Exploring a realm of film often dismissed as campy or contrived, this book traces the history of classroom educational films from the silent era through the 1980s, when film finally began to lose ground to video-based and digital media. It profiles 35 individual academic filmmakers who played a role in bringing these roughly 100,000 16mm films to classrooms across North America, paying particular attention to auteur John Barnes and his largely neglected body of work. Other topics include the production companies contributing to the growth and development of the academic film genre; the complex history of post-Sputnik, federally-funded educational initiatives which influenced the growth of the academic film genre; and the denouement of the genre in classrooms and its resurgence on the Internet.

How to Design and Evaluate Research in Education 10e provides a comprehensive introduction to educational research. The text covers the most widely used research methodologies and discusses each step in the research process in detail. Step-by-step analysis of real research studies provides students with practical examples of how to prepare their work and read that of others. End-of-chapter problem sheets, comprehensive coverage of data analysis, and information on how to prepare research proposals and reports make it appropriate both for courses that focus on doing research and for those that stress how to read and understand research.

Course: Principles of Management is the introductory course taken by most undergraduate business majors. Almost every text/course is organized around the four functions of management: planning, leading, organizing, and controlling (PLOC). What makes the texts different are their approach to the subject (principles vs. OB focused) and their strengths of coverage (high/strategic vs. low level/applied/skills). The aim of this text is to show how the four functions interact.

International and Comparative Human Resource Management offers students a clear and contemporary introduction to issues in managing the human aspects of international organisations. International Human Resource Management (IHRM) has grown in significance as a field of study over the past decade, due to the internationalisation of business, freedom of movement of labour and capital, and international regulation of employment matters. This new book takes a fresh and distinctive approach, combining analysis of international HR policy and practice with detailed exposition of contexts and systems of HR in a selection of developed and developing countries.

Seize the competitive advantage with today's most powerful strategic tool—M&A “Given the influence of technology, globalization, and regulatory change, M&A will continue to shape our industries. For most companies, therefore, the consideration of M&A in strategy is now fundamental.” –from the Introduction to Part I *The Art of M&A Strategy* is exactly what you need to build mergers, acquisitions, and divestitures into your overall business strategy—to make M&A a competitive advantage and avoid landing on the long list of M&A failures. Experts in the field of M&A, Smith and Lajoux demystify this otherwise complex subject by taking you through the types of M&A strategy and the key steps to successful M&A strategy development and implementation. *The Art of M&A Strategy* is conveniently organized into three sections: Part I presents a range of possible corporate strategy situations and provides the role and rationale for M&A in each, such as building and managing a portfolio, participating in industry consolidation, spurring corporate growth, and using acquisitions to create “real options.” Part II outlines how to determine the role of M&A in your strategy—taking into consideration industry context, competitive imperatives, and strategy options—and explains how to find and screen partners, decide whether to buy or sell, and engage the board of directors in M&A decisions. Part III covers M&A as a sustained corporate program, particularly in the context of international growth, outlining the most strategic aspects of post-merger integration, describing how to use advisors throughout the process, and examining core competencies required for successful M&A programs. The authors illuminate the purpose and process of applying M&A with real-world success stories involving Cisco, GE, Google, and many other companies that have leveraged M&A for strategic success. Use *The Art of M&A Strategy* to create a powerful strategy position for success in today's changing business environment and to seize and hold competitive

Marketing Green Building Services: Strategies for Success presents all the information key decision-makers need to respond to the fast-growing market for green buildings, design and construction services and products. Completely updated, revised and expanded from the author's previous works, this book is the one resource you need to succeed in the green building marketplace. With a sound grounding in contemporary marketing theory and practice, the book assembles hard-to-find information to assist executives and partners in design and construction firms in crafting competitive strategies that build on their firm's strengths, while shoring up their weaknesses. Since most design and construction firms specialize in particular market sectors, the book systematically examines the important market segments for green buildings. It also presents key business case justifications for green buildings that help architects, engineers and builders to understand client motivations and respond to them with appropriate marketing tactics and communications strategies. The book examines how the green building market is adopting certain new products and design approaches, information that will help manufacturers and product sales teams to craft appropriate marketing strategies. The book also helps owners and developers understand the green building business case and to find out what other leading-edge firms and projects have learned - how to market and sell green buildings and green developments in a highly competitive marketplace.
