

The Obama Nation Jerome R Corsi

Veterans who served with John Kerry discuss the times spent with him in Vietnam and the reasons they believe he is unfit to lead the country. The new Israeli government headed by Prime Minister Benjamin Netanyahu has repeatedly declared that a primary foreign policy objective is to prevent Iran from obtaining nuclear weapons capability. Israel is a "one-bomb state," such that one atomic weapon, even a relatively low-yield bomb of the type the United States dropped on Hiroshima or Nagasaki in World War II, would destroy the modern Jewish state as we know it today. The Obama administration has repeatedly declared the intention of following up on the campaign promise to negotiate directly with Iran. This represents a fundamental policy shift from the Bush administration's efforts to apply international sanctions through the United Nations in an effort to force Iran to quit enriching uranium. Consistently, Iran has insisted upon the nation's right as a signatory to the Non-Proliferation Treaty to pursue the "full fuel cycle," code words for Iran's determination to advance uranium enrichment technology in Iran under Iranian control. In recent months, top Iranian government and military figures have issued warnings that the time is getting short, such that Iran might well have the capability to develop and deliver at least one nuclear weapon by the end of 2009 or the beginning of 2010. At the same time, the international community has expressed doubt that the Iranian government will make any serious concessions on their atomic program. In press conferences and speeches, President Obama has openly acknowledged the U.S. government now believes Iran is pursuing a nuclear weapons program. At the end of the Bush administration, the international press credibly reported that the Olmert government in Israel was denied fly-over rights in Iran in order to launch a military strike on Iran. Known as the "Sampson Option," an Israeli first-strike on Iran's nuclear facilities becomes increasingly likely to the extent Israel feels isolated from the world community and concludes there is no chance the Obama administration will ever be able to induce Iran to stop enriching uranium, regardless how seriously the president intends to push direct negotiations as a strategy. We have already seen two wars launched by Israel against terrorist surrogates financed and supported by Iran: the 2006 war against Hezbollah in Lebanon and the 2008 war against Hamas in the Gaza Strip. Now, a war between Israel and Iran is on the near horizon, possibly fated to occur before the end of 2009.

In 2009, three US professors with access to Adolf Hitler's alleged remains startled the world with scientific DNA proof that the skull and bones that Russia had claimed since the end of World War II were Hitler's actually belonged to a middle-aged woman whose identity remains unknown. This announcement has rekindled interest in the claim made by Joseph Stalin, maintained to the end of his life, that Hitler got away. The truth is that no one saw Hitler and Eva Braun die in the bunker in Berlin on April 30, 1945. No photographs were taken to document claims Hitler and Eva Braun committed suicide. Hitler's body was never recovered. No definitive physical evidence exists proving Hitler died in the bunker in Berlin. Dr. Jerome Corsi explores the historical possibility that Hitler escaped Nazi Germany at the end of World War II. FBI and CIA records maintained at the National Archives indicate that the US government took seriously reports at the end of World War II that Hitler had escaped to Argentina. More recent evidence suggests Hitler may have fled to Indonesia, where he married and worked at a hospital in Sumbawa. Even the chief of the US trial counsel at Nuremberg, Thomas J. Dodd, was quoted as saying, "No one for sure can say Adolf Hitler is dead." Putting massive amounts of evidence and research under a critical eye, Dr. Corsi shows that perhaps modern history's most tantalizing question has yet to be definitively answered: Did Hitler escape Nazi Germany at the end of World War II to plot revenge and to plan the rise of the Fourth Reich? Skyhorse Publishing, as well as our Arcade imprint, are proud to publish a broad range of

books for readers interested in history--books about World War II, the Third Reich, Hitler and his henchmen, the JFK assassination, conspiracies, the American Civil War, the American Revolution, gladiators, Vikings, ancient Rome, medieval times, the old West, and much more. While not every title we publish becomes a New York Times bestseller or a national bestseller, we are committed to books on subjects that are sometimes overlooked and to authors whose work might not otherwise find a home.

"If we do not fight this battle now, the United States of America will most certainly descend into a form of paganism not seen since the darkest days of antiquity." —Jerome Corsi Liberty in America has always depended upon one thing: a citizenry who believes in God. Our founding fathers understood that without faith in God, rights and morality could not last. Without religion, true freedom cannot long endure. So for those who seek to take those rights away, transferring the gifts given by God to the individual back to the control of a secularist state, belief in God is the first tie to be severed. Since the 1920s, a battle has waged across America between radical leftists of the ACLU and those who would keep America true to its inception as "one nation, under God." Bad Samaritans is best-selling author Jerome Corsi's explosive look into the history of ACLU and its radical agenda to separate America from its religious roots and remake our nation in its own atheistic image. Told in a straightforward, no-nonsense style, Corsi lays out the history of this struggle, its communist roots, and the court cases that are serving to slowly erode the foundations of our freedom. Today we see the fruits of the ACLU's master plan—a culture flooded with pornography, placing little worth on the value of a human life, and one in which protection and special treatment seem to exist for everyone except those of a Judeo-Christian background. Bad Samaritans looks behind the headlines and shows the ACLU's fingerprints as it works to destroy freedom and enslave our constitutional republic to the demands of a Marxist state. It's time to fight back.

