Reproduction of the original: Notes on My Books by Joseph Conrad

Everyone says I'm a bad girl. They're only partly right—I don't let fear rule me, and I certainly don't care what people think. But I draw the line at sleeping with the enemy. As the daughter of Briar's head hockey coach, I'd be vilified if I hooked up with a player from a rival team. And that's who Jake Connelly is. Harvard's star forward is arrogant, annoying, and too attractive for his own good. But fate is cruel—I require his help to secure a much-coveted internship, and the sexy jerk isn't making it easy for me. I need Connelly to be my fake boyfriend. For every fake date...he wants a real one. Which means this bad girl is in big trouble. Nothing good can come from sneaking around with Jake Connelly. My father would kill me, my friends will revolt, and my post-college career is on the line. But while it's getting harder and harder to resist Jake's oozing sex appeal and cocky grin, I refuse to fall for him. That's the one risk I'm not willing to take. the world around them leads the young parents to enroll in his program; a decision that will change their lives and the life of their daughter. Now Kailey finds herself part of a hidden resistance of like-fated former patients coping with a life of lies and the reality of being hunted and their only option; to fight back.

In his critically acclaimed bestseller *Shadow Divers*, Robert Kurson explored the depths of history, friendship, and compulsion. Now Kurson returns with another thrilling adventure—the stunning true story of one man’s heroic odyssey from blindness into sight. Mike May spent his life crashing through. Blinded at age three, he defied expectations by breaking world records in downhill speed skiing, joining the CIA, and becoming a successful inventor, entrepreneur, and family man. He had never yearned for vision. Then, in 1999, a chance encounter brought startling news: a revolutionary stem cell transplant surgery could restore May’s vision. It would allow him to drive, to read, to see his children’s faces. He began to contemplate an astonishing new world: Would music still sound the same? Would sex be different? Would he recognize himself in the mirror? Would his marriage survive? Would he still be Mike May? The procedure was filled with risks, some of them deadly, others beyond May’s wildest dreams. Even if the surgery worked, history was against him. Fewer than twenty cases were known worldwide in which a person gained vision after a lifetime of blindness. Each of those people suffered desperate consequences we can scarcely imagine. There were countless reasons for May to pass on vision. He could think of only a single reason to go forward. Whatever his decision, he knew it would change his life. Beautifully written and thrillingly told, *Crashing Through* is a journey of suspense, daring, romance, and insight into the mysteries of vision and the brain. Robert Kurson gives us a fascinating account of one man’s choice to explore what it means to see—and to truly live.

A New York Times bestseller from the author of *The Rules of Magic*: In 1980s America, a family copes with their daughter's terrifying diagnosis. In a lovely old house near the coast of Massachusetts, the Farrells go through the routines of a typical August morning. Eight-year-old Charlie, a junior biologist and dinosaur expert, tries to collect one of his insect specimens. His sister, Amanda, a talented gymnast who at eleven years old is already saving her money to try out for the Olympics, prepares for her last meet of the summer. Ivan, their absent-minded father, is involved with his work as an astronomer. Out in the garden, his wife, Polly, wonders how she can trick her children into eating more zucchini. They are a family as unique and ordinary as any other, but their world will soon be shattered when Amanda is diagnosed with the disease that has been making headlines lately: AIDS. The new and still-mysterious ailment scares them—and their friends and neighbors as well. In an instant, everything that gave their lives meaning is ripped away, and the intimacy that once came so naturally vanishes. Too overcome with grief to turn to each other, Ivan and Polly seek solace elsewhere. Charlie is abandoned by his best friend and, for long stretches at a time, forgotten by his parents. Amanda, who holds on to her dreams so tightly, must somehow find a way to let go. Torn apart by the prospect of their loss, Polly, Ivan, and Charlie must find the courage to come back together again—for Amanda's sake and for their own. *At Risk* is an exquisite book about true sorrow and even truer devotion.

At just twenty-two years of age, Briana Mills finds herself at a desperate crossroads. Once a promising student at the University of Oregon, she now finds herself alone on the streets of Portland with only the clothes on her back, memories of a happier time, and the stray dog that's

adopted her. And she's got the drug that helps her forget. Briana's mistakes haunt her, lashing her with severe consequence, forcing her to make a decision few would ever make. Still, in a final attempt to make her young life count for something, Briana begins writing it all down—everything—so that others walking the crumbling precipice of rebellion might leap to safety before it's too late. She writes about her present struggles and the past. She writes about Michael, the boy she loved and left behind when she went off to college. She writes about the violent activism and drug that derailed her life. She writes about the demands placed on her by a socially conscious mother, and the adoration shown by a proud father. And Briana talks about Brody—the young activist leader who captured her heart, took it to the altar, and then crushed it. What develops is an engrossing record of a young and troubled life, one both beautiful and ugly, innocent and corrupt, lost and then found. And wrapped in its literary sinew is a cast of characters as diverse and engaging as the stars, and an impassioned love story sure to transcend time. What readers are saying: "Timeless...provocative." "Characters so real you'd swear this was a true account." "A brilliant read!" Alone Among People is D. M. Anthony's first novel. He lives in California where he's at work on his next book. This review is from: Alone Among People (Paperback) A Compelling and Heart Warming Story, September 25, 2012 "Alone Among People is at once an engaging, moving story and a provocative statement about the thin line between thriving and sinking into an abyss as inescapable as quicksand. Its timeless and uplifting messages of hope conquering despair, healing borne of love and care, and peace at discovering one's identity are an inspiration. The author's empathy for the characters and their plight betrays knowledge of what he writes, and offers the reader a unique glimpse into a vulnerable and intimate place... his heart. I recommend this book to anyone who has traveled through the anguish of darkness and longed for the light; it may just guide your way."

