

The Justice Of Peace By Hilaire Belloc Poem Summary

In recent years there has been a tendency to intervene in the military, political and economic affairs of failed and failing states and those emerging from violent conflict. In many cases this has been accompanied by some form of international judicial intervention to address serious and widespread abuses of international humanitarian law and human rights in recognition of an explicit link between peace and justice. A range of judicial and non-judicial approaches has been adopted in recognition of the fact that there is no one-size-fits-all model through which to seek accountability. This book considers the merits and drawbacks of these different responses and sets out an original framework for analysing transitional societies and transitional justice mechanisms. Taking as its starting point the post-Second World War tribunals at Nuremburg and Tokyo, the book goes on to discuss the creation of ad hoc international tribunals in the 1990s, hybrid/mixed courts, the International Criminal Court, domestic trials, truth commissions and traditional justice mechanisms. With examples drawn from across the world, including the former Yugoslavia, Rwanda, Cambodia, Timor-Leste, Sierra Leone, Uganda and the DRC, it presents a compelling and comprehensive study of the key responses to war crimes. Peace and Justice is a timely contribution in a world where an ever-increasing number of post-conflict societies are grappling with the complex issues of transitional justice. It will be a valuable resource for students, scholars, practitioners and policy-makers seeking to understand past violations of human rights and the most effective ways of addressing them.

Beyond the metaphorical use of healthy society as a normative goal of Peace Research, there is little engagement in contemporary Peace Research with questions of global health. Simultaneously, critical feminist approaches to the intersections of different forms of violence and health are rare in Global Health literature. Bringing together feminist Peace Research and Global Health scholarships, this edited book aims to enrich both scholarly traditions. On the one hand, the book provides perspectives from feminist Peace Research that help us to understand and analyse different forms of violence in the gendered realm of global health. On the other hand, the variety of empirical cases analysed in the chapters widens the horizons of Peace Research, in its understanding of what it means to study violence, peace, and justice in everyday lives. The themes dealt in the chapters of the book vary from questions of reproductive health, to non-communicable (e.g. breast cancer) and communicable diseases (e.g. HIV/AIDS), war-time sexual violence, mental health, therapeutic justice, domestic violence, and ageing and dementia. This text will help students and researchers alike navigate Global Health through a feminist lens.

This collection examines the theory, practice, and application of state neutrality in international relations. With a focus on its modern-day applications, the studies in this volume analyze the global implications of permanent neutrality for Taiwan, Russia, Ukraine, the European Union, and the United States. Exploring permanent neutrality's role as a realist security model capable of rivaling collective security, the authors argue that permanent neutrality has the potential to decrease major security dilemmas on the global stage.

The first part of this book contains a selection of articles written over five decades. The second part includes a selection of legal opinions written between 1962-1965, when the author was working in the legal department of Israel's Ministry of Foreign Affairs.

Understanding World Religions introduces students to major worldviews—including Hindu, Buddhist, Muslim, Jewish, Christian, Native American, and Marxist—through the lens of justice and peace. The second edition has been updated and revised throughout. After an introduction to key themes in studying world religion, chapters help students explore major traditions today. Each chapter takes a similar approach, examining several dimensions of each tradition—experiential and emotional, social and institutional, narrative or mythic, doctrinal and philosophical, practical and ritual, and ethical and legal. Chapters feature profiles of major peacemakers or groups to bring the traditions to life. Profiles range from Gandhi and Martin Luther King to Thich Nhat Hanh and Dorothy Day. Further chapters explore liberation theologies, active nonviolence, and just war theory. The second edition features a broader framework than the first edition and includes new material on non-religious ethical norms, Islamophobia, colonial evangelization, religion in China, and an updated examination of the Israel-Palestine conflict. Understanding World Religions remains a powerful introduction to major worldviews with an emphasis on practical connections to peace and justice.

After Violence: Transitional Justice, Peace, and Democracy examines the effects of transitional justice on the development of peace and democracy. Anticipated contributions of transitional justice mechanisms are commonly stated in universal terms, with little regard for historically specific contexts. Yet a truth commission, for example, will not have the same function in a society torn by long-term civil war or genocide as in a society emerging from authoritarian repression. Addressing trials, reparations, truth commissions, and amnesties, the book systematically addresses the experiences of four very different contemporary transitional justice cases: post-authoritarian Uruguay and Peru and post-conflict Rwanda and Angola. Its analysis demonstrates that context is a crucial determinant of the impact of transitional justice processes, and identifies specific contextual obstacles and limitations to these processes. The book will be of much interest to scholars in the fields of transitional justice and peacebuilding, as well as students generally concerned with human rights and democratisation.

Peace is making new friends. Peace is helping your neighbor. Peace is a growing a garden. Peace is being who you are. The Peace Book delivers positive and hopeful messages of peace in an accessible, child-friendly format featuring Todd Parr's trademark bold, bright colors and silly scenes. Perfect for the youngest readers, this book delivers a timely and timeless message about the importance of friendship, caring, and acceptance.

Morton Deutsch is considered the founder of modern conflict resolution theory and practice. He has written and researched areas which pioneered current efforts in conflict resolution and diplomacy. This volume showcases six of Deutsch's more notable and influential papers, and include complementary chapters written by other significant contributors working in these areas who can situate the original papers in the context of the existing state of scholarship.