As seen on Tucker Carlson Tonight, Hannity, and CNN! In *Silent No More: How I Became a Political Prisoner of Mueller's "Witch Hunt"*, New York Times bestselling author of *Killing the Deep State* Jerome R. Corsi, Ph.D. meticulously details the psychological torment he was subjected to in what the media has simply called, "The Mueller Investigation." In late 2018, in an FBI closed conference room with no windows, Dr. Corsi was confronted for hours upon hours at a time by detailed questioning about events that occurred in 2016. Dr. Corsi's inquisition was worthy of the Gestapo or KGB, designed to break even the most cooperating witness. Over a period of two months, three of Mueller's top prosecutors and an army of FBI agents—up to nine government officials at a time—questioned Dr. Corsi with his attorney, David Gray. Throughout this harrowing ordeal, Dr. Corsi handed over his personal computers, his cell phone, all of his email accounts, his Twitter account, and his Google account. Finding no "smoking gun," Mueller's prosecutors blew up the meetings. Dr. Corsi refused to lie to the prosecutors to give them the ammunition they needed to prosecute Roger Stone, and as a result he was told he would be charged with a criminal offense for lying to the FBI and the Special Prosecutor. At seventy-two years of age, Dr. Corsi was subjected to extreme mental anguish, imagining that he may never see his family again as a free man. Rather than conducting an honest investigation, Mueller's Special Prosecutors reinforced a prefabricated narrative aiming to charge President Trump with Treason. *Silent No More: How I Became a Political Prisoner of Mueller's "Witch Hunt"* exposes the inner workings of this governmental escapade, and clearly states why Mueller has no case against the President. Dr. Corsi creates a compelling case indicating that the entire matter is an investigation in search of a crime—to force lying testimony from witnesses if that's what it takes to achieve Deep State political objectives.

"This book is a message from autistic people to their parents, friends, teachers, coworkers and doctors showing what life is like on the spectrum. It's also my love letter to autistic people. For too long, we have been forced to navigate a world where all the road signs are written in another language." With a reporter's eye and an insider's perspective, Eric Garcia shows what it's like to be autistic across America. Garcia

began writing about autism because he was frustrated by the media's coverage of it; the myths that the disorder is caused by vaccines, the narrow portrayals of autistic people as white men working in Silicon Valley. His own life as an autistic person didn't look anything like that. He is Latino, a graduate of the University of North Carolina, and works as a journalist covering politics in Washington D.C. Garcia realized he needed to put into writing what so many autistic people have been saying for years; autism is a part of their identity, they don't need to be fixed. In *We're Not Broken*, Garcia uses his own life as a springboard to discuss the social and policy gaps that exist in supporting those on the spectrum. From education to healthcare, he explores how autistic people wrestle with systems that were not built with them in mind. At the same time, he shares the experiences of all types of autistic people, from those with higher support needs, to autistic people of color, to those in the LGBTQ community. In doing so, Garcia gives his community a platform to articulate their own needs, rather than having others speak for them, which has been the standard for far too long.

The truth behind how well-funded hard-left extremists, the mainstream media, and Obama/Clinton holdovers in the government bureaucracy have combined with clandestine forces within the US intelligence apparatus – the “Deep State” -- to block and undermine Trump's every move. At 2:45 a.m. ET on Nov. 8, 2016, television networks announced to a stunned nation that Pennsylvania's 20 electoral had gone for Donald Trump, making him the president-elect of the United States, defying all odds in a surreal victory that sent the Deep State into an immediate sense of panic. By dawn on Nov. 9, 2016, the Deep State forces that expected Hillary Clinton to continue the leftist politics of Barack Obama were already planning Donald Trump's demise. What emerged from the hard left was a political strategy calculated to block Donald Trump from being inaugurated, and if that failed, to make sure Donald Trump would not long serve out his term as 45th President of the United States. Investigative journalist and conspiracy expert Jerome Corsi goes into shocking detail about how this Deep State or Shadow Government secretly wields power in Washington, and why the Deep State is dangerous – capable of assassinating Trump, if efforts to impeach him or to force him to resign fail. Corsi will also define a three-point strategy Trump -- as a political independent, opposed both by Democratic Party enemies and GOP establishment -- must employ to stay in office and have a chance of a successful first term in office. The must-read summary of Jerome R. Corsi's book: “The Obama Nation: Leftist Politics and the Cult of Personality”. This complete summary of "The Obama Nation" by Jerome R. Corsi, a prominent American author and conspiracy theorist, presents his analysis that Obama's presidency would be a repeat of the Democrats' failed extremist and leftist policies. He also states his belief that Obama's supporters are following a cult of personality instead of substance. Added-value of this summary: • Save time • Understand Obama's career, influences and politics • Expand your knowledge of American politics and history To learn more, read "The Obama Nation" and discover the motivation behind the career of one of America's most left-wing presidents.

