I will teach you what sort of virtues should surround your prayer, or what sort of prayerful, virtuous life a Christian should plant in himself, not in my own words, but in the words of the holy hierarch Dimitri of Rostov, who briefly lists these things in the following instructions (from Christian Spiritual Instruction, part 1, p. 288):1. When you wake up, let your first thought be about God, your first word be a prayer to God your creator and keeper of your life, Who is always able to give life or destroy it, who can strike with illness and heal, and who can save or destroy.2. Bow and give thanks to God Who raised you from sleep, and Who did not allow you to perish in your sins, but with long-suffering awaited your repentance.3. Make a start for better things, saying with the Psalmist: And I said, This is my infirmity (Ps.77:10) For no one completes the path to heaven except he who makes a good beginning everyday. ...5. Do not waste time any longer. Do only those things which are necessary. ...7. Awaken yourself to the love of God in all things, whenever you are able, especially say to yourself with the Psalmist: while I was musing the fire burned (Ps.39:3). ...15. You must pray about your death, which is the end of all things. See what sort of wonderful life is taught to the praying Christian. ... Let everyone strive in knowledge: standing in prayer and exercising is according to your instruction. How can you stand to pray if you are weighed down with intemperance, or carried away with anger, or if you do not stand in peace, or you are distracted by work and lack of attention and so on?

As we navigate in our walk of salvation, we are instructed by the word to work our salvation with fear and trembling. Some of us have been born again for years and we do not know how far are we from the place of salvation. Jesus redeemed us to be reconciled to the Father. Salvation is the fulfilment of reconciliation. This book is a compass and a map in this path. It will show you where you are and how to advance toward the mark of salvation. Enter into a journey to discover your current location and point you to your destiny by: >Deciding to move from being one of the people of God to being the child of God and ultimately being the son of God.>Discovering hoe faith can carry and deliver you to the gate of the Father's house.>Understanding the work of faith and how you will always work as a child of God until you enter the rest as a son of God.>How to enter the rest as a son of God and cease from doing work just like the Father.>Experiencing the Sabbath rest and rule from the throne of Jesus. This book will help you to escape the religious

rat trap of church attendance without spiritual growth, not knowing how further have you gone away from the world. The Gospel of Mark portrays Jesus making impossible demands on his disciples. They must follow him even if it costs them their lives. And, unsurprisingly, this proves to be impossible for them to do. They fail drastically in Mark's narrative and run from the scene as Jesus is arrested. Peter had been determined to stay by him unto death, but even he was not able to admit to knowing Jesus at that crucial moment. The strange thing is that Jesus made it clear that it is impossible to enter the Kingdom of God without this sort of radical discipleship. In this narrative study of salvation in the Gospel of Mark, this conundrum is studied closely with surprising results. An investigation of various socio-historical aspects of Mark's background elucidate the connection that Mark makes between the death of Jesus and the following of the disciples. And a study of Mark's narrative as a whole shows that Mark provides hope for those without courage to follow. If they continue to look and listen carefully, the mystery will be unveiled to them.

"In this course of sermons it is the object of the preacher to set forth the path or the way of life, to trace as it were the successive stages by which man draws near to God."--Page 1.

We are saved by faith when we trust that Jesus died for our sins. This is the gospel, or so we are taught. But what is faith? And does this accurately summarize the gospel? Because faith is frequently misunderstood and the climax of the gospel misidentified, the gospel's full power remains untapped. While offering a fresh proposal for what faith means within a biblical theology of salvation, Matthew Bates presses the church toward a new precision: we are saved solely by allegiance to Jesus the king. Instead of faith alone, Christians must speak about salvation by allegiance alone. The book includes discussion questions for students, pastors, and church groups and a foreword by Scot McKnight.

A reinterpretation of Romans through poetry.

