For Writing Aficionados from All Walks of Life This book is based on a simple but powerful observation: Students and young professionals who develop outstanding writing skills do so primarily by mastering a limited number of the most important writing principles, which they use over and over again. This statement begs the question: What are these recurring principles? The answer to this question is the basis of this material. "The Little Red Writing Book" is especially suitable for high school students wanting to master the basics of expository writing. It is also suitable for college students seeking a review of basic writing skills. A wealth of examples, charts, and engaging exercises makes this book an invaluable guide for anyone who wants to master those skills that will make a good writer even better. Brandon Royal is an award-winning writer whose educational authorship includes "The Little Gold Grammar Book, The Little Red Writing Book Deluxe Edition, The Little Green Math Book, The Little Blue Reasoning Book, " and "Reasoning with Numbers." During his tenure working in Hong Kong for US-based Kaplan Educational Centers a Washington Post subsidiary and the largest test-

preparation organization in the world Brandon honed his theories of teaching and education and developed a set of key learning principles to help define the basics of writing, grammar, math, and reasoning. A Canadian by birth and graduate of the University of Chicago's Booth School of Business, his interest in writing began after completing writing courses at Harvard University. Since then he has authored a dozen books and reviews of his books have appeared in "Time Asia" magazine, "Publishers Weekly, Library Journal of America, Midwest Book Review, The Asian Review of Books, Choice Reviews Online, Asia Times Online, " and About.com. Brandon is a five-time winner of the International Book Awards, a five-time gold medalist at the President's Book Awards, as well as a winner of the Global eBook Awards, the USA Book News Best Book Awards, and recipient of the 2011 Educational Book of the Year award as presented by the Book Publishers Association of Alberta. The articulate exposition of Royal's twenty principles of writing fit neatly into 128 short, accessible (paperback) pages. I recommend this wonder to all my writing students. Perhaps one day writing committees will wisely follow suit and make this a primary text for all writing courses at their schools.

Nothing beats the companionable crackle of an open fire. Fires invite us to sit and share stories or watch in contemplative silence. We feel drawn to the flickering flames, the gentle curls of aromatic smoke and reassuring radiant heat. Snuggled under a blanket, toasting crumpets and listening to the pleasing pops of burning wood – what better way to spend a winter's evening? Or, come the summer, few pleasures are richer than cooking food, perched around a campfire, waiting for the stars to come out. But for all this talk, how many of us know how to build a fire? Would we know which kinds of trees burn best? Could we make our own firelighters or build the perfect fire stack? The Little Book of Building Fires is a richly illustrated pocket guide to sourcing, seasoning and storing firewood, choosing kindling and tinder, and how to build and light the perfect fire. From campfires to woodburners, bonfires to open hearths, this book blends practicality with personal experience and will get you back in touch with your ancient firemaking instincts.

A brilliant tragicomedy based on the most infamous espionage trial of the twentieth century Thirty years after they walked hand in hand to the electric chair, sentenced to die for giving the gift of the atom bomb to the Soviet Union, Solomon and Dolores Rubell are the targets of a new investigation—conducted not by the FBI, or some paranoid Senate subcommittee, but by Gerald Lerner, boyhood Communist and author of such classic chronicles of the American Jewish experience as Hot

Pastrami Sandwich and Kosher and Topless. What does Gerald hope to find, all these years later, by placing ads in the Jewish Daily Forward and Screw seeking former Soviet spies willing to chat? The short answer: His sanity. With a gleam in its eye and tenderness in its heart, David Evanier's irreverent and incisive novel peers into one of the darkest chapters in American history—the execution of Julius and Ethel Rosenberg on charges of spying for the Soviet Union. Because, as Suzie Sizzle—great-niece of Dolly and Solly Rubell and star of a “goodly number” of hardcore films—explains to Gerald, this is not really a story about death, despite its gloomy ending. It is a story about love—the true love two proud Jewish underdogs had for each other, and the misguided love an entire generation of American leftists had for a political system whose grand promises masked terrible, irreconcilable truths. They say love will make you do crazy things. So, too, will Communism.
