Freedom's Sword is the first history to detail the remarkable, lasting achievements of the NAACP's first sixty years. From its pivotal role in overturning the Jim Crow laws in the South to its twenty-year court campaign that culminated with Brown v. the Board of Education, the NAACP has been at the forefront of the struggle against American racism. Gilbert Jonas, a fifty-year veteran of the organization, tracks America's political and social landscape period by period, as the NAACP grows to 400,000 members and is recognized by both blacks and whites as the leading force for social justice. Jonas recounts the historic combined efforts of ordinary citizens and black leaders such as W.E.B. Dubois, James Weldon Johnson, and Thurgood Marshall to root out white-only political primaries, separate schools, and segregated city buses. Freedom's Sword is a vivid and passionately written account of the single most influential secular organization in black America.

In the 1970s and '80s, Xerox Corporation brought together a brain-trust of engineering geniuses, a group of computer eccentrics dubbed PARC. This brilliant group created several monumental innovations that triggered a technological revolution, including the first personal computer, the laser printer, and the graphical interface (one of the main precursors of the Internet), only to see these breakthroughs rejected by the corporation. Yet, instead of giving up, these determined inventors turned their ideas into empires that radically altered contemporary life and changed the world. Based on extensive interviews with the scientists, engineers, administrators, and executives who lived the story, this riveting chronicle details PARC's humble beginnings through its triumph as a hothouse for ideas, and shows why Xerox was never able to grasp, and ultimately exploit, the cutting-edge innovations PARC delivered. Dealers of Lightning offers an unprecedented look at the ideas, the inventions, and the individuals that propelled Xerox PARC to the frontier of technohistoiy--and the corporate machinations that almost prevented it from achieving greatness.
