Life is indeed a game that we all play to pass time; simply a series of days strung together, made up of how you planned or decided to spend the moments. Like any game how well it is played or whether life's circumstances are interpreted accurately, then used to the best advantage, makes losers and winners to varying degrees. Senseless insanity is alive and well within the world. The world is awash with unruly forces, that if not intent upon harming you do desire to become a destabilising force, either temporarily or over the long term. We are all participants in a charade, how life evolves and turns out all depend on how well the game is played. It is not wise or ideal to treat life like a game of chance, a random roll of the dice that can determine unpredictable outcomes. The cost of success is the careful application of well thought out concepts and ideas. Like any game preparation is critical; understanding the rules, knowing how to manipulate the dynamics at play efficiently to ones own advantage, understanding the intricacies of the rules and how to capitalise upon or create opportunities, pursuing whatever circumstances are present to maximise whatever potential exists to the best advantage. The potential opportunities in life are only limited by the inability to firstly comprehend them and secondly to fully utilise personal abilities to maximise the potential that is available. Don't wait for special times to evolve, rather create them in accordance with your true desires to experience what you wish to make real. Much like any game, the game of life has things that can be obtained, or things that can be lost. How the game is played, the value of the stakes, the opposing factions all come to dictate an outcome, be that favourable or lacking any resemblance of being lucky. A life lived based upon any reliance on luck or fate being favourable is tempting only to the over optimistic, or those extremely lucky ones or who were fortunate in the past and believe that good fortune will continue in the future. While it takes resources to control the world, the control of your own specific world environment is really within your potential to achieve. How you choose to control your world, as well as to what extent your desires are put into action, determine whether your life will meet your wishes or not. The amount of thought and energy you exhort, the persistence of that effort, all comes to determine whether and to what degree what you want is what you actually get. In life you may win or loose at times, it's basically just like playing a game; the right mentality is chancing the wheel of life by trusting and ensuring you will win just the same.

Tailgater's Guide to SEC Football Volume V – The definitive guide to the history and traditions of the 14 schools of the Southeastern Conference (2020). Contains profiles of great players and coaches, school histories, recipes, famous alumni, where to shop and golf, etc. The Bible of SEC Football. \$15.95 Paperback, 320 pages. Synopsis: "Dan Jenkins, author and sportswriter, simply summed up the popularity of the game of football in the South with the following statement: "To Southerners, football is as essential as air conditioning." The irreplaceable "Voice of the Volunteers" on radio during the 1950's, George Mooney, once stated, "...No matter where I was broadcasting from, I found the fans in the South to be knowledgeable, fair—and yes, loud and frenzied. They are very proud of their rich football heritage. And they are very proud of their schools, their teams—and the deep pride that goes with being from the South." Late legendary college football commenter Keith Jackson, in describing the SEC Football experience, once aptly stated that " ...there are few instances of alleged entertainment and relaxation that can match a college football game in stirring the deepest flames of partisanship and outright provincialism. And down South you can color that partisanship passionate!" Southeastern Conference Football is the paragon of the college athletic experience. During its storied, 87-year existence, the SEC has evolved into the most impressive league of organized, intercollegiate gridiron competition in the history of the United States. No other Football Bowl Subdivision (FBS) conference can boast of the many accolades and attendance records that the SEC currently holds. Furthermore, the Southeastern Conference has produced more All-American football players than any other conference. This book is dedicated to all the Southern people who live for Saturdays in the fall, for those individuals who plan their business and personal engagements around their favorite team's football schedule; for those who always experience a rise in their body temperature when they enter the stadium; for those who shed a tear during the singing of their alma mater; and especially, for those who know all the words to their school's fight song. It is for the people who wake up early on Sunday morning after a win so they can read each and every one of the sports columns about the game they witnessed the day before. It is for all those who enjoy good company and good food in the parking lot before the game, as much, and if not more, than the food and company at a fancy restaurant. These things that we hold dear – all true SEC fans know and love, and look forward to each autumn. It's that time of year when the heated summer temperatures begin to fade and yield to colder days, when the leaves begin to change color, and when the youthful partisan spirit within us all crackles like the kindling of a well-planned winter fire.