"Choose for yourselves this day whom you will serve..." – Joshua 24:15 (NIV) It is almost unfathomable to believe that just nine years ago Neen was in prison—a place as familiar to her as the streets she lived on. In just 15 years, she had been arrested 83 times with 66 convictions. Neen had—and lost—four children, she was a crack addict, a prostitute, and desperately lost. But as long as she had breath, she would still have hope. One day, after 32 years hustling on the streets of Annapolis, Neen's crumb of hope turned into a seed of trust. "Then I will make up to you for the years that the swarming locust has eaten..." – Joel 2:25 (NASV) Healing Neen isn't just another story about victims and survivors or recovery and redemption; ultimately, it is a story of Good News and a testament to God's grace and presence. It is the story of a woman's path to salvation and a propitious glimpse into the potential buried deep within some of society's most vulnerable people. "See that you do not despise one of these little ones. For I tell you that in heaven, their angels always see the face of my Father, who is in heaven." – Matthew 18:10 (ESV) But this story isn't just about Neen; it's about the

value of human life, the depth of suffering, and the heights of grace. It is a convincing *cri de Coeur* for better practices in the way we treat and counsel those caught in the cycles of trauma, addiction, and serial incarceration. Neen brings us face-to-face with the ubiquitous corruption, neglect, and abuse in some of the systems meant to safeguard at-risk women and children, yet she leaves us with hope that things can change for the better. Today, Tonier Cain's calling is to help save thousands of other "Neens" across the nation. She is a leading advocate for trauma-informed care in prisons and mental health facilities. She is a champion for examining and improving the way we help one another toward redemption, and she is the voice of compassion and promise for so many still living on the fringe who need to hear, "where there's breath, there's hope."

In the wake of 9/11, policy analysts, journalists, and academics have tried to make sense of the rise of militant Islam, particularly its role as a motivating and legitimating force for violence against the United States. The general perception is that Islam is more violence-prone than other religions and that scripture and beliefs within the faith, such as the doctrines of jihad and martyrdom, demonstrate the inherently violent nature of Islam. Here, however, Heather Selma Gregg draws comparisons across religious traditions to investigate common causes of religious violence. The author sets side-by-side examples of current and historic Islamic violence with similar acts by Christian, Jewish, Buddhist, and Hindu adherents. Based on her findings, Gregg challenges the assumption that religious violence stems from a faith's scriptures. Instead, Gregg argues that religious violence is the result of interpretations of a religion's beliefs and scriptures. Interpretations calling for violence in the name of a faith are the product of individuals, but it is important to understand the conditions under which these violent interpretations of a religion occur. These conditions must be considered by identifying who is interpreting the religion and by what authority; the social, political, and economic circumstances surrounding these violent interpretations; and the believability of these interpretations by members of religious communities.

"The Way of the Cross Leads Home" by Mary McDonald is a powerful affirmation of our faith: that the path to everlasting life is found in Christ's journey to the cross. The music reflects Mary's deep roots in Christian hymnody and her belief that "hymns constitute our Christian heritage and provide a rich reservoir of spiritual guidance. It is through the singing of these great songs that we restate the purpose of our belief and the hope of our existence. The spiritual nourishment of these well-known texts supplies us with the reassurance that the Bible is true and God is real." The inspired combination of traditional hymn tunes and Mary's original melodies creates a seamless flow as the words of the hymns partner with the narrative to tell the story. Along the way, both performer and listener will pause to reflect upon and experience those events of 2,000 years ago--and to be reminded that, throughout this journey of faith, we have a Savior who will lead us to our eternal home.

