The circular economy describes a world in which reuse through repair, reconditioning and refurbishment is the prevailing social and economic model. The business opportunities are huge but developing product and service offerings and achieving competitive advantage means rethinking your business model from early creativity and design processes, through marketing and communication to pricing and supply. Designing for the Circular Economy highlights and explores 'state of the art' research and industrial practice, highlighting CE as a source of: new business opportunities; radical business change; disruptive innovation; social change; and new consumer attitudes. The thirty-four chapters provide a comprehensive overview of issues related to product circularity from policy through to design and development. Chapters are designed to be easy to digest and include numerous examples. An important feature of the book is the case studies section that covers a diverse range of topics related to CE, business models and design and development in sectors ranging from construction to retail, clothing, technology and manufacturing. Designing for the Circular Economy will inform and educate any companies seeking to move their business models towards these emerging models of sustainability; organizations already working in the circular economy can benchmark their current activities and draw inspiration from new applications and an understanding of the changing social and political context. This book will appeal to both academia and business with an interest in CE issues related to products, innovation and new business models.

'Life Kitchen is a celebration of food' Lauren, Sunderland 'The recipes are just really simple, really easy and delicious' Carolyn, Newcastle 'His book is better than a bunch of flowers because it's going to last forever' Gillian, Sunderland Ryan Riley was just eighteen years old when his mum, Krista, was diagnosed with cancer. He saw first-hand the effect of her treatment but one of the most difficult things he experienced was seeing her lose her ability to enjoy food. Two years after her diagnosis, Ryan's mother died from her illness. In a bid to discover whether there was a way to bring back the pleasure of food, Ryan created Life Kitchen in his mum's memory. It offers free classes to anyone affected by cancer treatment to cook recipes that are designed specifically to overpower the dulling effect of chemotherapy on the taste buds. In Life Kitchen, Ryan shares recipes for dishes that are quick, easy, and unbelievably delicious, whether you are going through cancer treatment or not. With ingenious combinations of ingredients, often using the fifth taste, umami, to heighten and amplify the flavours, this book is bursting with recipes that will reignite the joy of taste and flavour. Recipes include: Carbonara with peas & mint Parmesan cod with salt & vinegar cucumber Roasted harissa salmon with fennel salad Miso white chocolate with frozen berries With an introduction from UCL's taste and flavour expert Professor Barry Smith, this inspiring cookbook focusses on the simple, life-enriching pleasure of eating, for everyone living with cancer and their friends and family too. The inside story of one of the world's most powerful financial Institutions Now with a new foreword and final chapter, The Partnership chronicles the most important periods in Goldman Sachs's history and the individuals who built one of the world's largest investment banks. Charles D. Ellis, who worked as a strategy consultant to Goldman Sachs for more than thirty years, reveals the secrets behind the firm's continued success through many life-threatening changes. Disgraced and nearly destroyed in 1929, Goldman Sachs limped along as a break-even operation through the Depression and WWII. But with only one special service and one improbable banker, it began the stage-by-stage rise that took the firm to global leadership, even in the face of the world-wide credit crisis.

Nurturing Our Humanity offers a new perspective on our personal and social options in today's world, showing how we can build societies that support our great human capacities for consciousness, caring, and creativity. It brings together findings--largely overlooked--from the natural and social sciences debunking the popular idea that we are hard-wired for selfishness, war, rape, and greed. Its groundbreaking new approach reveals connections between disturbing trends like climate change denial and regressions to strongman rule. Moving past right vs. left, religious vs. secular, Eastern vs. Western, and other familiar categories that do not include our formative parent-child and gender relations, it looks at where societies fall on the partnership-domination scale. On one end is the domination system that ranks man over man, man over woman, race over race, and man over nature. On the other end is the more peaceful, egalitarian, gender-balanced, and sustainable partnership system. Nurturing Our Humanity explores how behaviors, values, and socio-economic institutions develop differently in these two environments, documents how this impacts nothing less than how our brains develop, examines cultures from this new perspective (including societies that for millennia oriented toward partnership), and proposes actions supporting the contemporary movement in this more life-sustaining and enhancing direction. It shows how through today's ever more fearful, frenzied, and greed-driven technologies of destruction and exploitation, the domination system may lead us to an evolutionary dead end. A more equitable and sustainable way of life is biologically possible and culturally attainable: we can change our course.

