From the New York Times bestselling creators of Click, Clack, Moo, comes an entertaining introduction to politics. My fellow Americans: It is our pleasure, our honor, our duty as citizens to present to you Duck for President. Here is a duck who began in a humble pond. Who worked his way to farmer. To governor. And now, perhaps, to the highest office in the land. Some say, if he walks like a duck and talks like a duck, he is a duck. We say, if he walks like a duck and talks like a duck, he will be the next president of the United States of America. Thank you for your vote.

The New York Times and USA Today bestseller! This eye-opening book challenges you to do the essential work of unpacking your biases, and helps white people take action and dismantle the privilege within themselves so that you can stop (often unconsciously) inflicting damage on people of color, and in turn, help other white people do better, too. "Layla Saad is one of the most important and valuable teachers we have right now on the subject of white supremacy and racial injustice."—New York Times bestselling author Elizabeth Gilbert Based on the viral Instagram challenge that captivated participants worldwide, Me and White Supremacy takes readers on a 28-day journey, complete with journal prompts, to do the necessary and vital work that can ultimately lead to improving race relations. Updated and expanded from the original workbook (downloaded by nearly 100,000 people), this critical text helps you take the work deeper by adding more historical and cultural contexts, sharing moving stories and anecdotes, and including expanded definitions, examples, and further resources, giving you the language to understand racism, and to dismantle your own biases, whether you are using the book on your own, with a book club, or looking to start family activism in your own home. This book will walk you step-by-step through the work of examining: Examining your own white privilege What allyship really means Anti-blackness, racial stereotypes, and cultural appropriation Changing the way that you view and respond to race How to continue the work to create social change Awareness leads to action, and action leads to change. For readers of White Fragility, White Rage, So You Want To Talk About Race, The New Jim Crow, How to Be an Anti-Racist and more who are ready to closely examine their own beliefs and biases and do the work it will take to create social change. "Layla Saad moves her readers from their heads into their hearts, and ultimately, into their practice. We won't end white supremacy through an intellectual understanding alone; we must put that understanding into action."—Robin DiAngelo, author of New York Times bestseller White Fragility

The world has entered an era of the most profound and challenging change in human history. Most of our children are not prepared, and we know it. Parents around the world see the change and know that the traditional three R's -- reading, writing, and arithmetic -- are necessary, but not enough. Their children need to become far more responsible, creative, and tolerant of differences. They need to increase their ability to think for themselves, take initiative, get along with others, and solve problems. Business leaders are not finding people whose skills and character match the demands of today's global economy, including strong communication, teamwork, analytical, technology, and organizational skills. They need young people who are self-motivated, creative, and have a strong work ethic. How will we bridge this ever-widening gap? The Leader in Me is the story of the extraordinary schools, parents, and business leaders around the world who are preparing the next generation to meet the great challenges and opportunities of the twenty-first century. In 1999, the A.B. Combs Elementary School in North Carolina was on the verge of being cut as a magnet school and needed to find new ways to educate its students. Teachers and administrators began teaching practical, principle-based leadership skills -- with remarkable results. In a short time, the number of students passing end-of-grade tests vaulted from 84 to 97 percent. Simultaneously, the school began reporting significant increases in students' self-confidence, dramatic drops in discipline problems, and striking increases in teacher and administrator job

satisfaction. Parents, meanwhile, reported equivalent improvements in their children's attitudes and behavior at home. As news of the school's success spread, schools around the world began adopting the mantra to "develop leaders, one child at a time." Business and civic leaders started partnering with schools in their communities to sponsor teacher training and student resources. Each school and family approached the principles differently, but the results were the same -- attentive, energized young people engaging in the world around them. The best way to prepare the next generation for the future is to emphasize the value of communication, cooperation, initiative, and unique, individual talent -- for nothing undermines confidence more than comparison. Whether in the classroom or at home, it is never too early to start applying leadership skills to everyday life. Drawing on the many techniques and examples that have already seen incredible success around the world, *The Leader in Me* shows how easy it is to incorporate these skills into daily life. It is a timely answer to many of the challenges facing today's young people, businesses, parents, and educators -- one that is perfectly matched to the global demands of the twenty-first century.

