

## The Magic Wakes Charity Bradford

From the author of the beloved classic *Where the Red Fern Grows* comes a timeless adventure about a boy who discovers a tree full of monkeys. The last thing fourteen-year-old Jay Berry Lee expects to find while trekking through the Ozark Mountains of Oklahoma is a tree full of monkeys. But then Jay learns from his grandpa that the monkeys have escaped from a traveling circus, and there's a big reward for the person who finds and returns them. His family could really use the money, so Jay sets off, determined to catch them. But by the end of the summer, Jay will have learned a lot more than he bargained for—and not just about monkeys. From the beloved author of *Where the Red Fern Grows* comes another memorable adventure novel filled with heart, humor, and excitement. Honors and Praise for Wilson Rawls' *Where the Red Fern Grows*: A School Library Journal Top 100 Children's Novel An NPR Must-Read for Kids Ages 9 to 14 Winner of 4 State Awards Over 7 million copies in print! "A rewarding book . . . [with] careful, precise observation, all of it rightly phrased." —The New York Times Book Review "One of the great classics of children's literature . . . Any child who doesn't get to read this beloved and powerfully emotional book has missed out on an important piece of childhood for the last 40-plus years." —Common Sense Media "An exciting tale of love and adventure you'll never forget." —School Library Journal

Anna is less than thrilled to be shipped off to boarding school in Paris, leaving a fledgling romance behind – until she meets Étienne St. Clair. Smart, charming, beautiful, Étienne has it all...including a girlfriend. But in the City of Light, wishes have a way of coming true. Will a year of romantic near-misses end with a longed-for French kiss? "Magical...really captures the feeling of being in love" - Cassandra Clare, author of *The Mortal Instruments* series NPR's Year's Best Teen Reads, 2010. NPR's 100 Best-Ever Teen Novels, Number 53. Cybils Award Finalist for Young Adult Fiction, 2011. YALSA's Best Fiction for Young Adults. 2012 list YALSA's Popular Paperbacks for Young Adults: *Forbidden Romance*, 2012. TAYSHAS Reading List, 2012. Georgia Peach Book Award for Teen Readers, Honor, 2012-13.

Talia has a secret that will save her world or rip it apart. Scientist Talia Zaryn has always dreamt of an alien invasion and her own death. She's kept it secret, hoping it is nothing more than childish nightmares. However, when the face in the mirror matches that of her dreams, she fears she's out of time. Talia's work at the Space Exploration Foundation leaves no time for relationships, but Landry Sutton isn't looking for a friend. He's looking for a traitor. His ability to sense emotions convinces him Talia is the traitor until a touch sizzles between them. In an instant, their minds are connected telepathically. Together they must uncover the secrets of Sendek's past if they hope to defeat the terrifying creatures descending on their world. Talia is the key--if she can learn to trust the magic coursing through her veins. Praise-- "Charity Bradford is one of the best new voices in science fiction." Michael Offut, sci-fi author, *Slipstream* and *Oculus* .."science fiction meets fantasy meets romance, and it was blended beautifully." Alicia Rivoli, fantasy author, *Mere Enchantment*

A radically new view of the nature and purpose of consciousness How is consciousness possible? What biological purpose does it serve? And why do we value it so highly? In *Soul Dust*, the psychologist Nicholas Humphrey, a leading figure in consciousness research, proposes a startling new theory. Consciousness, he argues, is nothing less than a magical-mystery show that we stage for ourselves inside our own heads. This self-made show lights up the world for us and makes us feel special and transcendent. Thus consciousness paves the way for spirituality, and allows us, as human beings, to reap the rewards, and anxieties, of living in what Humphrey calls the "soul niche." Tightly argued, intellectually gripping, and a joy to read, *Soul Dust* provides answers to the deepest questions. It shows how the problem of consciousness merges with questions that obsess us all—how life should be lived and the fear of death. Resting firmly on neuroscience and evolutionary theory, and drawing a wealth of insights from philosophy and literature, *Soul Dust* is an uncompromising yet life-affirming work—one that never loses sight of the majesty and wonder of consciousness.