When discussing being stuck in a "win-win vs. win-lose" debate, most negotiation books focus on face-to-face tactics. Yet, table tactics are only the "first dimension" of David A. Lax and James K. Sebenius' pathbreaking 3-D Negotiation (TM) approach, developed from their decades of doing deals and analyzing great dealmakers. Moves in their "second dimension"—deal design—systematically unlock economic and noneconomic value by creatively structuring agreements. But what sets the 3-D approach apart is its "third dimension": setup. Before showing up at a bargaining session, 3-D Negotiators ensure that the right parties have been approached, in the right sequence, to address the right interests, under the right expectations, and facing the right consequences of walking away if there is no deal. This new arsenal of moves away from the table often has the greatest impact on the negotiated outcome. Packed with practical steps and cases, 3-D Negotiation demonstrates how superior setup moves plus insightful deal designs can enable you to reach remarkable agreements at the table, unattainable by standard tactics.

A triumphant tale of self-discovery, a celebration of a family's rich heritage, and a love letter to American immigrant freedom. *I Was Their American Dream* is at once a journal of growing up and a reminder of the thousands of immigrants who come to America in search for a better life for themselves and their children. The daughter of parents with unfulfilled dreams themselves, Malaka navigated her childhood chasing her parents' ideals, learning to code-switch between her family's Filipino and Egyptian customs, adapting to white culture to fit in, crushing on skater boys, and trying to understand the tension between holding onto cultural values and trying to be an all-American kid. In a graphic novel format, Malaka Gharib's illustrations bring to life her teenage antics and illuminate earnest questions about identity and culture, while providing thoughtful insight into the lives of modern immigrants and the generation of millennial children they raised. Malaka's upbringing will look familiar to anyone who grew up in the pre-internet era, but her particular story is a heartfelt tribute to the American immigrants who have invested their future in the promise of the American dream.

The third workshop of the Chemical Sciences Roundtable, Research Teams and Partnerships was held in Irvine, California, on May 2-3, 1999. The presentations and discussions at the workshop considered the current status of research partnerships in the chemical sciences and methods to improve the ability to form and maximize such collaborations. This volume presents the results of that workshop.

In *Working Together*, a fascinating and invaluable look at why great partnerships succeed, former Disney CEO Michael Eisner discusses how professional partnerships have contributed to his success. In addition, Eisner tells the stories of nine other highly successful business collaborations, including Warren Buffett and Charlie Munger, Valentino and Giancarlo Giammetti, Bill and Melinda Gates, Joe Torre and Don Zimmer, and Brian Grazer and Ron Howard.

This book thoroughly explains the legal and practical issues involved in forming a business partnership, covering: -- financial and tax liabilities-- contributions of cash or property-- expanding one's partnership-- buy-outs-- the death of a partner-- and much more. Forms provided as tear-outs and on CD-ROM.

Jobs & Wozniak, Page & Brin, Ben & Jerry... any list of successful companies seems awash with cofounders who are a match made in business heaven. The benefits are obvious: by combining resources, knowledge, expertise and motivation, cofounders can often build something far more successful together compared to going solo. And yet... two-thirds of startups fail because of disagreements between founders. Why? Because cofounding isn't as simple as drawing up an agreement and shaking hands on it. In fact, there are seven steps required to build cofounding teams that win and last. *Cofounding The Right Way* will take you through these steps, one simple step at a time, from finding the right cofounders all the way through to structuring your team, splitting the equity, making sure everyone stays motivated and documenting it in your cofounding agreement. Is a partnership even right for you in the first place? That's Step No. 1! Get your cofounding team right, and you'll be in the best possible position to handle any challenge that's thrown in your direction. Get it wrong and not even the best business idea will be able to survive. Foreword by Mike Moyer, author of *Slicing Pie*.

