

The Life Millennium The 100 Most Important Events And People Of The Past 1000 Years

The new millennium is widely considered to be the age of globalisation, democratisation, and human rights. We live in a knowledge society and in a time of risk and uncertainty. World society is rapidly urbanising and ageing and exhausting its natural resources. It is the interplay of such key trends of the era that calls for a fresh approach to measuring quality of life. This collection of papers presents an innovative approach to evaluating living standards and wellbeing under the new circumstances facing individuals and societies in twenty-first century. Contributions cover a wide range of issues that impact positively and negatively on wellbeing in our age. While stability, trust, equal access to resources and the social integration of disadvantaged members of society enhance well-being, poverty, social exclusion, congestion in cities, HIV/AIDS and global warming pose threats to both modern and traditional lifestyles. Methodological refinements of conventional measurement tools are presented that take into consideration the rich diversity of lifestyles and values among different populations and regions of the world. This book will be essential reading for social scientists and ordinary citizens who are concerned about the future of human well-being on our planet.

A look at the future world order forecasts a dramatic reordering of geopolitical and economic forces, high-tech economies, and a world of privileged elites surrounded by a vast array of impoverished nomads. Since this wild frontier land was settled at the bang of a gun one April morning, Oklahoma City has grown rapidly, experiencing some of the most drastic changes of all over the past century. Many of the photographs in this new volume show construction and development as the city began to truly prosper --downtown skyscrapers and modern highways, museums such as the Cowboy Hall of Fame and the Kirkpatrick Planetarium, and major plants operated by General Motors and Dayton Tire & Rubber Company. Recent images highlight celebrations, including high school football games, outings to Bricktown and Myriad Botanical Gardens, and finally, Opening Night 2000.

Showcases more than one hundred photographs of the people, places, and products that have shaped human progress, ranking each event and personality in order of importance

Shows and describes the people and events that have shaped the past one hundred years

The authors use quantitative analysis to rank the prominence of more than 1,000 of history's biggest figures, while also discussing trends gleaned from the rankings, as well as the computational methods used to determine the rankings.

This volume provides the first comprehensive chronology of the earliest known stone sculptures from the north Indian city of Mathura. It includes new evidence for the reattribution of objects, emergence of the anthropomorphic Buddha image, and predominance of a heterodox sect of Jainism.

History's greatest tour guide, Ian Mortimer, takes us on an eye-opening and expansive journey through the last millennium of human innovation. In Millennium, bestselling historian Ian Mortimer takes the reader on a whirlwind tour of the last ten centuries of Western history. It is a journey into a past vividly brought to life and bursting with ideas, that pits one century against another in his quest to measure which century saw the greatest change. We journey from a time when there was a fair chance of your village being burned to the ground by invaders — and dried human dung was a recommended cure for cancer — to a world in which explorers sailed into the unknown and civilizations came into conflict with each other on an epic scale. Here is a story of godly scientists, fearless adventurers, cold-hearted entrepreneurs, and strong-minded women — a story of discovery, invention, revolution, and cataclysmic shifts in perspective. Millennium is a journey into the past like no other. Our understanding of human development will never be the same again, and the lessons we learn along the way are profound ones for us all.

No one looking ahead at the middle of the last century could have foreseen the extent and the importance of the ensuing environmental crises. Now, more than a decade into the next century, no one can ignore it. A New Environmental Ethics: the Next Millennium for Life on Earth offers clear, powerful, and oftentimes moving thoughts from one of the first and most respected philosophers to write on the environment. Rolston, an early and leading pioneer in studying the moral relationship between humans and the earth, surveys the full spectrum of approaches in the field of environmental ethics. This book, however, is not simply a judicious overview. Instead, it offers critical assessments of contemporary academic accounts and draws on a lifetime of research and experience to suggest an outlook for the future. As a result, this focused, forward-looking analysis will be a necessary complement to any balanced textbook or anthology in environmental ethics, and will teach its readers to be responsible global citizens, and residents of their landscape, helping ensure that the future we have will be the one we wish for.

