"Lane Hamilton takes stock of his life and doesn't like what he finds. His friends are all chasing their dreams, while he's working for a goose-stepping bully on the middle-management track to nowhere. When Lane is fired for sleeping through an important meeting, a high school buddy lands him a job with the Durham Bulls. Despite the grueling hours, it doesn't take him long to realize even a bad day at the yard beats a good one in corporate America. But is his new gig worth risking his magazine-cover girlfriend? And between jealous co-workers and psychotic relief pitchers, will he survive the season? The greatest show on dirt is set in historic Durham Athletic Park, a place so rich in character that it plays as big a role as the crazy cast that makes up Lane's Bulls family. Here is a realistic portrayal of what life was like working in the minor leagues in the early 1990s, before the explosive growth that saw many old ballparks replaced by miniature versions of big league stadiums. No one got rich, but they sure had a good time."--P. [4] of cover.

"Robert Wilson's Barnum, the first full-dress biography in twenty years, eschews clichés for a more nuanced story...It is a life for our times, and the biography Barnum deserves." —The Wall Street Journal P.T. Barnum is the greatest showman the world has ever seen. As a creator of the Barnum & Baily Circus and a champion of wonder, joy, trickery, and "humbug," he was the founding father of American entertainment—and as Robert Wilson argues, one of the most important figures in American history. Nearly 125 years after his death, the name P.T. Barnum still inspires wonder. Robert Wilson's vivid new biography captures the full genius, infamy, and allure of the ebullient showman, who, from birth to death, repeatedly reinvented himself. He learned as a young man how to wow crowds, and built a fortune that placed him among the first millionaires in the United States. He also suffered tragedy,

bankruptcy, and fires that destroyed his life's work, yet willed himself to recover and succeed again. As an entertainer, Barnum courted controversy throughout his life—yet he was also a man of strong convictions, guided in his work not by a desire to deceive, but an eagerness to thrill and bring joy to his audiences. He almost certainly never uttered the infamous line, “There’s a sucker born every minute,” instead taking pride in giving crowds their money’s worth and more. Robert Wilson, editor of *The American Scholar*, tells a gripping story in *Barnum*, one that’s imbued with the same buoyant spirit as the man himself. In this “engaging, insightful, and richly researched new biography” (*New York Journal of Books*), Wilson adeptly makes the case for P.T. Barnum’s place among the icons of American history, as a figure who represented, and indeed created, a distinctly American sense of optimism, industriousness, humor, and relentless energy.

Richard Dawkins transformed our view of God in his blockbuster, *The God Delusion*, which sold more than 2 million copies in English alone. He revolutionized the way we see natural selection in the seminal bestseller *The Selfish Gene*. Now, he launches a fierce counterattack against proponents of "Intelligent Design" in his *New York Times* bestseller, *The Greatest Show on Earth*. "Intelligent Design" is being taught in our schools; educators are being asked to "teach the controversy" behind evolutionary theory. There is no controversy. Dawkins sifts through rich layers of scientific evidence—from living examples of natural selection to clues in the fossil record; from natural clocks that mark the vast epochs wherein evolution ran its course to the intricacies of developing embryos; from plate tectonics to molecular genetics—to make the airtight case that "we find ourselves perched on one tiny twig in the midst of a blossoming and flourishing tree of life and it is no accident, but the direct consequence of evolution by non-random selection." His unjaded passion for the natural world turns what might have been a negative argument, exposing the absurdities of the creationist position, into a positive offering to the reader: nothing less than a master’s vision of life, in all its splendor.

People, a giantess, an opera singer, and many sideshow entertainers -- suffered greatly from his cruelty and exploitation. Yet, at the same time, some of his performers, such as General Tom Thumb (Charles Stratton), became wealthy celebrities who were admired and feted by presidents and royalty. In this collection of interlinked stories illustrated with archival photographs, Deborah Noyes digs deep into what is known about the people in Barnum's orbit and imagines their personal lives, putting front and center the complicated joy and pain of what it meant to be one of Barnum's "creatures."
