

The Library Of Greek Mythology Oxford Worlds Classics

From Titans to Olympians, The World of Greek Mythology delivers an action-packed retelling of the myths, from how the world was created to a personal take on some of the greatest and mightiest gods and goddesses. If you love Greek mythology or are keen to learn more, this book is sure to delight and captivate your imagination.

Ancient Greek mythology is riddled with tales about natural phenomena. Among them are those that explain how the sun, stars, and other heavenly bodies supposedly came to be. Other myths dealt with the weather, including thunder, lightning, storms, and rainbows. The Greeks also believed that one or more gods were responsible for natural disasters, such as earthquakes, volcanic eruptions, and floods.

The story of Pandora and her box, snake-haired Medusa, and the greedy King Midas are three of the twelve myths presented in a colorfully illustrated collection of Greek myths.

In this new and substantially revised edition of H. J. Rose's classic survey and analysis of the evolution and tradition of Greek myth, Robin Hard adds various features which bring the work up-to-date with contemporary scholarship and address the needs of students. * a new preface analysing and contextualising H. J. Rose's attitude to myth * a new chapter devoted to the epic and other poetic sources of the myths, narrative prose mythography and the various forms of rationalisation * a new chapter examining the relationship between the different myths of Gods and heroes, with genealogical tables. Robin Hard shows how the myths of individual families and distinct locations hold together to form a coherent pseudo-historical pattern * extensively revises and simplifies notes * a new annotated bibliography. A Handbook of Greek Mythology presents a invaluable and user-friendly guide to the myths and legends of ancient Greece - their genesis, sources, development and significance.

"Reproducible comic book-style retellings that introduce kids to these riveting classic stories ..."--Cover.

Allegorists in ancient Greece attempted to find philosophical and physical truths in myth. Plato, who resolutely excluded myths from the sphere of truth, thought that they could express ideas in a realm he could not reach with dialectical reasoning. Freud built a science around the myth of Oedipus, saying that myths were "distorted wish dreams of entire nations, the dreams of early mankind." No body of myth has served more purposes - or been subject to more analysis - than Greek mythology. This is a revised translation of Fritz Graf's highly acclaimed introduction to Greek mythology, *Griechische Mythologie: Eine Einfuhrung*, originally published in 1985 by Artemis Verlag. Graf offers a chronological account of the principal Greek myths that appear in the surviving literary and artistic sources, and concurrently documents the history of interpretation of Greek mythology from the seventeenth century to the present. First surveying the various definitions of myth that have been advanced, Graf proceeds to look at the relationship between Greek myths and epic poetry; the absence of an "origin of man" myth in Creek mythology; and connection between particular myths and shrines or holy festivals; the harmony in Greek literature between myth and history; the use of myth in Greek song and tragedy; and the uses and interpretations of myth by philosophers and allegorists.

"The Library is a meditation on realization and loss through the practice of reading. After his father's unexpected death, the author searched for him in selected books from his father's library in an attempt to access and preserve his (and his father's) memories and thoughts as well as to give shape to questions about a disturbing past. A fugue-structure assembles photographs of books from his father's library alongside the author's prose-poems which respond to his reading of those books. As photographs of books bear witness to the objects with which the father had physical contact, the texts emanating from those objects imagine representations of his thoughts as he read. Photo-collages of forests represent the visual thoughts of the author as he attempted to read his own father, who was often obscured by the enigmas of despair and anxiety. The multiple voices and narrative perspectives encountered in the books from the library expose a series of formative events within and surrounding the father's life. They also inspire the author to create an imagined history in the resulting prose-poems. The culminating book--a portrait in absentia--creates a parallel reality to his father, one that masks actual memories and obstructs his father's voice as it probes the space between documentation and invention, and between the imperative to understand and the impossibility of knowing." --Artist's website, viewed May 13, 2019.