The strong-willed, heroic wife of Alexander Hamilton tells her story in this historical novel by the bestselling author of *The Secret Wife of Aaron Burr*. As the daughter of a respected general, Elizabeth Schuyler is accustomed to socializing with dignitaries and soldiers. But no visitor to her parents' home has affected her so strongly as Alexander Hamilton, a charismatic, ambitious aide to George Washington. They marry quickly, and despite the tumult of the American Revolution, Eliza is confident in her husband and in her role as his helpmate. But it is in the aftermath of war, as Hamilton becomes one of the country's most important figures, that she truly comes into her own In the new capital, Eliza becomes an adored member of society, respected for her fierce devotion to Hamilton as well as her grace. Behind closed doors, she astutely manages their expanding household and assists her husband with his political writings. Yet some challenges are impossible to prepare for. Through scandal, betrayal, heartbreak, and tragedy, she is tested again and again. In the end, it will be Eliza's strength that makes her not only Hamilton's most crucial ally in life, but also his most loyal advocate after his death, determined to preserve his legacy while pursuing her own path through the nation they helped shape together. "Scott expertly handles the complex history and complicated romance, moving the personal and political plots briskly. Readers will be captivated by the affecting portrait Scott has painted of Eliza as an American patriot who was witness and counsel to Alexander's enduring legacy." —Publishers Weekly (starred review) "Your next Hamilton obsession." —Bustle Early in the year, our North American forests come to life as native wildflowers start to push up through patches of snow. With longer days and sunlight streaming down through bare branches of towering trees, life on the forest floor awakens from its winter sleep. Plants such as green dragon, squirrel corn, and bloodroot interact with their pollinators and seed dispersers and rush to create new life before the trees above leaf out and block the sun's rays. *Wake Up, Woods* showcases the splendor of our warming forests and offers clues to nature's annual springtime floral show as we walk in our parks and wilderness areas, or even in shade gardens around our homes. Readers of *Wake Up, Woods* will see that Gillian Harris, Michael Homoya and Shane Gibson, through illustrations and text, present a captivating look into our forests' biodiversity, showing how species depend on plants for food and help assure plant reproduction. This book celebrates some of nature's most fascinating moments that happen in forests where we live and play.

An anecdotal guide for the perplexed new investigator as well as a refreshing resource for the old pro, covering everything from valuable personality traits for an investigator to social factors conducive to scientific work. Santiago Ramón y Cajal was a mythic figure in science. Hailed as the father of modern anatomy and neurobiology, he was largely responsible for the modern conception of the brain. His groundbreaking works were *New Ideas on the Structure of the Nervous System* and *Histology of the Nervous System in Man and Vertebrates*. In addition to leaving

a legacy of unparalleled scientific research, Cajal sought to educate the novice scientist about how science was done and how he thought it should be done. This recently rediscovered classic, first published in 1897, is an anecdotal guide for the perplexed new investigator as well as a refreshing resource for the old pro. Cajal was a pragmatist, aware of the pitfalls of being too idealistic—and he had a sense of humor, particularly evident in his diagnoses of various stereotypes of eccentric scientists. The book covers everything from valuable personality traits for an investigator to social factors conducive to scientific work.

Talia tiene un secreto que salvará su mundo o lo destrozará. La científica Talia Zaryn siempre ha soñado con una invasión alienígena y su propia muerte. Lo ha mantenido en secreto, esperando que no sean más que pesadillas infantiles. Sin embargo, cuando el rostro en el espejo coincide con el de sus sueños, teme que se le haya acabado el tiempo. El trabajo de Talia en la Fundación de Exploración Espacial no deja tiempo para las relaciones, pero Landry Sutton no está buscando un amigo. Busca a un traidor. Su capacidad para sentir emociones lo convence de que Talia es la traidora hasta que un toque chisporrotea entre ellos. En un instante, sus mentes están conectadas telepáticamente. Juntos deben descubrir los secretos del pasado de Sendek si esperan derrotar a las aterradoras criaturas que descienden sobre su mundo. Talia es la clave, si puede aprender a confiar en la magia que corre por sus venas.