It is estimated that Americans consume more than 25 percent of the world's oil but have control over less than 3 percent of its proven supply. This extremely unbalanced pattern of consumption makes it possible for foreign governments, corrupt political leaders, terrorist organizations, and oil conglomerates to place the citizens of the United States in a stranglehold of supply and demand. There is no greater proof of this than the direct relationship between skyrocketing gas prices and the exploding wealth of those who control the supply of oil. In *Black Gold Stranglehold*, Jerome R. Corsi and Craig R. Smith expose the fraudulent science that has been sold to the American people in order to enslave them: the belief that oil is a fossil fuel and a finite resource. On the contrary, this book presents authoritative research, currently known mostly in the scientific community, that oil is not a product of decaying dinosaurs and prehistoric forests. Rather, it is a natural product of the earth. The scientific evidence cited by Corsi and Smith suggests that oil is constantly being produced by the earth, far below the

planet's surface, and that it is brought to attainable depths by the centrifugal forces of the earth's rotation. In great detail Corsi and Smith explore the international and domestic politics of oil production and consumption. This includes the wealth and power of major oil conglomerates, the manipulation of world economies by oil-producing states and rogue terrorist regimes, and the political agenda of radical environmentalists and conservationists who obstruct the use of oil reserves currently controlled by the U.S. government. The authors offer an understanding of the dangerous situation America faces because its currency is no longer tied to any precious and truly scarce metals such as gold, as it was until 1973. This situation could easily lead to the devastation of the U.S. economy if Middle Eastern countries are able to enact current plans to accept only the Euro or gold-backed currencies such as the Gold Dinar instead of the U.S. dollar as the standard currency for oil. *Black Gold Stranglehold* will dramatically change the debate about oil. The significance of its message is sure to cause thoughtful people to reconsider the current dependence of the U.S. economy on imported oil.

Almost nothing gives rise to more national intrigue than the murder of an American president. And on November 22, 2013, the nation remembered the 50th anniversary of one of the most traumatic events in modern American history, the assassination of President John F. Kennedy. From day one, the truth behind JFK's assassination has been mired in controversy and dispute. The Warren Commission, established just seven days after Kennedy's death, delved into the who, what, when, and where of the tragedy, and over the course of the following year compiled an 889-page report that arrived at the now widely contested conclusion: Lee Harvey Oswald was the sole assassin. In *Who Really Killed Kennedy?*, No. 1 New York Times best-selling author Jerome R. Corsi, Ph.D., provides readers with the ultimate JFK assassination theory book.

New York Times best-selling authors Dick Morris and Eileen McGann, in their upcoming release by Humanix Books, contend that President Obama is at war with the Constitution and its provisions that provide for checks and balances. President Obama's style of leadership is proof that he is willing to use desperate measures. In *Power Grab*, Morris and McGann assert that Obama has embarked on an outrageous and sweeping scheme to decisively and illegally grab power away from Congress, the Courts, and the States to appropriate it to himself. Ultimately, under the guise of practicality, the President of the United States has become utterly intolerant and unquestionably dictatorial. He rules on his own by executive fiat and few, if any, in Congress protest. A former presidential advisor to Bill Clinton, Dick Morris argues that Obama has gone well beyond any previous president in extending executive power. He has defied the will of our forefathers, stepped over states rights, and systematically brushed aside explicit laws with little outrage from other branches of government. In *Power Grab*, Morris and McGann say that Obama has grown even more bold in his acquisition of power after seeing so little opposition. And he has no plans to stop anytime soon, as the authors flawlessly illustrate in their in-depth analysis of his increasingly brazen behavior. Morris and McGann lay out a plan to stop Obama's abuse of power. They say President Obama's critics, and even those who sympathize with his political views but share a deep respect for the Constitution, can join together to stop the most significant, overreaching executive power ever. *Power Grab* is sure to leave the reader without any doubt as to just how pervasive his usurpation of Congressional power has become.

"This is the first study of the portraits Barack Obama (2018) and Michelle Obama (2018), their reception, and their significance. The book includes essays by historians examining the influence of the paintings and what they reveal about contemporary portraiture, particularly in relation to American and African American history and culture. The book also features interviews with the artists, transcripts of the remarks made by the Obamas at the unveiling, and a selection of images, including behind-the-scenes photography by Pete Souza, the official photographer for the Obamas, made during the portrait sittings"--

Here's your chance to say "goodnight" to Obama in a very special way. Join former president Obama in his nightcap and PJ's as he says "goodnight" to America: Goodnight birth certificate of unknown source Goodnight jobs, without any remorse Goodnight safety, let's open the borders Goodnight constitution, by executive order Featuring cameos of: Michael Moore Hillary Clinton Reverend Wright Ellen DeGeneres Vladimir Putin And many more!

The Deep State isn't finished trying to destroy President Donald Trump—they've only just begun. Coup d'Etat blows the lid off the Deep State's efforts to prevent the Trump presidency, disrupt his agenda, and prevent his reelection. In this book you'll learn: • The truth behind Robert Mueller's Special Counsel baseless investigation. • The identity of the Trump cabinet member who proposed wearing a wire to take down Trump. • How the FBI entrapped members of the Trump team—and how they unsuccessfully tried the same with Corsi. • How the Democratic establishment faked evidence of Russian interference. • The truth behind Julian Assange's arrest, and what the Deep State wants to prevent him from exposing. • How the FBI abused FISA law to spy on Trump—and how they tried to hide it. • Mueller's continued coverup that the media refuses to report. This is the book the Deep State and the media don't want you to read.