Pages from the Past: History and Memory in American Magazines

Artists, art historians, and critics look at the legacies of feminism and critical theory in the work of women artists, more than thirty years after the beginning of the modern women's movement and Linda Nochlin's landmark essay "Why Have There Been No Great Women Artists?" More than thirty years after the birth of the modern women's movement and the beginnings of feminist art-making and art history, the time is ripe to examine the legacies of those revolutions. In *Women Artists at the Millennium*, artists, art historians, and critics examine the differences that feminist art practice and critical theory have made in late twentieth-century art and the discourses surrounding it. In 1971, when Linda Nochlin published her essay "Why Have There Been No Great Women Artists?" in a special issue of *Art News*, there were no women's studies, no feminist theory, no such thing as feminist art criticism; there was instead a focus on the mythic figure of the great (male) artist through history. Since then, the "woman artist" has not simply been assimilated into the canon of "greatness" but has expanded art-making into a multiplicity of practices with new parameters and perspectives. In *Women Artists at the Millennium* artists including Martha Rosler and Yvonne Rainer reflect upon their own varied practices and art historians discuss the innovative work of such figures as Louise Bourgeois, Lygia Clark, Mona Hatoum, and Carrie Mae Weems. And Linda Nochlin considers changes since her landmark essay and looks to the future, writing, "We will need all our wit and courage to make sure that women's voices are heard, their work seen and written about." Artist Pages By: Ellen Gallagher, Ann Hamilton, Mary Kelly, Yvonne Rainer, Martha Rosler Contributing Writers: Emily Apter, Carol Armstrong, Catherine de Zegher, Maria DiBattista, Brigid Doherty, Briony Fer, Tamar Garb, Anne Higonnet, Ewa Lajer-Burchard, Molly Nesbit, Mignon Nixon, Linda Nochlin, Griselda Pollock, Abigail Solomon-Godeau, Lisa Tickner, Anne Wagner

This volume analyses the societal legacy of Lutheranism in Finland by drawing on a multidisciplinary perspective from the social sciences and humanities. Involving researchers from a wide range of such fields has made it possible to provide fresh and fascinating perspectives on the relationship between Lutheranism and Finnish society. Overall the book argues that Lutheranism and secular Finnish society are deeply intertwined. This volume addresses different societal areas which have been significantly influenced by Lutheranism, but also demonstrate how Lutheranism and its institutions have themselves adapted to society. As part of an ongoing religious turn in humanities and social sciences research in Finland and other countries, this book argues that it is necessary to take religion into greater account to more fully understand current societies and cultures, as well as their futures.

Neenah Ellis always wanted to live to 100, and her fascination led her to interview centenarians from all over the country about what life was like at the very beginning of the century, and how things have changed over time. Ellis, a producer for National Public Radio, spent an unforgettable year traveling with her tape recorder and listening to the stories of America's oldest men and women. She met a couple who courted by horse and sleigh in Vermont during the winter of 1918, and she spent a week with the oldest living black lesbian in America. She visited a nationally known expert on dyslexia who published a book at 96 and whose great-great-grandfather was a colonel in Washington's army; and she met Anna Wilmot, the row-boating centenarian from New England who captured the hearts of thousands of NPR listeners with her confession that she swims in the buff only "when it's foggy and there's no fisherman around." Originally conceived as an American history project, Ellis's year of interviews became much more, a personal journey of growth and transformation. Once she had put away the exigencies of her cusp-of-the-millennium life-her deadlines, the intense focus on current events, the endless email and ringing phones-she began to learn the kinds of things that we do from much older people. She started to connect in her conversations with them, and to see the virtue of looking forward, as the centenarians did, not backward. They reminded her that the moment-this very moment that we're in right now-is precious and fine. And that the true richness of

life is to be found in each other—in our marriages and friendships, in the intellectual life that we share with each other, and in the ways that we become connected. Their stories add up to a course in living well, with lessons and inspiration for all of us.

The most ambitious work of fiction by a writer widely considered the most important novelist working in China today In this darkly comic novel, a group of women inhabits a world of constant surveillance, where informants lurk in the flowerbeds and false reports fly. Conspiracies abound in a community that normalizes paranoia and suspicion. Some try to flee—whether to a mysterious gambling bordello or to ancestral homes that can only be reached underground through muddy caves, sewers, and tunnels. Others seek out the refuge of Nest County, where traditional Chinese herbal medicines can reshape or psychologically transport the self. Each life is circumscribed by buried secrets and transcendent delusions. Can Xue's masterful love stories for the new millennium trace love's many guises—satirical, tragic, transient, lasting, nebulous, and fulfilling—against a kaleidoscopic backdrop drawn from East and West of commerce and industry, fraud and exploitation, sex and romance.