By offering, for the first time in a single edition, complete English translations of Apollodorus' Library and Hyginus' Fabulae--the two most important surviving "handbooks" of classical mythography--this volume enables readers to compare the two's versions of the most important Greek and Roman myths. A General Introduction sets the Library and Fabulae into the wider context of ancient mythography; introductions to each text discuss in greater detail issues of authorship, aim, and influence. A general index, an index of people and geographic locations, and an index of authors and works cited by the mythographers are also included.

A Companion to Greek Mythology presents a series of essays that explore the phenomenon of Greek myth from its origins in shared Indo-European story patterns and the Greeks' contacts with their Eastern Mediterranean neighbours through its development as a shared language and thought-system for the Greco-Roman world. Features essays from a prestigious international team of literary experts Includes coverage of Greek myth's intersection with history, philosophy and religion Introduces readers to topics in mythology that are often inaccessible to non-specialists Addresses the Hellenistic and Roman periods as well as Archaic and Classical Greece

Describes the gods, goddesses, heroes, places, and other aspects of mythology from Greek and Roman times.

A highly readable and beautifully illustrated re-telling of the most famous stories from Greek mythology. The Greek Myths contains some of the most thrilling, romantic, and unforgettable stories in all human history. From Achilles rampant on the fields of Troy, to the gods at sport on Mount Olympus; from Icarus flying too close to the sun, to the superhuman feats of Heracles, Theseus, and the wily Odysseus, these timeless tales exert an eternal fascination and inspiration that have endured for millennia and influenced cultures from ancient to modern. Beginning at the dawn of human civilization, when the Titan Prometheus stole fire from Zeus and offered mankind hope, the reader is immediately immersed in the majestic, magical, and mythical world of the Greek gods and heroes. As the tales unfold, renowned classicist Robin Waterfield, joined by his wife, writer Kathryn Waterfield, creates a sweeping panorama of the romance, intrigues, heroism, humour, sensuality, and brutality of the Greek myths and legends. The terrible curse that plagued the royal houses of Mycenae and Thebes, Jason and the golden fleece, Perseus

and the dread Gorgon, the wooden horse and the sack of Troy--these amazing stories have influenced art and literature from the Iron Age to the present day. And far from being just a treasure trove of amazing tales, *The Greek Myths* is a catalogue of Greek myth in art through the ages, and a notable work of literature in its own right.

A new translation of an important text for Greek mythology used as a source book by classicists from antiquity to Robert Graves, *The Library of Greek Mythology* is a complete summary of early Greek myth, telling the story of each of the great families of heroic mythology, and the various adventures associated with the main heroes and heroines, from Jason and Perseus to Heracles and Helen of Troy. Using the ancient system of detailed histories of the great families, it contains invaluable genealogical diagrams for maximum clarity.

Retells twelve tales from Greek mythology, including the stories of King Midas, Echo and Narcissus, the Golden Apples, and Cupid and Psyche.

"*The Library of Greek Mythology*" is a classic source of Greek mythology, heroes, and legend. Also known as the "Library of Apollodorus", or the "Bibliotheca of Pseudo-Apollodorus", this definitive compendium dates originally from the first or second century A.D. The "Library" was first mentioned in a 9th century manuscript and has been considered over the centuries to be one of the most important and valuable works of mythology to survive from ancient times. The stories found in this priceless collection are the famous stories and legends of ancient Greece, from the beginning of the world to the events of the Trojan War. The "Library" introduced countless readers and writers to the fascinating tales of Greek gods, frightful monsters, and fearless heroes, such as Jason, Hercules, and Perseus. This authoritative collection is a must-read for scholars, students, and fans of Greek mythology. This edition is printed on premium acid-free paper. This is a publication of Digireads.com Publishing. Digireads.com Publishing has been focused on the publishing of classic works of literature in paperback and electronic formats (ebooks) globally since 2003.

An introduction to the gods and goddesses of ancient Greece.