Dawn of the MagesBook 2 the Magic WakesCreatespace Independent Publishing Platform

FUN FACT: "Becoming Zara" is a standalone novella, but if you're following the character of Samantha Bradford as she crosses off the items of her bucket list (the Single Wide Female Series), this is the book that Samantha publishes to complete her bucket list item #18 (Publish a Book). Note: You can download #1 Learn Pole Dancing of that series for free. \*\*\* Hi, I'm Zara...warrior princess. I don't usually tell that last bit to strangers, but I say it in my head all the time. It's one of the many mantras that have helped me to get to where I am today. And believe me when I say that I've come a long way. Besides, if you're a woman and you happen to have ever struggled with issues of self-esteem, we're probably gonna be fast friends anyway, so I won't hold anything (much) back. Oh, and Zara wasn't the name I was born with—but you'll find out more about that in the book. I don't know about you, but my own struggle with my weight has held me back a bit in life. And my self-esteem took a real nose dive after my fiance dumped me—via text, no less. (I know, right? Jerk!...but I don't usually dwell on things in the past, so let's just move right along from that, shall we?) So, I'm still a work-in-progress for sure, but I'm really starting to figure it all out—how to be more of who I'm meant to be every day—including the bumps, the lumps, and my bruised ego along the way. Oh and I love my sisterhood (more about that later) - the women who join me in believing that we are all capable of being strong, amazing, warrior princesses—just the way we are right now."

A soldier struggles with the emptiness left behind by amnesia until he learns he is more than the world would have him remember. The earth is desolate, and only one ship of humans remains. An assassin plays god, dealing out justice and mercy as he sees fit. Explore the outer reaches of the imagination through these and other short stories. From brainwashed clones to winged aliens of destruction, the stories in Stellar Cloud will pull in any lover of science fiction and fantasy.

Barbara Taylor Bradford introduced the illustrious Harte family in her blockbuster A Woman of Substance. Now she has created an unforgettable new dynasty: the Deravenels. On a bitterly cold day in 1904, the Deravenel family's future changes forever. When Cecily Deravenel tells her eighteen-year-old son Edward of the death of his father, brother, uncle, and cousin in a fire, a part of him dies as well. Edward and his cousin Neville Watkins are suspicious of the deaths. They vow to seek the truth, avenge the deaths, and retake control of their family's business empire. As he grows into a handsome, charismatic man, Edward is torn between duty and desire. There are women in his life for whom he'll risk everything—and one woman who might destroy him. But madness and secrecy lie at the heart of the family, and Edward's enemies are far more ruthless than he knows. He will need his strength more than ever when the house of Deravenel is fatally rocked by betrayal from within. Who will become the ultimate ruler of the Deravenels? Power and money, passion and adultery, ambition and treachery all illuminate a dramatic epic saga that brings to life the glittering Edwardian Era. The Ravenscar Dynasty is based on the familial factions of England's Wars of the Roses, brought to life by the magical, memorable storytelling power that is Barbara Taylor Bradford.

A brilliant, no-nonsense profile of the criminal mind, newly updated to include the latest research, effective methods for dealing with hardened criminals, and an urgent call to rethink criminal justice from expert witness Stanton E. Samenow, Ph.D. "Utterly compelling reading, full of raw insight into the dark mind of the criminal."—John Douglas, author of the #1 New York Times bestseller Mind Hunter Long-held myths defining the sources of and remedies for crime are shattered in this groundbreaking book—and a chilling profile of today's criminal emerges. In 1984, Stanton Samenow changed the way we think about the workings of the criminal mind, with a revolutionary approach to "habilitation." In 2014, armed with forty years of additional knowledge and insight, Samenow explored the subject anew, explaining criminals' thought patterns in the new millennium, such as those that lead to domestic violence, Internet victimization, and terrorism. The arenas of criminal behavior have expanded, demanding another updated version, which includes an exploration of social media as a vehicle for criminal conduct, new pharmaceutical influences and the impact of the opioid crisis, recent genetic and biological research into whether some people are "wired" to become criminals, new findings on the effectiveness of cognitive behavioral therapy, and a fresh take on criminal justice reform. Throughout, we learn from Samenow's five decades of experience how truly vital it is to know who the criminals are and how they think differently. If equipped with that crucial understanding, we can reach reasonable, compassionate, and effective solutions.

The Dragumon have been defeated, but the planet Sendek will never be the same. In order to save their world, Talia and Landry Sutton had to wake the forgotten magic on Sendek. But instead of restoring peace, it creates chaos on the city streets, with those unable to work magic turning against those who can. When Talia and Landry travel to the planet Orek to discover how it combines magic and science, they find a new, anti-magical government. The Controllers have all the tech, weapons, and natural resources. On Orek, the magical outcasts beg Talia and Landry to help them rise up against their oppressors. The two must decide whether to help save Orek or return home and save their own planet. Talia and Landry are torn apart by the conflicting missions. Talia knows what Landry wants, but if she gives in, she could lose what she loves the most.