Thomas Edison's love affair with the growing frontier town of Fort Myers, Florida is a little-known, but intriguing part of the Edison legacy. The man whose inventions changed the world and defined the future course of American life first visited the young and still untamed town in 1885, purchasing a winter residence known as Seminole Lodge that he and his family would use until his death in 1931. His Fort Myers home subsequently provided the setting for the many notables who would visit Edison, including automobile magnate Henry Ford, rubber baron Harvey S. Firestone, and writer and naturalist John Burroughs. Today, the Edisons' mutual bonds with the community are perhaps the defining feature of Fort Myers' history. The city has named numerous streets and public venues, its community college, a mile-long bridge, and its major shopping mall after Edison, and Fort Myers has recognized the annual Edison Festival of Light and Pageant as its premier social and winter events. Because of Edison's long association with Southwest Florida, his memory and persona hold an unparalleled significance for the entire region.

In 1906, a new religious phenomenon emerged from California. Then, just over sixty years later, a million-fold expansion occurred. What was the catalyst for this explosion of growth? The Pentecostal Paradox explores the history and rise of a new religious movement called the Pentecostals. Drawing on eyewitness accounts, newspaper articles of the day, and other long-forgotten sources, author G. J. Hocking weaves together an accurate history of the movement to the present day. Filled with fascinating stories—the mailing lists of over 50,000 subscribers go missing; a preacher hijacked the pulpit causing untold havoc; a report of flames shooting fifty feet in the air—The Pentecostal Paradox asks: Were these events fact, fiction, or real phenomena? In this timely work, California the Charismatic Cradle features prominently as the author juxtaposes the rise of Pentecostalism with both the California gold rush and the San Francisco earthquake. Eventually, a “God Rush” occurred in 1906 as many rushed to Azusa Street, Los Angeles. How will this book shed light on this vast group? What next for Pentecostalism? These questions are answered in a candid and yet concise way in this much-needed analysis of the Pentecostal movement.

Lives and Times is a biographical reader designed to acquaint students with major issues in American history through the lives of individuals, prominent and otherwise, whose activities and ideas were crucial in shaping the course of the nation's history. Employing a narrative style, each volume consists of thirteen chapters in which the lives of two individuals are examined in the broader context of major historical themes. Readers will find not only a diversity of individuals profiled, but also themes spanning political, economic, social, cultural, intellectual and military history. This combined biographical/thematic approach provides the reader with more extensive biographical information and a fuller examination of key issues than is commonly offered in core texts. Each chapter also offers study questions and a bibliography. Also Available: Lives and Times: Individuals and Issues in American History: To 1877 by Blaine T. Browne and Robert C. Cottrell

1970- issued in 2 vols.: v. 1, General reference, social sciences, history, economics, business; v. 2, Fine arts, humanities, science and engineering.

When I went to counselling I found the counsellors frequently got confused about the details of my life. So I decided I'd write my life story to assist them in understanding. As time went on my friends online got curious what I was doing and why. After a while they showed great interest Meany asked could they read what I was writing. By this time the book had grown so I decided if I was going to do this project I would do it properly. I decided although a very said tale I would take a sad tale and: 1) I would make a happier ending 2) I would use it to help others. So this the life story of me.

This special double issue of Life magazine, was published to commemorate the up-coming Millennium. The one hundred events are counted down from No. 100 - No. 1. There is also a section which lists one hundred famous and influential people who have impacted on the events of the 20th century.

Harold Bloom, the celebrated intellectual and literary critic, addresses our millennial preoccupations – angels, dreams and near-death experiences

Winner of the 2001 National Book Award for Fiction Nominated for the National Book Critics Circle Award An American Library Association Notable Book Jonathan Franzen's third novel, The Corrections, is a great work of art and a grandly entertaining overture to our new century: a bold, comic, tragic, deeply moving family drama that stretches from the Midwest at mid-century to Wall Street and Eastern Europe in the age of greed and globalism. Franzen brings an old-time America of freight trains and civic duty, of Cub Scouts and Christmas cookies and sexual inhibitions, into brilliant collision with the modern absurdities of brain science, home surveillance, hands-off parenting, do-it-yourself mental healthcare, and the anti-gravity New Economy. With The Corrections, Franzen emerges as one of our premier interpreters of American society and the American soul. Enid Lambert is terribly, terribly anxious. Although she would never admit it to her neighbors or her three grown children, her husband, Alfred, is losing his grip on reality. Maybe it's the medication that Alfred takes for his Parkinson's disease, or maybe it's his negative attitude, but he spends his days brooding in the basement and committing shadowy, unspeakable acts. More and more often, he doesn't seem to understand a word Enid says. Trouble is also brewing in the lives of Enid's children. Her older son, Gary, a banker in Philadelphia, has turned cruel and materialistic and is trying to force his parents out of their old house and into a tiny apartment. The middle child, Chip, has suddenly and for no good reason quit his exciting job as a professor at