Fostering a transatlantic renaissance to salvage the Western alliance Is the Western alliance, which brought together the United States and Europe after World War II, in an inevitable state of decline, and if so, can anything be done to repair it? There seems little doubt that fragmentation of the Western alliance was under way even before Donald Trump's unorthodox policymaking

broadened the schism. Opinions differ as to the next step, however, with some taking the current divisions as a given and advocating the creation of a new group of like-minded democracies that would exclude the United States, while others seek to exploit the rift in hopes of furthering their own nationalistic ambitions for a postliberal world. The authors outline a “transatlantic renaissance,” in which U.S. and European leaders would work together to craft a new Atlantic Charter that would restore the liberal objectives that animated the Western alliance for more than seven decades. Modernizing institutional relationships across the Atlantic should help both the United States and Europe address common challenges jointly and improve burdensharing. The world needs a vibrant and energetic West to protect fundamental values from illiberal forces, both internal and external.

Widely regarded as the leading authority on voyage charters, this book is the most comprehensive and intellectually-rigorous analysis of the area, is regularly cited in court and by arbitrators, and is the go-to guide for drafting and disputing charterparty contracts. Voyage Charters provides the reader with a clause-by-clause analysis of the two major charterparty forms: the Gencon standard charterparty contract and the Asbatankvoy form. It also delivers thorough treatment of COGSA and the Hague and Hague-Visby Rules, a comparative analysis of English and United States law, and a detailed section on arbitration awards. Key features of the fourth edition: The only textbook to deal specifically with this key area of maritime law Written by an impressive team of highly-regarded maritime authorities from both sides of the Atlantic Contains a wealth of updated English and American case law and arbitrations, as well as addressing broader issues such as Rome II Regulation Convention regarding the conflict of laws Practical user-friendly guide, which is accessible not only to lawyers but also shipping professionals A new, detailed United States law section on COGSA This book is an indispensable, practical guide for both contentious and non-contentious shipping law practitioners, and postgraduate students studying this area of law.

The Charter of Fundamental Rights of the European Union is the most developed and comprehensive legally binding human rights instrument in the social field of the European Union. It is becoming increasingly important and is the first instrument that includes both civil and political rights on one hand and social rights on the other. Despite this, the Court of Justice of the European Union has only rarely dealt with fundamental social rights. In this context, employment rights need to be examined in this new rights framework. Following on from previous volumes setting out links between European labour law and fundamental social rights (as enshrined in relevant UN, ILO and Council of Europe instruments), in this book the ETUI Transnational Trade Union Rights (TTUR) Expert Network examines the justiciability of social rights and critically analyses the effectiveness of those rights embodied in the EU Charter. Thus, this book completes the trilogy of ETUI TTUR books on fundamental social rights at European level following the publication, also by Hart Publishing, of The European Convention of Human Rights and the Employment Relation (2013) and The European Social Charter and the Employment Relation (2017).

The promise of public education is excellence for all. But that promise has seldom been kept for low-income children of color in America. in American education: a way for large numbers of engaged and ambitious low-income families of colour to get an education for their children that equals and even exceeds what wealthy families take for granted. Her results are astonishing, her methods unorthodox. Decades of well-intended efforts to improve our schools and close the 'achievement gap' have set equity and excellence at war with each other: If you are wealthy, with the means to pay private school tuition or move to an affluent community, you can get your child into an excellent school. But if you are poor and black or brown, you have to settle for 'equity a Thousands of business books are published every year-- Here are the best of the best After years of reading, evaluating, and selling business books, Jack Covert and Todd Sattersten are among the most respected experts on the category. Now they have chosen and reviewed the one hundred best business titles of all time--the ones that deliver the biggest payoff for today's busy readers. The 100 Best Business Books of All Time puts each book in context so that readers can quickly find solutions to the problems they face, such as how best to spend The First 90 Days in a new job or how to take their company from Good to Great. Many of the choices are surprising--you'll find reviews of Moneyball and Orbiting the Giant Hairball, but not Jack Welch's memoir. At the end of each review, Jack and Todd direct readers to other books both inside and outside The 100 Best. And sprinkled throughout are sidebars taking the reader beyond business books, suggesting movies, novels, and even children's books that offer equally relevant insights. This guide will appeal to anyone, from entry-level to CEO, who wants to cut through the clutter and discover the brilliant books that are truly worth their investment of time and money.

