A Curious Life chronicles the remarkable life of preeminent biochemist Thomas Haines. Born in 1933, Haines was barely four when he was sent by court order to The Graham School, an orphanage in Hastings-on-Hudson NY founded in 1806 by Isabella Graham and Elizabeth Schuyler Hamilton. His trajectory is a series of radical reversals: from penniless orphan to innovative scientist and educator; from right-wing McCarthyite to left-wing activist; founder of the Sophie Davis School of Biomedical Education of The City University of New York, a medical school designed to bring in low-income and minority students; New York City landlord; husband of a successful artist whom he nursed through a long illness; father of a brilliant and prominent daughter. Now eighty-six, Haines is Professor Emeritus at the Rockefeller Institute and the only alumnus of the Graham School to serve on its board. A diminutive dynamo in a bow tie, Dr. Haines recently participated on a panel at the Smithsonian Museum of American History, and jogs every morning at four a.m. in Central Park. Above all a formidable storyteller, Haines provides an intimate look at his relationships and conveys the excitement of a life in science. "Who could have possibly imagined that the four-year-old boy looking out at the sunset across the Hudson River from the grounds of the Graham School would have been able to live such an incredible and

productive life? From abandoned toddler, to homeless vagabond, to research chemist, to husband and father, to university professor, to innovative educator, to New York building landlord, Tom has always placed a premium on personal connections and interactions. He has benefitted from the kindness of strangers and mentorship, and in turn he has mentored and helped countless others along the way on his amazing life's journey. What a lucky life he has lived." —Thomas P. Sakmar, "Foreword" "Tom combines a charming, generous and curious demeanor with a fierce inner determination to understand the world and how it works. Perhaps because of his unconventional childhood, Tom has spent his life challenging conventional wisdom. As you will experience in Mindy Lewis's fabulous telling of Tom's life, the world is a more enchanting place with Dr. Haines in it." —Jess Dannhauser, "Introduction"

country. Such New York clubs as the Atlantics, Excelsiors and Mutuels are a primary focus, serving as examples of how the sport became more sophisticated and popular. The author compares theories about many of baseball's "inventors," exploring the often fascinating stories of several of baseball's oldest founding myths. One of The New York Times' 16 New Books to Watch for in March One of Publishers Weekly's Most Anticipated Books of the Year One of Newsweek's Most Highly Anticipated Books of The Year One of BuzzFeed's Most Anticipated Books the Year Based on the acclaimed series—a finalist for the Pulitzer Prize—an intimate account of the devastating effects of gun violence on our nation's children, and a call to action for a new way forward In 2017, seven-year-old Ava in South Carolina wrote a letter to Tyshaun, an eight-year-old boy from Washington, DC. She asked him to be her pen pal; Ava thought they could help each other. The kids had a tragic connection—both were traumatized by gun violence. Ava's best friend had been killed in a campus shooting at her elementary school, and Tyshaun's

father had been shot to death outside of the boy's elementary school. Ava's and Tyshaun's stories are extraordinary, but not unique. In the past decade, 15,000 children have been killed from gunfire, though that number does not account for the kids who weren't shot and aren't considered victims but have nevertheless been irreparably harmed by gun violence. In *Children Under Fire*, John Woodrow Cox investigates the effectiveness of gun safety reforms as well as efforts to manage children's trauma in the wake of neighborhood shootings and campus massacres, from Columbine to Marjory Stoneman Douglas. Through deep reporting, Cox addresses how we can effect change now, and help children like Ava and Tyshaun. He explores their stories and more, including a couple in South Carolina whose eleven-year-old son shot himself, a Republican politician fighting for gun safety laws, and the charlatans infiltrating the school safety business. In a moment when the country is desperate to better understand and address gun violence, *Children Under Fire* offers a way to do just that, weaving wrenching personal stories into a critical call for the United States to embrace practical reforms that would save thousands of young lives.

The fantastic has occupied the literary imagination of readers and scholars across historical, theoretical, and cultural contexts. Representations of the fantastic in literature rely on formal and generic

types, tropes, and archetypes to mediate between depictions of “fantasy” and “reality.” Present in myth and folklore, the gothic and neo-gothic, and contemporary and mainstream fantasy, the fantastic reach stretches into many conceptions of literature over time. “Curious, if True”: The Fantastic in Literature presents recent articles by graduate students on the fantastic and makes connections across category, genre, and historical periods. Fantasy is used as an organizing topic, a genre that has always allowed for a broad interpretation of its meaning. From magic realism, to high fantasy, sci-fi to the Gothic, this collection furthers the reach of fantasy in the study of English literature. The authors value tradition in their reading and their writing but are not afraid to reach across genre borders to show their understanding of “the fantastical in literature.” The ideas presented span years and literary periods, texts and genres, and show the undeniable value of interdisciplinary study to expand perspectives in the field of English.

golden retriever named riley. Terry was astounded by the transformations that unfolded before his eyes. Soon after, Terry and Kyria started their service dog organization, paws4people, with the goal of pairing dogs with human beings in need of healing, including traumatized and wounded war veterans and children living with physical, emotional, and intellectual disabilities. In *A Dog's Gift*, award-winning journalist and author Bob Drury movingly captures the story of a year in the life of paws4people and the broken bodies and souls the organization mends. The book follows the journey of pups bred by the organization from their loving, if rigorous, early training to an emotional event that terry and Kyria have christened "the bump," where each individual service dog chooses its new owner through an almost mystical connection that ignites the healing process. Incorporating vivid storytelling, insights into canine wisdom, history, science, and moving tales of personal transformation, *A Dog's Gift* is a story of miracles bound to be embraced by not only the 60 million Americans who own dogs, but by anyone with a full heart and a loving soul.

The Kurious Kid Presents: BaseballAwesome Amazing Spectacular Facts and Photos of BaseballCreateSpace From acclaimed journalist Ben Bradlee Jr. comes the epic biography of Boston Red Sox legend Ted Williams that baseball fans have been waiting for. Williams was the best hitter in baseball history. His batting average of .406 in 1941 has not been topped since, and no player who has hit more than 500 home runs has a higher career batting average. Those totals would have been even higher if Williams had not left baseball for nearly five years in the prime of his career to serve as a Marine pilot in WWII and Korea. He hit home runs farther than any player before him -- and traveled a long way himself, as Ben Bradlee, Jr.'s grand biography reveals. Born in 1918 in San Diego, Ted would spend most of his life

disguising his Mexican heritage. During his 22 years with the Boston Red Sox, Williams electrified crowds across America -- and shocked them, too: His notorious clashes with the press and fans threatened his reputation. Yet while he was a God in the batter's box, he was profoundly human once he stepped away from the plate. His ferocity came to define his troubled domestic life. While baseball might have been straightforward for Ted Williams, life was not. The Kid is biography of the highest literary order, a thrilling and honest account of a legend in all his glory and human complexity. In his final at-bat, Williams hit a home run. Bradlee's marvelous book clears the fences, too.

Now in travel- friendly paperback, this “funny, inspiring and well- crafted” companion (Associated Press) reveals how to make the most of new apps and other digital technologies without being shackled to them. Writing for the tight- belted tourists and the fi rst- class fl yer, the eager student and the comfort- seeking retiree, Kugel shows all readers “not only where to look, but how” (Samantha Brown), and promises that we too can rediscover the joy of discovery. “Travel is not about the destination but the experience. . . .