D----- College and moved to New York City, where he seems to be pursuing a "transgressive" lifestyle and writing some sort of screenplay. Meanwhile the baby of the family, Denise, has escaped her disastrous marriage only to pour her youth and beauty down the drain of an affair with a married man--or so Gary hints. Enid, who loves to have fun, can still look forward to a final family Christmas and to the ten-day Nordic Pleasurelines Luxury Fall Color Cruise that she and Alfred are about to embark on. But even these few remaining joys are threatened by her husband's growing confusion and unsteadiness. As Alfred enters his final decline, the Lamberts must face the failures, secrets, and long-buried hurts that haunt them as a family if they are to make the corrections that each desperately needs. The auto was in its infancy, and sheep still grazed along South Broad Street. But there was a vibrancy in the air as the 20th century began, the pulse of a great city rising to meet the industrial challenges of the new age. The optimism all but jumps off the pages at you in this marvelous collection of historic photographs of Philadelphia, assembled by the Philadelphia Inquirer. They span 100 years--from Republicans gathered in Philadelphia in 1900 to nominate William McKinley for president to planning for a GOP convention in 2000; from boys registering for the draft in World War I to boys resisting the draft for Vietnam. From Connie Mack's Athletics to Mike Schmidt and Pete Rose; from such Philadelphia icons as Kate Smith, Marian Anderson, and Paul Robeson to Grace Kelly, Bill Cosby, and Sly Stallone. They're all here--an unforgettable experience and a "must have" for people with roots in the Philadelphia region.

A Bible student reference A New Testament prophecy of a falling away from truth into apostasy and lawlessness, in the final generation before Jesus Christ returns in glory, is being fulfilled now and is shortly to end. Yet Christianity has overwhelmingly moved so far from its first century roots that it could not even recognise this – or that Christ's return is therefore now almost upon us! How and why this is the case is here explained thoroughly and logically with many examples directly from the word of God. In God's saving plan for the world, everyone must in time make a free will choice to become part of the 'Israel of God' in order to access eternal life in the kingdom of God. The route to take is the "strait and narrow" way (Mat 7:13-14) that very few have so far found, and it involves the biblical new and old covenants which both apply to this Israel. Embark on this voyage only if you are willing to: be challenged about some basic Christian preconceptions, be a serious open-minded Bible student, and trust what the Bible teaches - but remember that time is short. "What the Bible has taught me I see as both vital and urgent for our eternal salvation; yet I know of no church or individual theologian who teaches what this book deals with in any substantive way" "Be prepared for major challenges to your understanding just as God has challenged me." "In the epistles, Paul refers to two Israels whom he calls Israel after the flesh (I Cor 10:18) and the Israel of God (Gal 6:16); I focus mainly on the latter (but I also explain an unexpected but critically important connection between them)" "Dependent on the teaching, nearly all Christian denominations either teach nothing at all on it or almost the opposite of what Scripture repeatedly showed me. Looking back, I find this absolutely staggering!" "Very few [Christians] understand that the new covenant also only applies to Israel (as I will clearly show)." "I no longer believe that the NT [New Testament] can be fully understood without this extra Israel dimension" "Had I felt I could deliver this in a more light-hearted way I would have done so, but its implications are too awesome and fundamental to our eternal life prospects for that"

The Historical Dictionary of the Carter Era covers the history of the Carter presidency through a chronology, an introductory essay, appendixes, an extensive bibliography. The dictionary section has several hundred cross-referenced entries on important personalities, including the president, his advisors, his family, his opponents, and his critics, as well as members of Congress, military leaders, and international leaders. This book is a vital reference tool for any researcher interested in the presidency of Jimmy Carter.
