

The Peoples Friend 2018 Annual Annuals 2018

THE NEW YORK TIMES BESTSELLER “My favorite kind of whodunit, kept me guessing all the way through, and reminiscent of Agatha Christie at her best -- with an extra dose of acid.” -- Alex Michaelides, author of the #1 New York Times bestseller *The Silent Patient* Everyone's invited...everyone's a suspect... During the languid days of the Christmas break, a group of thirtysomething friends from Oxford meet to welcome in the New Year together, a tradition they began as students ten years ago. For this vacation, they've chosen an idyllic and isolated estate in the Scottish Highlands—the perfect place to get away and unwind by themselves. The trip begins innocently enough: admiring the stunning if foreboding scenery, champagne in front of a crackling fire, and reminiscences about the past. But after a decade, the weight of secret resentments has grown too heavy for the group's tenuous nostalgia to bear. Amid the boisterous revelry of New Year's Eve, the cord holding them together snaps, just as a historic blizzard seals the lodge off from the outside world. Two days later, on New Year's Day, one of them is dead. . . and another of them did it. Keep your friends close, the old adage says. But how close is too close? **DON'T BE LEFT OUT. JOIN THE PARTY NOW.**

A Manifesto for Mental Health presents a radically new and distinctive outlook that critically examines the dominant 'disease-model' of mental health care. Incorporating the latest findings from both biological neuroscience and research into the social determinants of psychological problems, Peter Kinderman offers a contemporary, biopsychosocial, alternative. He warns that the way we care for people with mental health problems is creating a hidden human rights emergency and he proposes a new vision for the future of health organisations across the globe. The book highlights persuasive evidence that our mental health and wellbeing depend largely on the society in which we live, on the things happen to us, and on how we learn to make sense of and respond to those events.

Kinderman proposes a rejection of invalid diagnostic labels, practical help rather than medication, and a recognition that distress is usually an understandable human response to life's challenges. Offering a serious critique of establishment thinking, A Manifesto for Mental Health provides a well-crafted demonstration of how, with scientific rigour and empathy, a revolution in mental health care is not only highly desirable, it is also entirely achievable.

A Wrinkle in Time is the winner of the 1963 Newbery Medal. It was a dark and stormy night—Meg Murry, her small brother Charles Wallace, and her mother had come down to the kitchen for a midnight snack when they were upset by the

arrival of a most disturbing stranger. "Wild nights are my glory," the unearthly stranger told them. "I just got caught in a downdraft and blown off course. Let me sit down for a moment, and then I'll be on my way. Speaking of ways, by the way, there is such a thing as a tesseract." A tesseract (in case the reader doesn't know) is a wrinkle in time. To tell more would rob the reader of the enjoyment of Miss L'Engle's unusual book. *A Wrinkle in Time*, winner of the Newbery Medal in 1963, is the story of the adventures in space and time of Meg, Charles Wallace, and Calvin O'Keefe (athlete, student, and one of the most popular boys in high school). They are in search of Meg's father, a scientist who disappeared while engaged in secret work for the government on the tesseract problem.

Maybe it's the end of the world, but not for Candace Chen, a millennial, first-generation American and office drone meandering her way into adulthood in Ling Ma's offbeat, wryly funny, apocalyptic satire, *Severance*. "A stunning, audacious book with a fresh take on both office politics and what the apocalypse might bring." —Michael Schaub, NPR.org "A satirical spin on the end times-- kind of like *The Office* meets *The Leftovers*." --Estelle Tang, Elle

With the recent passing of her Chinese immigrant parents, she's had her fill of uncertainty. She's content just to carry on: She goes to work, troubleshoots the teen-targeted Gemstone Bible, watches movies in a Greenpoint basement with her boyfriend. So Candace barely notices when a plague of biblical proportions sweeps New York. Then Shen Fever spreads. Families flee. Companies cease operations. The subways screech to a halt. Her bosses enlist her as part of a dwindling skeleton crew with a big end-date payoff. Soon entirely alone, still unfevered, she photographs the eerie, abandoned city as the anonymous blogger NY Ghost. Candace won't be able to make it on her own forever, though. Enter a group of survivors, led by the power-hungry IT tech Bob. They're traveling to a place called the Facility, where, Bob promises, they will have everything they need to

start society anew. But Candace is carrying a secret she knows Bob will exploit. Should she escape from her rescuers? A send-up and takedown of the rituals, routines, and missed opportunities of contemporary life, Ling Ma's *Severance* is a moving family story, a quirky coming-of-adulthood tale, and a hilarious, deadpan satire. Most important, it's a heartfelt tribute to the connections that drive us to do more than survive.