Dr. Ronald E. Wheeler is unique in the medical world and the practice of Urology. Dr. Wheeler is one of the world's leading diagnostic and treating Prostate Cancer Specialists based upon a very sophisticated skill set. Dr. Wheeler diagnoses and treats only prostate disease in a full time clinical practice in Sarasota, Florida. Less than a handful of Urologists from around the world can make claim to specializing in prostate related issues only. Dr. Wheeler's clinical expertise in the diagnosis and treatment of prostate cancer has superseded the credentialing process. In fact, Dr. Wheeler intends to establish credentialing guidelines for physicians relevant to prostate specific diagnostic and treatment modalities. Dr. Wheeler is a world expert in High Intensity Focused Ultrasound (HIFU), having diagnosed and treated more patients for prostate cancer from more countries than any other treating doctor in the world. HIFU worldwide is a viable treatment option for prostate cancer, benign prostatic hyperplasia (BPH) and Uterine fibroids in women. Dr. Wheeler is arguable the world's most acclaimed Urologist in the application of prostate imaging through ultrasound and 3.0 Tesla Magnetic Resonance Imaging (with or without spectroscopy) while improving excellence in outcome data compared to doctors who rely on random ultrasound guided biopsies as a questionable standard care. The fact that 40-60% of men fail to be cured from prostate cancer by 7-10 years following radiation or radical prostatectomy (including the Da Vinci robot) speaks to the inability of ultrasound to identify cancer accurately and further supports the need for other Urologists to follow the path Dr. Wheeler has chosen. Beyond this, Dr. Wheeler is the Medical Director for a Tampa, Florida based company that has developed an oncolytic virus that expects to alter the landscape of some of the most unpredictable diseases men and woman face including prostate and breast cancer. Because of Dr. Wheeler's passion and expertise, patients seek his leadership in disease assessment from all over the world!

In 1986, 26-year old Ruth visits a friend at the hospital when she notices that the door to one of the hospital rooms is painted red. She witnesses nurses drawing straws to see who would tend to the patient inside, all of them reluctant to enter the room. Out of impulse, Ruth herself enters the quarantined space and immediately begins to care for the young man who cries for his mother in the last moments of his life. Before she can even process what she's done, word spreads in the community that Ruth is the only person willing to help these young men afflicted by AIDS, and is called upon to nurse them. As she forges deep friendships with the men she helps, she works tirelessly to find them housing and jobs, even searching for funeral homes willing to take their bodies – often in the middle of the night. She cooks meals for tens of people out of discarded food found in the dumpsters behind supermarkets, stores rare medications for her most urgent patients, teaches sex-ed to drag queens after hours at secret bars, and becomes a beacon of hope to an otherwise spurned group of ailing gay men on the fringes of a deeply conservative state.

Throughout the years, Ruth defies local pastors and nurses to help the men she cares for: Paul and Billy, Angel, Chip, Todd and Luke. Emboldened by the weight of their collective pain, she fervently advocates for their safety and visibility, ultimately advising Governor Bill Clinton on the national HIV-AIDS crisis. This deeply moving and elegiac memoir honors the extraordinary life of Ruth Coker Burks and the beloved men who fought valiantly for their lives with AIDS during a most hostile and misinformed time in America.

Jennifer Fenn's debut novel inspired by true events, about a teenage boy who has stolen—and crashed—not one, but three airplanes. And each time he's walked away unscathed. Who is Robert Jackson Kelly? Is he a juvenile delinquent? A criminal mastermind? A folk hero? One thing is clear: Robert always defies what people think of him. And now, the kid who failed at school, relationships, and almost everything in life, is determined to successfully steal and land a plane. Told as an investigation into Robert's psyche, the narrative includes multiple points of view as well as documentary elements like emails, official records, and interviews with people who knew Robert. A novel in verse describes how an alcohol-fueled prank gone wrong changes the lives of eight teenagers in a small Midwestern town. Clay McGavran was stuck in hell. Otherwise known as Denson, Virginia - a small town in the shadows of the Blue Ridge Mountains - a town shrouded in the pain and tragedy of the past. As partner at one of Richmond's most successful construction and design firms, building someone else's dream home was his job. But when their dream brought him to the town of his nightmares, he was thrust into a past he'd worked diligently to forget. The only respite to his misery came from an unexpected - and inconvenient - source. His new assistant, Alison. To Clay, Alison was the woman whose perpetual smile and hauntingly familiar eyes were a balm to his scraped and bruised psyche. She was the antithesis of the type of woman he usually took to his bed but he found himself wanting her more than any woman before her. And, as his employee, she was the one woman he couldn't have. His company, friendships, and reputation were at stake. He couldn't cross that line again. He'd been reckless in the past and it had nearly cost him his company - and his life. But it's not so easy to walk away when, in the fires of his personal hell, he may have stumbled headlong into his salvation. \*\*\*Due to coarse language and graphic sexual situations, this book is not intended for individuals under the age of 18.\*\*\*

Sometimes we gamble with the things we love the most. And sometimes we lose.