More Justice, More Peace: When Peacemakers are Advocates is an attempt to broaden the vision of those practitioners with a passion for bringing about necessary change in our society who also work to bring people together to explore issues, solve problems, and overcome differences.

Analyzes the structure of the modern social order and examines the Christian's proper goals of working for peace and justice.

In the era of globalization, awareness surrounding issues of violence and human rights violations has reached an all-time high. In a world where billions of human beings have the potential to create endless destruction, these same individuals are capable of working cooperatively to create adequate solutions to current global problems. The Handbook of Research on Transitional Justice and Peace Building in Turbulent Regions focuses on current issues facing nations and regions where poverty and conflict are endangering the lives of citizens as well as the socio-economic viability of those regions. Highlighting crucial topics and offering potential solutions to problems relating to domestic and international conflict, societal safety and security, as well as political instability, this comprehensive publication is designed to meet the research needs of economists, social theorists, politicians, policy makers, human rights activists, researchers, and graduate-level students across disciplines.

Results of the 2007 Nuremberg Conference on Peace and Justice: Tensions between peace and justice have long been debated by scholars, practitioners and agencies including the United Nations, and both theory and policy must be refined for very practical application in situations emerging from violent conflict or political repression. Specific contexts demand concrete decisions and approaches aimed at redress of grievance and creation of conditions of social justice for a non-violent future. There has been definitive progress in a world in which blanket amnesties were granted at times with little hesitation. There is a growing understanding that accountability has pragmatic as well as principled arguments in its favour. Practical arguments as much as shifts in the norms have created a situation in which the choice is increasingly seen as "which forms of accountability" rather than a stark choice between peace and justice. It is socio-political transformation, not just an end to violence, that is needed to build sustainable peace. This book addresses these dilemmas through a thorough overview of the current state of legal obligations; discussion of the need for a holistic approach including development; analysis of the implications of the coming into force of the ICC; and a series of "hard" case studies on internationalized and local approaches devised to navigate the tensions between peace and justice.

This book studies the justice concerns of political actors in important international regimes and international and domestic conflicts and traces their effects on peace and conflict. The book demonstrates that such justice concerns play an ambivalent role for the resolution of conflicts and maintenance of order. While arrangements that actors perceive as just will provide a good basis for peaceful relations, the pursuit of justice can create conflicts or make existing ones more difficult to resolve. This volume brings together the annual Romero Lectures presented in Camden, New Jersey, one of America's poorest cities. The book not only remembers Romero but evokes his model of ministry and leadership to give direction to some of the thorny social justice issues confronting American Catholics. The essays are by Robert McDermott, John Hogan, Thomas Gumbleton, Gustavo Gutierrez, Helen Prejean, Diana Hayes and Daniel Groody. They address urban problems, liturgy and justice, poverty and war, the preferential option, capital punishment, race and economics, and immigration.

Book on Christian Spirituality This is a book of poems on Christian spirituality as response to personal crises in life, woes and struggles of women, natural calamities, violence and terror. This book expresses poetic sensitivity to some events in our history that reflect conflicts in culture, religion and ideologies. This is spirituality from the eyes of faith, attempting to read the signs of our time in the light of the source of love and life that has called us to be responsible stewards as we commit ourselves to acts of love, compassion, peace and justice. These poems were written during my time as a student, teacher, pastor, ecumenical and community worker in the Philippines, as a missionary in Nepal, teacher, wife, mother, and as a cultural worker in Denmark, stretching a period of more than twenty years. I offer this book of poems to those who seek life, to those who despair, and to those who want to be inspired. Christian spirituality is in the human heart in its encounter with the wounded and resurrected Christ. In celebrating beauty and human creativity, I have illustrated some poems with my own paintings done during my

integration process as a foreigner in Denmark. (EPO)

Believing Christians should direct their energies toward finding a set of criteria and a model for a "just peace" instead of "just war", Stassen bases his peace theory on the new reality of our world, recent Biblical interpretation, and on the experiences of people who lived in the face of oppression and nuclear threat.

So we'd all like a more peaceful world—no wars, no poverty, no more racism, no community disputes, no office tensions, no marital skirmishes. Lisa Schirch sets forth paths to such realities. In fact, she points a way to more than the absence of conflict. She foresees justpeace—a sustainable state of affairs because it is a peace which insists on justice. Schirch singles out four critical actions that must be undertaken if peace is to take root at any level) — 1.) waging conflict nonviolently; 2.) reducing direct violence; 3.) transforming relationships; and 4.) building capacity.

From Schirch's 15 years of experience as a peacebuilding consultant in Africa, Asia, and Latin America. A title in The Little Books of Justice and Peacebuilding Series.

This book focuses on how the International Criminal Court seeks accountability for the most serious crimes. Errol P. Mendes dives deep into the facts and rulings of the Court that involved some of the most serious conflicts in recent times to demonstrate that justice is critical for sustainable peace. What results is a detailed but honest critique of where the Court succeeds and where it needs to improve. The author goes on to provide a prediction of the greatest challenges facing the Court in the foreseeable future. This book is a valuable resource for academics and students in international criminal law and practice, public international relations, political science, military and, war studies etc.
