable lessons for critical thinking, risk assessment, and investment strategy. Encouraging investors to be "contrarian," Marks wisely judges market cycles and achieves returns through aggressive yet measured action. Which element is the most essential? Successful investing requires thoughtful attention to many separate aspects, and each of Marks's subjects proves to be the most important thing.

This revised and updated edition of *Options as Strategic Investments* encompasses the latest options trading vehicles and gives traders and serious investors strategic opportunities for managing their investments. It features discussions on LEAPs (Long Term Equity Anticipation Securities), PERCs (Preferred Equity Redemption Cumulative Stocks), primes and scores, warrants and SPAN. The concept and application of the various option strategies are explained, showing how they work, in which situations and why.

Have you ever . . . Invested time in something that, in hindsight, just wasn't worth it? Paid too much in an eBay auction? Continued to do something you knew was bad for you? Sold stocks too late, or too early? Taken credit for success, but blamed failure on external circumstances? Backed the wrong horse? These are examples of what the author calls cognitive biases, simple errors all of us make in day-to-day thinking. But by knowing what they are and how to identify them, we can avoid them and make better choices: whether in dealing with personal problems or business negotiations, trying to save money or earn profits, or merely working out what we really want in life—and strategizing the best way to get it. Already an international bestseller, *The Art of Thinking Clearly* distills cutting-edge research from behavioral economics, psychology, and neuroscience into a clever, practical guide for anyone who's ever wanted to be wiser and make better decisions. A novelist, thinker, and entrepreneur, Rolf Dobelli deftly shows that in order to lead happier, more prosperous lives, we don't need extra cunning, new ideas, shiny gadgets, or more frantic hyperactivity—all we need is less irrationality. Simple, clear, and always surprising, this indispensable book will change the way you think and transform your decision making—at work, at home, every day. From why you shouldn't accept a free drink to why you should walk out of a movie you don't like, from why it's so hard to predict the future to why you shouldn't watch the news, *The Art of Thinking Clearly* helps solve the puzzle of human reasoning.

A *New York Times*, *USA Today*, and *Wall Street Journal* bestseller In this iconic bestseller, popular business blogger and bestselling author Seth Godin proves that winners are really just the best quitters. Godin shows that winners quit fast, quit often, and quit without guilt—until they commit to beating the right Dip. Every new project (or job, or hobby, or

Download Ebook The Gorilla Game An Investors Guide To Picking Winners In

company) starts out fun...then gets really hard, and not much fun at all. You might be in a Dip—a temporary setback that will get better if you keep pushing. But maybe it's really a Cul-de-Sac—a total dead end. What really sets superstars apart is the ability to tell the two apart. Winners seek out the Dip. They realize that the bigger the barrier, the bigger the reward for getting past it. If you can beat the Dip to be the best, you'll earn profits, glory, and long-term security. Whether you're an intern or a CEO, this fun little book will help you figure out if you're in a Dip that's worthy of your time, effort, and talents. The old saying is wrong—winners do quit, and quitters do win.

in their markets and while their stock is still cheap. When the dust clears and one company clearly attains leadership in its product category, you'll reap the enormous returns that foresighted investors in high-tech companies deserve. The Gorilla Game is the latest from bestselling author Geoffrey A. Moore, one of the world's leading consultants in high-tech marketing strategy. Here you'll find the ground-breaking ideas about technology markets that made his previous books bestsellers, combined with the work of Paul Johnson, a top Wall Street technology analyst, and Tom Kippola, a high-tech consultant and highly successful private investor. Together they have discovered and played the gorilla game and now give their readers the real rules for winning in the world of high-tech investing. Step by step you'll learn how to spot a high-tech market that is about to undergo rapid growth and development; how to identify and spread investments across the potential gorillas within the market; and how to narrow your investments to the single, emerging leader -- the gorilla -- as the market matures.

Over the last 25 years, Geoffrey Moore has established himself as one of the most influential high-tech advisors in the world—once prompting Conan O'Brien to ask “Who is Geoffrey Moore and why is he more famous than me?” Following up on the ferociously innovative ESCAPE VELOCITY, which served as the basis for Moore's consulting work to such companies as Salesforce, Microsoft, and Intel, ZONE TO WIN serves as the companion playbook for his landmark guide, offering a practical manual to address the challenge large enterprises face when they seek to add a new line of business to their established portfolio. Focused on spurring next-generation growth, guiding mergers and acquisitions, and embracing disruption and innovation, ZONE TO WIN is a high-powered tool for driving your company above and beyond its limitations, its definitions of success,

Download Ebook The Gorilla Game An Investors Guide To Picking Winners In

and ultimately, its competitors. Moore's classic bestseller, **CROSSING THE CHASM**, has sold more than one million copies by addressing the challenges faced by start-up companies. Now **ZONE TO WIN** is set to guide established enterprises through the same journey. "For any company, regardless of size or industry, **ZONE TO WIN** is the playbook for succeeding in today's disruptive, connected, fast-paced business world." —Marc Benioff, CEO, Salesforce "Once again Geoffrey Moore weighs in with a prescient examination of what it takes to win in today's competitive, disruptive business environment." —Satya Nadella, CEO, Microsoft "With this book, Geoffrey Moore continues to lead us all through ever-changing times...His work has changed the game of changing the game!" —Gary Kovacs, CEO, AVG "ZONE TO WIN uses crystal-clear language to describe the management plays necessary to win in an ever-disrupting marketplace. Regardless of your level of management experience, you will find this book an invaluable tool for building long-term success for your business." —Lip-Bu Tan, President and CEO, Cadence Design Systems