The Founder's Dilemmas examines how early decisions by entrepreneurs can make or break a startup and its team. Drawing on a decade of research, including quantitative data on almost ten thousand founders as well as inside stories of founders like Evan Williams of Twitter and Tim Westergren of Pandora, Noam Wasserman reveals the common pitfalls founders face and how to avoid them.

Partners of people in transition go through their own transitions and may or may not be conflicted as to whether they will remain in their relationship. This unique self-help workbook was created for and focuses on the partner's perspective and own journey. By providing the support and structure needed for partners to reflect, this resource helps navigate the unexpected transition that affects both of their lives. Providing an essential tool that is currently missing, this book gives guidance and advice specifically designed for this situation, alongside activities, quizzes, and personal anecdotes. By combining portions of the author's self-exploration-as the partner of someone who began to transition after 17 years of being in their relationship- with the experiences shared by those who attended her workshops, this workbook examines the challenges, uncertainties, and possible grieving some partners experience throughout the transition process. With space for responding to reflective questions, exercises and games, this workbook offers partners a safe haven to discover their own wants and needs and will be of interest to both couples and individual counselors.

This edited collection presents new research on the development of printing and bookselling throughout Europe during the sixteenth and seventeenth centuries, addressing themes such as the Reformation, the transmission of texts and the production and sale of printed books.

Countless studies demonstrate that students with parents actively involved in their education at home and school are more likely to earn higher grades and test scores, enroll in higher-level programs, graduate from high school, and go on to post-secondary education. Beyond the Bake Sale shows how to form these essential partnerships and how to make them work. Packed with tips from principals and teachers, checklists, and an invaluable resource section, Beyond the Bake Sale reveals how to build strong collaborative relationships and offers practical advice for improving interactions between parents and teachers, from insuring that PTA groups are constructive and inclusive to navigating the complex issues surrounding diversity in the classroom. Written with candor, clarity, and humor, Beyond the Bake Sale is essential reading for teachers, parents on the front lines in public schools, and administrators and policy makers at all levels.

Welcome to Burning Cove, California where 1930s Hollywood glamour conceals a ruthless killer... Vivian Brazier never thought life as an art photographer would include nightly wake-up calls to snap photos of grisly crime scenes or headshots for aspiring male actors. Although she is set on a career of transforming photography into a new art form, she knows her current work is what's

paying the bills. After shooting crime scene photos of a famous actress, the latest victim of the murderer the press has dubbed the "Dagger Killer," Vivian notices eerie similarities to the crime scenes of previous victims--details that only another photographer would have noticed--details that put Vivian at the top of the killer's target list. Nick Sundridge has always been able to "see" things that others don't, coping with disturbing dreams and visions. His talent, or as he puts it--his curse--along with his dark past makes him a recluse, but a brilliant investigator. As the only one with the ability to help, Nick is sent to protect Vivian. Together, they discover the Dagger Killer has ties to the glitz and glamour of Hollywood royalty and high society. It is a cutthroat world of allure and deception that Vivian and Nick must traverse--all in order to uncover the killer who will stop at nothing to add them to their gallery of murders.

One of the most original thinkers on the role of religion in the modern world—author of such acclaimed books as *A History of God*, *Islam*, and *Buddha*—now gives us an impassioned and practical book that can help us make the world a more compassionate place. Karen Armstrong believes that while compassion is intrinsic in all human beings, each of us needs to work diligently to cultivate and expand our capacity for compassion. Here, in this straightforward, thoughtful, and thought-provoking book, she sets out a program that can lead us toward a more compassionate life. The twelve steps Armstrong suggests begin with “Learn About Compassion” and close with “Love Your Enemies.” In between, she takes up “compassion for yourself,” mindfulness, suffering, sympathetic joy, the limits of our knowledge of others, and “concern for everybody.” She suggests concrete ways of enhancing our compassion and putting it into action in our everyday lives, and provides, as well, a reading list to encourage us to “hear one another’s narratives.” Throughout, Armstrong makes clear that a compassionate life is not a matter of only heart or mind but a deliberate and often life-altering commingling of the two.

