Lull-a-bye, Little One Dianne Ochiltree, 2006 Lull-a-bye, Lull-a-bye, little one, Dinner's over, bedtime's begun. With these words, a mother and father start the night-time ritual of putting a toddler to sleep. There's splash-a-bye time in the bathtub with rubber-duck squeaks and bubble-beard cheeks; rock-a-bye time where the whole family sings silly songs together; hush-a-bye time with Dad reading and the moon watching from high above; and finally, Lull-a-bye time again, as the child gently eases into sleep. With its lilting read-aloud rhythm and Hideko Takahashi's warm, comforting illustrations, *Lull-a-Bye, Little One* is a celebration of the love a family shares at bedtime. Young readers will want to hear this book every night as they drift into slumbers.

The Birds of Opulence Crystal Wilkinson, 2016-03-18 A lyrical exploration of love and loss, this book centers on several generations of women in a bucolic southern Black township as they live with and sometimes surrender to madness. The Goode-Brown family, led by matriarch and pillar of the community Minnie Mae, is plagued by old secrets and embarrassment over mental illness and illegitimacy. Meanwhile, single mother Francine Clark is haunted by her dead, lightning-struck husband and forced to fight against both the moral judgment of the community and her own rebellious daughter, Mona. The residents of Opulence struggle with vexing relationships to the land, to one another, and to their own sexuality. As the members of the youngest generation watch their mothers and grandmothers pass away, they live with the fear of going mad themselves and must fight to survive. The author offers up Opulence and its people in lush, poetic detail. It is a world of magic, conjuring, signs, and spells, but also of harsh realities that only love - and love that's handed down - can conquer.

My Journey Down the Reincarnation Highway Frank Mares, 2012-11-17 My Journey down the Reincarnation Highway is the first book of the author's four book spiritual memoir series. In this personal account, Frank Mares details how he discovered the fact of reincarnation and explores what he did in some of his prior lives. More people than you would believe have prior life memories. This book tells how the author acquired psychic ability in his middle age. With this new gift, he recovered facts about nine of his prior lives, most of which involved violent, bloody deaths. The most recent life was that of a young German Wehrmacht sergeant who was ambushed and killed by Russians during the night of May 1, 1944, in a dark Estonian farmhouse. Not being satisfied with just discovering his past lives, Mares goes on a spiritual mission to find out why he kept dying violently. The answers do not come easily, but by using a team of three world class psychics he eventually tracks down the shocking reason for all his brutal deaths. The psychic team finds that within the soul of this normal small businessman resides a brutal, stone-cold killer from the 1600s who surprisingly was the revered founder of a gentile noble family. As part of his soul's continuing quest for redemption, Mares hopes to salvage the dark time in his soul's past into something that could help others today. His experiences show that death is only a transition phase, and that it should not be feared. His book also reveals that reincarnation is actually a well-designed, organized system that allows souls to learn personalized life lessons over a surprising number of lives. If you read this book, you will never look at life (and death) in the same way again.

High Attention Reading Elizabeth Hale, 2022 High Attention Reading offers a new way to get students of all reading levels to independently read informational texts with more effort, attention, and stamina. Hale argues that increasing the number of informational texts children read is important but not enough to achieve this goal. In order to prepare students for the reading demands of high school, it is essential that we provide strategic scaffolding for the habits of mind required to read this genre at a high level and the motivation to do so. The author introduces elementary and middle school teachers to a format called HART (High Attention Reading through Talking) that uses purposeful, intermittent student talk to heighten engagement and accountability during independent reading. The book includes easy-to-implement lessons to get started with HART, as well as discussions about the relationships among motivation, engagement, and content area reading. Chapters describe how HART scaffolds and supports student ownership of background knowledge, content vocabulary, and critical thinking about texts. Teachers will learn how to create conditions that foster motivation and engagement with informational text, while also creating authentic accountability to help students read to their potential. Book Features: An approach to independent reading that can be incorporated into any reading curriculum, from reading workshop to more structured comprehensive programs. Practical information for how to impact a difficult to reach aspect of reading—the internal effort students make while reading complex text independently. Strategies for building students' critical thinking through discussion and writing. Guidance for how to increase student ownership of attending to background knowledge and content vocabulary. A framework that can be used by reading and content (science and social studies) teachers in both elementary and middle school. Dedicated discussions on how to differentiate HART for English Learners. Lessons that include descriptive transcripts, reproducible supportive materials, and access to downloadable PowerPoints.

Ethical Values in International Decision-Making B. Landheer, 2012-12-06 The Conference on Ethical values in international decision making was held by the Grotius Seminarium in the period June 16-20, 1958 at the Institute of Social Studies in the Hague. At that time, a number of papers were distributed to the participants while -after the Conference -two brief reports appeared in De Internationale Spectator (1958, I, p. 426-435) and in Research and Education in the Netherlands (September 1958, Vol. II, no. 3, p. 18-21). As considerable time has elapsed since, this Booklet does not give a report on the Conference, but rather it attempts to recapture its spirit and to elaborate some of the problems which were discussed. The introductory Remarks do this in an individualistic manner for which the author alone is responsible, but it is hoped that this way of presenting the topic of the Conference anew will rekindle the interest of the original participants while it may attract others and give them an impression of what the Grotius Seminarium is trying to do. In addition, those of the papers which dealt with the more general aspects of the Conference's topic are presented in this booklet. B. LANDHEER December, 1959

The Ordinary Princess M. M. Kaye,2002-03-18 Along with Wit, Charm, Health, and Courage, Princess Amy of Phantasmorania receives a special fairy christening gift: Ordinariness. Unlike her six beautiful sisters, she has brown hair and freckles, and would rather have adventures than play the harp, embroider tapestries . . . or become a Queen. When her royal parents try to marry her off, Amy runs away and, because she's so ordinary, easily becomes the fourteenth assistant kitchen maid at a neighboring palace. And there . . . much to everyone's surprise . . . she meets a prince just as ordinary (and special) as she is! This delightful fairy tale is sure to please young romantics . . . Neither Kaye's princess nor her book should be considered ordinary. (School Library Journal)

Each of the nine lesson structures (read aloud, phonics and spelling, vocabulary, focus, shared reading, close reading, guided inquiry, reader's theater, and conversation) has its own chapter and features a wealth of resources that let you see the lessons in action in ELA, Science, and Social Studies classes, including: An annotated teaching vignette, lesson explanation, and research notes Tips for planning, structure and timing suggestions, and ideas for responsive teaching Detailed planning templates and 22 accompanying online videos covering over 3 hours of classroom footage Jen's reflections, key look-fors, and ideas for next steps The nine lesson structures can be used with any curriculum or core program, text, and subject, making it easier for teachers to maximize explicit and engaging teaching time across the day, and simplify planning and preparation. Jen incorporates a wide range of compelling research about how best to teach reading to every student in your class and translates the research (or the science of teaching reading) into high-leverage moves you can count on to deliver powerful lessons again and again. She also honors the art of teaching reading, helping teachers tap into their experience and hone their expertise to make quick, effective classroom decisions that take student learning to the next level.
