

The Millionaire Maker

A near-death boating accident forced 31-year-old James Nowlin to take a long hard look in the mirror. As a result of what he calls his "awakening," this already self-made millionaire and respected CEO reshaped his perspective and reprioritized his life. In *The Purposeful Millionaire*, James shares the four-part formula he used to transform his life into one of abundance and purposefulness. He believes that if he can survive the literal waters from which he was pulled, you too can survive--and thrive--in life's roughest waters. In this book, you'll learn how to:

- Shift thoughts of self-doubt and fear into ones of certainty
- Attract abundant personal and business relationships
- Use discipline and routine as the foundation of success
- Adopt an attitude of humility, kindness, and gratitude
- Arm yourself with the self-made-millionaire mindset

The Purposeful Millionaire will take you on a journey of self-mastery, guiding you to unlock your greater purpose; to achieve your highest success; and to live an epic, powerful, and abundant life. Your life is in your control!

Secrets of the Millionaire Mind reveals the missing link between wanting success and achieving it! Have you ever wondered why some people seem to get rich easily, while others are destined for a life of financial struggle? Is the difference found in their education, intelligence, skills, timing, work habits, contacts, luck, or their choice of jobs, businesses, or investments? The shocking answer is: None of the above! In his groundbreaking *Secrets of the Millionaire Mind*, T. Harv Eker states: "Give me five minutes, and I can predict your financial future for the rest of your life!" Eker does this by identifying your "money and success blueprint." We all have a personal money blueprint ingrained in our subconscious minds, and it is this blueprint, more than anything, that will determine our financial lives. You can know everything about marketing, sales, negotiations, stocks, real estate, and the world of finance, but if your money blueprint is not set for a high level of success, you will never have a lot of money—and if somehow you do, you will most likely lose it! The good news is that now you can actually reset your money blueprint to create natural and automatic success. *Secrets of the Millionaire Mind* is two books in one. Part I explains how your money blueprint works. Through Eker's rare combination of street smarts, humor, and heart, you will learn how your childhood influences have shaped your financial destiny. You will also learn how to identify your own money blueprint and "revise" it to not only create success but, more important, to keep and continually grow it. In Part II you will be introduced to seventeen "Wealth Files," which describe exactly how rich people think and act differently than most poor and middle-class people. Each Wealth File includes action steps for you to practice in the real world in order to dramatically increase your income and accumulate wealth. If you are not doing as well financially as you would like, you will have to change your money blueprint. Unfortunately your current money blueprint will tend to stay with you for the rest of your life, unless you identify and revise it, and that's exactly what you will do with the help of this extraordinary book. According to T. Harv Eker, it's simple. If you think like rich people think and do what rich people do, chances are you'll get rich too!

On the death of France's most glorious king, Louis XIV, in 1715, few people benefited from the shift in power more than the intriguing financial genius from Edinburgh, John Law. Already notorious for killing a man in a duel and for acquiring a huge fortune from gambling, Law had proposed to the English monarch that a bank be established to issue paper money with the credit based on the value of land. But Queen Anne was not about to take advice from a gambler and felon. So, in exile in Paris, he convinced the bankrupt court of Louis XV of the value of his idea. Law soon engineered the revival of the French economy and found himself one of the most powerful men in Europe. In August 1717, he founded the Mississippi Company, and the Court granted him the right to trade in France's vast territory in America. The shareholders in his new trading company made such enormous profits that the term "millionaire" was coined to describe them. Paris was soon in a frenzy of speculation, conspiracies, and insatiable consumption. Before this first boom-and-bust cycle was complete, markets throughout Europe crashed, the mob began calling for Law's head, and his visionary ideas about what money could do were abandoned and forgotten. In Millionaire, Janet Gleeson lucidly reconstructs this epic drama where fortunes were made and lost, paupers grew rich, and lords fell into penury -- and a modern fiscal philosophy was born. Her enthralling tragicomic tale reveals two great characters: John Law, with his complex personality and inscrutable motives, and money itself, whose true nature even to this day remains elusive.