The classic thriller about a hostile foreign power infiltrating American politics: "Brilliant . . . wild and exhilarating." —The New Yorker A war hero and the recipient of the Congressional Medal of Honor, Sgt. Raymond Shaw is keeping a deadly secret—even from himself. During his time as a prisoner of war in North Korea, he was brainwashed by his Communist captors and transformed into a deadly weapon—a sleeper assassin, programmed to kill without question or mercy at his captors' signal. Now he's been returned to the United States with a covert mission: to kill a candidate running for US president . . . This "shocking, tense" and sharply satirical novel has become a modern classic, and was the basis for two film adaptations (San Francisco Chronicle). "Crammed with suspense." —Chicago

Tribune “Condon is wickedly skillful.” —Time

The instant New York Times bestseller, now available in paperback and featuring a new afterword from the author—the insider's guide to the Facebook/Cambridge Analytica scandal, the inner workings of the tech world, and who really runs Silicon Valley “Incisive.... The most fun business book I have read this year.... Clearly there will be people who hate this book — which is probably one of the things that makes it such a great read.” — Andrew Ross Sorkin, New York Times

Imagine a chimpanzee rampaging through a datacenter powering everything from Google to Facebook. Infrastructure engineers use a software version of this “chaos monkey” to test online services’ robustness—their ability to survive random failure and correct mistakes before they actually occur. Tech entrepreneurs are society’s chaos monkeys. One of Silicon Valley’s most audacious chaos monkeys is Antonio García Martínez. After stints on Wall Street and as CEO of his own startup, García Martínez joined Facebook’s nascent advertising team. Forced out in the wake of an internal product war over the future of the company’s monetization strategy, García Martínez eventually landed at rival Twitter. In *Chaos Monkeys*, this gleeful contrarian unravels the chaotic evolution of social media and online marketing and reveals how it is invading our lives and shaping our future.

“Read this book to learn how to create a company as powerful as Apple.”—Guy Kawasaki, former chief evangelist of Apple

In *Escape Velocity* Geoffrey A. Moore, author of the marketing masterwork *Crossing the Chasm*, teaches twenty-first century enterprises how to overcome the pull of the past and reorient their organizations to meet a new era of competition. The world’s leading high-tech business strategist, Moore connects the dots between bold strategies and effective execution, with an action plan that elucidates the link between

Sound, sensible advice from a hero to frustrated investors everywhere William Bernstein's The Four Pillars of Investing gives investors the tools they need to construct top-returning portfolios--without the help of a financial adviser. In a relaxed, nonthreatening style, Dr. Bernstein provides a distinctive blend of market history, investing theory, and behavioral finance, one designed to help every investor become more self-sufficient and make better-informed investment decisions. The 4 Pillars of Investing explains how any investor can build a solid foundation for investing by focusing on four essential lessons, each building upon the other. Containing all of the tools needed to achieve investing success, without the help of a financial advisor, it presents: Practical investing advice based on fascinating history lessons from the market Exercises to determine risk tolerance as an investor An easy-to-understand explanation of risk and reward in the capital markets

They deliver more capital to entrepreneurs than any other source. And they often receive an incredible return on their investments. They're angel investors, some of the most important--and least understood--players in business today. The United States has close to three million angels, whose investments in startups exceed \$60 billion per year. Some of our most successful companies were funded by angels--companies like Ford, AOL, and Amazon.com. But until now, little has been written about these angels, due in

part to their preference for anonymity. Angel Investors provides an inside look at who these angels are and how they operate. It also shows would-be angels and entrepreneurs how best to find each other. To learn more about this book, visit its website.

Praise for *Damn Right!* From the author of the bestselling *WARREN BUFFETT SPEAKS*. . . "Charlie Munger, whose reputation is deep and wide, based on an extraordinary record of brilliantly successful business strategies, sees things that others don't. There is a method to his mastery and, through this book, we get a chance to learn about this rare individual." -MICHAEL EISNER, Chairman and CEO, The Walt Disney Company "Janet Lowe uncovers the iconoclastic genius and subtle charm behind Charlie Munger's curmudgeonly facade in this richly woven portrait of our era's heir to Ben Franklin. With a biographer's detachment, an historian's thoroughness, and a financial writer's common sense, Lowe produces a riveting account of the family, personal, and business life of the idiosyncratically complex and endlessly fascinating figure." -LAWRENCE CUNNINGHAM, Cardozo Law School, Author of *The Essays of Warren Buffett: Lessons for Corporate America* "For years, Berkshire Hathaway shareholders and investors worldwide (me included) have struggled to learn more about Warren Buffett's cerebral sidekick. Now we can rest and enjoy reading Janet Lowe's book about this rare intellectual jewel called Charlie Munger." -ROBERT G. HAGSTROM, Author of *The Warren Buffett Way* "Charlie has lived by the creed that one should live a life that doesn't need explaining. But his life should be explained. In a city where heroism is too often confused with celebrity, Charlie is a true hero and mentor. He lives the life lessons that he has studiously extracted from other true heroes and mentors, from Ben Franklin to Ben Graham. This book illuminates those life lessons." -RONALD