From the renowned author of Possession, The Children's Book is the absorbing story of the close of what has been called the Edwardian summer: the deceptively languid, blissful period that ended with the cataclysmic destruction of World War I. In this compelling novel, A.S. Byatt summons up a whole era, revealing that beneath its golden surface lay tensions that would explode into war, revolution and unbelievable change — for the generation that came of age before 1914 and, most of all, for their children. The novel centres around Olive Wellwood, a fairy tale writer, and her circle, which includes the brilliant, erratic craftsman Benedict Fludd and his apprentice Phillip Warren, a runaway from the poverty of the Potteries; Prosper Cain, the soldier who directs what will become the Victoria and Albert Museum; Olive's brother-in-law Basil Wellwood, an officer of the Bank of England; and many others from every layer of society. A.S. Byatt traces their lives in intimate detail and moves between generations, following the children who must choose

whether to follow the roles expected of them or stand up to their parents' "porcelain socialism." Olive's daughter Dorothy wishes to become a doctor, while her other daughter, Hedda, wants to fight for votes for women. Her son Tom, sent to an upper-class school, wants nothing more than to spend time in the woods, tracking birds and foxes. Her nephew Charles becomes embroiled with German-influenced revolutionaries. Their portraits connect the political issues at the heart of nascent feminism and socialism with grave personal dilemmas, interlacing until *The Children's Book* becomes a perfect depiction of an entire world. Olive is a fairy tale writer in the era of Peter Pan and Kenneth Grahame's *The Wind In the Willows*, not long after Alice's *Adventures in Wonderland*. At a time when children in England suffered deprivation by the millions, the concept of childhood was being refined and elaborated in ways that still influence us today. For each of her children, Olive writes a special, private book, bound in a different colour and placed on a shelf; when these same children are ferried off into the unremitting destruction of the Great War, the reader is left to wonder who the real children in this novel are. *The Children's Book* is an astonishing novel. It is an historical feat that brings to life an era that helped shape our own as well as a gripping, personal novel about parents and children, life's most painful struggles and its richest pleasures. No other writer could have imagined it or created it.

Renowned as one of the originators and masters of the 'weird' horror genre, British writer Algernon Blackwood also played a role in developing a character archetype that has gone on to feature in countless television shows, novels, and movies in recent years -- the psychic detective. John Silence is a well-to-do medical doctor with keen psychic powers who spends his spare time communing with the dead in haunted houses, murder cases, and other strange scenarios. This collection of three of the most famous John Silence stories is a must-read for fans of the genre.

One of the top-ten bestselling novels ever written. "An extravagant, absorbing novel of love, courage, ambition, war, death and passion." —The New York Times Barbara Taylor Bradford's *The Emma Harte Saga* begins with this record-shattering New York Times bestseller that traces Emma Harte's legacy through multiple generations of indomitable women. From the servants' quarters of a manor house on the brooding Yorkshire moors to the helm of a profitable international business, Emma Harte's life is a sweeping saga of unbreakable spirit and resolve. Rising from abject poverty to glittering wealth at the upper echelons of society, there is only one man the indomitable Emma cannot have—and only one she yearns for. The novel was also the subject of a popular 1984 miniseries starring Jenny Seagrove and Deborah Kerr. "A long, satisfying novel of money, power, passion and revenge set against the sweep of 20th century history." —Los Angeles Times "A wonderfully entertaining novel." —The Denver Post "A mighty saga. Little has been so riveting since *Gone with the Wind*." —Manchester Evening News "Tailor-made for fans of McCullough's *Thornbirds*." —Publishers Weekly "The storyteller of substance." —The Times (London)