The federal government wastes your tax dollars worse than a drunken sailor on shore leave. The 1984 Grace Commission uncovered that the Department of Defense spent \$640 for a toilet seat and \$436 for a hammer. Twenty years later things weren't much better. In 2004, Congress spent a record-breaking \$22.9 billion dollars of your money on 10,656 of their pork-barrel projects. The war on terror has a lot to do with the record \$413 billion in deficit spending, but it's also the result of pork over the last 18 years the likes of: - \$50 million for an indoor rain forest in Iowa - \$102 million to study screwworms which were long ago eradicated from American soil - \$273,000 to combat goth culture in Missouri - \$2.2 million to renovate the North Pole (Lucky for Santa!) - \$50,000 for a tattoo removal program in California - \$1 million for ornamental fish research Funny in some instances and jaw-droppingly stupid and wasteful in others, *The Pig Book* proves one thing about Capitol Hill: pork is king!

The definitive, lavishly illustrated history of the Green Bay Packers, commemorating the team's 100-year anniversary Not only are the Packers the only fan-owned team in any of North America's major pro sports leagues, but Green Bay -- population 104,057 -- is also the smallest city with a big-time franchise. The Packers are, in other words, unlikely candidates to be pro football's preeminent team. And yet nobody in the NFL has won more championships. The story of Tittletown, USA, is the greatest story in sports. Through extensive archival research and unmatched insider access to players and team officials, past and present, Mark Beech tells the first complete rags-to-riches history of the Green Bay Packers, a full chronicle of the most illustrious team in NFL history. The People's Team paints compelling pictures of a franchise, a town, and a fan base. No other team in pro sports is so bound to the place that gave birth to it. Here is the story of the Packers and of Green Bay -- from the days of the French fur traders who settled on the shores of La Baie in the seventeenth century, to the team's pursuit of its fourteenth NFL championship. Featuring essays by Peter King, Chuck Mercein, Austin Murphy, and David S. Neft, The People's Team is a must-have for fans, old and new, and the definitive illustrated history of the most important team in the NFL. Scripture is the foundation for all of Christian life and ministry, but in our current

age it is being challenged, doubted, and, in many cases, simply ignored. Wayne Grudem, one of evangelicalism's best-known theologians and authors, has worked tirelessly throughout his life to demonstrate the necessity, sufficiency, and centrality of Scripture. In his honor, Grudem's friends and colleagues, including John Piper, Thomas R. Schreiner, Sam Storms, Vern S. Poythress, John M. Frame, Gregg R. Allison, Erik Thoennes, and John DelHousaye, have compiled a series of essays on various topics central to Grudem's life and teaching. Exploring topics such as the nature of Scripture, the relationship between Scripture and doctrine, and the role of Scripture in life and ministry, this volume stands as a testimony to the enduring worth of God's Word.

A fireman in charge of burning books meets a revolutionary school teacher who dares to read. Depicts a future world in which all printed reading material is burned.

The inspiration for Chloé Zhao's 2020 Golden Lion award-winning film starring Frances McDormand. "People who thought the 2008 financial collapse was over a long time ago need to meet the people Jessica Bruder got to know in this scorching, beautifully written, vivid, disturbing (and occasionally wryly funny) book." —Rebecca Solnit From the beet fields of North Dakota to the campgrounds of California to Amazon's CamperForce program in Texas, employers have

discovered a new, low-cost labor pool, made up largely of transient older adults. These invisible casualties of the Great Recession have taken to the road by the tens of thousands in RVs and modified vans, forming a growing community of nomads. *Nomadland* tells a revelatory tale of the dark underbelly of the American economy—one which foreshadows the precarious future that may await many more of us. At the same time, it celebrates the exceptional resilience and creativity of these Americans who have given up ordinary rootedness to survive, but have not given up hope.

Do judges use the power of the state for the good of the nation? Or do they create new laws in line with their personal views? When newspapers reported a court ruling on Brexit, senior judges were shocked to see themselves condemned as enemies of the people. But, faced with problems ranging from religious discrimination to end-of-life decisions, the judges cannot avoid hard choices. In this fascinating book, Britain's best-known commentator on the law Joshua Rozenberg, asks how the judges can maintain public confidence while balancing conflicting interests.

