Bringing Reggio Emilia Home Louise Boyd Cadwell, 1997-09-19 Bringing Reggio Emilia Home is the first book to integrate the experiences of one American teacher on a year-long internship in the preschools of Reggio, with a four-year adaptation effort in one American school. The lively text includes many mini-stories of preschool and kindergarten-age children, teachers, and parents who embark on journeys of learning together. These journeys take shape in language, in drawings, in tempera paint and clay, in outdoor excursions, and in the imaginations of both the children and adults. This informative and accessible work features photographs of the children (both in Italy and the United States) and samples of the children's work, including some in full colour. During the past 10 years there has been a tremendous interest among early childhood educators and parents in the innovative approaches to teaching pioneered in the preschools of Reggio Emilia, Italy. This book is a must read for anyone interested in the Reggio Approach! Teachers, especially those in early childhood, teacher educators, policy makers, administrators, and parents will find it invaluable.

Loris Malaguzzi and the Reggio Emilia Experience , 2010-02-15 Loris Malaguzzi is indisputably a major thinker in education. Kathy Hall's volume offers the most coherent account of Malaguzzi's educational thought. This work is divided into: 1. Intellectual biography 2. Critical exposition of Malaguzzi's work 3. The reception and influence of Malaguzzi's work 4. The relevance of the work today

Working in the Reggio Way Julianne Wurm, 2005-06-01 Practical ways to bring the practices of Reggio Emilia to your classroom.

Insights and Inspirations from Reggio Emilia Lella Gandini, Susan Etheredge, Lynn Hill, 2008 The Reggio Emilia Approach to early childhood education is celebrated in this exploration of the famed philosophy. Words and images from classrooms across North America describe the values and principles at the core of this educational system. Full color.

In Dialogue with Reggio Emilia Carlina Rinaldi, 2004-08-02 The early childhood programme of Reggio Emilia in Italy is acclaimed as one of the best education systems in the world and this book offers the unique insight of Carlina Rinaldi, the former director of the municipal early childhood centres in Reggio Emilia and successor to Loris Malaguzzi, one of the

twentieth century's leading pedagogical thinkers. Rinaldi has an enviable international reputation for her contribution to the Reggio approach and has given talks on the topic around the world. A collection of Rinaldi's most important works, this book is organized thematically with a full introduction contextualising each piece. It closes with an interview by series editors Peter Moss and Gunilla Dahlberg, looking at Rinaldi's current work and reflections on Reggio's past, present and future. Much of this material is previously unpublished and focuses on a number of questions: What were the ideas and legacy of Loris Malaguzzi? What is unique about Reggio Emilia? What are the issues in education today and what does it mean to be a teacher? How can educators most effectively make use of creativity?

Bambini Lella Gandini, Carolyn P. Edwards, 2001 This volume is a timely contribution to the burgeoning dialogue on the Reggio Emilia approach, and features the work of prominent scholars, policy-makers, researchers, administrators, and practicing teachers who have created and directed the infant-toddler care systems in four cities in Italy. Joined by American educators and researchers (including Ron Lally, Rebecca New, and Jeanne Goldhaber), their work builds upon and extends inclusionary and family-centered philosophies. It combines missions of care and education, and produces innovations in space and environments. This collection is filled with dozens of examples of experiences with dynamic, open systems of organization that support emotional and cognitive development of infants and toddlers—and respect the delicate relationship between parents and their young. Also included are photos, some in color. Topics include: Complementary family-centered systems of early care, education, and intervention Practical experimentation and teaching strategies like the *inserimento* (first transition of child and family into the center), and *diario* (memory book), as well as explanations of the rationale behind them Best practices for quality care programs with broad implications for reflective teaching in America's early care programs “Bravo for a splendid book! Leading figures in Italy's famous preschool movement (plus a few well-informed foreigners) provide vivid descriptions not only of pedagogical practices, but also of the evolving politics of decentralization that has kept Italy's preschools under local community control with no sacrifice of standards. Compulsory reading!” —Jerome Bruner, New York University “This book is simply wonderful—every page! Throughout the sixteen chapters—written mostly by the Italians themselves—practices, policies, reflections, and research on how best to serve infants and toddlers and their families are shared.” —Lilian G. Katz, University of Illinois, Urbana-Champaign “Though the Italian experience cannot simply be transplanted to the United States, by staying in the conversation, we will deepen and sharpen our understanding of what we want for our infant-toddler parent-teacher programs and may even discover some strategies for getting them there.” —E. Z. Tronick, Harvard School of Education and Harvard Medical School