The face of American education is evolving—and the roadmap is clear *On the Rocketship: How Top Charter Schools are Pushing the Envelope* examines the rise and expansion of leading charter school network Rocketship, revealing the "secret sauce" that makes a successful program. A strong narrative with a timely message, the book explores how Rocketship started and the difficulties encountered as it expands. Designing schools for children who have been failed by traditional schools is extremely challenging work. Setbacks are inevitable. Later in the book the narrative shifts to the national picture, exploring how high performing charter schools are changing the education landscape in cities such as Denver, Memphis, and Houston. The book emerges just as charter schools are running into stiff political opposition in New York City and elsewhere. Even in San Jose, Rocketship's home base, the pushback against charter schools is gaining speed. *On the Rocketship* becomes a valuable resource for explaining what's at stake in this battle. Lose these schools, in New York, San Jose and other cities, and low-income and minority students lose their best shot at a quality

education. Written by a veteran journalist who followed Rocketship through a school year, the book explores some of the factors that make Rocketship and other charters successful, including the blended learning that was pioneered at charter schools, especially Rocketship. Many schools around the country are looking to Rocketship as a model for implementing blended learning. The interplay between charter schools and blended learning is setting a change in motion, and the American education system is ready to evolve. On the Rocketship details this phenomenon, providing insights for educators across the nation.

From Eva Moskowitz, the outspoken founder and CEO of the charter school Success Academy, comes a frank, feisty memoir about the rough-and-tumble battles to reform America's education system. Eva Moskowitz is a fighter with a reputation for having "sharp elbows"—if that's a synonym for getting the job done, she'll take it. A born and bred New Yorker, former City Councilmember, and "charter czarina," Moskowitz has taken on powerful unions and politicians to establish and grow her astonishingly effective and popular charter school program in four of the city's five boroughs. In this unabashedly candid memoir, Moskowitz tells of how she became a forward-thinking education entrepreneur and her fight to establish nearly three dozen schools—activism that has made her into one of the most polarizing figures in New York City and beyond. Now, having established a remarkable, even unprecedented, track record for guiding the city's most disadvantaged children to high academic performance, Moskowitz addresses the battles she has won and lost, writing candidly about the people who seek to undermine her work—most notably New York City Mayor Bill de Blasio—and celebrating the powerful allies who have aided her cause, including former Mayor Michael Bloomberg and Governor Andrew Cuomo. Moskowitz's insightful memoir is a deeply felt personal story and an impassioned call to action that bluntly identifies failing policies and the alarmingly powerful forces arrayed against improving an education system that is both deeply dysfunctional and prejudiced. The Education of Eva Moskowitz is sure to galvanize supporters, enrage her opponents, generate headlines, and urgently impact the national conversation on education.

Acclaimed as the standard reference work on the law relating to time charters, this new edition provides a comprehensive treatment of the subject, accessible and useful both to shipping lawyers and to shipowners, charterers, P&I Clubs and other insurers. It provides full coverage of both English and U.S. law, now updated with all the important decisions since the previous edition. The English decisions covered in the new edition include: The Kos (the Supreme Court on the effect of withdrawing a ship with cargo on board); The Athena (nature of off-hire; meaning of 'loss of time'/'time thereby lost'); The Kyla (damage to ship and frustration); The Silver Constellation, The Savina Caylyn and The Rowan (oil company approval of chartered ships); The Captain Stefanos, The Saldanha, The Triton Lark and The Paiwan Wisdom (effects of piracy); The Kildare and The Wren (damages for early termination); The T S Singapore (off-hire where ship going

'towards but not to' the port ordered), and *The Lehmann Timber*, *The Bulk Chile* and *The Western Moscow* (owners' liens) The new edition also features many significant new U.S. decisions, including: *Stolt-Nielsen v. Animal Feeds Intl.* (Supreme Court rules class-action arbitration not permitted unless parties agree in arbitration agreement); *ATHOS I* (Circuit Court finds that safe berth provision in charterparty is a warranty and not merely a due diligence obligation); *The M/V SAMHO DREAM* (arbitrators direct petitioner to post \$14.2M security on respondent's counterclaim) and *Maroc Fruit Board v. M/V VINSON* (CP arbitration clause incorporated in bill of lading not "signed" or "contained in an exchange of letters or telegrams" under NY Convention).

