Create wealth and become financially independent through Profitable Investments Virtually everyone would like to generate wealth, yet very few know how to start doing so. Financial freedom is a concept that has been talked about a lot lately. It is clear that most people want to be financially free, although there is no unanimity when it comes to

addressing this issue. I'll explain myself. On the one hand, there are persons who think that being financially free is a myth, a legend, and unattainable, that is, something that would be fine but who doubt that it can be achieved. On the other hand, there are others that claim to have the keys and secrets to achieve it, but when you listen to them, all they offer are obvious things like saving more or not spending on what is not strictly necessary. Finally, there are people who have abandoned their jobs for someone else and have become self-employed, believing that this is the way that will free them from economic problems, which obviously does not have to be the case. What do I think? My position is that financial freedom is a perfectly achievable state and to achieve it, you have to devise and implement a specific strategy that will help you achieve it. I don't think it's a myth, nor do I think it can be achieved by just saving more or by self-employment. It is a reality that you can incorporate into your life if you put yourself to it with the necessary knowledge and teachings. For me, financial freedom is the state in which you live away from worries about money, since you have reached the state in which you have transcended them. Why?

Because your level of income is higher than your level of expenses and in this way, you have enough means to live a satisfactory, full and abundant life from an economic point of view. Not only that; ideally, it would be the state in which you can live without what most people would call work, that is, without having to go to a certain place to do some things in exchange for a certain amount of money. And this is because the income you receive, thanks to the system you have established and which you will discover in this book, allows it without major problems. And is that possible? Of course, yes, as you will discover in this book. The strategy to achieve this status is to create a diversified system of passive income that operating in automatic or quasi-automatic mode, provides you

with recurring and constant income without the need to be physically present. The key is in the concept of passive income, which Larry K. Halford shared in this guide. Larry K. Halford, an expert in investment will show you simple ways to invest your money to create passive income that once your initial investment has been created, the income is received constantly and periodically without the need to do anything else. You invest your time (or your money) only once and you begin to receive the income for life (or almost). You can start a passion-based business and bring it to the point where you're earning more money for less direct effort on your part. That is the essence of passive income: structuring your business so that you can leverage your time into higher earnings for fewer hours of direct involvement. There are so many websites, seminars, and e-books available on the topic that the information can be overwhelming. Some say you'll be working 60 hours a week because passive income isn't so passive, others claim that you'll become lazy once your new six-figure income starts rolling in -within the next year to boot! My favorites are the ones that manage to simultaneously claim you'll be working sixty hours a week while also becoming lazy. And, no matter what, the key to all of these programs seems to be happy thoughts, whether they're mixed with hard work or cocktails on the beach. I can assure you, the methods in this book are not going to include promises that money will come floating to you from the sky atop a pink unicorn whose magic is powered by your positive thinking. The unicorn will be purple, obviously. No, unfortunately, the myth about passive income is not true. The Lottery remains the only way to become wealthy by doing nothing. You can take that bet if you want to, but wouldn't you rather bet on yourself instead? Myths are usually based in reality, and the reality is that you can become wealthy by doing something you love. You can't guarantee the lottery, but you can count on yourself. You can create a passion-based business and bring it to the point where you're earning more money for less direct effort on your part. That is the essence of passive income: structuring your business so that you can leverage your time into higher earnings for fewer hours of direct involvement. Before you can do this, however, you have to understand the facts about passive income, among other things. You see, there are all

sorts of ways you can create a business in which you're doing fulfilling work while building a good income. However, your income won't be passive unless you are taking a passive role in the business. Depending on what you want to do, it may be a while before you can or want to take a passive role. Even then, the passive role isn't as passive as it sounds.

misconception on the subject is that you can set up a passive income today and start making money on autopilot tomorrow. That rarely happens. Most passive income streams, especially those whose nature concentrates on the online space, require that you put in the work now so that later, you may stop working full time. That does not mean you will not work at all; you will. All worthwhile passive income streams require some form of maintenance. With that said, it's easy to understand why many people believe that a passive income means no work at all: because well set up passive income streams can require as little as a few hours of maintenance work per week or month to continue generating revenue. Take the example of a well set up blog. If you put in the time now into creating great, search engine friendly, evergreen content-say about 100-200 pieces of genuinely good and valuable content which would take a year or more-in a year or two, you can stop actively working on the website or blog every day. You can monetize the traffic coming to the website through various strategies such as affiliate marketing and advertising so that you can generate an income even as you post once or twice per week-some blogs continue to earn a passive income each month even without any maintenance work. As you can see from the above, setting up an online passive income does not mean not working; it simply means putting in the work upfront so that

The Passive Income Myth explains why so many people fail to make the money they expect when they follow the instructions given in other books about earning a passive income. He speaks from personal experience and tells it how it is with no sugar coating. He shows the readers how to use what the others tell them in a more realistic way. The breakthrough in Caleb's system is the idea of multi-threading. This concept is fully explained in the book with plenty of examples to ensure the reader fully understands everything. Caleb explains things in a casual chatty manner. It is as if you are sitting over a cup of coffee with him while he explains the concept to you.