Introducing the new audio book series from the New York Times bestselling author of Killing The Deep State. Note: this e-book is a direct transcription of the audio book, Dr. Corsi Investigates: Why The Democratic Party Has Gone Communist, by Jerome R. Corsi. The Dr. Corsi Investigates series was created with the intention of being enjoyed in audio book form. This verbatim transcription of this audio book is best used for reference only. In this compelling audio book transcript, noted political commentator and journalist Dr. Jerome R. Corsi presents a case outlining how "progressive forces" and yes, even the Communist Party have literally taken over the USA's Democratic Party. Citing historical facts which correlate with modern-day events, Dr. Corsi outlines step by step how this infiltration has taken place. While exposing these strategies and tactics, Dr. Corsi also opines on their execution, intent, and success. The Dr. Corsi Investigates series was first dictated as an audio recording and is now being brought to you, word for word, in electronic book format.

With scenes ripped from today's most viral blogs, The Election Heist plays to the suspicions of millions of Americans who believe Russia hacked the 2016 elections, and millions more who fear that nefarious players could manipulate the results in the 2020 race. Packed with complex and believable characters, rapid-fire dialogue, and chilling details about the very real vulnerabilities of our election infrastructure, The Election Heist is written by investigative reporter, bestselling author, and former congressional candidate Kenneth R. Timmerman. "Ken Timmerman has written another page-turner, with all the suspense of election drama, voter recounts, and political high-stakes poker the way the game is played in today's super-charged political reality. If you enjoy the scheming of talented but devious political operatives, media personalities angling to make their careers on a 'gotcha' moment, and the winner-take-all gambles today's candidates for political office must take, this is a book you can't afford to miss." —Jerome R. Corsi, Ph.D., bestselling author of The Obama Nation, Unfit For Command, and many others "In 2020, governments still do not take the threat of a major election security breach seriously. Ken Timmerman gets it! His scenario in this book is all too plausible, which means the realities are chilling... A good and timely read." —Tom Malatesta, nationally recognized cyber security expert "If you don't think election security is important, think again. Ken Timmerman's new book shows why all of us should be worried about the 2020 election." —Stephen Moore, economic advisor to President Trump and Heritage Foundation senior fellow "Only someone who has been in the political warfare trenches like Ken Timmerman could write such a timely, political thriller 'work of fiction' like this." —Hon. Joseph E. Schmitz, former Inspector General of the Department of Defense and member of the Trump for President National Security and Foreign Policy Advisory Board

"Survival of the Richest is a fantastically well-researched book, and should join Robert Reich and Barbara Ehrenreich on the must-read bookshelf on wealth disparity."—Dr. Naomi Wolf, CEO, Dailycloud.io A fresh look at economic inequality in America Survival of the Richest scrutinizes how the collective wealth of America has been channeled from the poor and middle class into the hands of a few elitists. American industry has been gutted, with wages and benefits stagnant or reduced, thanks to a disastrous trade deals, outsourcing, and the crippling of unions. The Occupy Wall Street movement, and the presidential campaigns of both Bernie Sanders and Donald Trump, reveals how more and more people who are struggling understand that the system is rigged against them. While Americans have been trained to direct their scorn at welfare recipients and the poor in general, a tiny handful of plutocratic elites have profited on an unfathomable scale through corporate welfare and other perks. Unimaginable salaries and bonuses for the One Percent, contrasted by layoffs and reduced pay for the majority of the workforce, along with increasing calls for austerity measures and lowered standards of living, has become the "new normal" in America. Donald Jeffries argues that this record economic inequality is more than an unintended consequence of globalism. In Survival of the Richest, he shows how the consolidation of wealth may well prove to be the greatest conspiracy of all.

Suggests that there is a plan to end American sovereignty in favor of international trade, a common currency, and a North American Union with Canada and Mexico.

Provides both a post-mortem analysis of the defeat of Republican Mitt Romney in the 2012 presidential election and a roadmap for the re-emergence of the Republican Party.

In his first work of narrative nonfiction, Matthew Pearl, bestselling author of acclaimed novel *The Dante Club*, explores the little-known true story of the kidnapping of legendary pioneer Daniel Boone's daughter and the dramatic aftermath that rippled across the nation. On a quiet midsummer day in 1776, weeks after the signing of the Declaration of Independence, thirteen-year-old Jemima Boone and her friends Betsy and Fanny Callaway disappear near the Kentucky settlement of Boonesboro, the echoes of their faraway screams lingering on the air. A Cherokee-Shawnee raiding party has taken the girls as the latest salvo in the blood feud between American Indians and the colonial settlers who have decimated native lands and resources. Hanging Maw, the raiders' leader, recognizes one of the captives as Jemima Boone, daughter of Kentucky's most influential pioneers, and realizes she could be a valuable pawn in the battle to drive the colonists out of the contested Kentucky territory for good. With Daniel Boone and his posse in pursuit, Hanging Maw devises a plan that could ultimately bring greater peace both to the tribes and the colonists. But after the girls find clever ways to create a trail of clues, the raiding party is ambushed by Boone and the rescuers in a battle with reverberations that nobody could predict. As Matthew Pearl reveals, the exciting story of Jemima Boone's kidnapping vividly illuminates the early days of America's westward expansion, and the violent and tragic clashes across cultural lines that ensue. In this enthralling narrative in the tradition of Candice Millard and David Grann, Matthew Pearl unearths a forgotten and dramatic series of events from early in the Revolutionary War that opens a window into America's transition from colony to nation, with the heavy moral costs incurred amid shocking new alliances and betrayals.

