The fifth book of the New Testament has been known from ancient times as The Acts of the Apostles; but this title cannot be found in the book itself. One of the earliest manuscripts, the Codex Sinaiticus, gives as the title the simple word Acts, with no mention of the apostles. There is a reason for this. Acts was intended to be more than a brief history of the service rendered by the twelve disciples, much more than the principal events in the lifework of its four leading characters, Peter, James, John, and Paul. The Acts of the Apostles was one of the last books written by Ellen G. White. It was published a few years before her death. It is one of the most illuminating volumes that came from her prolific pen. The average reader will find in it light for Christian witnessing. The message of the book is up to date, and its relevancy is reflected in the effort of the author to show that the twentieth century will witness a bestowal of spiritual power exceeding that of Pentecost. The work of the gospel is not to close with a lesser display of the Holy Spirit's power than marked its beginning. The body can self heal by its very design, and you can design a program that will enable the body to do the very thing it was made to do--heal itself.

The story of Israel's triumphs, defeats, backslidings, captivity, and reformation abounds in great.

For the first 300 years of Christian history, healing prayer was fundamental in the life of the church. The mystery of how healing prayer slid into near-insignificance is described by MacNutt in this fascinating history, which includes his own personal journey.

Illness comes in many forms and too often we're told to ignore it, hide it, or simply run away from it. With decades of service in the healing ministry as both a teacher and one called upon to pray for healing, Father Richard McAlear has a different approach that recognizes - even embraces - the complex nature of illness. A cluster of emotions anger, anxiety, fear, hate, negative self-image, resentment, and self-pity affect our health. Therefore, a healing ministry must be handled in such a way that emotions and psychological factors are addressed with care and sensitivity. It must also embrace the vast beauty and power and depth of our Catholic Faith, keeping it: Christ-centered deeply rooted in the person and ministry of the Lord Jesus Christ. Scriptural utilizing the insights offered by Scripture to delve into the Holy Spirit's role in the work of healing. Holistic exploring the interplay and connections between the mental, spiritual, and physical dimensions relating to healing and health. Explore the healing power of faith as it mends your whole self -- mind, body, and spirit -- regardless of your pain, background, or personal baggage. The Power of Healing Prayer is also an effective guide for those you minister to.

Peter Horrobin draws on his extensive experience to set out a thorough, comprehensive and scriptural foundation for the healing and deliverance ministry—an integral part of fulfilling the Great Commission and a vital key to discipleship.

The true physician is an educator. He recognizes his responsibility, not only to the sick who are under his direct care, but also to the community in which he lives. He stands as a guardian of both physical and moral health. It is his endeavor not only to teach right methods for the treatment of the sick, but to encourage right habits of living, and to spread a knowledge of right principles. Need of Education in Health Principles Education in health principles was never more needed than now. Notwithstanding the wonderful progress in so many lines relating to the comforts and conveniences of life, even to sanitary matters and to the treatment of disease, the decline in physical vigor and power of endurance is alarming. It demands the attention of all who have at heart the well-being of their fellow men. Our artificial civilization is encouraging evils destructive of sound principles. Custom and fashion are at war with nature. The practices they enjoin, and the indulgences they foster, are steadily lessening both physical and mental strength, and bringing upon the race an intolerable burden. Intemperance and crime, disease and wretchedness, are everywhere.

Largely of historical interest, Ellen G. White's 1864 book on health care reform deals with the perceived problems of masturbation among the young. Terming it a "solitary vice" and "self abuse," she addresses her concerns—and her solutions—directly to mothers, advocating religion, awareness, and work. Though hardly politically correct today, with modern knowledge and insight, her views and solutions are far less extreme than most other health care professionals' of the age.

In this eloquent account of her current struggle with physical pain, Joni Eareckson Tada offers her perspective on divine healing, God's purposes, and what it means to live with joy. Over four decades ago, a diving accident left Joni a quadriplegic. Today, she faces a new battle: unrelenting pain. The ongoing urgency of this season in her life has caused Joni to return to foundational questions about suffering and God's will. *A Place of Healing* is not an ivory-tower treatise on suffering. It's an intimate look into the life of a mature woman of God. Whether readers are enduring physical pain, financial loss, or relational grief, Joni invites them to process their suffering with her. Together, they will navigate the distance between God's magnificent yes and heartbreaking no—and find new hope for thriving in-between.