Policing the Open Road examines how the rise of the car, that symbol of American personal freedom, inadvertently led to ever more intrusive policing--with disastrous consequences for racial equality in our criminal justice

system. When Americans think of freedom, they often picture the open road. Yet nowhere are we more likely to encounter the long arm of the law than in our cars. Sarah Seo reveals how the rise of the automobile transformed American freedom in radical ways, leading us to accept--and expect--pervasive police power. As Policing the Open Road makes clear, this expectation has had far-reaching political and legal consequences.--

It takes a graveyard to raise a child. Nobody Owens, known as Bod, is a normal boy. He would be completely normal if he didn't live in a graveyard, being raised by ghosts, with a guardian who belongs to neither the world of the living nor the dead. But if Bod leaves the graveyard, he will be in danger from the man Jack—who has already killed Bod's family.

Today fans still remember and love the British girls' comic *Misty* for its bold visuals and narrative complexities. Yet its unique history has drawn little critical attention. Bridging this scholarly gap, Julia Round presents a comprehensive cultural history and detailed discussion of the comic, preserving both the inception and development of this important publication as well as its stories. *Misty* ran for 101 issues as a stand-alone publication between 1978 and 1980 and then four more years as part of *Tammy*. It was a hugely successful anthology comic containing one-shot and serialized stories of supernatural horror and fantasy aimed at girls and young women and featuring work by writers and artists who dominated British comics such as Pat Mills, Malcolm Shaw, and John Armstrong, as well as celebrated European artists. To this day, *Misty* remains notable for its daring and sophisticated stories, strong female characters, innovative page layouts, and big visuals. In the first book on this topic, Round closely analyzes *Misty*'s content, including its creation and production, its cultural and historical context, key influences, and the comic itself. Largely based on Round's own archival research, the study also draws on interviews with many of the key creators involved in this comic, including Pat Mills, Wilf Prigmore, and its art editorial team Jack Cunningham and Ted Andrews, who have never previously spoken about their work. Richly illustrated with previously unpublished photos, scripts, and letters, this book uses *Misty* as a lens to

explore the use of Gothic themes and symbols in girls' comics and other media. It surveys existing work on childhood and Gothic and offers a working definition of Gothic for Girls, a subgenre which challenges and instructs readers in a number of ways.

Drug overdose, driven largely by overdose related to the use of opioids, is now the leading cause of unintentional injury death in the United States. The ongoing opioid

crisis lies at the intersection of two public health challenges: reducing the burden of suffering from pain and containing the rising toll of the harms that can arise from the use of opioid medications. Chronic pain and opioid use disorder both represent complex human conditions affecting millions of Americans and causing untold disability and loss of function. In the context of the growing opioid problem, the U.S. Food and Drug Administration (FDA) launched an Opioids Action Plan in early 2016. As part of this plan, the FDA asked the National Academies of Sciences, Engineering, and Medicine to convene a committee to update the state of the science on pain research, care, and education and to identify actions the FDA and others can take to respond to the opioid epidemic, with a particular focus on informing FDA's development of a formal method for incorporating individual and societal considerations into its risk-benefit framework for opioid approval and monitoring.

This book presents the latest research into CSS methods, uses, and results, as presented at the 2019 annual conference of the CSSSA. This conference was held in Santa Fe, New Mexico, October 24 – 27, 2019, at the Drury Plaza Hotel. What follows is a diverse representation of new results and approaches for using the tools of CSS and agent-based modeling (ABM) for exploring complex phenomena across many different domains. Readers will therefore not only have the results of these specific projects on which to build, but will also gain a greater appreciation for the broad scope of CSS, and have a wealth of case-study examples that can serve as meaningful

exemplars for new research projects and activities. The Computational Social Science Society of the Americas (CSSSA) is a professional society that aims to advance the field of CSS in all its areas, from fundamental principles to real-world applications, by holding conferences and workshops, promoting standards of scientific excellence in research and teaching, and publishing novel research findings.

Leading scholars examine China's global strategic plans, from Hong Kong to military power, to economic dominance. Over the past few decades, China has increasingly challenged the global influence of the United States. In *China's Grand Strategy*, David B. H. Denoon brings together a group of eminent scholars to explain China's rapid ascendance on the world stage, as well as its future implications for global politics. Contributors address the military, economic, diplomatic, and internal political factors shaping China's strategy, in addition to highlighting Beijing's objectives in different parts of the world, such as Central Asia, Africa, and the Middle East. Ultimately, they explore the promise and perils of China's rapidly changing political ambitions, showing how the country has made its mark on the twenty-first century. *China's Grand Strategy* provides insight into China's quest to become a global leader, particularly at a time when the future of both China and the US remain uncertain in the context of current crises like the coronavirus pandemic, the ongoing protests in Hong Kong, and escalating tension between top leaders and officials. This book cannot predict the future for China or the US, but the insights offered can help make sense of where we have

been and where we are going.