As the publishers say, these stories "make the Mendezes look like Ozzie and Harriet." A mother hires hit men to kill her husband's second wife to get back her child, a boy has sex with a naked woman in a painting, a serial killer keeps body parts for sexual stimulus.

From New York Times bestselling author K. Bromberg comes a new, sexy standalone about taking chances and finding love when it's least

expected. Or wanted. This whole contest was supposed to be easy. I know, I know. Famous last words. It's a long story, but I messed up at work. Big time. To earn back the trust of my boss, I promised to save one of our magazines. Yep. That Hot Dad contest you've seen advertised all over the place was my idea. And if I'm successful, if I'm able to increase our online readership, then I get a shot at my dream job. But the one thing I never expected to happen, happened: Contestant number ten, Grayson Malone. Hello, Mr. Difficult. And did I mention sexy as hell? Unfortunately he knows me. The old me, anyway. And while we might be older now, I remind him of before. Of the woman who broke his heart, who hardened him, and who left him alone to raise the cutest little boy I've ever seen. But I don't want a relationship. And I definitely don't fall for single dads with baggage. Even ones with chiseled abs and killer smiles. But he got to me. They got to me. He and his son and their messy, crazy life. But I got to him too. I see the stolen glances. I feel the walls he built start to crumble. I recognize that there's an unexpected beauty to the chaos in his life. And now that the contest is about to end, we're left to decide whether the last six months were just fun or if what we have is worth risking it all? Although the first AIDS cases were attributed to men having sex with men, over 70% of HIV infections worldwide are now estimated to occur through sex between women and men. In *Men at Risk*, Shari L. Dworkin argues that the centrality of heterosexual relationship dynamics to the transmission of HIV means that both women and men need to be taken into account in gender-specific HIV/AIDS prevention interventions. She looks at the "costs of masculinity" that shape men's HIV risks, such as their initiation of sex and their increased status from sex with multiple partners. Engaging with the common paradigm in HIV research that portrays only women—and not heterosexually active men—as being "vulnerable" to HIV, Dworkin examines the gaps in public health knowledge that result in substandard treatment for HIV transmission and infection among heterosexual men both domestically and globally. She examines a vast array of structural factors that shape men's HIV transmission risks and also focuses on a relatively new category of global health programs with men known as "gender-transformative" that seeks to move men in the direction of gender equality in the name of improved health. Dworkin makes suggestions for the next generation of gender-transformative health interventions by calling for masculinities-based and structurally driven HIV prevention programming. Thoroughly researched and theoretically grounded, *Men at Risk* presents a unique approach to HIV prevention at the intersection of sociological and public health research.

Treating men as a culturally distinct group, Rich Furman integrates key conceptions of masculinity into culturally sensitive social work practice with men. Focusing on veterans, displaced workers, substance abusers, mental health consumers, and other groups that might be unlikely to seek help, Furman deftly explores the psychosocial development of men, along with the globalization of men's lives, alternative conceptions of masculinity, and special dynamics within male relationships. Furman bolsters his conclusions with case studies and evidence-based interventions. His cutting-edge research merges four key social work theories and explores how they inform practice with mental health issues, compulsive disorders, addiction, and violence. By promoting gender equity and culturally competent practice with men, Furman bridges the gap between clinical and macro practice. *Social Work Practice with Men at Risk* is a crucial text for educators and practitioners hoping to pursue effective, far-reaching interventions.

Also includes a Bonus Novella – *Hooked On A Feeling* by Colleen Collins

Jonah, thirteen, and Katherine, eleven, travel through time to 1918 Russia just as Alexei, Anastasia, and the rest of Tsar Nicholas II's family is about to be executed.

A wonderfully funny, perceptive novel *The Risk Pool* is set in Mohawk, New York, where Ned Hall is doing his best to grow up, even though

neither of his estranged parents can properly be called adult. His father, Sam, cultivates bad habits so assiduously that he is stuck at the bottom of his auto insurance risk pool. His mother, Jenny, is slowly going crazy from resentment at a husband who refuses either to stay or to stay away. As Ned veers between allegiances to these grossly inadequate role models, Richard Russo gives us a book that overflows with outsized characters and outlandish predicaments and whose vision of family is at once irreverent and unexpectedly moving. In the traditions of Thornton Wilder and Anne Tyler, *The Risk Pool* was hailed by *The New York Times* as "...superbly original and maliciously funny. Russo proves himself a master at evoking the sights, feelings, and smells of a town."