Before the entrance of sin, Adam enjoyed open communion with his Maker; but since man separated himself from God by transgression, the human race has been cut off from this high privilege. By the plan of redemption, however, a way has been opened whereby the inhabitants of the earth may still have connection with heaven. God has communicated with men by His Spirit, and divine light has been imparted to the world by revelations to His chosen servants. "Holy men of God spake as they were moved by the Holy Ghost." 2 Peter 1:21. During the first twenty-five hundred years of human history, there was no written revelation. Those who had been taught of God, communicated their knowledge to others, and it was handed down from father to son, through successive generations. The preparation of the written word began in the time of Moses. Inspired revelations were then embodied in an inspired book. This work continued during the long period of sixteen hundred years,—from Moses, the historian of creation and the law, to John, the recorder of the most sublime truths of the gospel. The Bible points to God as its author; yet it was written by human hands; and in the varied style of its different books it presents the characteristics of the several writers. The truths revealed are all "given by inspiration of God" (2 Tim. 3:16); yet they are expressed in the words of men. The Infinite One by His Holy Spirit has shed light into the minds and hearts of His servants. He has given dreams and visions, symbols and figures; and those to whom the truth was thus revealed, have themselves embodied the thought in human language. The ten commandments were spoken by God Himself, and were written by His own hand. They are of divine, and not of human composition. But the Bible, with its God-given truths expressed in the language of men, presents a union of the divine and the human. Such a union existed in the nature of Christ, who was the Son of God and the Son of man. Thus it is true of the Bible, as it was of Christ, that "the Word was made flesh, and dwelt among us." John 1:14. Written in different ages, by men who differed widely in rank and occupation, and in mental and spiritual endowments, the books of the Bible present a wide contrast in style, as well as a diversity in the nature of the subjects unfolded. Different forms of expression are employed by different writers; often the same truth is more strikingly presented by one than by another. And as several writers present a subject under varied aspects and relations, there may appear, to the superficial, careless, or prejudiced reader, to be discrepancy or contradiction, where the thoughtful, reverent student, with clearer insight, discerns the underlying harmony. As presented through different individuals, the truth is brought out in its varied aspects. One writer is more strongly impressed with one phase of the subject; he grasps those points that harmonize with his experience or with his power of perception and appreciation; another seizes upon a different phase; and each, under the guidance of the Holy Spirit, presents what is most forcibly impressed upon his own mind—a different aspect of the truth in each, but a perfect harmony through all. And the truths thus revealed unite to form a perfect whole, adapted to meet the wants of men in all the circumstances and experiences of life. God has been pleased to communicate His truth to the world by human agencies, and He Himself, by His Holy Spirit, qualified men and enabled them to do this work. He guided the mind in the selection of what to speak and what to write. The treasure was intrusted to earthen vessels, yet it is, none the less, from Heaven. The testimony is conveyed through the imperfect expression of human language, yet it is the testimony of God; and the obedient, believing child of God beholds in it the glory of a divine power, full of grace and truth.

A respected biblical scholar offers a close reading of fifteen key biblical texts on healing, considering their significance for the church's ministry today.

In the Lord's recovery during the past five hundred years the church's knowledge of the Lord and His truth has been continually progressing. This monumental and classical work by Brother Witness Lee builds upon and is a further development of all that the Lord has revealed to His church in the past centuries. It is filled with the revelation concerning the processed Triune God, the living Christ, the life-giving Spirit, the experience of life, and the definition and practice of the church. In this set Brother Lee has kept three basic principles that should rule and govern every believer in their interpretation, development, and expounding of the truths contained in the Scriptures. The first principle is that of the Triune God dispensing Himself into His chosen and redeemed people; the second principle is that we should interpret, develop, and expound the truths contained in the Bible with Christ for the church; and the third governing principle is Christ, the Spirit, life, and the church. No other study or exposition of the New Testament conveys the life nourishment or ushers the reader into the divine revelation of God's holy Word according to His New Testament economy as this one does.

This monograph presents the most comprehensive investigation yet made into the healing activity of the Early Church. In contrast to early skeptics like B. B. Warfield, the author is convinced there was a vigorous healing ministry in the centuries that followed the apostles, though it fluctuated somewhat and changed its mode. Exorcism is prominently attested throughout the period. The pre-Nicene Fathers recognized its great apologetic value as a dramatic demonstration of the superiority of Jesus Christ over pagan gods. Interest in healing miracles per se appears to have been particularly characteristic of the less educated members of the Church and those who were chaste in their devotion to the cause of Christ. Amongst these groups gifts of healing were found, becoming rare it seems by the mid-third century, but well attested again later in monastic circles. In the pre-Nicene period anointing with oil (in the name of Christ) was clearly an avenue of healing and, though mentioned comparatively rarely, may have been widespread as part of the regular ministry of local clergy to the sick. Baptismal healing, physical as well as spiritual, also took place. In the post-Nicene Church the shrines of the martyrs became a prominent locus of healing. Devotion to this cult may have been encouraged by Church Fathers as an acceptable alternative to magical practices. But evidence suggests syncretism did occur and martyr's relics could be invested with quasi-magical awe. Most Fathers were positive about the medical profession, seeing it as an avenue of God's work, and in the late fourth century one pioneered the hospital which then spread throughout the eastern Mediterranean. In an appendix to his work, the author sets down nine pointers from the healing activity of the Early Church, and his own experience, to assist those engaged in the healing ministry today.