The only work of its kind to survive from classical antiquity, the Library of Apollodorus is a unique guide to Greek mythology, from the origins of the universe to the Trojan War. Apollodorus' Library has been used as a source book by classicists from the time of its compilation in the 1st-2nd century BC to the present, influencing writers from antiquity to Robert Graves. It provides a complete history of Greek myth, telling the story of each of the great families of heroic mythology, and the various adventures associated with the main heroes and heroines, from Jason and Perseus to Heracles and Helen of Troy. As a primary source for Greek myth, as a reference work, and as an indication of how the Greeks themselves viewed their mythical traditions, the Library is indispensable to anyone who has an interest in classical mythology. Robin Hard's accessible and fluent translation is supplemented by comprehensive notes, a map and full genealogical tables. The introduction gives a detailed account of the Library's sources and situates it within the fascinating narrative traditions of Greek mythology. ABOUT THE SERIES: For over 100 years Oxford World's Classics has made available the widest range of literature from around the globe. Each affordable volume reflects Oxford's commitment to scholarship, providing the most accurate text plus a wealth of other valuable features, including expert introductions by leading authorities, helpful notes to clarify the text, up-to-date bibliographies for further study, and much more.

A full, authoritative, and wholly engaging account of these endlessly fascinating tales and of the ancient society in which they were created. Greek myths are among the most complex and influential stories ever told. From the first millennium BC until today, the myths have been repeated in an inexhaustible series of variations and reinterpretations. They can be found in the latest movies and television shows and in software for interactive computer games. This book combines a retelling of Greek myths with a comprehensive account of the world in which they developed—their themes, their relevance to Greek religion and society, and their relationship to the landscape. "Contexts, Sources, Meanings" describes the main literary and artistic sources for Greek myths, and their contexts, such as ritual and theater. "Myths of Origin" includes stories about the beginning of the cosmos, the origins of the gods, the first humans, and the founding of communities. "The Olympians: Power, Honor, Sexuality" examines the activities of all the main divinities. "Heroic exploits" concentrates on the adventures of Perseus, Jason, Herakles, and other heroes. "Family sagas" explores the dramas and catastrophes that befall heroes and heroines. "A Landscape of Myths" sets the stories within the context of the mountains, caves, seas, and rivers of Greece, Crete, Troy, and the Underworld. "Greek Myths after the Greeks" describes the rich tradition of retelling, from the Romans, through the Renaissance, to the twenty-first century. Complemented by lavish illustrations, genealogical tables, box features, and specially commissioned drawings, this will be an essential book for anyone interested in these classic tales and in the world of the ancient Greeks.

This volume examines Greek mythology, drawing connections between ancient Greek culture and its myths. It explains how the beliefs, values, and experiences of that culture are represented in its treasured stories of gods, demi-gods, monsters, and heroes. This volume includes a map of ancient Greece, a family tree of the major gods, a table of major characters with name pronunciations and brief descriptions, a glossary, sidebars, fact boxes, a bibliography of sources for further study, and a subject index.

The Bibliotheca (Ancient Greek: βιβλιοθήκη, Bibliothēkē, "Library"), also known as the Bibliotheca of Pseudo-Apollodorus, is a compendium of Greek myths and heroic legends, arranged in three books, generally dated to the first or second century AD. The author was traditionally thought to be Apollodorus of Athens, but that attribution is now regarded as false, and so "Pseudo-" was added to Apollodorus. The Bibliotheca has been called "the most valuable mythographical work that has come down from ancient times". An epigram recorded by the important intellectual Patriarch Photius I of Constantinople expressed its purpose: It has the following not ungraceful epigram: 'Draw your knowledge of the past from me and read the ancient tales of learned lore. Look neither at the page of Homer, nor of elegy, nor tragic muse, nor epic strain. Seek not the vaunted verse of the cyclops but look in me and you will find in me all that the world contains'. The brief and unadorned accounts of myth in the Bibliotheca have led some commentators to suggest that even its complete sections are an epitome of a lost work.