The path to salvation, is the road less trodden. The path least explored, and perhaps the toughest journeys it is possible to undertake. If the mountain was smooth, you could not climb it. If the pathway was clear, you would not need to seek it. If all it takes, is to pay someone to promise you hope, then read to the end and I will explain just how you too can make it to salvation and the kingdom of the glory, for only a small monthly fee. That nonsense now aside, the contention of this work is that Christianity and what the modern churches practice are not one and the same thing. In fact, what people who call themselves Christians practice, is nothing of the sort. And I will prove it here within. Catholicism, and the many variants proliferating around the world claiming to be Christian based are no such thing, they are Pauline based dogmas, and the doctrines of the Pauline mission to pervert and control the message of the Christ. What the Christ, actually said is almost non-existent in the Bible, Christ plays a small, bordering on insignificant role in the missives of the bible. God gets very little mention. In fact, neither God or Jesus gets a book in the bible, Paul on the other hand gets 16, and the apostles of Mark, Luke John, and Mathew where all adepts of Paul and not of Jesus and these books were written almost 2 centuries after the time of the Christ. So, all in all there is much that many think they know about the bible, and they are the many that have not read or studied the book, and then there is much that the few claim to know, based on their study of the bible, ignoring history, fact, truth, or the bleeding obvious, and preferring Dogmatic adherences to the Paulinism. There is much knowledge contained herein, but what it is, is a jump off point to your own study of your own faith and beliefs. It is not an academic work, to prove something to you or anyone else. You have one life to live, live it well. Live for today, for tomorrow may never come, and you cannot influence yesterday anyway.

So strongly associated is the Salvation Army with its modern mission of service that its colorful history as a religious movement is often overlooked. In telling the story of the organization in America, Lillian Taiz traces its evolution from a working-class, evangelical religion to a movement that emphasized service as the path to salvation. When the Salvation Army crossed the Atlantic from Britain in 1879, it immediately began to adapt its religious culture to its new American setting. The group found its constituency among young, working-class men and women who were attracted to its intensely experiential religious culture, which combined a frontier-camp-meeting style with working-class forms of popular culture modeled on the saloon and theater. In the hands of these new recruits, the Salvation Army developed a remarkably democratic internal culture. By the turn of the century, though, as the Army increasingly attempted to attract souls by addressing the physical needs of the masses, the group began to turn away from boisterous religious expression toward a more "refined" religious culture and a more centrally controlled bureaucratic structure. Placing her focus on the membership of the Salvation Army and its transformation as an organization within the broader context of literature on class, labor, and women's history, Taiz sheds new light on the character of American working-class culture and religion in the late nineteenth and early twentieth centuries.

Fake news, fake friends, and false prophets were all Clarence Lett could handle, so he decided to unmask and share the real deal about his journey from the streets to salvation. Women, crime, and getting high 24/7 was his chosen lifestyle; however, being kicked out of the United States Navy and a church he loved to attend led to an awakening of his truth and his faith. A dark life with no hope in sight miraculously led to the birth of The Real Deal Ministry.

Author, Kamran Pirnahad, has strived to tame human's ignorance, and mend the lack of unity of hearts and souls. It has been the author's sincere intentions to establish a lasting loving relationship between God and humanity. Ultimately, as this relationship will mature with time, and as humanity grows with the love of God, it is going to become crucial to learn how to make peace with God, as well. Now there is hope that humanity can embrace salvation, and once more become one and united with God, at the end of the long journey of faith on Earth. Kamran Pirnahad's purpose of authorship throughout his entire career of writing has been to show how humanity can reach the gates of salvation and peace, without being devoured by the complexities of fallible and inadequate systems of thought. It has been the author's goal to open a new path for mankind to serve the Truth and the Truce, and promote faith and humanity in an inspirational and profound way. The author has diligently sought with grace and out of humbleness, to reconcile and reckon with all other systems of beliefs, and to reveal God's ultimate plan for humanity to enter His Abode of Peace and Serenity.

The United States has a long history of religious pluralism, and yet Americans have often thought that people's faith determines their eternal destinies. The result is that Americans switch religions more often than any other nation. Lincoln Mullen traces the history of the distinctively American idea that religion is a matter of individual choice.

This booklet offers a simple plan of salvation for the person who has not yet accepted Jesus Christ into their life. It is intended as a short workbook for individuals and then a discussion guide with a Christian friend.