THE BOOK THAT TELLS THE WHOLE STORY! #1 New York Times bestselling author Jerome Corsi predicts that an Obama presidency will leave the United States weakened, diminished, and divided. Barack Obama stepped onto the national political stage when the then-Illinois state senator addressed the 2004 Democratic National Convention. Soon after Obama was elected to the U.S. Senate, author Jerome Corsi began researching Obama's personal and political background. Tracing Obama's career and influences from his early years in Hawaii and Indonesia, the beginnings of his political career in Chicago, his voting record in the Illinois legislature, his religious training and his adoption of

Christianity through to his involvement in Kenyan politics, his political advisors and fund-raising associates, and his meteoric campaign for president, Jerome Corsi demonstrates that an Obama presidency will continue to be a repeat of the failed extremist politics that have characterized and plagued Democratic Party politics since the late 1960s. A stunningly comprehensive book, *The Obama Nation* is a well-researched, fact-based, detailed depiction of President Barack Obama unlike any other, one that every politically minded American should read.

A RESOUNDING CALL TO DEFEND AMERICA'S SOVEREIGNTY AND SAVE OUR NATION FROM GLOBAL ECONOMIC TAKEOVER -- FROM THE #1 NEW YORK TIMES BESTSELLING AUTHOR OF THE OBAMA NATION AND THE LATE GREAT USA Between President George W. Bush's "new world order" and the unprecedented governmental growth and massive redistribution of wealth under President Barack Obama, the United States risks losing the greatest middle class ever created in the history of the world. In his groundbreaking new book, Dr. Jerome R. Corsi blows the whistle on a movement to undercut the fundamental principles of limited government that our Founding Fathers fought for and died for trying to establish. As policy-makers manipulate the economic panic of our times to advance a globalist agenda that threatens American sovereignty, we must protect our independent and self-governing nation and preserve the decades of economic power and military strength we have enjoyed since the end of World War II . In *America for Sale*, Corsi explains the globalists' plan to put America on the chopping block. While the radical Left promotes socialism and the radical Right champions unbridled free trade, valuable jobs are being outsourced, our national borders erased, and our dollar destroyed before our very eyes. Foreign investors are buying up U.S. assets, from financial-services firms to public infrastructure such as highways. We are on our way to a European Union-type North American common market and a one-world government. With constructive solutions for resisting the global New Deal, reversing our dependence on foreign oil, and strengthening our middle class, Corsi shares important and practical strategies to help American families survive an imminent economic depression. The United States can be a major player in the world economy without sacrificing our sovereignty, the strength of our national domestic economy, or the dollar. America is for sale -- unless taxpayers stand up and say "NO!" to the globalist political agenda that threatens our great nation's freedom.

The priest. . . . Brought back to life on an operating room table after a horrific car crash, Father Paul Bartholomew is haunted by frightening visions—especially the moments when he seems to inhabit the body of Christ at Golgotha. The skeptics. . . . Dr. Stephen Castle, a New York City psychiatrist and renowned atheist, has built an international reputation for his book arguing that religion is a figment of human imagination. Professor Marco Gabrielli, an Italian religious researcher and chemist, has made a career of debunking supposed miracles, of explaining the unexplainable. The miracle. . . . For centuries, however, the Shroud of Turin has defied scientific explanation. Is this ancient remnant that bears such a vividly detailed pictorial representation truly the burial cloth that wrapped Christ after he was taken down from the cross? Or is it the biggest fraud ever perpetrated on the Christian community? As Father Bartholomew—newly returned to his parish, the venerable St. Joseph's Church in upper Manhattan—celebrates Mass, blood starts running down his arm. The horrified congregation watches him collapse to the ground, his vestments soaked with the blood pouring from wounds on his wrists. The phenomenon is known as stigmata, when a person appears to manifest the wounds that Christ suffered upon the cross. But in Father Bartholomew's case there is a mysterious added dimension: he has been transformed to resemble in almost every physical aspect the Christ-like figure represented on the Shroud of Turin. Worried that Bartholomew's case could be proved a hoax, the Vatican employs Dr. Castle and Professor Gabrielli to investigate. But for the well-known psychiatrist and the experienced man of science both, Father Bartholomew presents the most perplexing challenge either

has ever faced. Dr. Castle watches in person while the priest appears to writhe in agony, blood spurting from wounds identical to those portrayed on the famous shroud, and he wonders if he too can have been sucked into some kind of shared hallucination. Meanwhile, Professor Gabrielli—confident that he can reproduce the shroud by using materials and methods available in the Middle Ages—works frantically to prove that the shroud is a medieval forgery. But when the priest's uncanny resemblance to the crucified Christ on the Shroud prompts the two men to investigate the famous artifact itself, each is finally forced to face mysteries that cannot be explained by sheer reason alone. It will be the most unsettling—and eventually soul-wrenching—journey of discovery they have ever undertaken. From Jerome R. Corsi, author of the #1 New York Times bestseller *The Obama Nation*, comes a magnificent, thought-provoking first novel. Grounded in the same kind of in-depth, all-encompassing research that has distinguished Corsi's nonfiction, *The Shroud Codex* plumbs the farthest reaches of science and the human spirit.