We are all using dangerous, outdated, old economic strategies to protect and grow our money in the so-called 'new economy.' Most of us don't even know it. Every economy is, in some sense, 'new.' However, applying the rules from an 'older' economy to a 'newer' one during times of transition is a recipe for financial ruin. Economic transitions have been around for centuries . . . the difference is that now they are worldwide in scope and affect everything rather than local in nature with limited affects. While you

sleep at night, while you go to work each day, something insidious is actually stealing your financial future. It isn't anyone's fault really. There is a massive reallocation of wealth as we transition into the new economy. There are two sides to this story. Because of the changing rules of money, the greatest transfer of wealth in the nation and the world is now unfolding. Money is about to flow away from the financially uninformed and flow towards the financially well-informed in the years ahead. This is nothing new, really. Money has always worked this way. The good news is that average members of the public now have more ways than ever before to understand this process and to take appropriate action. I am sure you are aware of the rising price of gold that's been going on for almost 10 years now. Most recently, gold started climbing with even greater speed. History repeats itself again and again. Whenever governments start to dilute their money investors transfer their money into gold. Gold has intrinsic value and will always prevail in any economy. What most non-investors and investors -- including yourself -- probably you don't realize is that although gold is a great way to preserve your wealth, it's silver that could actually make you rich! The price of gold has already risen dramatically, but silver is just beginning its climb. Nine Reasons Why Silver is a Unique Wealth Building Instrument - Silver, like gold, has intrinsic value- Silver has been in a commodity bull cycle since 2000- Silver is a safe hedge against currency inflation- Silver is a security choice during times of financial crisis- Silver is rarer than gold- Silver is used in 90% of all electronics -- and its mostly non-renewable- Silver inventories are very low- Silver leasing -- the scam will be exposed soon- Silver investment markets are expanding thanks to the Chinese What You Will Learn From Building Wealth with Silver You will discover why the Federal Reserve was created and why you and I have been kept in the dark about its true purpose. You will find out why the U.S. dollar is quietly being destroyed without fanfare and the reason this process is being publically denied and covered up. You will see why unemployment numbers, along with many other economic figures, are rigged, and how we're being lied to about their true significance. The insights you get from the first few chapters alone can change your life. Even if you were to study at Harvard for five years -- which would cost you, by the way, over \$95,000 -- you would not have the knowledge you need to get any closer to this kind of insider information. Learn why silver is the best investment opportunity right now. Get the facts on silver production and consumption, and all the details behind silver's projected five- to eight-fold increase over the next several months.

How would you spend five million dollars in 30 days? A billionaire's wallet, a bizarre challenge, and an unlikely friendship send two kids on a wild adventure. From the author of *The Miscalculations of Lightning Girl*. Felix Rannells and Benji Porter were never supposed to be field-trip partners. Felix is a rule follower. Benji is a rule bender. They're not friends. And they don't have anything to talk about. Until . . . They find a wallet. A wallet that belongs to tech billionaire Laura Friendly. They're totally going to return it--but not before Benji "borrows" twenty dollars to buy hot dogs. Because twenty dollars is like a penny to a billionaire, right? But a penny has value. A penny doubled every day for thirty days is \$5,368,709.12! So that's exactly how much money Laura Friendly challenges Felix and Benji to spend. They have thirty days. They can't tell anyone. And there are LOTS of other rules. But if they succeed, they each get ten million dollars to spend however they want. Challenge accepted! They rent cool cars, go to Disney World, buy pizza for the whole school--and that's just the beginning! But money can't buy everything or fix every problem. And spending it isn't always as easy and fun as they thought it would be. . . . As smart as it is entertaining, *Millionaires for the Month* is a thought-provoking story about friendship, privilege, and the value of a penny.

J. Earl Shoaff, Jim Rohn's personal mentor, gives the presentation that changed Jim's life! Anyone who ever heard Jim Rohn speak, knows the impact that Earl Shoaff had on his life. Here is a transcription of the recording of the presentation by Earl Shoaff that changed Jim's life and provides the secrets to his success. By the time Jim Rohn reached the age of 25, he was married, had a family and worked as a stock clerk at Sears earning \$57 a week take home pay. Finding himself falling behind on his bills, and with nothing in the bank to fall back on, he knew he wanted more out of life but had no idea on how to make it happen. Then something happened to him that changed his life forever and gave him the answers he was looking for. The same good fortune that happened to Jim all those years ago is about to happen to you! One of Jim's friends told him about a man he had gone to work for. This man was very rich and wise. He had an incredible philosophy about life and he was easy to talk to. His friend talked about this man so much that Jim's curiosity got the better of him and he went to hear what this man had to say. Jim walked into the room and took a seat. He really didn't know what to expect, but he kept an open mind and listened intently as the speaker opened his eyes to a world he never knew existed. A world where you could truly be anything you wanted to be and you could have anything you wanted to have! Jim said of the experience, "To this day, I can't tell you exactly what he said, I just knew that I would have given anything to be like him." Then, standing at the back of the room, he got an idea. He thought that, somehow, if he could just get around this man, maybe he could learn the secrets of wealth and happiness.