Are the courts our friend or our foe? This book has three parts: Part I considers the case for judicial independence Part II looks at the question 'Is judicial independence under threat?' Part III reflects on whether judicial independence be defended and protected. Prompted by the constitutional crisis following the referendum of 2016, the Foundation for Law Justice and Society convened the second Putney Debates. Now convened on an annual basis, they provide a forum each year for the discussion of matters of constitutional importance. The original Putney Debates were held in St Mary's Church, Putney in 1647. The Civil War had been won, the King was held prisoner, the New Model Army was in control. In late October of that year, the weekly meeting of the High Council of the New Model Army, under the chairmanship of Oliver Cromwell, together with several civilians, turned into a debate about the constitution. This is perhaps the only occasion in modern history that a constitutional convention has been held on the English constitution.

Sixteen-year-old Starr Carter moves between two worlds: the poor neighborhood where she lives and the fancy suburban prep school she attends. The uneasy balance between these worlds is shattered when Starr witnesses the fatal shooting of her childhood best friend Khalil at the hands of a police officer. Khalil was unarmed. Soon afterward, his death is a national headline. Some are calling him a thug, maybe even a drug dealer and a gangbanger.

Protesters are taking to the streets in Khalil's name. Some cops and the local drug lord try to intimidate Starr and her family. What everyone wants to know is: what really went down that night? And the only person alive who can answer that is Starr. But what Starr does—or does not—say could upend her community. It could also endanger her life. Want more of Garden Heights? Catch Maverick and Seven's story in Concrete Rose, Angie Thomas's powerful prequel to The Hate U Give.

In 2011 the World Bank—with funding from the Bill and Melinda Gates Foundation—launched the Global Findex database, the world's most comprehensive data set on how adults save, borrow, make payments, and manage risk. Drawing on survey data collected in collaboration with

Gallup, Inc., the Global Findex database covers more than 140 economies around the world. The initial survey round was followed by a second one in 2014 and by a third in 2017. Compiled using nationally representative surveys of more than 150,000 adults age 15 and above in over 140 economies, The Global Findex Database 2017: Measuring Financial Inclusion and the Fintech Revolution includes updated indicators on access to and use of formal and informal financial services. It has additional data on the use of financial technology (or fintech), including the use of mobile phones and the Internet to conduct financial transactions. The data reveal opportunities to expand access to financial services among people who do not have an account—the unbanked—as well as to promote greater use of digital financial services among those who do have an account. The Global Findex database has become a mainstay of global efforts to promote financial inclusion. In addition to being widely cited by scholars and development practitioners, Global Findex data are used to track progress toward the World Bank goal of Universal Financial Access by 2020 and the United Nations Sustainable Development Goals. The database, the full text of the report, and the underlying country-level data for all figures—along with the questionnaire, the survey methodology, and other relevant materials—are available at www.worldbank.org/globalindex.

Instant New York Times Bestseller “The Guest Book is monumental in a way that few novels dare attempt.” —The Washington Post The thought-provoking new novel by New York Times bestselling author Sarah Blake A lifetime of secrets. A history untold. No. It is a simple word, uttered on a summer porch in 1936. And it will haunt Kitty Milton for the rest of her life. Kitty and her husband, Ogden, are both from families considered the backbone of the country. But this refusal will come to be Kitty’s defining moment, and its consequences will ripple through

the Milton family for generations. For while they summer on their island in Maine, anchored as they are to the way things have always been, the winds of change are beginning to stir. In 1959 New York City, two strangers enter the Miltons' circle. One captures the attention of Kitty's daughter, while the other makes each of them question what the family stands for. This new generation insists the times are changing. And in one night, everything does. So much so that in the present day, the third generation of Miltons doesn't have enough money to keep the island in Maine. Evie Milton's mother has just died, and as Evie digs into her mother's and grandparents' history, what she finds is a story as unsettling as it is inescapable, the story that threatens the foundation of the Milton family myth. Moving through three generations and back and forth in time, *The Guest Book* asks how we remember and what we choose to forget. It shows the untold secrets we inherit and pass on, unknowingly echoing our parents and grandparents. Sarah Blake's triumphant novel tells the story of a family and a country that buries its past in quiet, until the present calls forth a reckoning.