Breitbart.com editor Jerome Hudson delivers the red pills his readers know him for, showing you the facts, statistics, and analysis that the mainstream media have worked so hard to hide Description: If you heard that one president deported more people than any other president, started the program of family separation, and did nothing to stop Russia's election meddling, how many of them would guess it was Obama? In *50 Things They Don't Want You to Know* Jerome Hudson dives deeply into the things Americans are not supposed to realize. Many of our most hotly debate topics are shaped by Davos power brokers, woke college professors, TV talking heads, social media activists and feckless Washington swamp monsters who want you to only follow their narrative. Your teachers, your politicians, and your local paper are not likely to ever tell you: Racial minorities fare far better in the absence of race-based affirmative action policies. Latinos make up a little more than 50% of the Border Patrol, according to 2016 data. The U.S. settled more refugees in 2017 than any other nation. Between 2011 and 2016, the IRS documented 1.3 million identity thefts by illegal aliens. Half of federal arrests are immigration-related. Welfare recipients in 34 states earn more than a person making minimum wage. Taxpayers doled out \$2.6 billion in food stamps to dead people in less than two years. 1,700 private jets flew to Davos to discuss the impact of global warming. Google could swing an election by secretly adjusting its search algorithm, and we would have no way of knowing. Once you're done reading *50 Things They Don't Want You to Know*, you'll never trust the powers that be to give you the whole truth again.

A Publishers Weekly Most Anticipated Book of Spring 2021 From a Pulitzer Prize-winning historian, the powerful story of a fragile nation as it expands across a contested continent. In this beautifully written history of America's formative period, a preeminent historian upends the traditional story of a young nation confidently marching to its continent-spanning destiny. The newly constituted United States actually emerged as a fragile, internally divided union of states contending still with European empires and other independent republics on the North American continent. Native peoples sought to defend their homelands from the flood of American settlers through strategic alliances with the other continental powers. The system of American slavery grew increasingly powerful and expansive, its vigorous internal trade in Black Americans separating parents and children, husbands and wives. Bitter party divisions pitted elites favoring strong government against those, like Andrew Jackson, espousing a democratic populism for white men. Violence was both routine and organized: the United States invaded Canada, Florida, Texas, and much of Mexico, and forcibly removed most of the Native peoples living east of the Mississippi. At the end of the period the United States, its conquered territory reaching the Pacific, remained internally divided, with sectional animosities over slavery growing more intense. Taylor's elegant history of this tumultuous period offers indelible miniatures of key characters from Frederick Douglass and Sojourner Truth to Elizabeth Cady Stanton and Margaret Fuller. It captures the high-stakes political drama as Jackson and Adams, Clay,

Calhoun, and Webster contend over slavery, the economy, Indian removal, and national expansion. A ground-level account of American industrialization conveys the everyday lives of factory workers and immigrant families. And the immersive narrative puts us on the streets of Port-au-Prince, Mexico City, Quebec, and the Cherokee capital, New Echota. Absorbing and chilling, *American Republics* illuminates the continuities between our own social and political divisions and the events of this formative period.

Presents a controversial history of violence which argues that today's world is the most peaceful time in human existence, drawing on psychological insights into intrinsic values that are causing people to condemn violence as an acceptable measure.

In this thoroughly researched and documented book, the #1 New York Times bestselling co-author of *Unfit for Command: Swift Boat Veterans Speak Out Against John Kerry* explains why the extreme leftism of an Obama presidency would leave the United States weakened, diminished and divided, why Obama must be defeated -- and how he can be. Barack Obama stepped onto the national political stage when the then-Illinois State senator addressed the 2004 Democratic National Convention. Soon after Obama was elected to the U.S. Senate, author Jerome Corsi began researching Obama's personal and political background. Scrupulously sourced with more than 600 footnotes, *The Obama Nation* is the result of that research. By tracing Obama's career and influences from his early years in Hawaii and Indonesia, the beginnings of his political career in Chicago, his voting record in the Illinois legislature, his religious training and his adoption of Christianity through to his recent involvement in Kenyan politics, his political advisors and fundraising associates and his meteoric campaign for president, Jerome Corsi shows that an Obama presidency would, in his words, be "a repeat of the failed extremist politics that have characterized and plagued Democratic Party politics since the late 1960s." In this stunning and comprehensive new book, the reader will learn about: Obama's extensive connections with Islam and radical politics, from his father and step-father's Islamic backgrounds, to his Communist and socialist mentors in Hawaii and Chicago, to his long-term and close associations with former Weather Underground heroes William Ayers and Bernadette Dohrn -- associations much closer than heretofore revealed by the press. Barack and Michelle's 20-year-long religious affiliation with the black-liberation theology of former Trinity United Church of Christ Reverend Jeremiah Wright, whose sermons have always been steeped in a rage first expressed by Franz Fanon, Stokely Carmichael and Malcolm X, a rage that Corsi shows has deep meaning for Obama. Obama's continuing connections with Kenya, the homeland of his father, through his support for the candidacy of Raila Odinga, the radical socialist presidential contender who came to power amid Islamist violence and church burnings. Obama's involvement in the slum-landlord empire of the Chicago political fixer Tony Rezko, who helped to bankroll Obama's initial campaigns and to purchase of Barack and Michelle's dream-home property. The background and techniques of the Obama campaign's cult of personality, including the derivation of the words "hope" and change." Obama's far-left domestic policy, his controversial votes on abortion, his history of opposition to the Second Amendment, his determination to raise capital-gains taxes, his impractical plan to achieve universal health care, and his radical plan to tax Americans to fund a global-poverty-reduction program. Obama's naïve, anti-war, anti-nuclear foreign-policy, predicated on the reduction of the military, the eradication of nuclear weapons and an overconfidence in the power of his personality, as if belief in change alone could somehow transform international politics, achieve nuclear-weapons disarmament and withdrawal from Iraq without adverse consequences, for us, for the Iraqis or for Israel. Meticulously researched and documented, *The Obama Nation* is the definitive source for information on why and how Barack Obama must be defeated -- not by invective and general attacks, but by detailed arguments that are well-researched and fact-based.