Loris Malaguzzi and the Schools of Reggio Emilia Paola Cagliari, Marina Castagnetti, Claudia Giudici, Carlina Rinaldi, Vea Vecchi, Peter Moss, 2016-02-26 Loris Malaguzzi was one of the most important figures in 20th century early childhood education, achieving world-wide recognition for his educational ideas and his role in the creation of municipal

schools for young children in the Italian city of Reggio Emilia, the most successful example ever of progressive, democratic and public education. Despite Malaguzzi's reputation, very little of what he wrote or said about early childhood education has been available in English. This book helps fill the gap, presenting for the first time in English, writings and speeches spanning 1945 to 1993, selected by a group of his colleagues from an archive established in Reggio Emilia. They range from short poems, letters and newspaper articles to extended pieces about Malaguzzi's early life, the origins of the municipal schools and his ideas about children, pedagogy and schools. This material is organised into five chronological chapters, starting at the end of World War Two and ending just before his death, with introductions to each chapter providing background, including the historical context, the main events in Malaguzzi's life and the rationale for the selection of documents. The book provides a unique insight into the background, thinking and work of Malaguzzi, revealing, in his own words, how his thinking developed, how he moved between theory and practice, how he border-crossed many disciplines and subjects, and how he combined many roles ranging from administrator and campaigner to researcher and pedagogue. Academics, students and practitioners alike will find this landmark publication provides rich insights into his life and work.

In the Spirit of the Studio Lella Gandini, Lynne T. Hill, Louise Cadwell, Charles Schwall, 2014-04-15 This critically acclaimed, lavishly illustrated book will help educators create the highest quality learning opportunities for a new generation of children. The Second Edition features substantial and important changes, including the addition of new chapters by pioneers of the work that happens in the atelier who draw on several decades of experience. The atelier or studio is a key element of the renowned preschools and infant-toddler centers of Reggio Emilia, Italy. This beautiful, full-color resource explores how the experiences of children interacting with rich materials in the atelier affect an entire school's approach to the construction and expression of thought and learning. The authors provide examples of projects and address practical aspects of the atelier, including organizing the environment and using materials. No other book presents a more thorough examination of the philosophy, practice, and essential influence of the Reggio-inspired studio. Contributors: Pauline Baker, Barbara Burrington, George Forman, Susan Harris MacKay, Giovanni Piazza, Carlina Rinaldi, Lori Geismar Ryan, and Veia Vecchi. "This book's great illustrations and enthusiasm for learning make it difficult to put it back on the shelf!" —SchoolArts "Brimming with suggestions and examples of projects and testimonies, and should become a requirement for all graduate students entering the education field." —Journal of the Association for Childhood Education International "Will help to promote a vibrant and creative approach to learning that will enrich American children's educational experience." —Barbara and Eric Carle, author and illustrator of *The Very Hungry Caterpillar*

The Hundred Languages of Children Carolyn Edwards, Lella Gandini, George Forman, 2011-12-13 Why does the city of Reggio Emilia in northern Italy feature one of the best public systems of early education in the world? This book documents

the comprehensive and innovative approach that utilizes the hundred languages of children to support their well-being and foster their intellectual development. Educators in Reggio Emilia, Italy, use a distinctive innovative approach that supports children's well-being and fosters their intellectual development through a systematic focus on symbolic representation. From birth through age six, young children are encouraged to explore their environment and express their understanding through many modes of expression or languages, including verbal communication, movement, drawing, painting, sculpture, shadow play, collage, and music. This organic strategy has been shown to be highly effective, as the children in Reggio Emilia display surprising examples of symbolic skill and creativity. This book describes how the world-renowned preschool services and accompanying practical strategies for children under six in Reggio Emilia have evolved in response to the community's demographic and political transformations, and to generational changes in both the educators and the parents of the children. The authors provide the reader with a comprehensive introduction to the Reggio Emilia experience, and address three of the most important central themes of the work in Reggio in detail: teaching and learning through relationships; the hundred languages of children, and how this concept has evolved; and integrating documentation into the process of observing, reflecting, and communicating.

Children, Art, Artists Vea Vecchi, Claudia Giudici, 2004 This catalogue is designed to offer a guided tour of the exhibit entitled The Expressive Languages of Children, the Artistic Languages of Alberto Burri. As a tribute to the possible encounters between children and the poetic languages, the exhibit comprises various projects carried out in infant-toddler centers, preschools, and elementary schools following the retrospective exhibit of works by Italian artist Alberto Burri, which has held in Reggio Emilia from November 2001 through January 2002.