A Light Shines in Harlem tells the fascinating history of New York's first charter school, the Sisulu-Walker Charter School of Harlem, and the early days of the state's charter school movement. Told through the experiences of those on the inside—including a hero of the civil rights movement; a Wall Street star; inner-city activists; and real-world educators, parents, and students—this book shows how they all came together to create a groundbreaking school that, in its best years, far outperformed public schools in the neighborhoods in which most of its children lived. It also looks at education reform through a broader public policy lens, discussing recent research and issues facing the charter movement today, describing what makes a public charter school—or any school—succeed or fail, and showing how these lessons can be applied to other public and private schools to make all of them better. The end result is not only an exciting narrative of how one school fought to succeed, but also an illuminating glimpse into the future of education in the United States.

Starting a company takes time, dedication, and perseverance. More often than not, new business owners underestimate their own workload, especially in terms of what it takes just to get their company up and running. It's easy to burn through time and money without even realizing it, all of which is happening when the stakes are high and you're under pressure as you try to ensure the company's success. Being an entrepreneur requires taking risks, as I'm sure you were aware when you signed up. And in this critical infant stage of your business, you know that if it doesn't work out, you may never recover from the loss of resources and self-esteem. This scenario is stressful and frustrating enough. Add a partner's expectations and differences of opinion, and it can have disastrous results. Now consider if that partner is a close friend or even a spouse. Don't get me wrong, I'm certainly not suggesting that you should go it alone. Having a business partner can be incredibly advantageous, since that means you're sharing risk, responsibility, and financial investments.

Considering these types of assets, having a partner may even be the difference between being able to start a company vs. falling short of having the resources you'd need to even begin. However, with that said, there are certain aspects of the partnership arrangement that you need to think about, talk about with your partner, and formalize in writing - yes, even if they're your spouse. This book will lead you through the 9 specific components of business partnership that - for

the sake of your company, your own personal finances, and your peace of mind - must be formalized in writing. It doesn't matter how well you (think you) know the person you are considering going into business with. The items covered in this book are absolutely crucial to the successful start and end of a partnership, and may well be just what helps protect the relationship you had together before starting the business. If you are considering starting a business with a partner, or if you are already in the process of doing so, then this book is a must-read!

One of the world's foremost experts on public sector reform offers a comprehensive analysis of the charter school movements and presents a theory that will do for American schools what his New York Times" bestseller "Reinventing Government" did for public governance in 1992.

It might be that extra glass of wine once the kids have gone to bed, or the habitual tippie after work that you know is too much. This book is two things: the product of my lifelong work conceiving, developing, and growing the E-Myth way into a business model that has been applied to every imaginable kind of company in the world, as well as a product of Tony's extraordinary experience and success in applying the E-Myth to the development of his equally extraordinary enterprise, Super Lawn Technologies, Inc.

In The Partnership Charter, psychologist and business mediation expert David Gage offers a comprehensive guide to the art of establishing and maintaining a business partnership. The centerpiece of his approach is the Partnership Charter, a document that clearly outlines the goals, expectations, responsibilities, and relationships of the principals. The charter identifies potential sources of conflict and how they will be resolved, while addressing such sensitive issues as personal styles, values, money, and power. Illustrating every principle through engaging stories drawn from Gage's front-line experience consulting to business partners, as well as interviews with the founding partners of such successful businesses as Progressive Insurance Company and Manpower, Inc., The Partnership Charter dispels common myths and presents a practical framework for launching, building, and sustaining a thriving business partnership.

When the United Nations Charter was adopted in 1945, states established a legal 'paradigm' for regulating the recourse to armed force. In the years since then, however, significant developments have challenged the paradigm's validity, causing a 'paradigmatic

shift'. International Law and the Use of Force traces this shift and explores its implications for contemporary international law and practice.

"The Nation has lost sight of its public health goals and has allowed the system of public health to fall into 'disarray'," from The Future of Public Health. This startling book contains proposals for ensuring that public health service programs are efficient and effective enough to deal not only with the topics of today, but also with those of tomorrow. In addition, the authors make recommendations for core functions in public health assessment, policy development, and service assurances, and identify the level of government--federal, state, and local--at which these functions would best be handled.

