designed for online teaching and technology-enhanced courses. Written by two pioneers in distance education, this guidebook presents practical instructional strategies spread out over a four-phase timeline that covers the lifespan of a course. The book includes information on a range of topics such as course management, social presence, community building, and assessment. Based on traditional pedagogical theory, *The Online Teaching Survival Guide* integrates the latest research in cognitive processing and learning outcomes. Faculty with little knowledge of educational theory and those well versed in pedagogy will find this resource essential for developing their online teaching skills. Praise for *The Online Teaching Survival Guide* "At a time when resources for training faculty to teach online are scarce, Judith Boettcher and Rita-Marie Conrad have presented a must-read for all instructors new to online teaching. By tying best practices to the natural rhythms of a course as it unfolds, instructors will know what to do when and what to expect. The book is a life raft in what can be perceived as turbulent and uncharted waters." —Rena M. Palloff and Keith Pratt, program directors and faculty, Teaching in the Virtual Classroom Program, Fielding Graduate University "Developed from years of experience supporting online faculty, Judith Boettcher and Rita-Marie Conrad's book provides practical tips and checklists that should especially help those new to online teaching hit the ground running." —Karen Swan, Stukel Distinguished Professor of Educational Leadership, University of Illinois Springfield "This book blends a fine synthesis of research findings with plenty of practical advice. This book should be especially valuable for faculty teaching their first or second course online. But any instructor, no matter how experienced, is likely to find valuable insights and techniques." —Stephen C. Ehrmann, director, Flashlight Program for the Study and Improvement of Educational Uses of Technology; vice president,

In this valuable resource, experts share deep knowledge including practical “how-to” and preventive trouble-shooting tips. Instructors will learn about course design and development, instructional methods for online teaching, and student engagement and community building techniques. The book contains successful teaching strategies, guidance for facilitating interactions and responding to diversity, and assessments, as well as future directions for online learning. With many field-tested examples and practice assignments, and with voices from students, teachers, and experts, this book arms instructors and administrators with the tools they need to teach effective and empowering online courses. This one-stop resource addresses all of the core elements of online teaching in terms that are universally applicable to any content area and at any instructional level. “A rare book in education: one that is not only highly useful but also intellectually coherent and based on robust, transferable principles of learning and teaching. All educators—in online environments and in brick-and-mortar schools—will find this an invaluable resource.” —From the Foreword by Grant Wiggins “We now know we can get increased participation with online tools to make thinking more visible and switch the traditional delivery of instruction to personalize learning. While it is inevitable that online learning will become an important skill for everyone, the ideas, concepts, strategies,

design elements, and tools in the book by Thormann and Zimmerman can also be applied to blended learning.” —Alan November, Senior Partner and Founder, November Learning “The authors of this book have created an excellent resource for anyone interested in becoming an online instructor or improving his or her skills in online teaching. The authors share a wealth of step-by-step activities, examples of assignments and teaching strategies that will guide both novice and experienced teachers as they expand their skills into the online realm. Even as a ‘veteran’ online instructor the book provided me with new ideas to try in my next online class.” —Sam Gladstein, Coordinator, Edmonds eLearning Program at Edmonds School District, WA “Cheers to Thormann and Zimmerman for providing a must-read for online teaching. This clear and practical guide takes the instructor from design to implementation of online courses. The authors remove the anxiety about online teaching for those thinking about on-screen instruction, and provide new thinking and examples for those already immersed in it. It is a great guide for those entering the field and a superb resource for those actively engaged in it.” —Anthony J. Bent, Chairman, Global Studies-21st Century Skills Committee of the Massachusetts Association of School Superintendents

Problem-based learning online is a burgeoning area, crying out for support in all the disciplines, but particularly health, medicine, education and social care that are already advanced users of problem-based learning in higher education. This book provides highly grounded research based ways for those wanting to change problem-based learning modules and programs from face to face to online approaches, as well as those who have developed e-learning components but who want to adopt problem-based methods. Providing an overview of the current state of problem based learning online, it examines why we're moving from fact to face to online provision, considers existing forms of provision, outlines common mistakes and strategies to avoid future problems, and shows how to effectively facilitate learning. Illustrated by mini case studies and examples of international projects, it provides guidance on effective design, online collaboration and group dynamics, and explores the common, and complex, decisions faced when choosing which form of problem-based learning to adopt. Including practical information and resources for games and activities, scenarios of