Research shows that between birth and early adulthood the brain requires sensory stimulation to develop physically. The nature of the stimulation shapes the connections among neurons that create the neuronal networks necessary for thought and behavior. By changing the cultural environment, each generation shapes the brains of the next. By early adulthood, the neuroplasticity of the brain is greatly reduced, and this leads to a fundamental shift in the relationship between the individual and the environment: during the first part of life, the brain and mind shape themselves to the major recurring features of their environment; by early adulthood, the individual attempts to make the environment conform to the established internal structures of the brain and mind. In *Brain and Culture*, Bruce Wexler explores the social implications of the close and changing neurobiological relationship between the individual and the environment, with particular attention to the difficulties individuals face in adulthood when the environment changes beyond their ability to maintain the fit between existing internal structure and external reality. These difficulties are evident in bereavement, the meeting of different cultures, the experience of immigrants (in which children of immigrant families are more successful than their parents at the necessary internal transformations), and the phenomenon of interethnic violence. Integrating recent neurobiological research with major experimental findings in cognitive and developmental psychology—with illuminating references to psychoanalysis, literature, anthropology, history, and politics—Wexler presents a wealth of detail to support his arguments. The groundbreaking connections he makes allow for reconceptualization of the effect of cultural change on the brain and provide a new biological base from which to consider such social issues as "culture wars" and ethnic violence.

Now in 24 languages. *Nature's Lessons in Healing Trauma... Waking the Tiger* offers a new and hopeful vision of trauma. It views the human animal as a unique being, endowed with an instinctual capacity. It asks and answers an intriguing question: why are animals in the wild, though threatened routinely, rarely traumatized? By understanding the dynamics that make wild animals virtually immune to traumatic symptoms, the mystery of human trauma is revealed. *Waking the Tiger* normalizes the symptoms of trauma and the steps needed to heal them. People are often traumatized by seemingly ordinary experiences. The reader is taken on a guided tour of the subtle, yet powerful impulses that govern our responses to overwhelming life events. To do this, it employs a series of exercises that help us focus on bodily sensations. Through heightened awareness of these sensations trauma can be healed.

Now a Netflix film starring and directed by Chiwetel Ejiofor, this is a gripping memoir of survival and perseverance about the heroic young inventor who brought electricity to his Malawian village. When a terrible drought struck William Kamkwamba's tiny village in Malawi, his family lost all of the season's crops, leaving them with nothing to eat and nothing to sell. William began to explore science books in his village library, looking for a solution. There, he came up with the idea that would change his family's life forever: he could build a windmill. Made out of scrap metal and old bicycle parts, William's windmill brought electricity to his home and helped his family pump the water they needed to farm the land. Retold for a younger audience, this exciting memoir shows how, even in a desperate situation, one boy's brilliant idea can light up the world. Complete with

photographs, illustrations, and an epilogue that will bring readers up to date on William's story, this is the perfect edition to read and share with the whole family.

In the conclusion to the "Wheel of Time" series, all of humanity is in peril as Rand al'Thor moves forward to break the seals on the Dark One's prison and the Last Battle will determine the fate of the world.

On October 28th 1890 the great wall of the Barsdon Dam gave way, and the Eagle Star reservoir buried the small Arizona town of Jackson Hope under forty feet of water. Men, women and children perished in the devastating flood, nobody survived. For over a hundred years the town lay forgotten at the bottom of a vast lake, but it has been a particularly harsh summer in Arizona, and the town is starting to emerge. Experts will come and survey the land, hoping to prospect for a bright and lucrative new project, but they will get more than they bargained for. Bit by bit they will uncover the truth behind the disaster which wiped a small farming community off the map, and as they do they will learn with devastating consequences that some secrets should stay buried forever.

Examines the history of poverty in America and argues against the current welfare policy which addresses poverty as an economic problem and fails to nurture the human spirit

A storm gathers across the galaxy Commanding the Cassan base on Tgren, Byron thought he'd put the days of battle behind him. As a galaxy-wide war encroaches upon the desert planet, Byron's ideal life is threatened and he's caught between the Tgrens and the Cassans. After enemy ships attack the desert planet, Byron discovers another battle within his own family. The declaration of war between all ten races triggers nightmares in his son, threatening to destroy the boy's mind. Meanwhile the ancient alien ship is transmitting a code that might signal the end of all life in the galaxy. And the mysterious probe that almost destroyed Tgren twenty years ago could return. As his world begins to crumble, Byron suspects a connection. The storm is about to break, and Byron is caught in the middle

Él quiere olvidar. Ella quiere ser suficiente. Nathaniel Pierce huyó de su hogar y de los dolorosos recuerdos del pasado. Se ha recreado a sí mismo en Eureka Springs. Ya no es un veterinario, él es Nate el paisajista. Cuando la vieja Lilly Connor muere, toda la ciudad lo hace cuidar de la nieta de ella. Lilly Ramírez nunca supo que le pusieron su nombre por su abuela. De hecho, no sabía que existía. Se dirige a Eureka Springs en contra de los deseos de su madre para aprender sobre el lado oculto de su familia, y con suerte encontrarle dirección a su vida. El pequeño pueblo no es nada como ella lo esperaba, es mucho mejor. La única desventaja es el hombre sexy y pecaminoso que siente la necesidad de juzgarla por cosas que estuvieron fuera de su control.