As serialized in the New Yorker, a roiling, behind-the-scenes look at the high-pressure race to turn around Newark's failing schools, with Facebook's Mark Zuckerberg, Governor Chris Christie, and Senator Cory Booker in eyebrow-raising leading roles The World Summit on Sustainable Development in Johannesburg clearly identified the corporate sector as one of the key actors in the delivery of national and international poverty reduction targets in developing countries. "Partnerships" between government, civil society and business were proposed as one means whereby these poverty reduction targets were to be achieved. Despite the rhetoric, there was less consideration of how such partnerships could work in practice, the outcomes that could be achieved, or the relative merits of partnerships over other, more traditional approaches to development. This book is about partnerships between the private sector, government and civil society. Its objective is to share practical experiences in establishing and implementing such partnerships and to show how partnerships work. The focus is on the oil, gas and mining industries, as these sectors have tended to be the primary drivers of foreign investment in developing countries. These corporations increasingly operate in regions characterised by poor communities and fragile environments. The more effective use of external relationships to ensure the effective contribution of these investments to poverty reduction and local environmental management is critical, for the companies, for government, and for the poor. Putting Partnerships to Work is based on the work of the Secretariat of the Natural Resources Cluster (NRC) of Business Partners for Development (BPD). This major research programme, which ran from 1998 to 2002, aimed to enhance the role of oil, gas and mining corporations in international development. The programme objective was to produce practical guidance, based on the experience of specific natural resource operations around the world, on how partnerships involving companies, government authorities and civil-society organisations can be an effective means of reducing investment risks and of promoting community and regional development. The programme encompassed partnerships in Colombia, Nigeria, India, Venezuela, Bolivia, Zambia, Azerbaijan, Indonesia and Tanzania. The specific projects that were implemented included not only "traditional" development projects such as the provision of water, healthcare or infrastructure but also themes as diverse as conflict prevention, regional development, micro-enterprise development and managing oil spill compensation. Based on the experience of establishing and implementing effective partnerships, the NRC identified good practice, and developed replicable guidelines, tools and training materials. This book is not only about good practice; it presents both the positive outcomes and lessons from the programme, as well as the risks and costs, and where things went wrong. It also provides evidence not only of

the viability of partnerships (i.e. that partnerships "can work") but also evidence that partnership approaches can provide substantially better outcomes for all parties than can more traditional approaches to development or corporate social responsibility. For example, a road in India was constructed at 25% of the cost to government; it took just 11 months for a community health centre in Venezuela to become operational and with its long-term financial future assured; and primary education enrolment rates in the vicinity of a gold mine in Tanzania have jumped from a historic level of 60–80% to almost 100% (as a consequence of improved infrastructure and community awareness of the importance of education). These development and public-sector benefits have been accompanied by substantial business benefits, including significant reductions in the cost of community development initiatives and/or the leverage of additional resources, greater sustainability and viability of development projects and significant improvements to corporate reputation and their local "social licence to operate" with communities. The book argues that to achieve these benefits requires all parties to invest time and effort in first exploring the best design for the partnership, understanding the motivations of their potential partners and, once the partnership has been established, continuing to actively support the partnership and ensure its ongoing viability. Partnerships that engage the strengths of companies, government and civil society can, under the right conditions, yield better (and more sustainable) results for communities and for business than traditional approaches to development. The authors argue that, because it is built on the central idea of each partner "doing what they do best", the partnership approach offers an opportunity to rethink the way in which companies view their contributions to the livelihoods of local communities. Through partnerships it is possible that community development will be seen less as an "add-on" or "cost" to the company but more an integral part of business strategy providing significant commercial and other benefits. Perhaps most importantly, partnerships offer the potential for regional operating companies to change the perceptions of government and of civil society that the company will take the primary responsibility for local development. Rather, partnerships enable companies to locate themselves as one of (but not the only) agent of development in the local region. Partnerships enable communities to take charge of their own development needs, interacting with government to jointly design and maintain public services. They also allow government to play its proper role of fulfilling its public mandate, delivering necessary services and ensuring the quality and sustainability of development impacts. The challenges of poverty reduction in the developing world are so great that no one sector can address them on its own. Partnerships between business, government and civil society are a means of addressing this most fundamental of truths. It is hoped that this book will provide a road map for all those working towards making the elimination of poverty a reality.

Here at last is a resource that will open up access and reveal all-new ways to forge more culturally inclusive partnerships with families and communities.