School Library Journal Best Books of 2011 Eureka! Silver Honor Books—California Reading Association Capitol Choices 2012 list of Noteworthy Titles for Children and Teens 2012 Notable Children's Books—ALSC The new National Geographic Treasury of Greek Mythology offers timeless stories of Greek myths in a beautiful new volume. Brought to life with lyrical text by award-winning author Donna Jo Napoli and stunning artwork by award-winning illustrator Christina Balit, the tales of gods and goddesses such as Zeus, Aphrodite, Apollo, and Athena and heroes and monsters such as Helen of Troy, Perseus, and Medusa will fascinate and engage children's imaginations. The sky-god Zeus, the hero Heracles, and the fearsome Minotaur are well-known subjects of Greek mythology. Greek Gods, Heroes, and Mythology explores the gods, heroes, creatures, and stories of Greek mythology, in addition to examining their influence today. Aligned to Common Core Standards and correlated to state standards. Core Library is an imprint of Abdo Publishing, a division of ABDO.

A retelling of the greatest myths and legends of the ancient Greek gods and heroes for readers of all ages by a celebrated historical novelist. In the ancient past, the Gods and Goddesses of ancient Greece lived on Mount Olympus and ruled the world of mortals. Famous heroes shaped the course of history, beautiful women drew the gazes of gods and men alike, and the gods were both fickle in their favors and breathtakingly generous to those they smiled upon. From Midas' tragic gift to the exploits of Hercules and the curse of Pandora, renowned classicist and historical novelist Robert Graves brings the legends of ancient Greece to life in a lively, accessible way that's sure to appeal to everyone; from children to adults, and from casual readers to serious scholars.

Provides a brief history of Greek mythology, describes the gods, goddesses, heroes, and heroines contained within it, and presents several myths.

"This updated edition incorporates twenty-eight new lines in the first Hymn to Dionysos, along with expanded notes, a new preface, and an enhanced bibliography. With her introduction and notes, Rayor places the hymns in their historical and aesthetic context, providing the information needed to read, interpret, and fully appreciate these literary windows on an ancient world."--P. [4] of cover.

The Library of Greek MythologyOxford University Press, USA

The immortal characters of Greek mythology enact their dramas, conflicts, and passions in the "Library of Apollodorus." Probably composed in the first century A.D., it is the only Greek handbook of mythology to survive antiquity, and is a major source of our knowledge of Greek myths. Beginning with the birth of the gods and ending with the death of Odysseus, the 'Library' traces the destinies of such great mythic figures as Prometheus, Oedipus, Heracles, Daedalus, and the heroes of the Trojan War. Michael Simpson's new translation captures the fine simplicity and straightforwardness of the original. Leonard Baskin's drawings throw a unique contemporary light on this ancient world.

In the first edition of *Women in Greek Myth*, Mary R. Lefkowitz convincingly challenged narrow, ideological interpretations of the roles of female characters in Greek mythology. Where some scholars saw the Amazons as the last remnant of a forgotten matriarchy, Clytemnestra as a frustrated individualist, and Antigone as an oppressed revolutionary, Lefkowitz argued that such views were justified neither by the myths themselves nor by the relevant documentary evidence. Concentrating on those aspects of women's

experience most often misunderstood—life apart from men, marriage, influence in politics, self-sacrifice and martyrdom, and misogyny—she presented a far less negative account of the role of Greek women, both ordinary and extraordinary, as manifested in the central works of Greek literature. This updated and expanded edition includes six new chapters on such topics as heroic women in Greek epic, seduction and rape in Greek myth, and the parts played by women in ancient rites and festivals. Revisiting the original chapters as well to incorporate two decades of more recent scholarship, Lefkowitz again shows that what Greek men both feared and valued in women was not their sexuality but their intelligence.