Jerome Corsi's newest opus, *No Greater Valor*, examines the Siege of Bastogne—one of the most heroic victories of WWII—with a focus on the surprising faith of the Americans who fought there. In December of 1944, an outmanned, outgunned, and surrounded US force fought Hitler's overwhelming Panzer divisions to a miraculous standstill at Bastogne. The underdogs had saved the war for the Allies. It was nothing short of miraculous. Corsi's analysis is based on a record of oral histories along with original field maps used by field commanders, battle orders, and other documentation made at the time of the military command. With a perspective gleaned from newspapers, periodicals, and newsreels of the day, Corsi paints a riveting portrait of one of the most important battles in world history.

Argues that no authority has verified President Obama's legal eligibility to be president.

A memoir by the actress best known for her role on "Beverly Hills, 90210" challenges popular misconceptions about her privileged life while discussing such topics as her relationship with her late father, her marriages, and her parenting experiences.

Argues that President Obama's recent actions prove his anti-colonialist roots and predicts how much worse America is because of President Obama's second term. By the best-selling author of *The Roots of Obama's Rage*. Reprint.

Analyzes Obama's political career and influences and his current presidential campaign, describing how his radical, far-left politics and naive foreign policy would be disastrous for the country in the event of his election.

The Case Against Barack Obama by National Review's David Freddoso blasts Obama for failing to take on the Chicago machine, for listening to "radical advisors," and for backing "doctrinaire liberal" causes from teachers unions to abortion rights. It does not, however, compare him to Paris Hilton, or dwell at length on his religion or race - making the substance of *The Case Against Barack Obama* sound unfamiliar amid a campaign cacophony of hyperbolic web ads, alleged race cards, and viral smears. Freddoso says John McCain's campaign and Republicans at large are making the wrong case against the Illinois senator. You don't beat him by comparing him to Paris Hilton, as McCain's latest advertising campaign did; the more important thing is really to look at who he is. Is he really a great reformer? Or just another liberal?

Even the most powerful men in the world are human—they get sick, take dubious drugs, drink too much, contemplate suicide, fret about ailing parents, and bury people they love. Young Richard Nixon watched two brothers die of tuberculosis, even while doctors monitored a suspicious shadow on his own lungs. John Kennedy received last rites four times as an adult, and Lyndon Johnson suffered a "belly buster" of a heart attack. David Blumenthal and James A. Morone explore how modern presidents have wrestled with their own mortality—and how they have taken this most human experience to heart as they faced the difficult politics of health care. Drawing on a trove of newly released White House tapes, on extensive interviews with White House staff, and on dramatic archival material that has only recently come to light, *The Heart of Power* explores the hidden ways in which presidents shape our destinies through their own experiences. Taking a close look at Franklin D. Roosevelt, Harry S. Truman, Dwight Eisenhower, John Kennedy, Lyndon B. Johnson, Richard Nixon, Jimmy Carter, Ronald Reagan, George Herbert Walker Bush, Bill Clinton, and George W. Bush, the book shows what history can teach us as we confront the health care challenges of the twenty-first century.

The Obama Nation Simon and Schuster

Now in paperback, New York Times bestselling author Ben Shapiro presents a comprehensive case against Barack Obama's abuses of power during his time in office. From the DOJ to the NSA, from the EPA to the Department of Health and Human Services, Barack Obama's administration has become a labyrinth of corruption and overreach touching every aspect of Americans' lives. *The People vs. Barack Obama* strips away the soft media picture of the Obama administration to reveal a regime motivated by pure, unbridled power and details how each scandal has led to dozens of instances of as-yet-unprosecuted counts of espionage, involuntary manslaughter, violation of internal revenue laws, bribery, and obstruction of justice. The story of the Obama administration is a story of abuse, corruption, and venality on the broadest scale ever to spring from the office of the presidency. President Obama may be the culmination of a century of government growth—but more important, he is the apotheosis of the imperial presidency. Obama chooses when to enforce immigration laws, delays his own Obamacare proposals when it is politically convenient to do so, micromanages the economy, attacks the Supreme Court, Congress, and the sovereign states. And he proclaims that he alone is the voice of the people while encroaching on their rights. In *The People vs. Barack Obama*, Ben Shapiro brings Obama into the people's court and addresses each of his abuses of power.

The King and his friend, the Dragon, devise a plot to rid themselves of a wicked witch.