An historical novel like none before it, A Star Called Henry marks a new chapter in Booker Prize-winner Roddy Doyle's writing. It is a vastly more ambitious book than any he has previously written. A subversive look behind the legends of Irish republicanism, at its centre a passionate love story, this new novel is a triumphant work of fiction. Born in the slums of Dublin in 1902, his father a one-legged warehouse bouncer and settler of scores, Henry Smart has to grow up fast. By the time he can walk he's out robbing, begging, charming, often cold, always hungry, but a prince of the streets. At fourteen, already six foot two, Henry's in the General Post Office on Easter Monday 1916, a soldier in the Irish Citizen Army, fighting for freedom. A year later he's ready to die for Ireland again, a rebel, a Fenian, and, soon, a killer. With his father's wooden leg as his weapon, Henry becomes a republican legend - one of Michael Collins' boys, a cop killer, an assassin on a stolen bike, a lover.

New Adult Paranormal Romance Apples and oranges, dogs and cats, everybody knows witches and immortals don't mix. A young witch, Callie, returns home from exile after a traumatic Ouija board incident six years earlier. She falls for classmate James MacLauren and struggles to keep her magical abilities a secret from him. Then there's the even trickier problem that her rogue warlock father and his coven will kill anyone who prevents Callie from joining them in dark magic. Someone like James . . . But James has a secret of his own. He's part of a hidden race of immortals living in the Appalachian hollows and the last thing he needs in his life is a witch who could imprison him with a binding spell. But it will take all of his superhuman physical strength, and all of Callie's extraordinary magical skills, to survive when two covens and an army of immortals engage in battle. Should they fail, they face either death or utter domination by the power of dark magic. \*\*This is a complete novel at approximately 76,000 words\*\* It is the first book in the Appalachian Magic Series. Book two in the series is CHANGELING, with more books releasing later in the year.

Kaila Guidry has always known she was different. When she meets Jordyn Stryker one day at school, she finds out just how different. Jordyn was born and raised far from Earth, a starseed, one of six new students sent to Louisiana's Bush High to learn human ways. But Jordyn did not count on meeting a girl like Kaila. When Kaila is pushed to her limit by high school bullying and cruelty, Jordyn awakens her to a new reality— and to love. But to prove herself, Kaila must look the other way as the real purposes of the starseed unfold. As the horrific plan behind the starseed visit to Earth moves inexorably forward, Kaila and Jordan, caught in an impossible love, must determine where their real loyalties lie.

Emma Harte rises from impoverished, pregnant servant to the heights of wealth and power as she parlays a small shop into the world's finest department store, outwitting her enemies, seeking revenge on her betrayers, and realizing her greatest dreams.

The Dragumon have been defeated but the planet Sendek will never be the same. In order to save their world, Talia and Landry Sutton had to wake the forgotten magic on Sendek. But instead of restoring peace, it creates chaos on the city streets, with those unable to work magic turning against those who can. When Talia and Landry travel to the planet Orek to discover how it combines magic and science, they find a new, anti-magical government. The Controllers have all the tech, weapons, and natural resources. On Orek, the magical outcasts beg Talia and Landry to help them rise up against their oppressors. The two must decide whether to help save Orek or return home and save their own planet. Talia and Landry are torn apart by the conflicting missions. Talia knows what Landry wants, but if she gives in, she could lose what she loves the most. Praise-- "Dragons, magic, and the unbreakable love of Landry and Talia makes the sequel to The Magic Wakes a true joy." CD Coffelt, author of The Magic Withheld series.

Forced into an arranged marriage with the Duke of Marchbourne, Lady Charlotte Wylder, after their passionate wedding night, is happy until her new husband pushes her away and past secrets mire their marriage in scandal.
