"The Smoke of London uncovers the origins of urban air pollution, two centuries before the industrial revolution. By 1600, London was a fossil-fueled city, its high-sulfur coal a basic necessity for the poor and a source of cheap energy for its growing manufacturing sector. The resulting smoke was found ugly and dangerous throughout the seventeenth and eighteenth centuries, leading to challenges in court, suppression by the crown, doctors' attempts to understand the nature of good air, increasing suburbanization, and changing representations of urban life in poetry and on the London stage. Neither a celebratory account of proto-environmentalism nor a declensionist narrative of degradation, *The Smoke of London* recovers the seriousness of pre-modern environmental concerns even as it explains their limits and failures. Ultimately, Londoners learned to live with their dirty air, an accommodation that reframes the

"If the story that struck the Grand Banks off Newfoundland in October 1991 was The Perfect Storm, the fire that destroyed London in September 1666 was The Perfect Fire. A fire needs only three things: a spark to ignite it, and the fuel and oxygen to feed it. In 1666, a ten-month drought had turned London into a tinderbox. The older parts of the city were almost entirely composed of wood-frame buildings and shanties. The riverside wharves were stack with wood, coal, oil, tallow, hemp, pitch, brandy, and almost very other combustibile material known to seventeenth century man. On 2 September 1666, London ignited. Over the next five days the gale blew without interruption and the resulting firestorm destroyed the whole city. THE DREADFUL JUDGEMENT tells the true, human story of the Great Fire of London through the eyes of the individuals caught up in it. It is a historical story combining modern knowledge of the physics of fire, forensics and arson investigation with the moving eye-witness accounts to produce a searing depiction of the terrible reality of the Great Fire of London and its impact on those who lived through it."