#1 NEW YORK TIMES BESTSELLER • Brené Brown has taught us what it means to dare greatly, rise strong, and brave the wilderness. Now, based on new research conducted with leaders, change makers, and culture shifters, she's showing us how to put those ideas into practice so we can step up and lead. Look for Brené Brown's new podcast, *Dare to Lead*, as well as her ongoing podcast *Unlocking Us!* **NAMED ONE OF THE BEST BOOKS OF THE YEAR BY BLOOMBERG** Leadership is not about titles, status, and wielding power. A leader is anyone who takes responsibility for recognizing the potential in people and ideas, and has the courage to develop that potential. When we dare to lead, we don't pretend to have the right answers; we stay curious and ask the right questions. We don't see power as finite and hoard it; we know that power becomes infinite when we share it with others. We don't avoid difficult conversations and situations; we lean into vulnerability when it's necessary to do good work. But daring leadership in a culture defined by scarcity, fear, and uncertainty requires skill-building around traits that are deeply and uniquely human. The irony is that we're choosing not to invest in developing the hearts and minds of leaders at the exact same time as we're scrambling to figure out what we have to offer that machines and AI can't do better and faster. What can we do better? Empathy, connection, and courage, to start. Four-time #1 New York Times bestselling author Brené Brown has spent the past two decades studying the emotions and experiences that give meaning to our lives, and the past seven years working with transformative leaders and teams spanning the globe. She found that leaders in organizations ranging from small entrepreneurial startups and family-owned businesses to nonprofits, civic organizations, and Fortune 50 companies all ask the same question: How do you cultivate braver, more daring leaders, and how do you embed the value of courage in your culture? In this new book, Brown uses research, stories, and examples to answer these questions in the no-BS style that millions of readers have come to expect and love. Brown writes, "One of the most important findings of my career is that daring leadership is a collection of four skill sets that are 100 percent teachable, observable, and measurable. It's learning and unlearning that requires brave work, tough conversations, and showing up with your whole heart. Easy? No. Because choosing courage over comfort is not always our default. Worth it? Always. We want to be brave with our lives and our work. It's why we're here." Whether you've read *Daring Greatly* and *Rising Strong* or you're new to Brené Brown's work, this book is for anyone who wants to step up and into brave leadership.

The research is indisputable: Students are less disruptive and do better academically in schools that cultivate the internal motivation of students. In *Activating the Desire to Learn*, veteran educator Bob Sullo shows how to apply lessons from the research on motivation in the classroom. According to the author, we are all driven to fulfill five essential needs: to connect, to be competent, to make choices, to have fun, and to be safe. Studies show that when these needs are met in schools, good behavior and high achievement tend naturally to ensue. Written as a series of candid dialogues between the author and K–12 students, teachers, counselors, and administrators, *Activating the Desire to Learn* covers everything you need to know to change the dynamics of learning in your classroom or school: * A comprehensive overview of the research on internal motivation; * Case studies of strategies for activating internal motivation at the elementary, middle, and high school levels; * Suggestions on how to assess degrees of student motivation; and *Motivating students is not the issue—the hunger to learn is ever-present. Yet schools continue to insist on the traditional reward-punishment model, to the detriment of student achievement. Clearly it's time for change. This engaging and thought-provoking book will help you create a culture of achievement by building on the inherent drive to succeed that students bring to the classroom every day.*

In the 7 Habits series, international bestselling author Stephen R. Covey showed us how to become as effective as it is possible to be. In his long-awaited new book, *THE 8th HABIT*, he opens up an entirely new dimension of human potential, and shows us how to achieve greatness in any position and any venue. All of us, Covey says, have within us the means for greatness. To tap into it is a matter of finding the right balance of four human attributes: talent, need, conscience and passion. At the nexus of these four attributes is what Covey calls voice - the unique, personal significance we each possess. Covey exhorts us all to move beyond effectiveness into the realm of greatness - and he shows us how to do so, by engaging our strengths and locating our powerful, individual voices. Why do we need this new habit? Because we have entered a new era in human history. The world is a profoundly different place than when *THE 7 HABITS OF HIGHLY EFFECTIVE PEOPLE* was originally published in 1989. The challenges and complexity we face today are of a different order of magnitude. We enjoy far greater autonomy in all areas of our lives, and along with this freedom comes the expectation that we will manage ourselves, instead of being managed by others. At the same time, we struggle to feel engaged, fulfilled and passionate. Tapping into the higher reaches of human genius and motivation to find our voice requires a new mindset, a new skill-set, a new tool-set - in short, a whole new habit.