Chronology The total number of times the word seven appears in the Bible is 446 times. The word seven appears 355 times in the Old Testament and ninety-one times in the New Testament. If we assume that man's time on Earth is seven thousand years, and one thousand of those years under the rule of Yashua Messiah, than that would leave six thousand years from Adam to when man's rule on Earth ends. Can we, through chronology, determine how many years we have left before man's rule on Earth comes to an end? The following are some of the questions answered that have an impact on the chronology. How important was the date of Abraham's birth? How important was date of Isaac's birth? Did the four-hundred-year prophecy of affliction that Yahweh made with Abraham effect chronology? Did the Israelites spend all of the 430 sojourning years in the land of Egypt? What King was the key to determining dates from Adam to dates when Kings of house of Judah and Kings of the house of Israel reigned? What was the relationship of the Kings of the house of Judah to the Kings of the house of Israel? What was the relationship of the Kings of the house of Israel to the Kings of the house of Judah? When and how was the relationship of AM (from Adam) to BC (birth of Messiah) established? **Path to Salvation--Through the Holy Days** The second half of the book looks at, how the Holy Days foreshadowed new meaning, and provided a path to salvation through the sacrifice and resurrection of Yahshua Messiah. No one is guaranteed salvation. MATTHEW 24:24 "For there shall arise false Messiahs, and false prophets, and shall shew great signs and wonders; insomuch that, if it were possible, they shall deceive the very elect." The apostle Paul felt that even he was not guaranteed salvation. 1 CORINTHIANS 9:27 "But I keep under my body, and bring it into subjection: lest that by any means, when I have preached to others, I myself should be a castaway." The answer to the following questions helps us to find the Path to Salvation--through the Holy Days. How important are the real names of our Father in heaven and his son? How important is it to keep Yahweh's laws, ways, and Sabbaths? How did the two most important events in the history of humankind change the meaning of the Holy Days? Was there a path established to salvation by these Holy Days? What are the requirements to have a chance at salvation? Which Holy Days celebration is a reward for being obedient? Are man's holidays and traditions acceptable to Yahweh? These questions plus the meaning of many of the spiritual words such as grace faith, justification, and sanctification are disclosed in the book. Is the question of what is truth answered? 2 CORINTHIANS 2:15 "Wherefore, my beloved, as ye have always obeyed, not as in my presence only, but now much more in my absence, work out your own salvation with fear and trembling."

Today, many churches teach that once a person believes and trusts in Jesus Christ, their Salvation is assured. They can know with certainty that they will go to heaven.no matter what. The churches further teach that the individual has no part to play in their salvation. God does it all. These teachings are not Biblical. The Bible teaches that no person can know their ultimate destiny. The best one can do is to live a life of demonstrated faith and hope they will make it to heaven. Indeed, a person does have a part to play in their destiny, and by their choices they can stay on the pathway that leads to salvation or they can depart from it. This book

clarifies the Biblical path to Salvation, articulates a Biblical argument that refutes the 'assurance of salvation' doctrine and reveals the spiritual dangers that are produced by this teaching. Harding Hedgpeth is a professional test pilot and the holder of 9 aviation world records set in the B-1 Bomber. He has no formal theological training. He does not belong to any formal church. As he characterizes himself, he is a disciple of Jesus Christ, cleverly disguised as a test pilot. Harding was raised as a Presbyterian, married a Catholic and didn't realize that the Bible was God's truth until 1987 when he was 40 years old. He has immersed himself in the study of God's Word ever since. The study of God's Word led him to realize that today's churches are leading their parishioners astray in some important areas. One of those areas is the doctrine of 'the assurance of salvation.' Accordingly, Harding felt a strong compulsion to write this book. Though a relatively short book, it has taken four years to research and one year to write.

Among the constructed religions that impose their gods and dictates as if they were bulwarks of light and good, Satanism has always occupied the other side of the coin; pure evil, darkness, serving the devil. This is not the case at all and in this book you will discover (if you have not already done so) how Christianity, the arch enemy of Satanism, has thrown mud on the name of Satan and on the path of enlightenment for centuries and, with little cunning, who professes himself Satanist has no idea what it means and only gives luster to one of the most harmful religions to man that have ever been conceived. You will understand what true Satanism is and why its path, that of truth, is worth following.