Readers of exciting, challenging and visionary literary fiction—including admirers of Norman Rush's *Mating*, Ann Patchett's *State of Wonder*, Barbara Kingsolver's *The Poisonwood Bible*, and Peter Matthiessen's *At Play in the Fields of the Lord*—will be drawn to this astonishingly gripping and accomplished first novel. A decade in the writing, this is an anthropological adventure story that combines the visceral allure of a thriller with a profound and tragic vision of what happens when cultures collide. It is a book that instantly catapults Hanya Yanagihara into the company of young novelists who really, really matter. In 1950, a young doctor called Norton Perina signs on with the anthropologist Paul Tallent for an expedition to the remote Micronesian island of Ivu'ivu in search of a rumored lost tribe. They succeed, finding not only

that tribe but also a group of forest dwellers they dub "The Dreamers," who turn out to be fantastically long-lived but progressively more senile. Perina suspects the source of their longevity is a hard-to-find turtle; unable to resist the possibility of eternal life, he kills one and smuggles some meat back to the States. He scientifically proves his thesis, earning worldwide fame and the Nobel Prize, but he soon discovers that its miraculous property comes at a terrible price. As things quickly spiral out of his control, his own demons take hold, with devastating personal consequences.

Recent bouts of gentrification and investment in Detroit have led some to call it the greatest turnaround story in American history. Meanwhile, activists point to the city's cuts to public services, water shutoffs, mass foreclosures, and violent police raids. In *A People's History of Detroit*, Mark Jay and Philip Conklin use a class framework to tell a sweeping story of Detroit from 1913 to the present, embedding Motown's history in a global economic context. Attending to the struggle between corporate elites and radical working-class organizations, Jay and Conklin outline the complex sociopolitical dynamics underlying major events in Detroit's past, from the rise of Fordism and the formation of labor unions, to deindustrialization and the city's recent bankruptcy. They demonstrate that Detroit's history is not a tale of two cities—one of wealth and development and another racked by poverty and racial violence; rather it is the story of a single Detroit that operates according to capitalism's mandates.

A #1 NEW YORK TIMES BESTSELLER! Featured in its own episode in the Netflix original show *Bookmarks: Celebrating Black Voices!* National Book Award winner Jacqueline Woodson and two-time Pura Belpré Illustrator Award winner Rafael López have teamed up to create a poignant, yet heartening book about finding courage to connect, even when you feel scared

and alone. There will be times when you walk into a room and no one there is quite like you. There are many reasons to feel different. Maybe it's how you look or talk, or where you're from; maybe it's what you eat, or something just as random. It's not easy to take those first steps into a place where nobody really knows you yet, but somehow you do it. Jacqueline Woodson's lyrical text and Rafael López's dazzling art reminds us that we all feel like outsiders sometimes--and how brave it is that we go forth anyway. And that sometimes, when we reach out and begin to share our stories, others will be happy to meet us halfway. (This book is also available in Spanish, as *El Día En Que Descubres Quién Eres!*)

This charming, irresistible debut novel set in London during World War II about a young woman who longs to be a war correspondent and inadvertently becomes a secret advice columnist is “a jaunty, heartbreaking winner” (People)—for fans of *The Guernsey Literary and Potato Peel Pie Society* and *Lilac Girls*. Emmeline Lake and her best friend Bunty are doing their bit for the war effort and trying to stay cheerful, despite the German planes making their nightly raids. Emmy dreams of becoming a Lady War Correspondent, and when she spots a job advertisement in the newspaper she seizes her chance; but after a rather unfortunate misunderstanding, she finds herself typing letters for the formidable Henrietta Bird, renowned advice columnist of *Woman's Friend* magazine. Mrs. Bird is very clear: letters containing any Unpleasantness must go straight into the bin. But as Emmy reads the desperate pleas from women who many have Gone Too Far with the wrong man, or can't bear to let their children be evacuated, she begins to secretly write back to the readers who have poured out their troubles. “Fans of Jojo Moyes will enjoy AJ Pearce's debut, with its plucky female characters and fresh portrait of women's lives in wartime Britain” (Library Journal)—a love letter to the enduring power of friendship, the kindness of strangers, and the courage of ordinary people in extraordinary times. “Headlined by its winning lead character, who always keeps carrying on, Pearce's novel is a delight” (Publishers Weekly). Irrepressibly funny and enormously moving, *Dear Mrs. Bird* is “funny and poignant...about the strength of women and the importance of friendship” (Star Tribune, Minneapolis).