#1 NEW YORK TIMES BESTSELLER • ONE OF ESSENCE'S 50 MOST IMPACTFUL BLACK BOOKS OF THE PAST 50 YEARS

In this iconic memoir of his early days, Barack Obama "guides us straight to the intersection of the most serious questions of identity, class, and race" (*The Washington Post Book World*). "Quite extraordinary."—Toni Morrison In this lyrical, unsentimental, and compelling memoir, the son of a black African father and a white American mother searches for a workable meaning to his life as a black American. It begins in New York, where Barack Obama learns that his father—a figure he knows more as a myth than as a man—has been killed in a car accident. This sudden death inspires an emotional odyssey—first to a small town in Kansas, from which he retraces the migration of his mother's family to Hawaii, and then to Kenya, where he meets the African side of his family, confronts the bitter truth of his father's life, and at last reconciles his divided inheritance. Praise for *Dreams from My Father* "Beautifully crafted . . . moving and candid . . . This book belongs on the shelf beside works like James McBride's *The Color of Water* and Gregory Howard Williams's *Life on the Color Line* as a tale of living astride America's racial categories."—Scott Turow "Provocative . . . Persuasively describes the phenomenon of belonging to two different worlds, and thus belonging to neither."—*The New York Times Book Review* "Obama's writing is incisive yet forgiving. This is a book worth savoring."—Alex Kotlowitz, author of *There Are No Children Here* "One of the most powerful books of self-discovery I've ever read, all the more so for its illuminating insights into the problems not only of race, class, and color, but of culture and ethnicity. It is also beautifully written, skillfully layered, and paced like a good novel."—Charlayne Hunter-Gault, author of *In My Place* "Dreams from My Father is an exquisite, sensitive study of this wonderful young author's journey into adulthood, his search for community and his place in it, his quest for an understanding of his roots, and his discovery of the poetry of human life. Perceptive and wise,

this book will tell you something about yourself whether you are black or white.”—Marian Wright Edelman

Shortlisted for the 2021 Booker Prize Longlisted for the 2021 National Book Award for Fiction A heartrending new novel from the Pulitzer Prize–winning and #1 New York Times best-selling author of *The Overstory*. Named one of the Most Anticipated Books of 2021 by Newsweek, Los Angeles Times, New York Magazine, Chicago Tribune, BuzzFeed, BookPage, Goodreads, Literary Hub, The Millions, New Statesman, and Times of London The astrobiologist Theo Byrne searches for life throughout the cosmos while single-handedly raising his unusual nine-year-old, Robin, following the death of his wife. Robin is a warm, kind boy who spends hours painting elaborate pictures of endangered animals. He’s also about to be expelled from third grade for smashing his friend in the face. As his son grows more troubled, Theo hopes to keep him off psychoactive drugs. He learns of an experimental neurofeedback treatment to bolster Robin’s emotional control, one that involves training the boy on the recorded patterns of his mother’s brain... With its soaring descriptions of the natural world, its tantalizing vision of life beyond, and its account of a father and son’s ferocious love, *Bewilderment* marks Richard Powers’s most intimate and moving novel. At its heart lies the question: How can we tell our children the truth about this beautiful, imperiled planet?

One of the Washington Post's 20 Books to Read This Summer A riveting history of the epic orbital flight that put America back into the space race. If the United States couldn't catch up to the Soviets in space, how could it compete with them on Earth? That was the question facing John F. Kennedy at the height of the Cold War—a perilous time when the Soviet Union built the wall in Berlin, tested nuclear bombs more destructive than any in history, and beat the United States to every major milestone in space. The race to the heavens seemed a race for survival—and America was losing. On February 20, 1962, when John Glenn blasted into orbit aboard Friendship 7, his mission was not only to circle the planet; it was to calm the fears of the free world and renew America’s sense of self-belief. *Mercury Rising* re-creates the tension and excitement of a flight that shifted the momentum of the space race and put the United States on the path to the moon. Drawing on new archival sources, personal interviews, and previously unpublished notes by Glenn himself, *Mercury Rising* reveals how the astronaut’s heroics lifted the nation’s hopes in what Kennedy called the "hour of maximum danger."

"Jerry Corsi may just be the best investigative journalist working today and this incredible book proves it."—Roger Stone, New York Times bestselling author A shocking investigation revealing why greedy oil companies are lying to the American people. At the end of World War II, U.S. intelligence agents confiscated thousands of Nazi documents developed by German chemists unlocking the secrets of how oil is formed. When the Nazis took power, Germany had resolved to develop enough synthetic oil to wage war successfully, even without abundant national oil reserves. For decades, these confiscated German documents remained largely ignored in a United States where petro-geologists and petro-chemists were convinced that oil was a “fossil fuel” created by ancient decaying biological debris. Clearly, big U.S. oil companies had no financial interest in explaining to the American people that oil was a natural product made on a continual basis deep within the earth. If there were only so many fossils in geological time, there could only be so much oil. Big oil could then charge more for a finite, rapidly disappearing resource than for a natural,

renewable, and probably inexhaustible one. Once oil is understood as an abundantly available resource, there is no reason hydrocarbon fuels cannot indefinitely propel the development and production of cheap energy reserves the United States needs to maintain its dominant position in the emerging global economy. The Great Oil Conspiracy, updated for this paperback release with a new chapter by Dr. Corsi, explains how German chemists had cracked the code to synthetic oil, and why the U.S. government is trying to keep their findings from you to this day. Skyhorse Publishing, as well as our Arcade imprint, are proud to publish a broad range of books for readers interested in history--books about World War II, the Third Reich, Hitler and his henchmen, the JFK assassination, conspiracies, the American Civil War, the American Revolution, gladiators, Vikings, ancient Rome, medieval times, the old West, and much more. While not every title we publish becomes a New York Times bestseller or a national bestseller, we are committed to books on subjects that are sometimes overlooked and to authors whose work might not otherwise find a home.