Children in today's world are inundated with information about who to be, what to do and how to live. But what if there was a way to teach children how to manage priorities, focus on goals and be a positive influence on the world around them? *The Leader in Me* is that programme. It's based on a hugely successful initiative carried out at the A.B. Combs Elementary School in North Carolina. To hear the parents of A. B Combs talk about the school is to be amazed. In 1999, the school debuted a programme that taught *The 7 Habits of Highly Effective People* to a pilot group of students. The parents reported an incredible change in their children, who blossomed under the programme. By the end of the following year the average end-of-grade scores had leapt from 84 to 94. This book will launch the message onto a much larger platform. Stephen R. Covey takes the 7 Habits, that have already changed the lives of millions of people, and shows how children can use them as they develop. Those habits -- be proactive, begin with the end in mind, put first things first, think win-win, seek to understand and then to be understood, synergize, and sharpen the saw -- are critical skills to learn at a young age and bring incredible results, proving that it's never too early to teach someone how to live well.

"The 4 Disciplines of Execution" can change all that forever.

The #1 international best seller *In Lean In*, Sheryl Sandberg reignited the conversation around women in the workplace. Sandberg is chief operating officer of Facebook and coauthor of *Option B* with Adam Grant. In 2010, she gave an electrifying TED talk in which she described how women unintentionally hold themselves back in their careers. Her talk, which has been viewed more than six million times, encouraged women to "sit at the table," seek challenges, take risks, and pursue their goals with gusto. *Lean In* continues that conversation, combining personal anecdotes, hard data, and compelling research to change the conversation from what women can't do to what they can. Sandberg provides practical advice on negotiation techniques, mentorship, and building a satisfying career. She describes specific steps women can take to combine professional achievement with personal fulfillment, and demonstrates how men can benefit by supporting women both in the workplace and at home. Written with humor and wisdom, *Lean In* is a revelatory, inspiring call to action and a blueprint for individual growth that will empower women around the world to achieve their full potential.

Carol Ann Tomlinson and Tonya R. Moon take an in-depth look at assessment and show how differentiation can improve the process in all grade levels and subject areas. After discussing differentiation in general, the authors focus on how differentiation applies to various forms of assessment--pre-assessment, formative assessment, and summative assessment--and to grading and report cards. Readers learn how differentiation can --Capture student interest and increase motivation --Clarify teachers' understanding about what is most important to teach --Enhance students' and teachers' belief in student learning capacity; and --Help teachers understand their students' individual similarities and differences so they can reach more students, more effectively Throughout, Tomlinson and Moon emphasize the importance of maintaining a consistent focus on the essential knowledge, understandings, and skills that all students must acquire, no matter what their starting point. Detailed scenarios illustrate how assessment differentiation can occur in three realms (student readiness, interest, and learning style or preference) and how it can improve assessment validity and reliability and decrease errors and teacher bias. Grounded in research and the authors' teaching experience, *Assessment and Student Success in a Differentiated Classroom* outlines a common-sense approach that is both thoughtful and practical, and that empowers teachers and students to discover, strive for, and achieve their true potential.

The Leader in Me How Schools and Parents Around the World are Inspiring Greatness, One Child at a Time Simon and Schuster

The New York Times best-selling book exploring the counterproductive reactions white people have when their assumptions about race are challenged, and how these reactions maintain racial inequality. In this "vital, necessary, and beautiful book" (Michael Eric Dyson), antiracist educator Robin DiAngelo deftly illuminates the phenomenon of white fragility and "allows us to understand racism as a practice not restricted to 'bad people' (Claudia Rankine). Referring to the defensive moves that white people make when challenged racially, white fragility is characterized by emotions such as anger, fear, and guilt, and by behaviors including argumentation and silence. These behaviors, in turn, function to reinstate white racial equilibrium and prevent any meaningful cross-racial dialogue. In this in-depth exploration, DiAngelo examines how white fragility develops, how it protects racial inequality, and what we can do to engage more constructively.