It's almost undeniable that God is working miracles of healing in evangelization today. For theologians, pastors, and evangelists some questions arise: What is the relationship between physical healing and the message of salvation? Should the church really expect God to do healings in evangelization today? Father Thelen answers these questions by examining the relationship between the preaching of the gospel and physical healing in the New Testament. The gospel of Jesus Christ is not simply a message of fact; it is a message of power that is often expressed through the working of deeds that serve as signs of the reality preached: salvation. As signs of the kingdom, healings that accompany the preaching of the gospel play an indispensable role in bringing people to faith throughout the New Testament. The result of this biblical study is a clarion call for the church to renew its faith in God's desire and power to confirm his word through healing. As healing becomes more accepted and frequent in evangelization, a Catholic biblical and theological approach to healing as it relates to evangelization—an approach that can be different from its Protestant counterpart—is necessary. This modest book fits this need.

They wanted to be used of God the same way and knew that Jesus' prayer life was the key to having such a mighty ministry of signs, wonders, power, healings and miracles. They asked Jesus "Master, teach us how to pray" and

Healthful Living was originally published by the Medical Missionary Board, Battle Creek, Michigan, under the title Instruction Relating to the Principles of Healthful Living. So popular when it first came out that it became necessary to come out with a second and then a third edition the first year. We have reproduced this 1898 third edition which also contained two additional chapters, God in Nature and The Spirit Filled Life. In the third edition an appendix of parallel Scripture references was included. This Scripture referenced appendix will be found exceedingly helpful in making clear to the mind of the reader the fact that the principles presented in this work are not mere human inventions; but are a part of the divine order appointed for the human family at the beginning, and which is to be restored when all things are made new. Wherever it has been received, this book has been recognized as a veritable storehouse of seed thoughts relating to the great practical themes with which it deals.

The Bible teaches us', Russ Parker writes, 'that blessing is a unique ministry resource gifted to believers to effect the purposes of God in peoples' lives.' In this enthralling book, the author tells of situations of family estrangement, depression and chronic illness; of times of hopelessness and helplessness where miraculous transformation has been wrought through calling on God to bless someone with the richest blessing they are able to receive. As he has travelled the country teaching on the ministry of blessing, Russ has seen an enthusiastic response and uptake, especially amongst those involved in prayer ministry. He believes it is time for all who want to be part of God's renewal - both in church and through reaching out to the wider community - to consider how we might help others to flourish as the people God has called them to be. 'Russ Parker's ground breaking work on healing community history will be so helpful to churches. It has greatly helped me.' The Rt Revd Graeme Dow, former Bishop of Carlisle

'Prayer for healing is so central to the gospel,' writes MacNutt, 'that it should be an integral part of the life of every community of believers. This is the second book in a series on the life of a Seer and the gracious gift of God's pictorial language to His bride, the Church. In this volume we explore the Seer and Healing - How visions and dreams operate in the ministry of healing. It's a timely work. We live in exciting times! Everywhere you turn God is pouring out the Spirit of prophecy and revelation upon his people, often through the language of dreams and visions. Dreams and visions are one of many methods God uses in communication to His children while they do the works of the kingdom and pray for the sick. This series is for the everyday Christian, the average Joe, the layperson, people like you and me. I have written this book to release the folks that are sitting quietly in the back of the church and are not sure of how they fit in or what they can do to contribute to the Kingdom of God. With this series, I want to stir their hearts to go deeper, and pursue the ministry of healing. The Lord does speak to His people. He speaks to them through His Word. He speaks to them with that small still voice. He speaks to them through circumstance, and He speaks through the language of visions and dreams. This series will help you listen and see in a new way as you operate to fulfill God's will in your life. You will learn to understand how visions and dreams operate through gifting... wither it's a word of

knowledge, prophecy, healing, or discerning of spirits. I pray this series will meet my intended goal. The Seer Series includes the following books: The Seer's Gift - a look at the Language of Visions and Dreams. The Seer & Healing (this volume) - How visions and dreams operate in the ministry of healing. The Seer & Prophecy - The Gift and Office of the Seer Prophet. Pectoral Language of a Seer - a reference work on similes, metaphors, and symbolism commonly seen in the life of the believer.

Classic Christian author A. J. Gordon expresses curiosity about whether the healing miracles from the Middle Ages up to his day can be verified as a continuation of Christ's Spirit in the church. Through deep study and inquiry of the established history, Gordon concludes that the power to heal followers remains with the church—there was no special era of miracle working. God and His powers remain the same in the modern era as they have right through human history. For Gordon, God's intervention in the suffering and sickness of His followers is frequent; the will of the Lord however is variable—but He will not prolong the pain of someone whose illness is too great. Throughout this text, A. J. Gordon makes his argument from a biblical perspective, citing passages in both the Old and New Testament that support the continuation of spiritual gifts. Quoting testimonies of believers across the ages, he offers a convincing argument that the church ministry is, to this day, one of healing.
