You're About To Discover The #1 Secret To Generate Passive Income Streams With This Step-By-Step Tutorial And Proven Business Models, Ideas A passive income is any income you earn without actively engaging in work-related activities. However, a passive income is still work. A major misconception on the subject is that you can set up a passive

income today and start making money on autopilot tomorrow. That rarely happens. Most passive income streams, especially those whose nature concentrates on the online space, require that you put in the work now so that later, you may stop working full time. That does not mean you will not work at all; you will. All worthwhile passive income streams require some form of maintenance. With that said, it's easy to understand why many people believe that a passive income means no work at all: because well set up passive income streams can require as little as a few hours of maintenance work per week or month to continue generating revenue. Take the example of a well set up blog. If you put in the time now into creating great, search engine friendly, evergreen content-say about 100-200 pieces of genuinely good and valuable content which would take a year of more-in a year or two, you can stop actively working on the website or blog every day. You can monetize the traffic coming to the website through various strategies such as affiliate marketing and advertising so that you can generate an income even as you post once or twice per week-some blogs continue to earn a passive income each month even without any maintenance work. As you can see from the above, setting up an online passive income does not mean not working; it simply means putting in the work upfront so that later, you can work less and still generate an income. This passive income definition is the one we shall use as we work through the steps in this guide. This guide shall discuss, in a systematic manner, proven business models and ideas that when well implemented, shall help you create multiple streams of online passive income. Let's begin. Here's Just A Small Preview Of What You'll Learn... The concept of making money when you sleep has drawn a crowd to the pursuit of passive income. Theoretically, you put in some time and money in the start, then relax and let the money pour in when you focus on other things. This appears

like a dream become a reality, but it's mostly only a dream. In today's workforce, relying on one income source is risky. Job protection is rarely guaranteed, and a little extra cash is useful always. By using your primary income source to cover basic expenses, you may use extra income streams to pay off debts, reduce your economic burden, or avoid going further into debt when you are able to pay for larger purchases up front rather than with a credit card or loan. Conversely, passive income is cash that continues to pay out following the initial work is done. Traditionally, income that were considered "passive" generally included money earned from investments in shares or profit acquired by a person who had invested in accommodations property but wasn't involved in the management or day-to-day functions of that property. This book covers: Passive Income Dropshipping Affiliate Marketing Blogging Dividend Stocks Merch By Amazon Programs Amazon Fba Ebook Online Courses Freelancing As A Virtual Assistant.....AND MORE!!! These are great ways to make passive income still, although they require a substantial investment right from the start. With the rise of the internet, the potential to develop passive income is around every corner if you know where to look, and you will get started with much smaller investments. Although you absolutely can drastically reduce the amount of time you may spend working throughout the full week, a passive income stream won't be quite passive fully. In order to ensure you possess a well-curved understanding of all aspects of your business, it is suggested to be as included as you can be in the start. You can then outsource whatever you don't want to do or that you aren't well-suited for to experts, or automate with software. Among the great perks of working online is that you can have got multiple businesses creating income for you without the trouble of owning or renting different buildings, hiring managers, personnel, maintenance, etc.; or trying to

find and attract a person base in your area. Your online businesses could be available to anyone across the globe twenty-four hours a time, 3 hundred sixty-five days a full year. With outsourcing and automation, these tools can grow your client base and make you money any moment of day or night with minimal involvement on your own part. It's never too late to begin with building passive income, and you don't need to be a trained businessperson to begin with building your own business online. If you are ready to put in your time and effort to learn and improve as you move, you can build an effective business and passive income stream in addition to anyone. Instant Wall Street Journal Bestseller! You don't need to be Ivy League educated, have money, be creative, or even have an idea to get rich. You just need to be willing to break the rules. At nineteen, I founded a software company with \$119 in my bank account. Five years later, it was valued at \$10.5 million. I don't consider myself exceptionally brilliant. I just realized something few people know: You don't need lots of money or an original idea to get really rich. Now, I make more than \$100,000 in passive income every month, while also running my own private equity firm and hosting The Top Entrepreneurs podcast, which has more than 10 million downloads. This book will show you how I went from college dropout to member of the New Rich. And I'm holding nothing back. You'll see my tax returns, my profit and loss statements, my email negotiations when buying and selling companies. It's time to forget your grandfather's advice. I'll teach you how to be a modern opportunist--investor, entrepreneur, or side hustler--by breaking these four golden rules of the old guard: 1.Focus on one skill: Wrong. Don't cultivate one great skill to get ahead. In today's business world, success goes to the multitaskers. 2.Be unique: Wrong. The way to get rich is not by launching a new idea but by aggressively copying others and then adding your own twist. 3.Focus on one goal: Wrong. Focus instead on creating a system to produce the outcome you want, not just once, but over and over again. 4.Appeal to the masses: Wrong. The

masses are broke (\$4k average net worth in America?). Let others cut a trail through the jungle so you can peacefully walk in and capitalize on their hard work. By rejecting these defunct rules and following my unconventional path, you can copy other people's ideas shamelessly, bootstrap a start-up with almost no funding, invest in small local businesses for huge payoffs, and reap all the benefits.
